## Notes to the Schedule of Expenditures of Federal Awards

### Year Ended June 30, 2023

---

#### 1. Significant Accounting Policies

---

The following is a summary of the significant accounting policies used by the State of Missouri.

**A. Purpose of Schedule and Reporting Entity**

The accompanying Schedule of Expenditures of Federal Awards (Schedule) of the State of Missouri is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and the U.S. Office of Management and Budget (OMB) 2023 Compliance Supplement. The Schedule is not a required part of the State's basic financial statements. The Uniform Guidance requires a schedule that shows total federal awards expended for each federal financial assistance program, the Assistance Listing, and the total amount provided to subrecipients from each federal program. Federal financial assistance programs that have not been assigned an Assistance Listing are identified as Assistance Listing Number XX.Uxx, where XX represents the federal grantor agency and Uxx represents an unknown extension number. Appendix VII of the supplement states that expenditures of federal awards made under the Coronavirus Preparedness and Response Supplemental Appropriations Act, the Families First Coronavirus Response Act, the Coronavirus Aid, Relief and Economic Security Act (CARES Act), the Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA), and the American Rescue Plan Act (ARP) should be identified separately on the schedule with the inclusion of the prefix "COVID-19-" in the name of the federal program.

The Schedule includes all federal awards expended by the State during the year ended June 30, 2023, except for those programs administered by public universities and other component units, which are legally separate from the State and audited by other auditors. They are responsible for engaging other auditors to perform audits in accordance with the Uniform Guidance, if required.

To compile the Schedule, the Office of Administration required each department, agency, and office that expended direct and/or indirect federal funding during the state fiscal year to prepare a schedule of expenditures of federal awards. The schedules for the departments, agencies, and offices were combined to form the Schedule of Expenditures of Federal Awards for the State of Missouri.

**B. Basis of Presentation**

The accompanying Schedule includes the federal award activity of the State of Missouri for the year ended June 30, 2023. The information in this Schedule is presented in accordance with the requirements of the Uniform Guidance, which defines federal awards as federal financial assistance and cost-reimbursement contracts that non-federal entities receive or administer in the form of grants, loans, loan guarantees, non-cash assistance, property (including donated surplus property), cooperative agreements, interest

State of Missouri - Single Audit  
Notes to the Schedule of Expenditures of Federal Awards  
Year Ended June 30, 2023

subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include other contracts that a federal agency uses to buy goods or services from a contractor. Because the Schedule presents only a selected portion of the operations of the State, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the State.

*C. Basis of Accounting*

Most expenditures presented in the Schedule are reported on the cash basis of accounting, while some are presented on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance; wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

*D. Indirect Cost Rate*

For the fiscal year ending June 30, 2023, one agency, the Department of Agriculture, elected to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

## **2. Unemployment Insurance Expenditures**

The Unemployment Insurance program (Assistance Listing No. 17.225) is administered by the Department of Labor and Industrial Relations through a unique federal-state partnership that was founded upon federal law but implemented through state law. Benefits are paid from federal funds and state unemployment taxes that are deposited into the state's account in the Federal Unemployment Trust Fund. The state's administrative expenditures incurred under this program are funded by federal grants. For the purposes of presenting the expenditures of this program in the Schedule, both state and federal funds have been considered federal awards expended. The breakdown of the state and federal portions of the total program expenditures for the fiscal year ended June 30, 2023, is as follows:

State Portion (Benefits Paid)	\$ 179,602,248
Federal Portion (Benefits Paid)	1,478,689
Federal Portion (Administrative Costs)	52,460,152
Federal Portion (Benefits Paid) - CARES Act Related	(7,059,661)
Federal Portion (Administrative Costs) - CARES and Families First Coronavirus Response Act Related	2,782,188
Total Program Expenditures	\$ 229,263,616

---

### **3. Special Supplemental Nutrition Program for Women, Infants and Children (WIC) Rebates**

---

The State received cash rebates from an infant formula manufacturer totaling \$29,334,498 on sales of formula to participants in the WIC program (Assistance Listing No. 10.557) administered by the Department of Health and Senior Services (DHSS). This amount was excluded from total program expenditures. Rebate contracts with infant formula manufacturers are authorized by 7 CFR Section 246.16a as a cost containment measure. Rebates represent a reduction of expenditures previously incurred for WIC food benefit costs. The state was able to extend program benefits to more persons than could have been served this fiscal year in the absence of the rebate contract.

---

### **4. Medical Assistance Program (Medicaid) and Children's Health Insurance Program (CHIP) Prescription Drug Rebates**

---

The state received cash rebates from drug manufacturers totaling \$633,936,562 (federal share) on purchases of covered outpatient drugs for participants in the Medicaid and the CHIP (Assistance Listing Nos. 93.778 and 93.767) administered by the Department of Social Services - MO HealthNet Division. This amount was excluded from total program expenditures. Rebate contracts with drug manufacturers are authorized by 42 USC Section 1396r-8 as a cost containment measure. Rebates represent a reduction of expenditures previously incurred for medical assistance costs.

---

### **5. HIV Care Formula Grants Prescription Drug Rebates**

---

The State received cash rebates from drug manufacturers totaling \$33,977,043 on purchases of covered drugs for participants in the HIV Care Formula Grants program (Assistance Listing No. 93.917) administered by the DHSS. If program expenditures are available, the rebates will offset the program expenditures resulting in a reduction in expenditures incurred by the program. Of the amount of rebates received, \$28,769,706 reduced total program expenditures and these expenditures were not reported on the SEFA. The remaining rebates of \$5,207,337 did not offset program expenditures and were not used to reduce program expenditures. The allowable use of drug rebates is restricted by 42 USC Section 300ff-26(g).

---

### **6. Federal Loan Guarantees**

---

Because of the Healthcare and Education Affordability Reconciliation Act enacted March 30, 2010 (Public Law 111-152), the authority to make or ensure loans under the Federal Family Education Loans program (Assistance Listing No. 84.032) ended June 30, 2010. The original principal outstanding of all loans guaranteed by the DHEWD was \$578,392,690 as of June 30, 2022. The balance of defaulted loans (including principal and accrued

State of Missouri - Single Audit  
Notes to the Schedule of Expenditures of Federal Awards  
Year Ended June 30, 2023

interest) that the federal Department of Education imposes continuing compliance requirements of the DHEWD was \$172,054,733 as of June 30, 2022.

Per Dear Colleague Letter GEN-21-03, guarantors were directed to halt collection of defaulted student loans and set interest rates to 0% through at least September 30, 2021, due to the COVID-19 National Emergency. The change was retroactive to March 13, 2020, requiring refunds of all involuntary payments and accrued interest. The Biden Administration extended the collection pause and 0% interest rate several times, with the final pause ending June 30, 2023.

The Missouri Student Loan Program ended effective September 30, 2022. This was due primarily to the cessation of collections retroactive to March 13, 2020, per Dear Colleague Letter GEN-21-03. Without collections, the Federal Reserve Fund and Operating Fund have dwindled steadily. All Missouri Student Loans guaranteed by the DHEWD were transferred to Educational Credit Management Corporation (ECMC) October 1, 2022. As of September 30, 2022, the original principal outstanding of all loans transferred was \$524,732,720. The balance of defaulted loans (including principal and accrued interest) transferred to ECMC on the same date was \$178,847,367.

---

## 7. Non-cash Assistance

---

The Schedule contains values for non-cash assistance for several programs.

Supplemental Nutrition Assistance Program and Pandemic EBT Food Benefits Program expenditures totaling \$1,584,636,324 (\$1,473,315,446 for Assistance Listing No. 10.551 and \$111,320,878 for Assistance Listing No. 10.542) represent actual disbursements for client purchases of authorized food products through the use of the electronic benefits card program administered by the Department of Social Services - Family Support Division (DSS-FSD).

The Department of Elementary and Secondary Education distributes food commodities to school districts under the National School Lunch Program (Assistance Listing No. 10.555). Distributions are valued at the cost of the food paid by the federal government and totaled \$41,126,666.

The DSS-FSD, through the Summer Food Service Program for Children (Assistance Listing No. 10.559), provides United States Department of Agriculture (USDA)-donated foods to providers who serve free healthy meals to children and teens in low-income areas during the summer months when school is not in session. The DSS-FSD, through the Emergency Food Assistance Program (Food Commodities) (Assistance Listing No. 10.569),

---

State of Missouri - Single Audit  
Notes to the Schedule of Expenditures of Federal Awards  
Year Ended June 30, 2023

---

provides USDA-donated foods for disaster relief and to six non-profit food banks for distribution to food pantries and community groups for feeding those in need. Distributions are valued at the federally assigned value of the product distributed and totaled \$43,533 for the Summer Food Service Program for Children, and \$21,122,253 for the Emergency Food Assistance Program and Commodity Credit Corporation (CCC).

The DHSS distributes food commodities to low-income persons under the Commodity Supplemental Food Program (Assistance Listing No. 10.565). Distributions are valued at the cost of the food paid by the federal government and totaled \$6,365,410.

The Department of Public Safety distributes excess federal Department of Defense (DOD) equipment to state and local law enforcement agencies under the DOD Excess Property Program (Assistance Listing No. 12.U01). Property distributions totaled \$1,827,847 when valued at the historical cost assigned by the federal government. Distributions are presented at the estimated fair market value of the property at the time of distribution, calculated as 23.34 percent of the historical cost, or \$426,619.

The State Agency for Surplus Property distributes federal surplus property to eligible donees under the Donation of Federal Surplus Personal Property program (Assistance Listing No. 39.003). Property distributions totaled \$6,808,945 when valued at the historical cost assigned by the federal government. Distributions are presented at the estimated fair market value of the property at the time of distribution, calculated as 23.34 percent of the historical cost, or \$1,589,208.

The DHSS distributes vaccines to local health agencies and other health care professionals under the Immunization Cooperative Agreements program (Assistance Listing No. 93.268). Distributions are valued at the cost of the vaccines paid by the federal government and totaled \$73,755,080.

#### Section I - Summary of Auditor's Results

##### Financial Statements

Type of auditor's report issued on whether the financial statements audited were prepared in accordance with GAAP:

Qualified

Unmodified for all opinion units except for the governmental activities and the General Fund, which were qualified.

Internal control over financial reporting:

- Material weaknesses identified? X yes        no
- Significant deficiencies identified? X yes        none reported

Noncompliance material to financial statements?        yes X no

##### Federal Awards

Internal control over major federal programs:

- Material weaknesses identified? X yes        no
- Significant deficiencies identified? X yes        none reported

Type of auditor's report issued on compliance for major federal programs:

Unmodified for all major programs except for the following major programs that were qualified:

AL

<u>Number(s)</u>	<u>Name of Federal Program or Cluster</u>
10.558	Child and Adult Care Food Program, modified for Activities Allowed or Unallowed, Allowable Costs/Cost Principles, and Subrecipient Monitoring
21.027	Coronavirus State and Local Fiscal Recovery Funds, modified for Subrecipient Monitoring
93.767	Children's Health Insurance Program, modified for Activities Allowed or Unallowed, Allowable Costs/Cost Principles, and Other
93.775, 93.777, 93.778	Medicaid Cluster, modified for Activities Allowed or Unallowed, Allowable Costs/Cost Principles, and Other

Any audit findings disclosed that are required to be reported in accordance with the Uniform Guidance (2 CFR 200.516(a))?

X yes        no

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

### Section III - Federal Award Findings and Questioned Costs/

#### **2023-001. Medicaid National Correct Coding Initiative**

Federal Agency:	Department of Health and Human Services (DHHS)
Federal Program:	93.767 Children's Health Insurance Program 2022 - 2205MO5021 2023 - 2305MO3002 and 2305MO5021 93.778 COVID-19 - Medical Assistance Program 93.778 Medical Assistance Program 2022 - 2205MO5MAP and 2205MO5ADM 2023 - 2305MO5MAP and 2305MO5ADM
State Agency:	Department of Social Services (DSS) - MO HealthNet Division (MHD)
Type of Finding:	Internal Control (Material Weakness) and Noncompliance

As noted in our 3 previous audits,<sup>4</sup> the MHD did not fully implement the Medicaid National Correct Coding Initiative (NCCI) edit requirements. The MHD through the Medicaid Management Information System (MMIS) contractor, did not reprocess claims when edit files were implemented late. As a result, the claims processed during 103 of the days, or 28 percent, during the year ended June 30, 2023, were processed using outdated edits. During the year ended June 30, 2023, the MHD made Medical Assistance Program (Medicaid) and Children's Health Insurance Program (CHIP) payments, subject to NCCI edits, totaling approximately \$11.4 billion.

The DSS contracts for the operation and maintenance of the MMIS. Medical providers submit fee-for-service claims for services provided to Medicaid and CHIP participants in the MMIS, and payments are made through the MMIS. To help ensure only allowable claims are paid, system edit checks flag and/or deny payment on suspicious or unusual claims. Section 6507 of the Affordable Care Act (Section 1903(r) of the Social Security Act<sup>5</sup>) requires the MHD to completely and correctly implement specific NCCI methodologies and edits into the MMIS. The purpose of the NCCI is to promote correct coding, prevent coding errors, prevent coding manipulation, and reduce improper payments. The DHHS - Centers for Medicare and Medicaid Services (CMS) published the Medicaid NCCI Policy Manual and the Medicaid NCCI Technical Guidance Manual to provide specific requirements and assist state Medicaid agencies in implementing the NCCI methodologies.

<sup>4</sup> See single audit reports at <<https://auditor.mo.gov/AuditReport/Reports?SearchLocalState=35>>, finding numbers 2022-001, 2021-004 and 2020-002.

<sup>5</sup> Title 42 USC 1396b(r).

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

The two NCCI edit categories are Procedure-to-Procedure (PTP) edits that are designed to identify pairs of procedure codes that should not be reported together; and Medically Unlikely Edits (MUE) that limit the number of units of service allowed for certain services and items. The DHHS-CMS provides PTP and MUE edit files to the MHD most quarters. Each edit file contains all current edits and replaces the previously provided edit file. Section 7 of the Medicaid NCCI Technical Guidance Manual requires the MHD to implement the edit files into the MMIS on the first day of each quarter. If the applicable edit files are not implemented by the first day of the second month of the quarter, the MHD is required to reprocess any claims processed with outdated edits once the updates are implemented. For example, the MHD was required to implement the edit files for the quarter ended June 30, 2022, by August 1, 2022. Since the edit files were implemented after August 1, the MHD was required to reprocess all claims processed during the period July 1, 2022, through the date the edit file was implemented.

The CMS issued edit files requiring implementation in 3 of the 4 quarters during the year ended June 30, 2023. The MHD through the MMIS contractor, implemented the edit files late for the quarters ended June 30, 2022, and December 31, 2022, and did not reprocess the claims as required. As a result, claims processed during the periods July 1, 2022, through August 26, 2022, and January 1, 2023, through February 17, 2023, were not reprocessed under the updated edits. In total, the claims processed during 103 of the days, or 28 percent, during the year ended June 30, 2023, were processed using outdated edits.

The DSS Summary Schedule of Prior Audit Findings for finding number 2022-001 states the MHD will reprocess claims if the edits are not implemented timely. However, as noted in this finding, no claims were reprocessed when required during the audit period.

In addition to noncompliance with Section 6507 of the Affordable Care Act, the failure to reprocess claims paid with incorrect edits increases the risk that coding errors or irregularities will go undetected, and improper payments will be made. To ensure compliance with the NCCI requirements, the MHD should establish internal controls over NCCI edits. Regulation 45 CFR Section 75.303(a) requires the non-Federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

## Recommendation

The DSS through the MHD continue to strengthen controls over the NCCI requirements to ensure claims are reprocessed when NCCI edits are not implemented timely, as required.

2023 - 2305MO5MAP and 2305MO5ADM  
State Agency: Department of Social Services (DSS) - MO  
HealthNet Division (MHD)  
Type of Finding: Internal Control (Material Weakness) and  
Noncompliance

The MHD did not timely review Medicaid Management Information System (MMIS) access rights and remove user accounts for users no longer employed in positions needing access. Our sample of 40 MMIS users with access as of June 2023 identified 2 terminated users whose access had not been removed for 9 and 13 months. Approximately 1,600 various DSS employees and employees of DSS contractors have access to the MMIS.

The MMIS is the benefit claims processing and information retrieval system used by the MHD for the Medical Assistance Program (Medicaid) and the Children's Health Insurance Program (CHIP). DSS supervisors are instructed to notify MMIS security officers of employee terminations so the MMIS access can be removed. The MHD Annual MMIS Security Review Procedures also require MMIS staff review user account access annually to ensure access is still appropriate.

As of audit fieldwork in November 2023, the MHD had not conducted the MMIS user annual review since July 2022. While MHD security officers had obtained a report of active user accounts as of June 13, 2023, they had not verified whether access was appropriate for each user. After our inquiries, in December 2023, the MMIS security officers commenced their review of users with access as of June 13, 2023. DSS officials could not provide a reasonable explanation why the annual review had not been initiated or completed at the time of our audit.

We randomly selected a sample of 40 active user accounts as of June 13, 2023, and identified 2 accounts (5 percent) for individuals who had terminated from the DSS or from a contractor. System access had not been removed although the individuals had been terminated for 9 and 13 months prior to our review. In the annual review that commenced upon our inquiries, MHD security officers identified and removed access for these 2 accounts.

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

The Health Insurance Portability and Accountability Act (HIPAA) requires the state to follow 45 CFR Section 164.308(a)(3)(ii)(C), which requires implementation of procedures for terminating access to electronic protected health information when the employment of a workforce member ends. The failure to perform timely reviews of MMIS user access rights and remove all terminated employees' and contractors' access on a timely basis increases the risk of unauthorized access and may compromise the confidentiality and integrity of MMIS data. Furthermore, reviews of user access rights serve as an internal control over the administration of the Medicaid and the CHIP. Regulation 45 CFR Section 75.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

Recommendation

The DSS through the MHD review user access to the MMIS annually and ensure inappropriate access, including that of terminated users, is removed in a timely manner.

Auditee's Response

*We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.*

**2023-003.**  
**Medicaid and CHIP New**  
**Provider Eligibility**

Federal Agency:	Department of Health and Human Services (DHHS)
Federal Program:	93.767 Children's Health Insurance Program 2022 - 2205MO5021 2023 - 2305MO3002 and 2305MO5021
	93.778 COVID-19 - Medical Assistance Program
	93.778 Medical Assistance Program 2022 - 2205MO5MAP and 2205MO5ADM 2023 - 2305MO5MAP and 2305MO5ADM
State Agency:	Department of Social Services (DSS) - MO HealthNet Division (MHD) and Missouri Medicaid Audit and Compliance (MMAC)
Type of Finding:	Internal Control (Material Weakness) and Noncompliance

The DSS needs to improve internal control to ensure new provider applications for participation in the Medical Assistance Program (Medicaid) and the Children's Health Insurance Program (CHIP) are properly reviewed and screened as required by federal regulations and state procedures. MMAC Provider Enrollment Unit staff did not fully complete and/or retain new provider enrollment application checklists for 3 of 40 (8 percent) new providers sampled. There were approximately 10,000 new Medicaid and CHIP providers enrolled during the year ended June 30, 2023.

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

To enroll in the Medicaid and CHIP programs, providers of medical services must be licensed in accordance with federal, state, and local laws and regulations. Regulations 42 CFR 455 Subpart E and 42 CFR Section 457.990<sup>6</sup> require new provider enrollments be subjected to specific screening and enrollment requirements.

MMAC personnel are responsible for reviewing new provider enrollment applications to determine whether the provider meets eligibility requirements. MMAC procedures for enrolling new providers<sup>7</sup> require MMAC Provider Enrollment Unit personnel to complete a new provider enrollment application checklist to ensure all the necessary screening steps were performed. The procedures include multiple steps, including verifying the legal business name with the Secretary of State, screening the DHHS - Office of Inspector General website and the sex offender registry, and ensuring the provider's professional license is active. Completed checklists serve as documentation the enrollment application was properly reviewed and required screening steps were performed before the application was approved and the provider enrolled. Most reviews are performed and checklists prepared by MMAC personnel without any supervisory review. Checklists prepared by new staff are reviewed by experienced staff or supervisors. Once a staff member has demonstrated the ability to process and approve applications with little or no errors, supervisory reviews are limited to random monthly reviews.

MMAC procedures for enrolling new providers were not sufficient to ensure new provider enrollment application checklists, documenting the review and screening of applications, were completed and retained for each new provider enrolled. To test compliance with eligibility requirements for new providers, we reviewed enrollment documentation for a randomly-selected sample of 40 newly enrolled providers during the year ended June 30, 2023. Complete checklists were not on file for 3 (8 percent) of the providers. A checklist was missing for one provider, and checklists prepared for two providers did not include initials of the preparer attesting the final steps of the checklist were complete.

Without complete new provider enrollment application checklists, the DSS lacks documentation that established internal controls to ensure reviews and screenings were performed for all new enrollments as required. The failure to ensure providers were properly screened as required prior to enrollment can result in Medicaid and CHIP payments being made to ineligible providers, which would be unallowable costs of the federal programs and could require

<sup>6</sup> Regulation 42 CFR Section 457.990 requires the same enrollment requirements for CHIP providers as Medicaid providers, established at 42 CFR Part 455, Subpart E.

<sup>7</sup> The procedures for both enrolling new providers and revalidating existing providers are included in the internal document titled "MMAC Revalidation Procedures."

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

repayment by the state from state resources. Regulation 45 CFR Section 75.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

Recommendation

The DSS through the MHD and the MMAC review, strengthen, and enforce internal controls to ensure complete new provider enrollment application checklists are prepared and retained documenting that new Medicaid and CHIP provider applications were reviewed and screened as required.

Auditee's Response

*We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.*

**2023-004.**  
**Medicaid and CHIP**  
**Receipt Controls**

Federal Agency:	Department of Health and Human Services
Federal Program:	93.767 Children's Health Insurance Program 2022 - 2205MO5021 2023 - 2305MO3002 and 2305MO5021
	93.778 COVID-19 - Medical Assistance Program
	93.778 Medical Assistance Program 2022 - 2205MO5MAP and 2205MO5ADM 2023 - 2305MO5MAP and 2305MO5ADM
State Agency:	Department of Social Services (DSS) - MO HealthNet Division (MHD)
Type of Finding:	Internal Control (Material Weakness)

The MHD does not have adequate controls in place to ensure the proper management of receipts. The MHD does not adequately restrict user access within the Medicaid Management Information System (MMIS) and does not account for all cash control numbers to ensure all checks and money orders received are properly deposited or returned to senders if the payment cannot be accepted.

Effective October 2022, processing of receipts for the Medical Assistance Program (Medicaid) and the Children's Health Insurance Program (CHIP) was moved from the DSS - Division of Finance and Administrative Services (DFAS) to the MHD. During the year ended June 30, 2023, the DSS processed receipts totaling approximately \$1.2 billion. These receipts include checks and money orders received from participants, providers, and insurance companies for items such as premiums, reimbursements, and taxes.

MHD Financial Operations and Reporting Unit (FORU) staff receive checks and money orders, post the receipts to the receipts module in the MMIS, and prepare deposit transmittals. MHD program staff apply the receipts to the applicable accounts in the accounts receivable module in the MMIS. Of the

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

approximately \$1.2 billion, less than \$25 million (2 percent) was received through a contracted bank lockbox, then posted to the Automated Health System, which accounts for payments received from participants, using a contractor created data file and deposited by contractor employees.

MMIS user access

The MHD does not adequately restrict user access within the receipts and accounts receivable modules in the MMIS. The FORU Senior Accountant and the Accountant can access checks and money orders, record receipts and change receipt records in the MMIS, update or close the related accounts receivable in the MMIS, apply the restrictive endorsement to checks, and prepare deposit transmittals. MHD officials indicated these two employees need full access to the MMIS in case of employee absences or turnover. However, there are no documented independent or supervisory reviews of the MMIS entries and changes made by these employees, which increases the risks of misappropriation and undetected errors.

Proper segregation of duties separates the duties of handling and recording receipts from the duties of modifying accounts receivable records. If proper segregation of duties cannot be achieved, it is essential to document independent or supervisory reviews of MMIS entries and changes made by employees whose duties are not segregated.

Cash control numbers

The MHD's reconciliations of receipts, deposits, and checks and money orders on hand are not sufficient to account for all cash control numbers to ensure all checks and money orders received are properly deposited or returned to senders.

The MMIS and the Automated Health System assign receipt numbers, also called cash control numbers, when receipts are scanned and posted in the systems. MHD staff reconcile receipts listed on deposit transmittals to system-generated deposit reports daily, and reconcile open transaction reports to checks and money orders in the MHD's safes weekly. However, neither of these reconciliations account for the sequence of all cash control numbers. MHD officials indicated there are instances when the systems skip a cash control number due to a system error when a receipt is being recorded; however, the procedure to monitor for or account for these skipped numbers was discontinued in the transition of receipting duties from the DFAS to the MHD.

During a count of undeposited items and a review of related receipt records on December 11, 2023, auditors noted numerous omitted cash control numbers. At our request, MHD officials reviewed the omitted cash control numbers and determined several were skipped by the system and the remaining numbers were included in deposits on various other days.

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

Failure to properly account for cash control numbers increases the risk of misappropriation.

Conclusions

Strong internal controls are necessary to ensure Medicaid and CHIP receipts are accounted for properly. Regulation 45 CFR Section 75.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. These internal controls should be in compliance with guidance in *Standards for Internal Control in the Federal Government*, issued by the Comptroller General of the United States or the *Internal Control Integrated Framework*, issued by the Committee of Sponsoring Organizations of the Treadway Commission." Paragraphs 10.03 and 10.12 of the *Standards for Internal Control in the Federal Government*, also known as the Green Book, provide that management should establish physical controls to periodically compare vulnerable assets to control records; secure and safeguard vulnerable assets; and consider segregation of duties in designing control activity responsibilities so that incompatible duties are segregated and, where such segregation is not practical, design alternative control activities to address the risk.

Recommendation

The DSS through the MHD review, strengthen, and enforce internal controls over Medicaid and CHIP receipts. The MHD should restrict user access within the MMIS for FORU accounting personnel and adequately segregate asset custody and receipt recording duties from accounts receivable duties, or perform documented supervisory reviews of MMIS entries and changes made by employees whose duties are not segregated. In addition, the MHD should establish procedures to account for all cash control numbers to ensure all receipts are deposited or returned to senders.

Auditee's Response

	HealthNet Division (MHD) and Family Support
	Division (FSD)

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

Type of Finding: Internal Control (Significant Deficiency) and  
Noncompliance

As similarly noted in our 4 previous audits,<sup>8</sup> the DSS does not have sufficient controls to ensure compliance with eligibility redetermination requirements of the Medical Assistance Program (Medicaid) and the Children's Health Insurance Program (CHIP) for certain participants whose eligibility is based on the Modified Adjusted Gross Income (MAGI). The DSS did not correct manual system overrides for approximately 11,500 (1 percent) MAGI-based participants, preventing their cases from being closed when necessary, and did not perform redeterminations for those participants requiring redeterminations once previously-suspended requirements resumed.

To ensure MAGI-based participants continue to be eligible for benefits, 42 CFR Section 435.916 requires a redetermination of eligibility once every 12 months, or when circumstances affecting a participant's eligibility change. The regulation requires termination of benefits when a participant no longer meets eligibility requirements. During the period March 19, 2020, to March 31, 2023, the eligibility redetermination and most termination requirements were temporarily suspended in response to the COVID-19 Public Health Emergency (PHE). During that period, all validly enrolled participants on March 19, 2020, were to remain continuously enrolled, except for participants who requested removal, moved out of state, or died. Effective April 1, 2023, the DSS was required to initiate redeterminations within 12 months, and complete redeterminations within 14 months, for all participants. Of the approximately 1.5 million Medicaid and CHIP participants as of June 30, 2023, approximately 1.1 million were MAGI-based participants.

The Medicaid Eligibility Determination and Enrollment System (MEDES), implemented in January 2014, tracks eligibility information for MAGI-based participants, including redetermination due dates; and in some cases, performs redeterminations. Non-automatic redeterminations for MAGI-based participants are performed manually by FSD eligibility benefit technicians. Eligibility information is transferred from MEDES into the Medicaid Management Information System (MMIS), the Medicaid claims payment system, nightly. To ensure continuous enrollment during the PHE, the DSS programmed the MEDES to continue coverage effective March 18, 2020, except in the case of a participant's death, out of state move, or voluntary closure. For some exceptions, the MEDES automatically closed the case. For other exceptions, an FSD eligibility benefit technician manually recorded the reason for closure and initiated closure of the participant's case in the MEDES. The COVID-19/Annual Renewals Unwinding User Acceptance

<sup>8</sup> See single audit reports at <<https://auditor.mo.gov/AuditReport/Reports?SearchLocalState=35>>, finding numbers 2022-002, 2021-005, 2020-003, and 2019-005.

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

Test Plan (unwinding plan), submitted to the DHHS - Centers for Medicare and Medicaid Services (CMS), provided that redeterminations would resume on April 1, 2023, and be completed over a 14-month period. Per the unwinding plan, for the year ended June 30, 2023, redeterminations were to be initiated for all participants with April, May, and June due dates and completed for participants with April due dates.

MEDES operations have been problematic since implementation and manual overrides to individual cases to compensate for previous system errors and limitations were not corrected. DSS officials explained there was a period of time when the MEDES was incorrectly closing some eligible cases before a redetermination could be performed. To prevent affected cases from being closed, DSS personnel manually overrode system controls. However, once these system limitations were corrected in June 2017, the DSS did not remove the previously established manual overrides, which prevented the system from taking automatic actions such as identifying cases needing redetermination and closing cases. Additional overrides have also been made subsequent to the June 2017 corrections.

In the response to recommendations in the prior 4 audits, and in the unwinding plan, DSS officials indicated they developed a report and process to identify MEDES participants with overdue redeterminations due to system problems; and effective April 1, 2023, they planned to begin removing the manual overrides and performing redeterminations for these participants. However, as of June 30, 2023, the DSS had not developed a usable report, reviewed these participants to ensure they remained eligible and did not meet one of the exceptions requiring termination during the PHE, or initiated or completed redeterminations for all participants with April due dates. As a result, cases for participants with manual overrides that did not meet eligibility requirements prior to, during, or after the PHE ended, may not have been closed. After our inquiries, the DSS developed a usable report in August 2023, identifying approximately 11,500 individuals with active overrides, or 1 percent of the MAGI-based participant population.

The DSS Corrective Action Plan (CAP) and Summary Schedule of Prior Audit Findings for prior audit finding number 2022-002 state the DSS has processes in place to terminate eligibility for individuals who are deceased, voluntarily request closure, or report they have moved out of state. However, these processes have not been applied to all participant cases with manual system overrides needing closure. Although our random sample of 60 (of over 1 million) MAGI-based participants that were continuously enrolled during the year ended June 30, 2023, did not identify any participants with previously-established overrides, the condition remained that participants with manual overrides applied to their case had not been identified or reviewed to ascertain whether they continue to meet eligibility requirements.

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

The failure to implement adequate internal controls to ensure ineligible participant cases are closed and redeterminations are performed as required can result in Medicaid and CHIP payments being made on behalf of ineligible individuals, which would be unallowable costs of the federal programs. Regulation 45 CFR Section 75.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

Recommendation

The DSS through the MHD and the FSD review and correct cases for participants with manual overrides in the MEDES, ensure redeterminations are completed for these participants as required, and close the cases of any ineligible participants. In addition, the DSS should ensure system controls are functioning as designed for these participants.

Auditee's Response

*We disagree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement.*

Auditor's Comment

The DSS Corrective Action Plan (CAP) states the DSS disagrees there is a significant deficiency in internal controls because no participants with manual overrides were identified in the audit sample. Once the DSS finally identified these participants in August 2023 (despite recommendations in the prior 4 audits), the DSS confirmed there were approximately 11,500 participants with active overrides, or 1 percent of the MAGI-based participant population. The significant internal control weaknesses associated with these participants, which have existed for many years, remain regardless of whether any of these participants were selected in the audit sample. The CAP states the DSS had processes in place to terminate eligibility for individuals who were deceased, voluntarily requested closure, or reported they moved out of state. However, as noted in the finding, these processes were not applied to all participant cases with manual system overrides, and instead of proactively reviewing cases as recommended, the DSS merely reacted when information was provided to them. Until the manual overrides are corrected and/or applicable participants reviewed, there will be continued circumvention of established internal controls and risk of improper payments on these cases. Therefore, this finding is valid.

State Agency:	Department of Social Services (DSS) - MO HealthNet Division (MHD) and Family Support Division (FSD)
Type of Finding:	Internal Control (Significant Deficiency) and Noncompliance
Questioned Costs:	\$1,555

---

The DSS does not have sufficient controls to ensure benefits are terminated for participants no longer eligible for the Medical Assistance Program (Medicaid) and the Children's Health Insurance Program (CHIP). Our review found a death match was not operating in the Medicaid Eligibility Determination and Enrollment System (MEDES) during the year ended June 30, 2023. Additionally, for 2 of 60 participant cases sampled, the DSS received information requiring participant case termination, but did not manually terminate the participants' eligibility in the applicable eligibility system. There were approximately 1.5 million Medicaid and CHIP participants as of June 30, 2023.

To ensure participants continue to be eligible for benefits, 42 CFR Sections 435.916(d) and 435.952(a) require the agency to redetermine eligibility whenever it receives information about a change in a participant's circumstances that may affect eligibility. The regulation requires termination of benefits when a participant no longer meets eligibility requirements. During the period March 19, 2020, to March 31, 2023, the eligibility redetermination and most termination requirements were temporarily suspended in response to the COVID-19 Public Health Emergency (PHE), except for participants who requested removal, moved out of state, or died.

Termination of benefits originate from various sources including periodic matches against external records, or information voluntarily provided by the participant and/or their relatives. Certain match results automatically update participant eligibility in the eligibility systems.<sup>9</sup> When other information is received, such as voluntarily-provided information or certain external match reports, a manual entry in the applicable eligibility system is generally required to initiate the termination and close the case.

To test compliance with eligibility requirements, we reviewed eligibility documentation for a randomly-selected sample of 60 Medicaid and CHIP participants enrolled prior to the audit period and continuously enrolled during the year ended June 30, 2023. Of the 60 participants, 3 qualified for one of the PHE exceptions requiring termination during the PHE; however, 2

---

<sup>9</sup> The MEDES is used for participants whose eligibility is based on their Modified Adjusted Gross Income, and the Family Assistance Management Information System (FAMIS) is used for Aged, Blind and Disabled program participants.

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

of the 3 participant cases were not terminated in the applicable eligibility system upon their death or request for voluntary closure.

**Vital records death match** Our investigation of the participant not terminated after his death noted the DSS monthly death match against Department of Health and Senior Services (DHSS) vital records information was not operating during the audit period. DSS officials indicated the death match, which automatically terminates eligibility for participants upon their death, was eliminated from the MEDES due to system problems sometime before the beginning of the audit period and had not resumed as of our inquiry in March 2024. Because the death match was not operating, coupled with the failure to make a manual entry (see subsequent explanation), the participant was not terminated in the MEDES.

When operating, the monthly DHSS vital records death match serves as a key internal control to identify and terminate participants.

**Information received** For both participants, information requiring participant case termination was received by the DSS; however, DSS personnel did not manually terminate the participants' eligibility in the applicable eligibility system.

- For the participant not terminated after his January 2023 death, DSS personnel indicated when the DSS received a monthly Social Security Administration report listing the participant as deceased, the date of death was updated in the FAMIS for a previously-closed case, but was not updated in the MEDES for the current case. The date of death was also updated in the Medicaid Management Information System (MMIS), the claims payment system, but the participant's case was not terminated in the MEDES.

When we brought this issue to management's attention in October 2023, DSS officials closed the case. There were no benefit payments made after the participant's death, so there are no questioned costs associated with this error.

- For the participant not terminated upon request, DSS personnel did not close the case when the contracted call center received a call in July 2021 from the participant's mother requesting voluntary closure of the case. Call center personnel documented the request in the MEDES case notes; however, DSS officials indicated case closure was not finalized by DSS personnel because the phone call transfer from the call center to the DSS failed. DSS officials indicated they do not have procedures to ensure cases are terminated in these situations.

After we identified this error, DSS officials closed the case in November 2023. Medicaid payments made on behalf of the participant after the request for voluntary closure totaled \$2,358 during the year ended June 30, 2023. We question the federal share, or \$1,555 (65.94 percent).

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

Medicaid payments made during the period from the date of the request for voluntary closure to the date of case closure, totaled \$5,317 (\$3,540 federal share and \$1,777 in state funding).

Conclusions

The failure to implement and enforce adequate internal controls to ensure ineligible participant cases are closed as required can result in Medicaid and CHIP payments being made on behalf of ineligible individuals, which would be unallowable costs of the federal programs and result in payments from state funds that should not have occurred. Regulation 45 CFR Section 75.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

Recommendation

The DSS through the MHD and the FSD review, strengthen, and enforce internal controls to ensure ineligible participant cases are closed when necessary and resume the DHSS vital records death match in the MEDES.

Auditee's Response

*We partially agree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement and any planned actions to address the finding.*

Auditor's Comment

The DSS Corrective Action Plan states the DSS partially agrees with the finding because the FAMIS eligibility system death match with state records is functional and the annual review process in MEDES includes a death match with federal records. However, not all MEDES participants are subject to the death match in the FAMIS. If the participant does not receive other benefits from the DSS, they are not in the FAMIS where the death match process occurs. Additionally, the MEDES annual review process was not fully functional during the PHE. Therefore the finding is valid.

	93.778 Medical Assistance Program 2022 - 2205MO5MAP and 2205MO5ADM 2023 - 2305MO5MAP and 2305MO5ADM
State Agency:	Department of Social Services (DSS) - MO HealthNet Division (MHD) and Family Support Division (FSD)
Type of Finding:	Noncompliance

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

As noted in our previous audit,<sup>10</sup> the DSS did not perform eligibility determinations within required timeframes for participants of the Medical Assistance Program (Medicaid) and the Children's Health Insurance Program (CHIP). In our test of compliance with eligibility requirements for the year ended June 30, 2023, we noted 7 of 120 eligibility determinations were made 2 to 27 days after the required timeframes, and averaged 15 days late.

The FSD is responsible for determining the eligibility of Medicaid and CHIP participants. FSD eligibility benefit technicians perform the majority of eligibility determinations using participants' Modified Adjusted Gross Income (MAGI). For the remaining non-MAGI participants, including participants in the MO HealthNet Aged, Blind, and Disabled programs, eligibility is not based on their MAGI. As of June 30, 2023, there were approximately 1.1 million MAGI-based participants and approximately 387,000 non-MAGI-based participants.

To ensure applicants are able to receive necessary medical care timely, 42 CFR Section 435.912(c)(3) requires new Medicaid eligibility determinations be made within 45 days of application and within 90 days of application for applicants who apply for benefits on the basis of disability. Regulation 42 CFR Section 435.912(e) allows exceptions to these timeframes in certain unusual circumstances, such as a doctor's delay. Regulation 42 CFR Section 457.340(d) requires the same timeliness standards for CHIP participants.

To test compliance with eligibility requirements, we reviewed randomly-selected samples of 60 MAGI-based participants, and 60 non-MAGI-based participants, all of which were new enrollments, subject to the timeliness requirements. The DSS did not meet timeliness requirements for 2 of the 60 MAGI-based eligibility determinations (3 percent) and 5 of the 60 non-MAGI-based determinations (8 percent). The 7 late determinations were made 2 to 27 days after the required 45-day or 90-day requirement, and averaged 15 days late.

DSS officials indicated the FSD was not able to process applications in a timely manner because of increased workloads associated with a backlog created by the expansion of Medicaid in 2021, continued increases in annual federal Health Insurance Marketplace open enrollment applications, and staffing shortages.

In addition to noncompliance with federal requirements, the failure to ensure determinations are performed timely can result in potentially eligible participants not receiving necessary medical care.

Children's Division (CD)  
Type of Finding: Internal Control (Significant Deficiency) and  
Noncompliance

As similarly noted in our previous audit,<sup>11</sup> DSS controls and procedures were not sufficient to ensure some administrative costs were allocated to federal programs in an equitable and consistent manner. Random moment time studies (RMTS) containing over 200 invalid staff surveys were used to allocate administrative costs. For the year ended June 30, 2023, costs totaling approximately \$1.08 million were incorrectly allocated to 6 programs. As a result, approximately \$546,000 (federal share) was allocated to state funding, that could have been allocated to federal funding for 4 programs.

<sup>11</sup> See single audit report at <<https://auditor.mo.gov/AuditReport/ViewReport?report=2023030>>, finding number 2022-004.

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

The DFAS uses the AlloCAP system to identify, measure, and allocate costs to state and federal programs in accordance with its Public Assistance Cost Allocation Plan (PACAP). The PACAP, which is governed by Regulation 45 CFR Section 95 Subpart E, is updated by the DFAS quarterly and periodically reviewed and approved by the DHHS - Division of Cost Allocation Services and various federal grantor agencies. Each quarter, DFAS personnel import expenditure data from the state's accounting system into the AlloCAP system, which allocates costs to programs through allocation methodologies outlined in the department's PACAP.

The DSS uses the RMTS allocation method (as outlined in the PACAP) to allocate various administrative costs including salaries, benefits, and other operational costs. The CD is responsible for the RMTS process, in which randomly-selected CD staff are contacted by email at random moments and asked to record what program/activity they are engaged in at that moment. These surveyed time results are used to approximate the proportion of the costs that apply to the various programs. DFAS enters the RMTS process results into the AlloCAP system, where the RMTS allocation method applies the results to a cost pool of federal program administrative costs. During the year ended June 30, 2023, administrative costs totaling approximately \$152.4 million were allocated using over 8,000 RMTS process surveys, to 6 programs through the AlloCAP system: Social Services Block Grant (SSBG), Temporary Assistance for Needy Families (TANF), Guardianship Assistance, Foster Care, Adoption Assistance, and the Medical Assistance Program.

During the year ended June 30, 2023, the RMTS process included 26 invalid CD staff, who completed 229 invalid surveys. These invalid staff were state program staff paid from a different, non-federal cost pool. The invalid surveys led to inaccurate RMTS process results; and as a result, the RMTS allocation over-allocated costs to the SSBG and TANF programs and under-allocated costs to the other programs during the year ended June 30, 2023, as shown in the following table.

Program Name	Over-allocation	Under-allocation	Under-allocation (Federal Share)
Social Services Block Grant	\$ 496,878	0	0
Temporary Assistance for Needy Families	583,558	0	0
Adoption Assistance	0	197,056	98,528
Foster Care	0	791,547	395,136
Guardianship Assistance	0	61,997	30,999
Medical Assistance Program	0	29,836	21,201
Total	\$ 1,080,436	1,080,436	545,864

DFAS and CD officials indicated when developing the AlloCAP system and updating the PACAP and the RMTS process, the invalid subset of CD staff were inadvertently included in the sample universe. This error was not

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

detected during the DSS's original development effort (2017 and prior), nor through the CD's ongoing internal controls and procedures over the RMTS process. After we notified the DSS of the errors, the CD updated the RMTS process to properly exclude invalid staff from the sample universe, and the DFAS indicated it would similarly revise its PACAP. The DFAS and the CD then used the updated RMTS process results to revise previous quarters' RMTS allocations and AlloCAP system results. Finally, the DFAS indicated it would resolve the 4 programs with under-allocations (federal share) by requesting increasing adjustments in each program's June 30, 2024, quarterly expenditure report. The DFAS indicated increasing adjustments totaling approximately \$108,000 (federal share) will also be made in the June 30, 2024, quarterly reports, for similar errors during the quarter ended September 30, 2023.

DSS personnel indicated it was unnecessary to revise the federal reports for the SSBG and TANF programs because allocations for those grants were already fully expended. Because significant portions of those programs are state-funded, the allocation errors could be applied to state funding portions. We do not question any federal costs associated with the errors identified in this finding because the resulting over-allocations were not attributable to federal funding. If this cost allocation issue had not been identified during the audit, the DSS could have continued to spend allowable costs from state taxpayer funds instead of claiming to federal funding sources.

Regulation 45 CFR Section 75.405(a) states, "[a] cost is allocable to a particular Federal award or other cost objective if the goods or services involved are chargeable or assignable to that Federal award or cost objective in accordance with relative benefits received." In addition, without adequate internal controls and procedures over the allocation of administrative costs, there is increased risk that costs will not be allocated in an equitable and consistent manner. Regulation 45 CFR Section 75.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

## Recommendation

The DSS continue to strengthen internal controls and procedures over the PACAP, the AlloCAP system, the RMTS process, and the RMTS allocation to ensure costs are properly allocated to federal programs. In addition, the DSS should revise the PACAP to reflect updates to the RMTS process.

## Auditee's Response

*We partially agree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement and any planned actions to address the finding.*

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

**Auditor's Comment**

The DSS Corrective Action Plan (CAP) states the DSS partially agrees with the recommendation because it does not agree PACAP and AlloCAP system internal controls need to be strengthened, since the errors occurred in the RMTS process. However, because the RMTS process is a component of the PACAP and the AlloCAP system, and the errors identified in the finding impacted both the RMTS allocation and AlloCAP results, and varied from PACAP intentions, the recommendation that the DSS strengthen controls over all applicable cost allocation processes is valid.

If this cost allocation issue had not been identified during the audit, based on the errors during the 5 quarters ended September 30, 2023, we estimate at least \$100,000 could have continued to be spent each quarter from state taxpayer funds instead of claimed to federal funding sources.

**2023-009.  
Adoption Savings**

Federal Agency: Department of Health and Human Services (DHHS)  
Federal Program: 93.659 Adoption Assistance  
2022 - 2201MOADPT  
2023 - 2301MOADPT  
State Agency: Department of Social Services (DSS) - Division of  
Finance and Administrative Services (DFAS)  
Type of Finding: Internal Control (Significant Deficiency) and  
Noncompliance

The DFAS does not have adequate internal controls and procedures related to adoption savings requirements. As a result, the amount of adoption savings reported in the federal fiscal year (FFY) 2022 Annual Adoption Savings Calculation and Accounting Report was overstated by approximately \$1 million. If the error had not been identified during the audit, the DFAS would have had to demonstrate approximately \$1 million in additional expenditures for required services.

Since October 1, 2009, the Title IV-E Adoption Assistance program expanded eligibility provisions for any child who meets "applicable child" criteria as defined in 42 USC 673(e). Use of the applicable child eligibility provisions tends to result in more eligible children than under previous provisions and provides additional federal Adoption Assistance program funding, allowing states to reduce the level of nonfederal funds for these services. The resulting reduction in nonfederal (state) spending is referred to as "adoption savings," and is calculated based on the claims made on behalf of those children who, absent the applicable child eligibility criteria, would not have been eligible for federal Adoption Assistance program benefits. States are required to spend, from nonfederal funds, an amount equal to any calculated adoption savings they achieve, for other child welfare service activities permitted under Titles IV-B or IV-E, of which at least 30 percent must be for certain services.

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

The DFAS reports adoption savings and adoption savings expenditures in the Annual Adoption Savings Calculation and Accounting Report to the federal DHHS. During the year ended June 30, 2023, the DFAS submitted the Annual Adoption Savings Calculation and Accounting Report for FFY 2022. Our review of the FFY 2022 Adoption Savings Calculation and Accounting Report noted DFAS personnel entered 2 inaccurate values (in Line 3, Column A and Line 5, Column A), which led to errors in multiple lines and columns in the report, as summarized in the table below. These errors include an overstatement of adoption savings by approximately \$1 million, and an overstatement of the cumulative unexpended adoption savings balance by approximately \$1 million.

Reporting Line Title - FFY 2022	Reported	Actual	Over/(Under)
<b>Section A: Adoption Savings Calculation</b>			
Line 4, Column A			
Adoption Assistance Payment Savings (federal share)	\$ 10,035,687	9,008,340	1,027,347
Line 6, Column A			
Adoption Administration Savings (federal share)	518,812	552,649	(33,837)
Line 7, Column A			
Total Adoption Savings (federal share)	\$ 10,554,499	9,560,989	993,510
<b>Section C: Unexpended Adoption Savings</b>			
Line 17, Column A			
Reporting Period Unexpended Balance of Adoption Savings	\$ 7,125,982	6,132,472	993,510
Line 17, Column C			
Cumulative <sup>1</sup> Unexpended Balance of Adoption Savings	\$ 14,085,156	13,091,646	993,510

<sup>1</sup> FFYs 2022 and prior

These errors were not detected during DFAS supervisory review procedures. After we notified the DFAS of the errors, the DFAS corrected and re-submitted the FFY 2022 report. Once corrected, the DSS remained in compliance with spending requirements.

Titles 42 USC 673(a)(8)(B)(ii) and 42 USC 673(a)(8)(B)(iii) require states to report annually to the DHHS their adoption savings and adoption savings expenditures. Title 42 USC 673(a)(8)(A) requires states to calculate the adoption savings resulting from using applicable child eligibility provisions during the fiscal year. Title 42 USC 673(a)(8)(D)(i) requires states to spend an amount equal to the calculated adoption savings on any service provided to children of families under Titles IV-B or IV-E, at least 30 percent of which must be spent on post-adoption services, post-guardianship services, and services to support and sustain positive permanent outcomes for children at risk of entering foster care.

Effective internal controls and procedures are needed to ensure Annual Adoption Savings Calculation and Accounting Reports are prepared accurately, and the DSS is compliant with the adoption savings requirements.

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

Regulation 45 CFR Section 75.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

Recommendation

The DSS through the DFAS strengthen internal controls and procedures to ensure Annual Adoption Savings Calculation and Accounting Reports are accurately prepared and submitted to ensure compliance with federal adoption savings requirements.

Auditee's Response

*We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.*

**2023-010.**  
**SLFRF Program**  
**Subrecipient Monitoring**

Federal Agency: Department of the Treasury (Treasury)  
Federal Program: 21.027 COVID-19 - Coronavirus State and Local  
Fiscal Recovery Funds  
SLFRP4542  
State Agency: Office of Administration (OA)  
Type of Finding: A - Internal Control (Material Weakness) and  
Noncompliance  
B - Internal Control (Material Weakness) and  
Noncompliance

The OA has not established policies and procedures regarding monitoring subrecipients of the Coronavirus State and Local Fiscal Recovery Funds (SLFRF) program. As a result, the OA did not comply with the Uniform Guidance (UG) requirements regarding identifying and monitoring subrecipients of the SLFRF program.

The OA is the lead agency responsible for administering the SLFRF program. The purpose of the SLFRF program is to provide funding to respond to the COVID-19 public health emergency (PHE) or its negative impacts; respond to workers performing essential work during the PHE; provide government services, to the extent of the reduction in revenue due to the PHE (revenue replacement); and make necessary investments in water, sewer, or broadband infrastructure. The OA and various state agencies designed projects within the allowable SLFRF program categories, and are responsible for administering the projects. The OA developed the American Rescue Plan Act Grant Portal (portal) to serve as the official repository of information and documentation supporting each SLFRF program project. The state agencies upload supporting documentation to the portal, including contracts, payment requests, and other supporting documentation. Most payments are made on a reimbursement basis. The OA reviews each payment request and processes the payments.

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

Some SLFRF program projects are administered through subawards. The OA establishes contracts with each subrecipient that outline various SLFRF program requirements, terms, and conditions. In the Schedule of Expenditures of Federal Awards (SEFA), the OA reported approximately \$86 million was passed through to subrecipients of the SLFRF program during the year ended June 30, 2023. This amount represents approximately 50 percent of the SLFRF program expenditures. These awards were administered through the OA and 7 other state agencies. However, as noted in finding A., the amount is not accurate due to subrecipient determination errors.

Of the 8 state agencies that administered subawards reported in the SEFA during the year ended June 30, 2023, 3 administered the majority of the subawards, with payments totaling approximately \$72.7 million, or 85 percent of the total subrecipient payments reported in the SEFA. Our review and testing of subrecipient monitoring procedures focused on the OA and the 3 state agencies. For the 3 state agencies, a total of 55 recipients were identified as subrecipients in the SEFA. However, as noted in finding A., some of these recipients were not truly subrecipients.

To understand the OA and agency procedures, and to test compliance with subrecipient monitoring requirements, we randomly selected a sample of payments to 9 subrecipients for the 3 state agencies.<sup>12</sup> The 9 subrecipients were awarded nearly \$166 million in SLFRF program funding and were paid a total of approximately \$36.5 million during the year ended June 30, 2023. We reviewed records in the portal supporting the subaward and 1 payment for each of the 9 subrecipients. We reviewed payments totaling approximately \$8 million.

A. Subrecipient Determination

The OA has not established policies and procedures to determine whether recipients<sup>13</sup> of SLFRF program funds are subrecipients or contractors. As a result, some recipients were incorrectly classified as subrecipients, and the OA lacks a complete and accurate listing of subrecipients.

Subrecipient monitoring requirements are outlined in the UG. Regulation 2 CFR Section 200.331 states a pass-through entity must make case-by-case determinations whether each agreement it makes for the disbursement of federal program funds casts the party receiving the funds in the role of a subrecipient or a contractor. The classification of a subrecipient<sup>14</sup> is dependent on whether the entity is responsible for making eligibility

<sup>12</sup> Of the 9 subrecipients selected, 2, 3, or 4 were selected from each state agency.

<sup>13</sup> SLFRF program recipients can also be classified as "beneficiaries" when they receive funding as end users.

<sup>14</sup> As defined by 2 CFR Section 200.331(a).

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

determinations for assistance, has its performance measured in relation to whether the objectives of the federal program were met, has responsibility for programmatic decision-making, is responsible for adherence to federal program requirements, and uses the federal funds to carry out a program for its public purpose.

The OA did not evaluate each SLFRF program recipient for the UG criteria, and make a determination whether the entity was a subrecipient or contractor. OA officials assigned responsibility for making these determinations and identifying subrecipients to the applicable state agencies, but did not provide clear guidance to the state agencies or ensure the state agencies properly performed and documented the determinations. Two of the 3 state agencies had not documented their determination for any of their sampled subrecipients and the other state agency had not documented their determinations for 1 of 3 sampled subrecipients.

Our analysis and review of the population of 55 subrecipients identified in the SEFA for the 3 state agencies revealed 2 of the state agencies had incorrectly recorded several recipients as subrecipients. For example, 1 agency incorrectly reported 8 revenue replacement project subawards, with payments totaling approximately \$18.1 million and another agency incorrectly reported a revenue replacement project subaward, with payments totaling approximately \$89,000, as subrecipients, during the year ended June 30, 2023. The Treasury SLFRF FAQ 13.14 says recipients of revenue replacement funds are not subrecipients. One of the agencies also incorrectly reported a software contractor, with payments totaling approximately \$295,000, as a subrecipient.

Without adequate procedures over subrecipient or contractor determinations, the OA lacks assurance that its subrecipients have been identified for subrecipient monitoring purposes.

## B. Subrecipient Monitoring

The OA did not implement an effective subrecipient monitoring program to monitor the SLFRF program subrecipients. As a result, some subrecipient monitoring procedures were not performed as required by the UG.

Regulation 2 CFR Section 200.332(b) states that pass-through entities must evaluate each subrecipient's risk of noncompliance with federal statutes, regulations, and the terms and conditions of the subaward for purposes of determining the appropriate subrecipient monitoring. Risk assessments may consider factors such as the subrecipient's prior experience with the same or similar subawards, the results of previous audits, whether the subrecipient has new personnel or new or substantially-changed systems, and the extent and results of federal awarding agency monitoring. Regulation 2 CFR Section 200.332(d) requires pass-through entities to monitor the activities of the subrecipient as necessary to ensure that the subrecipient is in compliance with

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

federal statutes, regulations, and the terms and conditions of the subaward; and that subaward performance goals are achieved. Pass-through entity monitoring of the subrecipient must include: (1) Reviewing financial and performance reports required by the pass-through entity; (2) following up and ensuring the subrecipient takes timely and appropriate action on all deficiencies pertaining to the federal award provided to the subrecipient from the pass-through entity detected through audits, on-site reviews, and written confirmation from the subrecipient, highlighting the status of actions planned or taken to address single audit findings related to the particular subaward; and (3) issuing a management decision for applicable findings pertaining only to the federal award provided to the subrecipient from the pass-through entity. Regulation 2 CFR Section 200.332(f) requires pass-through entities to verify that every subrecipient had a single audit when it is expected that the subrecipient spent \$750,000 or more during the subrecipient's fiscal year.

To monitor subrecipients of the SLFRF program, the OA relies on its pre-payment monitoring process and does not perform any post-payment monitoring procedures. The OA did not establish policies and procedures over the pre-payment review process and these reviews were not always clearly documented. In addition, the OA did not formally communicate with the state agencies regarding subrecipient monitoring responsibilities or ensure the state agencies performed monitoring reviews. The information communicated to the state agencies in memos and emails and during periodic meetings with state agency officials were not formalized in a policy and did not cover all relevant compliance requirements. In addition, the OA did not perform risk assessments or ensure subrecipients received single audits as required by the UG.

Risk assessments

The OA did not perform required risk assessments for subrecipients of the SLFRF program to determine the nature, timing, and extent of monitoring procedures necessary. None of the 3 state agencies performed risk assessments for the sampled subrecipients.

OA officials indicated they did not believe risk assessment procedures were necessary because extensive pre-payment monitoring procedures are performed for all payments. In addition to complying with federal requirements, risk assessments are necessary to ensure monitoring reviews are conducted with adequate frequency to help ensure subrecipient compliance with program requirements.

OA pre-payment monitoring procedures

The OA has not developed policies and procedures outlining its pre-payment monitoring procedures and did not always clearly document monitoring performed prior to making payments.

In their review and approval of each SLFRF subrecipient payment request, OA officials stated they thoroughly review supporting documentation

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

Additional monitoring  
procedures

uploaded to the portal by the state agencies, including contracts, bid documentation, invoices, and other supporting documentation. OA officials further stated they review for compliance with certain types of SLFRF program compliance requirements, including allowable activities and allowable costs, procurement, and period of performance. However, the OA does not clearly document review procedures performed. For each of the 9 subrecipients sampled, the portal included documentation pertaining to some, but not all of the applicable compliance requirements. For example, for all 9 subrecipient payments reviewed, the portal lacked any documentation the subrecipient used a competitive procurement process to obtain the applicable items or services. Also, for 3 of the 9 payments reviewed, the portal included summary invoices, but did not include sufficiently detailed documentation showing compliance with the allowable activities and allowable costs and period of performance compliance requirements.

Without documented policies and procedures and documentation of pre-payment monitoring procedures performed, the OA cannot demonstrate subrecipient monitoring procedures were performed.

The OA does not monitor subrecipients beyond the pre-payment monitoring process previously described. In addition, the OA did not formally communicate with the state agencies regarding subrecipient monitoring responsibilities or ensure the state agencies performed monitoring reviews.

Subrecipient contracts outline various federal requirements and terms and conditions that subrecipients must comply with both before and after receiving payments. For example, the purpose of a contract with a subrecipient is "Preparing and Credentialing Employees for Tomorrow." In addition to complying with various requirements prior to requesting reimbursement, the subrecipient is also required to comply with various requirements, terms, and conditions post-payment, such as ensuring performance goals are achieved.

OA officials indicated post-payment monitoring procedures are not necessary because extensive pre-payment monitoring procedures are performed for all payments. However, the pre-payment procedures alone are not sufficient to fully comply with the OA's subrecipient monitoring responsibilities to evaluate whether subrecipients complied with federal requirements and subaward terms and conditions, and subaward performance goals are achieved.

Additionally, the OA did not formally communicate subrecipient monitoring responsibilities to the state agencies or ensure the state agencies performed monitoring reviews. Our review of subrecipient monitoring procedures at the 3 state agencies noted none of the agencies had developed written policies or procedures regarding subrecipient monitoring, and review procedures did not

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

cover all significant compliance requirements or were not always documented. While officials of 2 state agencies indicated they perform detailed pre-payment reviews for compliance with allowable activities and allowable costs, period of performance, and local match requirements, officials of the other agency explained they and the OA review only summary invoices from the subrecipients prior to payment. Officials of the other state agency stated they review the supporting documentation during their annual monitoring process; however, such reviews had not been performed for the sampled items. While officials of 1 state agency indicated they review compliance with procurement requirements, officials of 2 agencies indicated they do not review compliance with procurement requirements. Additionally, while officials of 2 state agencies described various post-payment review procedures including reviews for compliance with certain requirements, reviews of documentation supporting expenditures of funds advanced to the subrecipient, billing reviews of documentation supporting summary invoices, and reviews of the final work product; officials of the other agency indicated post-payment reviews are not performed.

In addition to noncompliance with subrecipient monitoring requirements, the failure to ensure sufficient monitoring procedures were performed and documented increases the risk that subrecipient noncompliance will not be prevented or detected timely.

#### Subrecipient audits

The OA did not conduct the required review of single audit reports for applicable SLFRF program subrecipients.

The OA does not have procedures to verify every subrecipient had a single audit when required. Our review of subrecipient monitoring procedures at the 3 state agencies noted 1 agency had not established a process to monitor and follow up on single audit reports. Officials from the OA and the agency stated they were not aware of the requirement to verify that single audits were obtained.

Each subrecipient that spent in excess of \$750,000 in federal awards during its fiscal year must obtain a single audit in accordance with the UG within 9 months after the end of the fiscal year. In addition to noncompliance with subrecipient monitoring requirements, the failure to ensure subrecipients received required audits and to review and follow up on the related audit reports, increases the risk that subrecipient noncompliance will not be identified and addressed.

#### Conclusions

OA officials stated they believe their pre-payment review procedures satisfy most of their subrecipient monitoring requirements. However, as noted throughout the finding, these procedures alone do not substitute for, or remove, the OA's comprehensive subrecipient monitoring responsibilities which include performing risk assessments; monitoring for compliance with federal requirements and subaward terms and conditions, and ensuring

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

subaward performance goals are achieved; and reviewing subrecipient single audit reports. OA officials further indicated the state agencies were responsible for some of the subrecipient monitoring requirements. However, without clear communication and monitoring of these responsibilities, the OA lacks assurance of compliance with all subrecipient monitoring requirements.

Without an established subrecipient monitoring program, the OA cannot provide assurance subrecipients are complying with SLFRF program requirements and there is increased risk that noncompliance with program requirements or subaward terms and conditions will go undetected, or that subaward performance goals will not be achieved. In addition, a subrecipient monitoring program is necessary to demonstrate adequate internal controls over compliance with subrecipient monitoring requirements. Regulation 2 CFR Section 200.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. These internal controls should be in compliance with guidance in *Standards for Internal Control in the Federal Government*, issued by the Comptroller General of the United States or the *Internal Control Integrated Framework*, issued by the Committee of Sponsoring Organizations of the Treadway Commission." Paragraph 3.10 of the *Standards for Internal Control in the Federal Government*, also known as the Green Book, states "[e]ffective documentation assists in management's design of internal control by establishing and communicating the who, what, when, where, and why of internal control execution to personnel. Documentation also provides a means to retain organizational knowledge and mitigate the risk of having that knowledge limited to a few personnel, as well as a means to communicate that knowledge as needed to external parties, such as external auditors." Paragraph 12.01 states "[m]anagement should implement control activities through policies."

## Recommendations

The OA:

- A. Develop policies and procedures to determine whether recipients of SLFRF program funds are subrecipients or contractors. Work with the state agencies to ensure accurate and documented determinations are prepared for all recipients, and modify subrecipient records as needed.
- B. Develop a subrecipient monitoring program in accordance with the Uniform Guidance, that includes performing risk assessments for each subrecipient for the purposes of determining the appropriate subrecipient monitoring procedures; monitoring for compliance with federal requirements and subaward terms and conditions, and ensuring subaward performance goals are achieved; and reviewing subrecipient single audit reports. Ensure tasks delegated to state agencies are adequately

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

communicated and establish procedures to ensure those tasks are appropriately completed.

Auditee's Response

- A. *We partially agree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement and any planned actions to address the finding.*
- B. *We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.*

Auditor's Comment

**Finding A.**

The OA Corrective Action Plan (CAP) states the OA disagrees with the recommendation to develop policies and procedures since the requirements are already stated in the Uniform Guidance and SLFRF program regulations. The CAP states the OA believes improved communication with the state agencies and ensuring compliance with federal regulations can be performed in lieu of developing policies and procedures. Because effective internal controls include documented policies and procedures that clearly communicate responsibilities and prevent misunderstandings, this finding is valid.

**2023-011.**  
**OA Statewide SEFA**

Federal Agency:	Department of Housing and Urban Development Department of the Treasury Department of Labor Department of Health and Human Services
Federal Program:	14.231 Emergency Solutions Grant Program 21.023 COVID-19 - Emergency Rental Assistance Program 17.225 Unemployment Insurance 93.575 COVID-19 - Child Care and Development Block Grant 93.575 Child Care and Development Block Grant
State Agency:	Office of Administration (OA) - Division of Accounting (DOA)
Type of Finding:	Internal Control (Significant Deficiency) and Noncompliance

DOA controls and procedures related to the preparation of the statewide Schedule of Expenditures of Federal Awards (SEFA) were not sufficient; and as a result, a complete and accurate SEFA was not prepared timely for the year ended June 30, 2023. The statewide SEFA reported the state expended

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

approximately \$20.9 billion<sup>15</sup> in federal funds in the year ended June 30, 2023.

Each state agency and office prepares and submits a SEFA survey to the DOA and the DOA compiles the statewide SEFA. The SEFA reports total expenditures and amounts passed through to subrecipients for each federal program, and is supported by the Notes to the SEFA (Notes). The SEFA is a key component of the annual Single Audit, which is required to be completed no later than 9 months after fiscal year-end (March 31, 2024, for the year ended June 30, 2023). In addition to providing an opinion on the SEFA, the State Auditor's Office uses the SEFA for many critical Single Audit tasks including determining and identifying Type A and large Type B thresholds and programs, determining major federal programs, and ensuring required audit procedures are performed.

Untimely SEFA

The year ended June 30, 2023, SEFA was not prepared by the DOA until February 28, 2024, 8 months after fiscal year end and 1 month before the Single Audit reporting deadline. Because the DOA prepares the SEFA after the State of Missouri Annual Comprehensive Financial Report (ACFR) draft has been prepared, and the fiscal year 2023 ACFR draft was prepared over 7 months after fiscal year end, the fiscal year 2023 preparation of the SEFA was delayed. The delayed preparation of the SEFA negatively impacted the completion of various Single Audit tasks, and contributed to the delay in issuance of the fiscal year 2023 Single Audit. The DOA has indicated that staff turnover and increased workload in other areas contributed to the delayed SEFA.

Regulation 2 CFR 200.512 requires the state to submit its Single Audit report to the Federal Audit Clearinghouse no later than 9 months after the fiscal year-end.

SEFA errors

The fiscal year ended June 30, 2023, SEFA and Notes included various errors and misstatements including:

- The Emergency Solutions Grant Program (Assistance Listing No. 14.231) and the COVID-19 - Emergency Rental Assistance Program (Assistance Listing No. 21.023) were not included in the SEFA. Expenditures for these programs totaled \$1,542,983 and \$9,514,168, respectively. After we notified the DOA of these errors, the DOA revised the statewide SEFA.

<sup>15</sup> The statewide SEFA does not include federal award expenditures of the public universities and other component units.

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

- The Unemployment Insurance program (Assistance Listing No. 17.225) expenditures reported in the SEFA were \$7,059,661 more than the amount reported in Note 2 - Unemployment Insurance Expenditures. In addition, the Notes did not include the correct program name. After we notified the DOA of these errors, the DOA revised the statewide SEFA and the Notes.
- Amounts shown in the "Amount Provided to Subrecipients" column for some programs were overstated because the DOA lacks procedures to ensure amounts transferred from one state agency to another state agency are not reported in this column. For example, the amount reported for the Child Care and Development Block Grant (Assistance Listing No. 93.575) was overstated by \$19,486,185, which represents transfers from the Department of Social Services to the Department of Elementary and Secondary Education.

Part 3-M-1 of the Compliance Supplement states, "Transfers of federal awards to another component of the same auditee under 2 CFR Part 200, Subpart F, do not constitute a subrecipient or contractor relationship." Since this error did not result in a material misstatement to the SEFA, no correction was made by the DOA.

The errors occurred without detection due to (1) staff turnover, (2) inadequate documented procedures for preparing the SEFA, and (3) inadequate review procedures.

## Conclusions

Strong internal control is necessary to ensure the SEFA is prepared timely, accurately, and in compliance with federal requirements. Regulation 2 CFR Section 200.510(b) requires the recipient of federal awards to prepare a SEFA including federal awards expended for each federal program. Regulation 2 CFR Section 200.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

## Recommendation

The OA through the DOA strengthen controls and procedures to prepare a timely and accurate statewide SEFA. Such procedures should provide for proper reporting of subrecipient amounts.

## Auditee's Response

*We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.*

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

**2023-012.**  
**CACFP Subrecipient**  
**Reimbursements**

Federal Agency:	United States Department of Agriculture (USDA)
Federal Program:	10.558 Child and Adult Care Food Program (CACFP) 2021, 2022, 2023 - CACFP 2021, 2022, 2023 - CACFP-CIL 2022 and 2023 - CACFP-SPON
State Agency:	Department of Health and Senior Services (DHSS) - Bureau of Community Food and Nutrition Assistance (BCFNA)
Type of Finding:	Internal Control (Material Weakness) and Noncompliance
Questioned Costs:	\$0

The BCFNA does not have sufficient controls and procedures to ensure CACFP reimbursements to subrecipients are allowable and supported with sufficient documentation. As a result, significant unallowable and unsupported reimbursements are made without being prevented or detected on a timely basis.

The BCFNA administers the CACFP through contracts with child and adult care centers and sponsors of centers (subrecipients) that provide meals to eligible children and adults under their care. The facilities/sponsors determine eligibility of each participant for free or reduced price meals, and are reimbursed at fixed rates for the number and type of meals served. During the year ended June 30, 2023, the BCFNA paid over 750 facilities/sponsors approximately \$75 million for meal services. Disbursements to facilities/sponsors represented approximately 98 percent of the program's expenditures.

To receive reimbursement for meals provided to eligible participants, CACFP facilities/sponsors submit monthly claims through the CNPWeb (CNP) claim system. The CNP system has edit checks to prevent and detect certain claim errors, such as meal claims that exceed facility/sponsor total enrollment and/or license capacity, or claims for types of meals the facility/sponsor was not approved to serve. Claims that pass the edit checks are reviewed by a BCFNA Public Health Program Associate, while claims that do not pass the edit checks are returned to the facility/sponsor for revision. Facilities/sponsors are not required to provide supporting documentation with their claim. Facilities/sponsors are required to maintain and retain detailed records, including meal count, attendance, enrollment and eligibility determination records, receipts, menus, and other documentation to support meals claimed. BCFNA nutritionists perform periodic monitoring reviews of the facilities/sponsors and disallow costs associated with claim errors identified. These reviews have identified significant issues and claim errors, including some potentially fraudulent activity, and led to over 15 contract terminations in recent years.

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

Since meal reimbursements are made without any supporting documentation, the BCFNA relies on system edit checks and subrecipient monitoring procedures to prevent and detect meal reimbursement claim errors. However, these edits and procedures alone are not sufficient to prevent and detect unallowable and unsupported meal reimbursement claims on a timely basis. The BCFNA has not implemented procedures to review supporting documentation, at least on a test basis, except for testing performed during routine monitoring reviews generally conducted once every 1 to 3 years for each facility/sponsor, and technical assistance reviews performed at the request of the facility/sponsor. Additionally, as noted in finding number 2023-013, weaknesses in the BCFNA monitoring procedures were identified.

Our review of documentation supporting a randomly-selected sample of 60 BCFNA monitoring reviews conducted for 58 CACFP facilities/sponsors<sup>16</sup> during the year ended June 30, 2023, noted BCFNA disallowances (overclaims/underclaims) in 41 of 58 (71 percent) reviews for which meal reimbursement claims were tested.<sup>17</sup> Overclaims totaled \$50,954 (36 reviews) and underclaims totaled \$280 (5 reviews), with a net overclaim of \$50,674, or at least 11 percent of claims tested by the BCFNA.<sup>18</sup> Disallowances resulted from various errors including incorrect or unsupported eligibility determinations, meal counts, attendance records, or noncompliance associated with menus and food purchases. The BCFNA adjusted subsequent claims to recoup or reimburse for the identified overclaims/underclaims.<sup>19, 20</sup> Erroneous and unsupported reimbursements represent at least 11 percent of meal reimbursements tested. If similar errors were made on the remaining population of CACFP meal reimbursements totaling approximately \$74.6 million, unallowable costs could be significant.

Without sufficient controls to ensure the accuracy of facility/sponsor meal reimbursement claims, the BCFNA cannot demonstrate adequate internal controls to ensure CACFP costs are allowable and supported, and the risk of paying unsupported and unallowable claims will continue. Regulation 7 CFR

<sup>16</sup> Our sample included 2 facilities/sponsors that each had 2 monitoring reviews selected in the sample.

<sup>17</sup> The BCFNA did not quantify overclaim amounts for 2 reviews that resulted in termination. See finding number 2023-013.

<sup>18</sup> For each facility/sponsor reviewed, the BCFNA tested claims within a test month, and claims totaled \$482,654 during the test months.

<sup>19</sup> For overclaims, the BCFNA recoups amounts in excess of a \$100 threshold, established in accordance with 7 CFR Section 226.8(f) which states in conducting management evaluations, reviews, or audits, the state agency or the USDA may disregard an overpayment if the overpayment does not exceed \$600. A state agency may establish an alternate disregard threshold that does not exceed \$600. No overpayment is to be disregarded where there is substantial evidence of violations of criminal law or civil fraud statutes.

<sup>20</sup> If overpayments of \$100 or less are excluded, the error rate is at least 10 percent. If overpayments of \$600 or less are excluded, the error rate is at least 9 percent.

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

Section 226.7(k) requires the BCFNA to establish procedures for institutions to properly submit claims for reimbursement. Such procedures must include edit checks, including but not limited to, ensuring payments are made only for approved meal types and that the number of meals for which reimbursement is provided does not exceed the product of the total enrollment times operating days times approved meal types. Regulation 2 CFR Section 200.403 provides that costs charged to federal programs should be necessary and reasonable for the performance of the federal award and adequately documented. Furthermore, 2 CFR Section 200.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-federal entity is managing that Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. These internal controls should be in compliance with guidance in *Standards for Internal Control in the Federal Government*, issued by the Comptroller General of the United States or the *Internal Control Integrated Framework*, issued by the Committee of Sponsoring Organizations of the Treadway Commission."

Finding classification

This finding is classified as a material weakness in internal control and material noncompliance with the federal activities allowed, allowable costs, and subrecipient monitoring requirements.

The noncompliance identified in the finding is material based on the results of our audit sample, which identified at least 11 percent of subrecipient meal reimbursements tested by the BCFNA were not in compliance with federal requirements. The 11 percent error rate exceeds our audit materiality threshold of 4 percent. While the errors identified in the finding were corrected, similar material noncompliance in the remainder of the payments not tested is likely.

Our decisions regarding the classification of the internal control deficiencies were made in accordance with AU-C Section 935, Compliance Audits, and the *AICPA Audit Guide: Government Auditing Standards and Single Audits* (Audit Guide). The Audit Guide provides the following definitions regarding internal control deficiencies: "A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis." "A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis." "A reasonable possibility exists when the likelihood of the event is either *reasonably possible* or *probable* ..." *Reasonably possible* is "[t]he chance of

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

the future event or events occurring is more than remote but less than likely." *Probable* means "[t]he future event or events are likely to occur."

The failure to design and implement adequate controls and procedures to ensure CACFP reimbursements to subrecipients are allowable and supported led to material noncompliance with the applicable requirements. The BCFNA's controls failed to prevent the material noncompliance identified. While the BCFNA's controls detected and corrected the payment errors identified, the detection and correction was not timely, occurring up to 3 years after the payments were made. Also, the detection and correction was limited to only 1 test month per subrecipient without any attempt to identify and correct noncompliance that occurred beyond the test month because, as noted at finding number 2023-013, the BCFNA's controls do not provide for expanded testing when significant errors are identified. Therefore, similar, material noncompliance in the remainder of the payments not tested is likely. Further, because the internal control deficiencies have not been corrected, similar, material noncompliance in future payments is likely. For these reasons, the deficiencies are considered a material weakness.

Recommendation

The DHSS through the BCFNA strengthen internal controls over meal reimbursements to CACFP facilities/sponsors to ensure costs are allowable and supported.

Auditee's Response

*We disagree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement.*

Auditor's Comment

The DHSS Corrective Action Plan (CAP) states the DHSS disagrees with the State Auditor's Office (SAO) finding; and believes BCFNA controls over meal reimbursements are strong, the BCFNA is in full compliance with all requirements, and no corrective action is needed. However, in making these statements, the DHSS has failed to recognize and acknowledge existing subrecipient reimbursement and monitoring procedures have allowed serious and material subrecipient noncompliance.

Regulation 7 CFR Section 226.7(k) requires the BCFNA to establish procedures for subrecipients to properly submit claims for reimbursement. Given the level of material subrecipient noncompliance that has and continues to occur, BCFNA procedures are clearly not sufficient to prevent future noncompliance. The BCFNA has focused on individual components of its systems, but has not holistically evaluated whether the procedures, collectively and in their entirety, comply with the federal requirements intended to ensure subrecipient reimbursements are allowable and supported. The BCFNA continues to strictly follow existing procedures without making adequate adjustments to address and mitigate the serious subrecipient reimbursement problems. Recognizing problems and reacting to those

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

problems are critical components of an effective internal control structure designed to ensure compliance with the federal requirements.

The DHSS CAP argues the 11 percent error rate, based on the sample of monitoring reviews performed during the year ended June 30, 2023, is inflated because the reviews are proportionally more likely to include a higher number of claims with discrepancies. However, this error rate is just one indicator of the serious ongoing subrecipient problems.

The DHSS CAP includes various misrepresentations of the contents of the finding and the recommendation. These statements, which attempt to negate or reduce the significance of the noncompliance noted in the finding, are listed below (in quotes):

1) "The SAO has not noted any specific noncompliance with federal requirements regarding subrecipient monitoring." This statement is incorrect. The finding states the BCFNA has not complied with 7 CFR Section 226.7(k) requirements (and related Uniform Guidance requirements) regarding procedures for ensuring claims are properly submitted. Furthermore, finding number 2023-013 states the BCFNA did not comply with overall federal subrecipient monitoring requirements as well as specific components of those requirements, including properly following up and ensuring subrecipients take timely and appropriate action on all deficiencies identified and disallowing and recovering improper payments.

2) "Reviewing supporting documentation with every individual reimbursement claim at the time of submission as suggested in the finding..." This statement is incorrect. The finding does not suggest or recommend that the BCFNA require or review documentation for every claim prior to payment. Instead, the finding recommends the BCFNA strengthen internal controls over meal reimbursements to ensure costs are allowable and supported.

3) "Out of the SAO's test sample of 60 monitoring reviews, only 9 of the overclaims were over the \$600 threshold of acceptable risk set by the USDA." This statement is incorrect. Of the 36 sampled monitoring reviews with overclaims totaling \$50,954, 13 reviews with overclaims totaling \$46,724, were in excess of \$600. As noted in the finding, if the remaining 23 overpayments of \$600 or less, totaling \$4,230 are excluded, the error rate is at least 9 percent.

Subrecipient data clearly shows significant subrecipient noncompliance is occurring within the CACFP program. These problems cannot be denied and should not be ignored. Until the DHSS recognizes these problems, acknowledges there are weaknesses in its existing procedures, and takes

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

action to strengthen its procedures, significant improper payments to subrecipients will likely continue.

**2023-013.  
CACFP Subrecipient  
Monitoring**

Federal Agency:	United States Department of Agriculture (USDA)
Federal Program:	10.558 Child and Adult Care Food Program (CACFP) 2021, 2022, 2023 - CACFP 2021, 2022, 2023 - CACFP-CIL 2022 and 2023 - CACFP-SPON
State Agency:	Department of Health and Senior Services (DHSS) - Bureau of Community Food and Nutrition Assistance (BCFNA)
Type of Finding:	A - Internal Control (Significant Deficiency) and Noncompliance B - Internal Control (Material Weakness) and Noncompliance
Questioned Costs:	Unknown

BCFNA subrecipient risk assessment and monitoring procedures are not sufficient to ensure CACFP subrecipient compliance with program requirements. During the year ended June 30, 2023, the BCFNA disbursed approximately \$75 million to over 750 CACFP subrecipients, which consist of child and adult care centers and sponsors of centers. Disbursements to subrecipients represented approximately 98 percent of the program's expenditures.

As part of its pass-through responsibilities, 7 CFR Section 226.6(a)(5), the BCFNA is required to ensure subrecipients effectively operate the program. Regulation 2 CFR Section 200.332(b) requires pass-through entities to evaluate each subrecipient's risk of noncompliance with federal statutes, regulations, and the terms and conditions of the subaward for purposes of determining the appropriate subrecipient monitoring. Regulation 2 CFR Section 200.332(d) requires pass-through entities to monitor the activities of the subrecipient as necessary to ensure the subaward is used for authorized purposes, complies with the terms and conditions of the subaward, and achieves performance goals.

The BCFNA's subrecipient monitoring process, outlined in the Internal Nutritionist Manual, provides the requirements for monitoring the CACFP facilities/sponsors. The manual provides the planned frequency and type of monitoring activities, monitoring methods, and corrective action requirements. The manual requires the preparation of a risk assessment at the end of each monitoring review that assigns a grade of A, B, B-, or C to the facility/sponsor based on the number and severity of deficiencies and findings. Facilities/sponsors that receive a C grade are determined to be "Seriously Deficient." The assigned grade determines the required timing of future monitoring reviews of the facility/sponsor. Facilities/sponsors with an

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

A grade will be next monitored in 3 years, a B grade within 2 years, a B-grade within 6 months to 1 year, and a C grade within 90 days.

During each monitoring review, BCFNA personnel review documentation supporting a sample of claims during a test month. Any identified errors and associated overclaims/underclaims exceeding established thresholds<sup>21</sup> are recouped/reimbursed in the facility's/sponsor's future claims. When reviews identify noncompliance, facilities/sponsors are required to prepare and submit a Corrective Action Plan (CAP) to the BCFNA. In addition, as noted at finding number 2023-012, the BCFNA relies on these subrecipient monitoring procedures to prevent and detect meal reimbursement claim errors. Monitoring reviews have identified significant issues and claim errors, including some potentially fraudulent activity, and led to over 15 contract terminations in recent years.

To test compliance with subrecipient monitoring requirements, and to evaluate the effectiveness of BCFNA monitoring procedures, we reviewed and analyzed a randomly-selected sample of 60 BCFNA monitoring reviews conducted for 58 CACFP facilities/sponsors<sup>22</sup> during the year ended June 30, 2023. While our review found the sample monitoring reviews were performed in accordance with the policies and procedures outlined in the Internal Nutritionist Manual, we identified areas where these policies and procedures could be strengthened and improved to ensure facilities/sponsors comply with program requirements and submit proper claims.

Our review and analysis of the 60 sampled monitoring reviews noted the monitoring reviews identified significant errors, noncompliance, disallowances, and overclaims. Our comparison of the sampled reviews to prior reviews noted deficient facilities/sponsors generally had continued deficiencies and little improvement from prior reviews, as shown below:

- 30 facilities/sponsors received an A grade, while 28 received grades of B, B-, or C
- Of the 26 facilities/sponsors that received grades of B, B-, or C, and had a prior review, 19 (73 percent)<sup>23</sup> received the same or lower grade than the prior review

<sup>21</sup> For overclaims, the BCFNA recoups amounts in excess of a \$100 threshold, established in accordance with 7 CFR Section 226.8(f) which states in conducting management evaluations, reviews, or audits, the state agency or the USDA may disregard an overpayment if the overpayment does not exceed \$600. A state agency may establish an alternate disregard threshold that does not exceed \$600. No overpayment is to be disregarded where there is substantial evidence of violations of criminal law or civil fraud statutes.

<sup>22</sup> Our sample included 2 facilities/sponsors that each had 2 monitoring reviews selected in the sample.

<sup>23</sup> 7 (27 percent) received a higher grade than the prior review, 6 (23 percent) received the same grade, and 13 (50 percent) received a lower grade.

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

- Of the 5 facilities/sponsors that received a C grade and had a prior review, 2 (40 percent) received the same grade as the prior review, and 3 (60 percent) received a lower grade than the prior review
- 2 of the 5 facilities/sponsors that received a C grade were terminated as a result of the review or a subsequent 90-day follow-up review
- For 41 of 58 (71 percent) monitoring reviews for which the BCFNA tested claims<sup>24</sup> (with claims totaling \$482,654 during the test months), the BCFNA identified net overclaims totaling \$50,674, or at least 11 percent of the reimbursements tested.<sup>25</sup>

A. Risk Assessments

The BCFNA prepares and uses risk assessments to determine the extent of monitoring necessary for each facility/sponsor. However, these risk assessments consider only the previous monitoring review grade (conducted up to 3 years previously), and do not consider other pertinent risk factors outlined in federal regulations. Regulation 2 CFR Section 200.332(b) suggests risk assessments should consider the subrecipient's prior experience with the same or similar subawards, the results of previous audits, whether the subrecipient has new personnel or new or substantially-changed systems, and the extent and results of federal awarding agency monitoring. Upon our inquiries about these risk factors, BCFNA officials indicated they are not required to consider these other factors in the risk assessments.

While federal regulations provide the BCFNA discretion in selecting risk factors to consider, limiting risk assessments to only one risk factor and ignoring other relevant factors hinders the BCFNA's ability to identify red flags and fraud risk factors and properly assess facility/sponsor risk of noncompliance. Sufficient risk assessments are necessary to ensure monitoring reviews are conducted with adequate frequency to help ensure subrecipient compliance with program requirements.

Finding classification

This finding is classified as a significant deficiency in internal control and nonmaterial noncompliance with the federal subrecipient monitoring requirements regarding risk assessments.

As noted in the finding, BCFNA risk assessments do not meet the spirit of the federal regulation which suggests the extent and level of monitoring for each subrecipient be based on various risk factors. As a result, there is a risk that monitoring reviews will not be performed as frequently and thoroughly as needed to identify and address subrecipient noncompliance. Because the

<sup>24</sup> The BCFNA did not quantify overclaim amounts for 2 reviews that resulted in termination, as subsequently discussed in this finding.

<sup>25</sup> If overpayments of \$100 or less are excluded, the error rate is at least 10 percent. If overpayments of \$600 or less are excluded, the error rate is at least 9 percent.

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

BCFNA does perform risk assessments for each subrecipient and does monitor the subrecipients with lower grades with more frequency, the finding did not rise to a level of material noncompliance, and was therefore considered nonmaterial noncompliance.

Our decisions regarding the classification of the internal control deficiencies were made in accordance with AU-C Section 935, Compliance Audits and the *AICPA Audit Guide: Government Auditing Standards and Single Audits* (Audit Guide). In addition to the definitions outlined in part B of this finding, the Audit Guide states "[a] *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance." Our evaluation of the deficiencies for the possibility and magnitude of potential noncompliance determined the deficiencies are considered a significant deficiency.

B. Subrecipient Monitoring  
Procedures

Our review of BCFNA subrecipient monitoring procedures noted areas that should be strengthened and improved.

Corrective action plans

BCFNA CAP review procedures are not adequate to ensure facilities/sponsors have made or planned sufficient corrective actions to address noncompliance, as required by federal regulations.

The Internal Nutritionist Manual requires nutritionists to review subrecipient CAPs outlining corrective actions taken or planned for completeness and to ensure the required action items are adequately addressed. However, this review is generally performed without verifying the accuracy of the CAP information through review of supporting documentation, testing, or other methods. The BCFNA does not require submission of supporting documentation of corrective actions taken or planned. BCFNA officials indicated they may request supporting documentation on occasion depending on the complexity of the finding; and indicated they verify the CAP during 90-day follow-up reviews of Seriously Deficient facilities/sponsors.

Of the 60 monitoring reviews in our sample, 51 required a CAP. The monitoring review documentation indicated the CAP was verified during the five 90-day follow-up reviews and one technical assistance review, but there was no documentation that the nutritionist verified the CAP information for any of the remaining 45 reviews (88 percent of the 51 reviews that required a CAP). Furthermore, our review of monitoring review documentation noted numerous instances where the prior year CAP indicated a specific deficiency was addressed, but the same deficiency was again noted in the subsequent review.

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

Regulation 2 CFR Section 200.332(d) provides that monitoring must include following up and ensuring the subrecipient takes timely and appropriate action on all deficiencies identified. The USDA CACFP handbook, *Monitoring Handbook for State Agencies* (USDA Monitoring Handbook), provides that follow-up reviews (on-site or desk reviews of paperwork) may be conducted any time corrective action is required to ensure the facility/sponsor has completely corrected the review findings, according to their approved corrective action response. Example CAP forms included in the USDA Monitoring Handbook require facilities/sponsors to submit supporting documentation along with the CAP to verify corrections were made or will be implemented. The USDA CACFP handbook, *Serious Deficiency, Suspension, & Appeals for State Agencies & Sponsoring Organizations*, provides that facilities/sponsors deemed Seriously Deficient must submit additional supporting documentation with the CAP to document that corrective actions have occurred; this might include copies of income eligibility forms, enrollment rosters, staff training documentation, site monitoring reports, menus, child nutrition labels or manufacturers' product analysis sheets or recipes, attendance records, meal count forms, and itemized food receipts.

BCFNA officials stated they believe their practices comply with federal regulations. They also stated they believe federal regulations do not require physical verification or review of supporting documentation to verify the CAPs immediately at the time of submission, and following up during the next scheduled review is allowed. Without verifying information in CAPs submitted, the BCFNA cannot demonstrate compliance with federal regulations and lacks assurance the facilities/sponsors took timely and appropriate action on all deficiencies identified during monitoring reviews. In addition, there is increased risk that deficiencies will not be corrected and will continue without detection.

#### Claims testing

The Internal Nutritionist Manual and monitoring practices provide for testing of a sample of claims within only 1 test month during each monitoring review, and do not provide for expanded testing when significant errors are identified.

BCFNA personnel indicated monitoring reviews are limited to only 1 test month since the USDA Monitoring Handbook does not require expanded testing of records beyond 1 month. While the BCFNA performs additional testing during 90-day follow-up reviews for facilities/sponsors deemed Seriously Deficient, additional testing is not performed in any other situation. For example, one facility had a 43% overpayment rate and received a B grade and another facility had a 29% overpayment rate and received a B- grade; however, additional testing was not performed for either facility and subsequent monitoring was not yet scheduled for 2 years and 1 year, respectively.

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

The USDA Monitoring Handbook suggests testing activities during 1 test month, and also suggests the state agency may determine additional review is warranted and review records beyond the test month to determine the extent of the noncompliance. When significant errors are identified, additional testing would help BCFNA nutritionists determine the extent that instances of noncompliance are isolated versus pervasive. Such information would be valuable to the overall conclusions and grade assigned to the review, and in decisions regarding subsequent monitoring.

Overclaim recoupment

BCFNA subrecipient monitoring procedures do not provide for identification and pursuit of recoupment of all overpayments associated with errors identified during monitoring reviews.

When overclaims due to noncompliance with eligibility requirements are identified during monitoring reviews, the BCFNA only identifies and seeks recoupment for the overclaims made during the test month. Overclaims associated with eligibility errors begin at the time the eligibility determination was made and continue until the error is discovered. Although the BCFNA is aware noncompliance occurred during the month(s) before the test month, the BCFNA does not attempt to identify those overclaims.

In addition, when a facility/sponsor is terminated, the BCFNA does not always identify or seek recoupment of overclaim amounts. In our sample of 60 monitoring reviews, contracts for 2 sponsors were terminated as a result of a 90-day follow-up review. For these 2 sponsors, in the reviews prior to the 90-day follow-up reviews, the BCFNA identified and recouped significant overclaims (\$21,998, or 99 percent of total claims tested for one sponsor; and \$3,501, or 64 percent, for the other sponsor). In the subsequent 90-day follow-up reviews for these 2 sponsors, significant claim errors were identified in the test month claims, which totaled \$12,445; however, the test month claims were not fully tested, and overclaims were not identified or recouped. Any overclaims not identified and recouped from these 2 terminated sponsors would be considered questioned costs; however, those questioned costs are unknown.

BCFNA officials indicated they do not pursue recoupment of overclaims beyond the test month because this practice is allowed by the USDA. They indicated they pursue recoupment of overclaims for facilities/sponsors with terminated contracts on a case-by-case basis, considering various factors. However, 7 CFR Section 226.14 provides that state agencies shall disallow and recover any portion of a claim for reimbursement not properly payable, including claims not made in accordance with recordkeeping requirements. Pursuing full recoupment would hold facilities/sponsors accountable for all overclaims and would serve as a deterrent to future errors, noncompliance, and overclaims. Furthermore, without procedures to identify and recoup all

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

overclaims, there is a risk that significant overclaims will go undetected and unrecovered, and questioned costs could be significant.

## Conclusions

In addition to complying with federal requirements, strong subrecipient monitoring procedures are necessary to ensure facilities/sponsors comply with program requirements, submit proper claims, and address deficiencies identified. Without strong internal controls, there is increased risk of noncompliance, errors, fraud, waste, and abuse of federal funds. Strong monitoring procedures would ensure facilities/sponsors are held accountable for and correct errors and noncompliance identified. The BCFNA should enhance procedures to provide for verification of CAPs and identification and recoupment of overclaims associated with all errors identified during monitoring reviews, as required by federal regulations; and expand testing when significant errors are identified.

Regulation 2 CFR Section 200.332(g) requires pass-through entities to consider whether the results of the subrecipient's audits, on-site reviews, or other monitoring indicate conditions that necessitate adjustments to the pass-through entity's own records. Furthermore, 2 CFR Section 200.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-federal entity is managing that Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. These internal controls should be in compliance with guidance in *Standards for Internal Control in the Federal Government*, issued by the Comptroller General of the United States or the *Internal Control Integrated Framework*, issued by the Committee of Sponsoring Organizations of the Treadway Commission."

## Finding classification

This finding is classified as a material weakness in internal control and material noncompliance with the federal subrecipient monitoring requirements.

Our audit of the BCFNA's compliance with federal subrecipient monitoring requirements concluded the BCFNA did not materially comply with federal requirements to ensure subrecipients effectively operate the CACFP and to monitor the activities of the subrecipient as necessary to ensure the subaward is used for authorized purposes, complies with the terms and conditions of the subaward, and achieves performance goals. This conclusion is based on the facts, deficiencies, and noncompliance stated in the finding, including the following: 1) Disbursements to subrecipients represented approximately 98 percent of the CACFP expenditures. 2) BCFNA subrecipient monitoring reviews identified significant errors, noncompliance, disallowances, and overclaims; and deficiencies identified often continued for years with little improvement from review to review. The 11 percent subrecipient payment error rate identified by the BCFNA, which exceeds our audit materiality threshold of 4 percent, along with the high rate of continued noncompliance,

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

serve as indicators of the effectiveness or ineffectiveness of the BCFNA monitoring process. 3) The BCFNA did not comply with specific components of federal subrecipient monitoring requirements, including properly following up and ensuring subrecipients take timely and appropriate action on all deficiencies identified and disallowing and recovering improper payments. 4) Multiple deficiencies in monitoring procedures were identified, including the previously-listed deficiencies and inadequate payment testing.

In conducting a single audit in accordance with 2 CFR Part 200 (Uniform Guidance), auditors are required by 2 CFR Section 200.514(d)(1)(2), to determine whether the auditee has complied with federal statutes, regulations, and the terms and conditions of federal awards that may have a direct and material effect on each of its major programs, as outlined in the OMB *Compliance Supplement*. While compliance with the USDA CACFP handbooks was considered in the our audit, our conclusion on compliance is based on the BCFNA's compliance with the federal statutes and regulations, as required.

Our decisions regarding the classification of the internal control deficiencies were made in accordance with AU-C Section 935, Compliance Audits and the Audit Guide. The Audit Guide provides the following definitions regarding internal control deficiencies: "*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis." "*A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis." "A reasonable possibility exists when the likelihood of the event is either *reasonably possible* or *probable*..." *Reasonably possible* is "[t]he chance of the future event or events occurring is more than remote but less than likely." *Probable* means "[t]he future event or events are likely to occur."

The failure to design and implement adequate controls and procedures over subrecipient monitoring led to material noncompliance with the subrecipient monitoring requirements. The BCFNA's controls failed to develop an effective subrecipient monitoring process that ensures subrecipients use subawards for authorized purposes, comply with the terms and conditions of the subawards, and achieve performance goals. Because the internal control deficiencies have not been corrected, it is probable that the material noncompliance will continue. For these reasons, the deficiencies are considered a material weakness.

Recommendations

The DHSS through the BCFNA:

- A. Implement a CACFP subrecipient risk assessment process that is consistent with federal regulations.
- B. Review, strengthen, and enforce subrecipient monitoring procedures to ensure CACFP facilities/sponsors comply with program requirements, submit proper claims, and address deficiencies identified. The BCFNA should enhance procedures to provide for verification of CAP information and identification and recoupment of overclaims associated with all errors identified during monitoring reviews, as required by federal regulations; and expand testing when significant errors are identified. The DHSS should identify and recoup the overclaims for the 2 terminated sponsors noted in this finding.

Auditee's Response

- A. *We disagree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement.*
- B. *We disagree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement.*

Auditor's Comment

**Finding A.**

The DHSS Corrective Action Plan (CAP) states the DHSS disagrees with the State Auditor's Office (SAO) recommendation because they believe the BCFNA risk assessment process considers relevant information and complies with the substance and spirit of the federal regulations. During the audit, BCFNA officials stated their risk assessments consider only one risk factor because they are not required to consider all suggested risk factors outlined in 2 CFR Section 200.332(b). However, in their CAP, the DHSS claims the BCFNA formal risk assessment process considers all suggested risk factors.

During our audit, the documented risk assessments completed by DHSS for the 58 sampled subrecipients showed the BCFNA only considered one risk factor, and did not consider other pertinent risk factors outlined in 2 CFR Section 200.332(b), which contradicts the DHSS position presented in their CAP.

Additionally, the CAP indicates considerations for new personnel or systems are made during onsite monitoring visits; however, 2 CFR Section 200.332(b) requires these considerations to be evaluated prior to the monitoring visit as part of the risk assessment process.

**Finding B.**

The DHSS CAP states the DHSS disagrees with the SAO's recommendation that monitoring procedures should be strengthened. The CAP states the DHSS believes the BCFNA has a strong system of internal controls over

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

subrecipient monitoring documented in the Internal Nutritionist Manual and believes these controls are in compliance with federal regulations. However, in making these statements, the DHSS has failed to recognize and acknowledge existing subrecipient monitoring procedures have allowed serious and material subrecipient noncompliance.

As part of its pass-through responsibilities outlined in the federal regulations, the BCFNA is required to ensure subrecipients comply with federal regulations and terms and conditions of the subaward, and effectively operate the program. Given the level of material subrecipient noncompliance that has occurred and continues to occur, BCFNA subrecipient monitoring procedures are clearly not sufficient to prevent future noncompliance. The BCFNA has focused on individual components of its systems, but has not holistically evaluated whether the procedures, collectively and in their entirety, comply with the federal subrecipient monitoring requirements. The BCFNA continues to strictly follow existing procedures without making adequate adjustments to address and mitigate the serious subrecipient problems. Recognizing problems and reacting to those problems are critical components of an effective internal control system designed to ensure compliance with the federal requirements.

The finding addresses three specific aspects of the BCFNA subrecipient monitoring program that could be strengthened to help bring the BCFNA into overall compliance with federal subrecipient monitoring requirements. Some individual processes are not in compliance with federal regulations and some could be improved by doing more than what is minimally required. The DHSS CAP argues they are in full compliance with each of these aspects and no improvements are needed.

Corrective action plans

The DHSS CAP claims the BCFNA process to verify subrecipient CAPs during the next scheduled review is in compliance with federal regulations which require the BCFNA to ensure subrecipients take timely and appropriate action. While verifications performed during 90-day follow up reviews would be considered timely, for verifications conducted 6 months to 3 years after receipt of the subrecipient CAP, it is impossible for the BCFNA to ensure corrective action was taken within timeframes indicated in the subrecipient CAP or to demonstrate compliance with this monitoring requirement. The DHSS CAP claims this process is in accordance with USDA regulations; however, as noted in the finding, USDA guidance suggests the BCFNA perform follow up reviews to ensure the subrecipient has completely corrected the review findings. When follow up reviews are not performed timely, the BCFNA has no assurance that subrecipients are in compliance with their CAPs.

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

---

Claims testing

The DHSS CAP claims BCFNA procedures are adequate since they comply with the minimum USDA guidance for testing claims. The CAP further claims the Internal Nutritionist Manual allows for, and the BCFNA conducts, expanded testing beyond the test month when warranted. However, the manual does not mention testing beyond the test month, and no expanded testing was performed for any of the 60 sampled monitoring reviews. The finding notes instances where subrecipients had significant overpayment rates (43% and 29%), yet no additional testing was performed and subsequent monitoring was not scheduled for 1 or 2 years. This indicates the DHSS claims testing could be improved to ensure compliance with subrecipient monitoring responsibilities.

Overclaim recoupment

The DHSS CAP claims the BCFNA practice to pursue recoupment of overclaims for only the test month is adequate since this minimum practice is allowed by the USDA. This practice could be viewed as an incentive for subrecipients to intentionally overclaim meals, knowing that only 1 month of overclaims (out of a period up to 3 years since the last monitoring review) would be subject to repayment.

The CAP also claims recoupment of overclaims is pursued for subrecipients with terminated contracts on a case-by-case basis; however, such recoupment was not pursued for the 2 applicable sampled reviews with significant claims errors identified in the test month. Without pursuing recoupment of overclaims, the BCFNA is not in compliance with 7 CFR Section 226.14 and lacks strong policies for deterring future noncompliance and overclaims.

The DHSS CAP argues the 11 percent error rate, based on the sample of monitoring reviews performed during the year ended June 30, 2023, is inflated because the reviews are proportionally more likely to include a higher number of claims with discrepancies. However, this error rate is just one indicator of the serious ongoing subrecipient problems.

The DHSS CAP includes various misrepresentations of the contents of the finding. These statements, which attempt to negate or reduce the significance of the noncompliance noted in the finding, are listed below (in quotes):

1) "The SAO has not noted any specific noncompliance with federal requirements regarding subrecipient monitoring." This statement is incorrect. The finding states the BCFNA did not comply with overall subrecipient monitoring requirements as well as specific components of those requirements, including properly following up and ensuring subrecipients take timely and appropriate action on all deficiencies identified and disallowing and recovering improper payments.

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

2) "Out of the SAO's test sample of 60 monitoring reviews, only 9 of the overclaims were over the \$600 threshold of acceptable risk set by the USDA." This statement is incorrect. Of the 36 sampled monitoring reviews with overclaims totaling \$50,954, 13 reviews with overclaims totaling \$46,724, were in excess of \$600. As noted in the finding, if the remaining 23 overpayments of \$600 or less, totaling \$4,230 are excluded, the error rate is at least 9 percent.

Subrecipient data clearly shows significant subrecipient noncompliance is occurring within the CACFP program. These problems cannot be denied and should not be ignored. Until the DHSS recognizes these problems, acknowledges there are weaknesses in its existing procedures, and takes action to strengthen its procedures, significant subrecipient noncompliance will likely continue.

**2023-014.**  
**Medicaid SPPC Participant**  
**Choice Agreements**

Federal Agency:	Department of Health and Human Services (DHHS)
Federal Program:	93.778 COVID-19 - Medical Assistance Program
	93.778 Medical Assistance Program
	2022 - 2205MO5MAP and 2205MO5ADM
	2023 - 2305MO5MAP and 2305MO5ADM
State Agency:	Department of Health and Senior Services (DHSS) - Division of Senior and Disability Services (DSDS)
Type of Finding:	Internal Control (Significant Deficiency) and Noncompliance

The DSDS does not have effective controls in place to ensure Participant Choice Agreements are completed and retained for participants of the State Plan Personal Care (SPPC) program. Required documentation was not on file for 3 of 60 participants reviewed.

The DSDS is responsible for the direct administration of various Medical Assistance Program (Medicaid) funded Home and Community Based Services (HCBS) programs for seniors and adults with disabilities, including the SPPC. During the year ended June 30, 2023, the DHSS made payments totaling approximately \$1 billion on behalf of approximately 71,600 participants of the SPPC.

As part of the initial assessment and annual reassessment process, DSDS personnel are required to ensure a Participant Choice Agreement (DA-3 form) was signed by the participant and the assessor, and uploaded to the CyberAccess web tool. The DSDS uses Participant Choice Agreements to comply with 42 CFR Section 441.725 that requires participants be provided information and given choices regarding their care and that written consent be obtained from the individual. Due to the COVID-19 Public Health Emergency (PHE), the DHSS - Centers for Medicare and Medicaid Services (CMS) approved various requested temporary flexibilities to Medicaid

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

requirements, effective March 2020 to May 11, 2023 (most of the audit period), including waiver of the written consent requirement and permitting documented verbal consent as an alternative.

Assessments and reassessments are completed by either DSDS personnel or provider personnel. DSDS personnel perform quality assurance reviews of assessments and reassessments completed by provider personnel, and are required to ensure a signed Participant Choice Agreement was uploaded or (prior to May 11, 2023) verbal consent was documented. Once the Participant Choice Agreement is uploaded to the CyberAccess web tool by the assessor, the original agreement is not retained to prevent Health Insurance Portability and Accountability Act (HIPAA) breaches. Recently the DSDS identified a weakness in the upload process that has prevented successful upload of some Participant Choice Agreements, and because the original agreements are not retained, there is no record of those agreements.

To test compliance with federal requirements, we reviewed CyberAccess web tool records for 60 randomly-selected participants enrolled in the SPPC program during the year ended June 30, 2023. Of the 60 participants, 51 had assessments/reassessments prior to May 11, 2023 (when documented verbal consent was permitted in lieu of the Participant Choice Agreement), and 9 had assessments/reassessments on or after that date. For the 9 participants with reassessments completed on or after May 11, 2023, a Participant Choice Agreement was not retained in the CyberAccess web tool records for 3. One reassessment was completed by DSDS personnel and 2 were completed by providers. The DSDS quality assurance reviews did not identify the missing agreements. DHSS officials indicated the Participant Choice Agreements were completed but not uploaded to the CyberAccess web tool due to the system upload problem. However, without any documentation, we could not determine whether the Participant Choice Agreements were completed.

Without ensuring Participant Choice Agreements are completed and retained, the DSDS cannot demonstrate the participants were provided the proper choices in care services as required. Regulation 45 CFR Section 75.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

## Recommendation

The DHSS through the DSDS implement procedures to ensure a signed Participant Choice Agreement is completed and retained for all participants of the State Plan Personal Care program. The DSDS should resolve the CyberAccess web tool upload weakness and identify and replace all missing Participant Choice Agreements with newly completed agreements.

2022 and 2023 - XVIIIIMPAC  
State Agency: Department of Health and Senior Services (DHSS) -  
Section for Long Term Care Regulations (SLCR)  
Type of Finding: Noncompliance

As similarly noted in our 2 prior audit reports,<sup>26</sup> the SLCR did not perform facility survey procedures within required timeframes. In our test of compliance with facility survey requirements for 61 surveys performed during the year ended June 30, 2023, we noted some Statements of Deficiencies and Plan of Corrections were sent 11 to 26 days after the survey exit instead of within 10 days, and some facility revisits were completed between 62 and 100 days after instead of within 60 days of the initial survey date.

The DHSS is the state survey agency charged with inspecting providers of the Medical Assistance Program (Medicaid), including hospitals, nursing facilities, and other long-term care facilities. Under 42 CFR Section 431.108, as a basis for participation in Medicaid, providers are subject to survey and certification by the DHHS - Centers for Medicare and Medicaid Services (DHHS-CMS) or the DHSS to ensure providers and suppliers are in compliance with regulatory health and safety standards and conditions of participation. During the year ended June 30, 2023, the DHSS through the SLCR surveyed 548 providers, including 506 long-term care nursing facilities, 11 intermediate care facilities for individuals with intellectual disabilities, and 31 non-deemed hospitals.<sup>27</sup>

<sup>26</sup> See single audit reports at <<https://auditor.mo.gov/AuditReport/Reports?SearchLocalState=35>>, finding numbers 2022-007 and 2021-013.

<sup>27</sup> Non-deemed hospitals are approved for participation in the Medicaid program by the DHSS. Deemed hospitals are approved by the DHHS-CMS.

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

The DHHS-CMS provides the State Operations Manual (SOM) to state agencies as guidelines for the survey and certification of providers. SOM Chapter 2, Section 2728, requires the state agency to mail the provider a copy of Form CMS-2567 (Statement of Deficiencies and Plan of Correction) within 10 working days after the survey exit. In addition, SOM Chapter 7, Section 7317.2, requires onsite revisits for long term care nursing facilities to occur any time between the last correction date on the plan of correction and the 60th day from the survey date to confirm the facility is in substantial compliance, and in certain cases, has the ability to remain in substantial compliance.

To test compliance with survey and certification requirements, we randomly selected 47 long-term care nursing facility surveys, 6 intermediate care facility for individuals with intellectual disabilities surveys, and 8 non-deemed hospital surveys, performed between July 1, 2022, and June 30, 2023. Of the 59 surveys that required a Statement of Deficiencies and Plan of Correction, 19 statements (32 percent) were sent to facilities between 11 and 26 working days after the survey exit instead of within 10 working days as required. In addition, of the 42 long-term care nursing facilities that required a revisit, the revisits to 9 facilities (21 percent) were completed between 62 and 100 days after the initial survey date instead of within 60 days as required.

DHSS officials indicated there were multiple contributing factors for these delays including DHSS staffing shortages, industry labor shortages, insufficient federal funding and increased workloads due to increased volume and severity of complaints received and violations identified, and the backlog of surveys due. DHSS officials further stated they have hired part-time retired surveyors, contracted with outside survey companies, and requested additional staff and increased salaries to help with the increased workload and backlog.

Conducting survey procedures within required timeframes helps to ensure providers are timely notified of deficiencies requiring correction so that timely follow up on those deficiencies can occur to provide assurance facilities are providing services to their clients that are in compliance with health and safety standards and conditions of participation.

Recommendation

The DHSS through the SLCR ensure survey procedures are conducted within required timeframes.

	2022 - 2202MOCCDF
	2023 - 2302MOCCDF
State Agency:	Department of Elementary and Secondary Education (DESE)
Type of Finding:	Internal Control (Significant Deficiency) and Noncompliance
Questioned Costs:	\$439

DESE controls over the Child Care Development Fund (Child Care) program's subsidy payments to child care providers are not sufficient to ensure correct rates are paid. As a result, the DESE overpaid providers for 2 of 60 payments sampled. The Child Care program transferred from the Department of Social Services (DSS) to the DESE, and the DESE became the lead agency responsible for all Child Care program policies and procedures effective August 28, 2021. Through June 2024,<sup>28</sup> the DSS continued to perform certain agreed-upon responsibilities of the program.

The DESE provides subsidy funds to child care providers who serve eligible clients (parents/caregivers). During the year ended June 30, 2023, clients applied to the DSS for participation in the Child Care subsidy program. The DSS maintains client and child eligibility records in the Families and Children Electronic System (FACES) for protective services children (e.g., receiving foster care or adoption assistance benefits); and the Family Assistance Management Information System (FAMIS) for all other children (income maintenance children<sup>29</sup>). The DESE's electronic time and attendance reporting system, the Child Care Business Information Solution (CCBIS), interfaces with the FACES and the FAMIS to process payments to child care providers. During the year ended June 30, 2023, the DESE paid about \$181 million to over 2,400 providers that served approximately 42,200 children of eligible clients. Approximately 25 percent of the children served were protective services children, and approximately 75 percent were income maintenance children.

---

<sup>28</sup> In July 2024, eligibility and authorization responsibilities for the Child Care program transitioned to the DESE.

<sup>29</sup> Children in households receiving financial assistance for the purpose of maintaining a certain income level.

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

Child care providers receive monthly payments based on authorized services and attendance information they submit in the CCBIS. Providers are paid daily rates referenced in the state plan for each child based on the child's age, type of facility, location of facility, daytime versus evening or weekend care, full-time versus half-time care, and protective services/income maintenance status. Except for children in the adoption assistance program for which the income maintenance rate is paid, the rates for children in protective services are higher than the rates for income maintenance children. For example, during the year ended June 30, 2023, the full-time daytime rate for an infant served by a Licensed Center located in Franklin County was \$55.00 for protective services children and \$33.90 for income maintenance and adoption assistance program children.

To test compliance with program requirements, we randomly selected a sample of 60 monthly payments totaling \$35,721 to providers for child care. Of these 60, 15 payments totaling \$15,151 were for protective services children and 45 payments totaling \$20,570 were for income maintenance children. The DESE overpaid child care providers on behalf of 2 protective services children (13 percent) for the month reviewed. The overpayments occurred because the DESE continued to pay the protective services rate after the children were adopted, instead of the lower income maintenance rate. Overpayments for these 2 children for the month reviewed totaled \$605. We questioned the federal share, or \$439 (72.56 percent). The overpayments represent 4 percent of the payments on behalf of protective services children sampled and 2 percent of the total sampled payments. Sampled payments totaled \$35,721 of the approximately \$181 million in total child care subsidy payments for the fiscal year ended June 30, 2023.

The system allowed these overpayments because the DESE does not have sufficient procedures to ensure rates are timely updated in the FACES when protective services children are adopted. For 1 child, who was adopted in December 2019, the DESE continued to pay the higher protective services rate until child care services for the child stopped in February 2023. For the other child, the DESE incorrectly paid the higher rate from the adoption date of June 2022, to the date DESE personnel updated to the correct rate in August 2022.<sup>30</sup> DESE personnel indicated the rates were not updated when required due to miscommunication between the DSS and the DESE regarding adoptions, staffing shortages at both departments, and DESE personnel's limited access to the FACES and the FAMIS.

Without adequate internal controls to ensure subsidy rates are timely updated when changes occur, there is increased risk of overpayments to child care providers that would be unallowable costs of the Child Care program.

<sup>30</sup> Questioned costs associated with months outside the review month were not determined.

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

Regulation 45 CFR Section 75.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award." Regulation 45 CFR Section 98.68(a) requires the lead agency to document in its Child Care subsidy state plan that it has effective controls to ensure integrity and accountability in the program.

## Recommendation

The DESE review, strengthen, and enforce internal controls to ensure the correct Child Care subsidy rates are paid for protective services children who are adopted. The DESE should review payments on behalf of protective services children who were adopted and correct any overpayments identified.

## Auditee's Response

*We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.*

### 2023-017. DESE FFATA Reporting

Federal Agency	Department of Health and Human Services (DHHS)
Federal Program:	93.596 Child Care Mandatory and Matching Funds of the Child Care and Development Fund 2022 - 2202MOCCDF
State Agency:	Department of Elementary and Secondary Education (DESE)
Type of Finding:	Internal Control (Significant Deficiency) and Noncompliance

As similarly noted in our 2 previous audits,<sup>31</sup> the DESE needs to strengthen internal controls related to Federal Funding Accountability and Transparency Act (FFATA) reporting. During state fiscal year 2023, the DESE did not comply with FFATA reporting requirements for any of the 15 first-tier subawards,<sup>32</sup> totaling approximately \$1.2 million, for the Child Care Mandatory and Matching Funds of the Child Care and Development Fund (Child Care) program. FFATA reporting was 15 months past due for these subawards at the time of our review. First-tier subaward payments accounted for less than 1 percent of the program's expenditures.

The FFATA requires comprehensive reporting for certain federal awards to promote transparency and accountability over the use of the federal funds. Regulation 2 CFR Part 170, Appendix A, requires the DESE to report first-tier subawards of \$30,000 or more to the FFATA Subaward Reporting System

<sup>31</sup> See single audit reports at <<https://auditor.mo.gov/AuditReport/Reports?SearchLocalState=35>>, finding numbers 2022-009 and 2021-016.

<sup>32</sup> First-tier subawards are federal awards made to non-federal entities by the prime award recipient, in this case the DESE, on behalf of the federal awarding agency, the DHHS.

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

(FSRS) no later than the end of the month following the month in which the subaward was made. Information entered into the FSRS is publicly available at USASpending.gov.

Internal controls

The DESE did not ensure supervisory reviews of FFATA reporting were performed.

The DESE's FFATA Reporting policies and procedures require the Chief Operating Officer (COO) to verify information is accurately uploaded to the FSRS. However, the COO delegated these duties for some programs to various program liaisons. For example, for the year ended June 30, 2023, the Child Care program FFATA reporting responsibilities were delegated to the Child Care Fiscal Liaison. However, as subsequently noted, the required FFATA reporting was not performed for the Child Care program during the year ended June 30, 2023. Neither individual responsible ensured this information was prepared and uploaded to the FSRS.

Adherence to policies and procedures is necessary to ensure FFATA reporting is completed accurately and timely. Regulation 2 CFR Section 200.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

FFATA reporting

The DESE did not comply with FFATA reporting requirements for the Child Care program. DESE personnel did not report any of the 15 subawards, totaling approximately \$1.2 million, requiring FFATA reporting during state fiscal year 2023, in the FSRS. FFATA reporting was 15 months past due for these subawards, at the time of our review. After we brought this to their attention, DESE personnel prepared and uploaded information for these subawards in the FSRS.

DESE personnel indicated the FFATA reporting errors occurred due to an oversight. In addition to noncompliance with federal requirements, not reporting subawards to the FSRS accurately and timely increases the risk that those using the reports could rely on incomplete information.

Recommendation

The DESE ensure supervisory reviews of FFATA reporting are performed to verify that information is accurately uploaded to the FSRS. In addition, the DESE should complete FFATA reporting in accordance with the applicable requirements for the Child Care program.

Auditee's Response

*We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.*

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

**2023-018.**  
**Missouri National Guard**  
**Cooperative Agreement**  
**Extensions and Final**  
**Accounting**

Federal Agency: Department of Defense (DOD)  
Federal Program: 12.401 National Guard Military Operations and Maintenance (O&M) Projects  
2018 - W912NS-16-2-1001  
2021 - W912NS-16-2-1002  
2021 - W912NS-16-2-1011  
2021 - W912NS-16-2-1023L  
2021 - W912NS-16-2-1024  
2022 - W912NS-16-2-1021S  
State Agency: Missouri National Guard (MONG)  
Type of Finding: Internal Control (Significant Deficiency) and Noncompliance

The MONG does not have adequate controls and procedures to ensure a final accounting and/or a written request(s) for extension is timely filed for each National Guard Military O&M Projects program cooperative agreement (CA) appendix as required. A sample of 9 CA appendixes identified 6 CA appendixes for which the MONG did not complete some extension requests as required and/or did not complete some final accounting and/or extension requests within required timeframes. The MONG expended approximately \$58.2 million in National Guard Military O&M Project program funds during the state fiscal year ended June 30, 2023. Available MONG records showed approximately 23 open CA appendixes as of June 30, 2023.

The MONG entered into a Master Cooperative Agreement (MCA) with the DOD - National Guard Bureau (NGB) to provide support to the Army and Air National Guard in minor construction, maintenance, repair or operation of facilities, and mission operational support to be performed by the state. The MCA consists of the agreement and an appendix for each functional area. CA appendixes are funded with 1-year appropriations, corresponding with the federal fiscal year. Only state costs obligated during the period of the federal fiscal year or period of performance identified in the CA appendixes are reimbursable.

National Guard Regulation (NGR) 5-1, Chapter 11-10, requires the MONG to provide the DOD - NGB United States Property and Fiscal Officer (USPFO) a final accounting of all funding and disbursements under each CA appendix within 90 days of the end of the federal fiscal year, or upon termination of the CA appendix, whichever is earlier. If unliquidated claims and undisbursed obligations will remain outstanding for 90 days or more after the close of the federal fiscal year, the MONG is required to submit a request for extension that includes a detailed listing of all uncleared obligations and a projected timetable for their liquidation and disbursement. Costs not disclosed in the extension requests are not eligible for reimbursement by the NGB.

State of Missouri - Single Audit  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2023

The MONG is responsible for ensuring final accounting and extension requests are filed; however, the MONG has not established adequate procedures to monitor and ensure these documents are filed within required timeframes. The MONG does not maintain a complete and accurate listing of each final accounting and extension request completed for all CA appendixes. To test compliance with period of performance requirements, we reviewed 9 of an estimated 34 CA appendixes<sup>33</sup>, including 5 randomly-selected and 4 judgmentally-selected CA appendixes, that required final accounting and/or extension requests during the state fiscal year ended June 30, 2023. We identified concerns for 6 of the 9 CA appendixes, or 67 percent.

For these 6 CA appendixes, the MONG did not complete some extension requests as required and/or did not complete some final accounting and/or extension requests within required timeframes. For example, for one CA appendix, after the federal fiscal year ended on September 30, 2022, the MONG did not complete the final accounting until July 14, 2023 (over 6 months after the December 31, 2022 deadline), and did not complete any extension requests. For another CA appendix, the MONG completed extension requests for the period ended May 31, 2022, and for the period beginning August 31, 2022, but did not complete an extension request covering the 3-month period in between. The MONG completed an extension request for another CA appendix, for the period April 1, 2022, through March 31, 2023, on October 4, 2022, approximately 6 months after the extension period began.

To ensure compliance with National Guard regulations, the MONG should establish internal controls over final accounting and extension requests. The failure to timely submit final accounting and extension requests as required could result in ineligible reimbursements, and/or federal agency sanctions or disallowances which would cause the state to use its resources to fund these federal projects. Regulation 2 CFR Section 200.303(a) requires the nonfederal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

## Recommendation

The MONG establish controls and procedures to ensure a final accounting of all funding and disbursements and/or a written request(s) for extension is filed for each CA appendix in compliance with National Guard regulations.

<sup>33</sup> Because a complete and accurate listing of each final accounting and extension request completed for all CA appendixes was not maintained, alternative procedures were necessary to identify the CA appendixes requiring final accounting and/or extension requests during the audit period.

## Summary Schedule of Prior Audit Findings

### Year Ended June 30, 2023

---

The Uniform Guidance requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all audit findings included in the prior audit's Schedule of Findings and Questioned Costs. The schedule is also to report the status of findings included in the prior audit's Summary Schedule of Prior Audit Findings, except those that were corrected, no longer valid, or not warranting further action.

The Uniform Guidance requires the auditor to follow up on prior audit findings; perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and report, as a current year audit finding, when the auditor concludes the schedule materially misrepresents the status of any prior audit finding.

SUMMARY SCHEDULE OF PRIOR YEAR AUDIT FINDINGS

The Uniform Guidance requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all audit findings included in the prior audit's Schedule of Findings and Questioned Costs. The Schedule is also to report the status of findings included in the prior audit's Summary Schedule of Prior Audit Findings, except those that were corrected, no longer valid, or not warranting further action.

The attached documents are the Summary Schedule of Prior Audit Findings for the year ended June 30, 2023, and includes all findings from the audit for the Fiscal Year ended June 30, 2022, and certain findings from the audits for the Fiscal Years ended June 30, 2021, 2020, and 2019.

These documents were prepared by the applicable State agencies as noted with each prior year finding.

State of Missouri - Single Audit  
Summary Schedule of Prior Audit Findings  
Year Ended June 30, 2023

**2022 -001.**                    Medicaid National Correct Coding Initiative

**Federal Agency:**        Department of Health and Human Services  
**Federal Program:**       93.767 Children's Health Insure Program  
                                 93.778 COVID-19 - Medical Assistance Program  
                                 93.778 Medical Assistance Program  
**State Agency:**         Department of Social Services (DSS) - MO HealthNet Division (MHD)  
**Similar Findings:**       2021-004 and 2020-002

The MHD had not fully implemented the Medicaid National Correct Coding Initiative (NCCI) edits in the Medicaid Management Information System (MMIS) as required by Section 6507 of the Affordable Care Act (Section 1903(r) of the Social Security Act<sup>1</sup>). Rather than quarterly implementation, the MHD through the MMIS contractor implemented the Procedure-to-Procedure edit files annually; and the MHD did not reprocess claims upon implementation of the edits. In addition, the MHD had not implemented any of the Medically Unlikely Edits files received.

**Recommendation:**

The DSS through the MHD continue to strengthen controls over the NCCI requirements to ensure NCCI edits are fully implemented and reprocess claims paid when edits are not implemented timely, as required.

**Status of Findings:**

MO HealthNet has fully implemented the NCCI edits in the Medicaid Management Information System (MMIS) as of July 1, 2022. The NCCI edits are updated quarterly. Claims will be reprocessed if the edits are not implemented timely.

<sup>1</sup> Title 42 USC 1396b(r)

State of Missouri - Single Audit  
Summary Schedule of Prior Audit Findings  
Year Ended June 30, 2023

**2022-002.**                    Medicaid and CHIP MAGI-Based Participant Eligibility

**Federal Agency:**        Department of Health and Human Services  
**Federal Program:**       93.767 Children's Health Insurance Program  
                                 93.778 COVID-19 - Medical Assistance Program  
                                 93.778 Medical Assistance Program  
**State Agency:**         Department of Social Services (DSS) - MO HealthNet Division (MHD) and  
                                 Family Support Division (FSD)  
**Similar Findings:**       2021-005, 2020-003, and 2019-005

The DSS did not have sufficient controls to ensure compliance with the eligibility requirements of the Medical Assistance Program (Medicaid) and the Children's Health Insurance Program (CHIP) for certain participants whose eligibility is based on their Modified Adjusted Gross Income (MAGI). The DSS did not correct manual system overrides in the Medicaid Eligibility Determination and Enrollment System (MEDES) for some MAGI-based participants, preventing their cases from being closed when necessary.

**Recommendation:**

The DSS through the MHD and the FSD review and correct cases for participants with manual overrides in the MEDES, ensure redeterminations are completed for these participants as required, and close the cases of any ineligible participants. In addition, the DSS should ensure system controls are functioning as designed for these participants.

**Status of Findings:**

The DSS did not agree with the finding. Therefore, there was no corrective action necessary. From the 60 participants selected, the State Auditor Office (SAO) did not identify any participants with previously-established overrides and no incorrect payments were cited.

Section 6008 of the Families First Coronavirus Response Act (FFCRA) required states to provide continuous coverage, through the end of the month in which the Public Health Emergency (PHE) period ended, to all Medicaid beneficiaries. This requirement applied to all participants who were enrolled in Medicaid on or after March 18, 2020, regardless of any changes in eligibility unless the individual voluntarily terminates eligibility, is deceased, or moves out of state. As required by the Centers for Medicaid and Medicare Services (CMS) during the PHE, the DSS had processes in place to terminate eligibility for individuals who are deceased, voluntarily request closure, or report they have moved out of state when a current change is reported.

The Consolidated Appropriations Act, 2023, signed on December 29, 2022, amended section 6008 of the FFCRA such that the continuous enrollment condition ended on March 31, 2023.

CMS issued the Management Decision Letter to the Department of Social Services (DSS) on September 5, 2023. CMS concurred with the recommendation made by the SAO.

During the PHE, the DSS did not conduct reviews of cases that did not report current changes. In accordance with CMS guidance, effective April 1, 2023, Missouri is unwinding from the PHE by completing annual reviews for all MO HealthNet cases over twelve months, including cases with manual overrides. At the time of the review of each case, the DSS will appropriately end MO HealthNet eligibility for all individuals determined to no longer be eligible. Upon completion of reviews for all individuals, including those with manual overrides, DSS will ensure that system controls are functioning as designed.

State of Missouri - Single Audit

Phone Number: 573-751-4269

State of Missouri - Single Audit  
Summary Schedule of Prior Audit Findings  
Year Ended June 30, 2023

**2022-003.**                      Medicaid and CHIP Eligibility Determination Timeliness

**Federal Agency:**        Department of Health and Human Services  
**Federal Program:**        93.767 Children's Health Insurance Program  
                                  93.778 COVID-19 - Medical Assistance Program  
                                  93.778 Medical Assistance Program  
**State Agency:**            Department of Social Services (DSS) - MO HealthNet Division (MHD) and  
                                  Family Support Division (FSD)

The DSS did not perform eligibility determinations within required timeframes for participants of the Medical Assistance Program (Medicaid) and the Children's Health Insurance Program (CHIP).

**Recommendation:**

The DSS through the MHD and the FSD ensure participant eligibility is determined within required timeframes.

**Status of Finding:**

During SFY 2022, DSS experienced significant delays in completing determinations of eligibility at application, resulting in sizable backlogs and applications pending beyond the timeframes permitted in regulation. Due to this, Missouri collaborated with CMS to mitigate the backlog. As of September 30, 2022, DSS completed processing of all overdue applications.

CMS issued the Management Decision Letter to the Department of Social Services on September 5, 2023. CMS concurred with the recommendation made by the SAO.

As of the end of September 2023, DSS has approximately 21,831 pending MO HealthNet applications. Of these 21,831 pending applications, approximately 3,310 have not had an eligibility determination completed within the established timeframes as outlined in 42 CFR 435.912(c)(3) and 42 CFR 457.340(d). However, after analysis, approximately 826 of the 3,310 applications are individuals under the age of 65 that have been approved for MAGI while pending a disability determination. The DSS continues to work on all pending eligibility determinations and is working to meet processing deadlines as outlined in 42 CFR 435.912(c)(3) and 42 CFR 457.340(d).

**Contact Person:** Heather Atkins

**Phone Number:** 573-751-4269

State of Missouri - Single Audit  
Summary Schedule of Prior Audit Findings  
Year Ended June 30, 2023

**2022-004.** Department of Social Services Cost Allocation

**Federal Agency:** Department of Health and Human Services  
**Federal Program:** 93.090 Guardianship Assistance  
93.558 Temporary Assistance for Needy Families  
93.658 Foster Care Title IV-E  
93.659 Adoption Assistance  
93.667 Social Services Block Grant  
93.778 Medical Assistance Program  
**State Agency:** Department of Social Services (DSS) - Division of Finance and Administrative Services (DFAS)

DFAS controls and procedures over the Public Assistance Cost Allocation Plan (PACAP) and the AlloCAP system used to allocate some administrative costs to federal programs were not sufficient to prevent and/or detect errors. For the year ended June 30, 2022, costs totaling approximately \$38.5 million were incorrectly allocated to 6 programs. As a result, approximately \$10.2 million (federal share) was allocated to state funding, that could have been allocated to federal funding for 4 programs.

**Recommendation:**

The DSS through the DFAS continue to strengthen internal controls and procedures over the PACAP and the AlloCAP system to ensure costs are properly allocated to federal programs.

**Status of Finding:**

The DSS partially agreed with this finding.

The DSS agreed a calculation error was made; however, it was the result of an isolated error that occurred during design and development of the new cost allocation system. It is for this reason the DSS partially agreed with the finding as the error was an isolated exception and not indicative of the strength of current internal controls.

The DSS previously implemented the SAO's recommendations to further strengthen internal controls and continues to adhere to these processes. As the DSS previously implemented the change to the statistical methodology used for the CD RMTS and revised and resubmitted the impacted federal financial reports, no further corrective action was required and the status remains unchanged.

**Contact Person:** Sheena Frazer  
**Phone Number:** (573) 751-7302

State of Missouri - Single Audit  
Summary Schedule of Prior Audit Findings  
Year Ended June 30, 2023

2022-005

Pandemic Electronic Benefit Transfer Food Benefits

**Federal Agency:** United States Department of Agriculture  
**Federal Program:** 10.542 COVID-19 - Pandemic Electronic Benefit Transfer Food Benefits (P-EBT)  
**State Agency:** Department of Social Services (DSS) - Family Support Division (FSD)  
**Questioned Costs:** \$1,010

DSS controls over the Pandemic Electronic Benefit Transfer Food Benefits (P-EBT) program were insufficient to prevent improper benefit issuances on behalf of school children. The DSS issued benefits on behalf of one ineligible child and made overpayments on behalf of another child.

**Recommendation:**

The DSS through the FSD strengthen internal controls to ensure P-EBT program benefit issuances are in accordance with the state plan, and review and correct the overpayments for the children identified in this finding.

**Status of Finding:**

Recognizing the complexity for families seeking to appropriately access the benefit, the process by which school children are determined eligible and issued P-EBT benefits was modified in the state plan submitted by the State of Missouri to the Food and Nutrition Service (FNS) for the 2021-2022 school year. The P-EBT state plan for the 2021-2022 school year was approved by FNS on June 6, 2022.

Eligibility for P-EBT is now determined at the individual child level based on COVID-related absences and qualification for federal free and reduced lunch benefits. For the 2021-2022 school year, local education authorities (LEA's) submit lists of students determined eligible to the Missouri Department of Elementary and Secondary Education (DESE). DESE then submits the approved eligibility file to DSS with the name of each eligible child and the amount of benefit to be issued on a P-EBT card. DSS then issues the benefit.

At this time, the Food and Nutrition Service (FNS) has not issued a Management Decision Letter regarding this finding or recommendation.

DSS agrees with the finding that the two children identified were erroneously issued P-EBT benefits. DSS has reviewed the overpayments and referred the children identified in this finding to the Missouri Program Integrity Unit (PIU) for claims processing. After review of federal SNAP regulation 7 CFR 273.18, DSS has determined that the funds cannot be recovered because the benefits were issued to the child and there is not an adult on the cases to recover the funds from. Therefore, the claims will be compromised.

DSS FFATA Reporting

**Federal Agency:** Department of Health and Human Services  
**Federal Program:** 93.667 Social Services Block Grant (SSBG)  
**State Agency:** Department of Social Services (DSS) - Division of Finance and Administrative Services (DFAS)  
**Similar Finding:** 2021-008

The DFAS needed to strengthen internal controls related to Federal Funding Accountability and Transparency Act (FFATA) reporting. The DFAS did not require supervisors maintain documentation of reviews of information uploaded to the FFATA Subaward Reporting System (FSRS). During state fiscal year 2022, the DFAS did not comply with FFATA reporting requirements for any of the subawards reviewed for the SSBG program.

**Recommendation:**

The DSS through the DFAS strengthen internal controls related to FFATA reporting by having supervisors maintain documentation of reviews performed of the information reported to the FSRS. In addition, the DFAS should timely complete FFATA reporting in accordance with the applicable requirements.

**Status of Findings:**

The DSS partially agreed with this finding.

The DSS did not agree that documentation of supervisory reviews correlates to strong internal controls. The DSS adhered to formalized procedures for FFATA reporting which included managerial oversight. Documented reviews may be preferred but are not required by regulation.

The FFATA does not impose a deadline on federal awarding agencies to report federal award information in FSRS and thus does not impose a deadline on direct recipients to report the subaward of secondary federal awards issued beyond the month following the original obligation date. Therefore, the timeliness of DSS' FFATA reports is dependent on the date the federal awarding agency makes the federal award information available in FSRS. These circumstances allowed for the exceptions identified.

The DSS has incorporated documented reviews into the process and continues to maintain strong internal controls to ensure FFATA reporting compliance based on available guidance.

State of Missouri - Single Audit  
Summary Schedule of Prior Audit Findings  
Year Ended June 30, 2023

**2022-007.**                    Medicaid Facility Survey Timeliness

**Federal Agency:**        Department of Health and Human Services  
**Federal Program:**       93.777 COVID-19 - State Survey and Certification of Health Care Providers and Suppliers (Title XVIII) Medicare  
                                 93.777 State Survey and Certification of Health Care Providers and Suppliers (Title XVIII) Medicare  
**State Agency:**        Department of Health and Senior Services (DHSS) - Section for Long-Term Care Regulation (SLCR)  
**Similar Finding:**        2021-013

The SLCR did not perform facility survey procedures within required timeframes.

**Recommendation:**

The DHSS through the SLCR ensure survey procedures are conducted within required timeframes.

**Status of Findings:**

Surveys were not conducted during the National Public State of Emergency per instructions from CMS. As DHSS returned to surveying activity, it found the gap between surveys has resulted in an increase in both the number of and the severity of violations in long term care facilities. In addition, the number of complaints received has increased from '9,000 to '12,000, with significant increases in Immediate Jeopardy complaints (585 to 1,630) requiring onsite investigation within 24 hours. These increases have caused greater time being devoted to investigating these violations and the attendant write up activity, including the Statement of Deficiency.

The Section for Long Term Care Regulation (SLCR) currently has procedures in place to ensure surveys and certifications are performed in accordance with the State Operations Manual (SOM). The reasons detailed above, coupled with staffing shortages, particularly in the Registered Nurse job classification (currently an approximate 30% vacancy rate), have contributed to the inability to complete these tasks consistently within the prescribed time frames.

In order to assist with meeting these time frames, SLCR has adopted a more aggressive recruiting approach to registered nurse recruiting. SLCR has also submitted two new budget requests – one to increase the salaries of surveyors to be more competitive with the job market and two, to add an additional 25 Registered Nurse positions. This includes requesting increased funding from both federal and state sources. We have also hired seasoned, retired surveyors to work on a part-time basis. As a short-term solution, DHSS has contracted with three entities to conduct recertification surveys. To date, contractors completed 34 recertification surveys. These contracts will continue through FY24.

These approaches will provide a base upon which DHSS can work towards the goal of rebuilding its survey team as fully staffed and adequately compensated.

**State Agency:** Department of Education and Secondary Education (DESE)  
**Similar Finding:** 2021-016

The DESE needed to strengthen internal controls related to Federal Funding Accountability and Transparency Act (FFATA) reporting for the Education Stabilization Fund. The DESE did not require supervisors maintain documentation of reviews of information uploaded to the FFATA Subaward Reporting System (FSRS). During state fiscal year 2022, the DESE did not comply with FFATA reporting requirements for any of the subawards reviewed for the GEER Fund or the EANS program. In addition, the DESE had not made corrections and resubmitted state fiscal year 2021 FFATA reports for the GEER Fund grants.

**Recommendation:**

The DESE strengthen internal controls related to FFATA reporting by having supervisors maintain documentation of reviews performed of the information reported in the FSRS for the Education Stabilization Fund. In addition, the DESE should complete FFATA reporting for the Education Stabilization Fund programs in accordance with the applicable requirements and continue to work toward resubmitting corrected reports for state fiscal years 2021 and 2022.

**Status of Findings:**

DESE has strengthened internal controls related to FFATA reporting as recommended by the Missouri State Auditor's Office.

The GEER grant was awarded to the MO Governor's Office. The Governor designated DESE as the fiscal agency for this grant award. DESE first reported DESE and the Department of Higher Education and Workforce Development (DHEWD) as the subrecipients of this grant in FFATA on 5/20/20 since it was initially awarded to the Governor, who then designed the funds to both agencies. After receiving further guidance from the US Department of Education that indicated agencies acting as fiscal agents must report the subgrantees awarded funds by each agency, DESE has diligently worked with the FFATA Subaward Reporting System (FSRS) team for the past year to get the initial incorrect data deleted so new files could be uploaded. As of 7/20/23, the FFATA submission for GEER has been corrected.

The EANS grant was also awarded to the MO Governor's Office. The Governor designated DESE the fiscal agency for this grant award. DESE first reported DESE as the subrecipient of this grant in FFATA on 3/01/21 since it was initially awarded to the Governor. After receiving further guidance from the US Department of Education that indicated agencies acting as fiscal agents must report the subgrantees awarded funds by each agency, DESE has diligently worked with the FFATA Subaward Reporting System (FSRS) team for the past year to get the incorrect data deleted. Per guidance issued on 9/17/21, DESE determined the procurement and assistance provided to nonpublic schools did not meet the subaward definition, and therefore a new submission was not required. However, as of 11/1/23, the FFATA Subaward Reporting System (FSRS) team has not deleted the incorrect data. DESE will continue to work with the team until the data is deleted.

Year Ended June 30, 2023

**FS2022-002.** Department of Social Services Financial Reporting Controls - Medicaid Payments

**State Agency:** Department of Social Services (DSS) - MO HealthNet Division (MHD)

The MHD did not have adequate controls and procedures over financial reporting of Medicaid payment data. As a result, Medicaid payment data submitted to the Office of Administration - Division of Accounting (DOA) and used to estimate Medicaid accounts receivable and payable for inclusion in the State of Missouri Annual Comprehensive Financial Report for the year ended June 30, 2022, was misstated.

**Recommendation:**

The DSS through the MHD and the DFAS strengthen controls and procedures to prepare and submit accurate Medicaid payment reports to the DOA.

**Status of Finding:**

MO HealthNet and Research and Evaluation staff have worked together to update coding on the reports used in the creation of the Annual Comprehensive Financial Report to include the Medicaid Expansion group. The DSS considers this resolved.

**FS2022-008.**                    Office of Administration Financial Reporting Controls - Fund Balance Classifications

**State Agency:**                Office of Administration - Division of Accounting (DOA)

The DOA did not have adequate controls and procedures over classification of ending fund balances. If a fund balance classification error had not been corrected, the Government Wide - Governmental Activities and General Fund restricted fund balance would have been overstated, and the unassigned fund balance would have been understated, by approximately \$1.4 billion in the State of Missouri Annual Comprehensive Financial Report (ACFR) for the year ended June 30, 2022.

**Recommendation:**

The DOA strengthen controls and procedures to ensure proper classification of ending fund balances in the ACFR.

**Status of Finding:**

The agency does not agree with the audit findings and believes that corrective action is not required. Explanation and specific reasons are as follows:

While the Division of Accounting agrees there was an error in the draft document, the Division of Accounting was not provided the opportunity to complete the managerial review and internal control procedures already in place before the finding was decided based on a draft document.

## CORRECTIVE ACTION PLANS

The State of Missouri's Office of Administration, Division of Accounting respectfully submits the following Corrective Action Plans for the findings related to the Statewide Single Audit for fiscal year ended June 30, 2023. Each Corrective Action Plan was prepared by the State agency noted.

State of Missouri - Single Audit  
Corrective Action Plans  
Year Ended June 30, 2023

**State of Missouri  
Single Audit  
Corrective Action Plan  
Year Ended June 30, 2023**

State Agency: Office of Administration

Audit Finding Number: FS2023-001 - Financial Reporting Controls – ACFR Preparation

Name of the contact person responsible for corrective action: Stacy Neal

Anticipated completion date for corrective action: July 2024

Corrective action planned is as follows:

The DOA acknowledges errors occurred during the preparation of the fiscal year 2023 the Annual Comprehensive Financial Report (ACFR). Our ACFR preparation processes are extremely manual and have risk of errors as a result, especially when revisions are submitted. It is expected our new accounting system will reduce the manual processes and increase accuracy. The DOA is also updating ACFR tie out procedures to make them more understandable and usable. This will reduce the time it takes to complete the review of the ACFR as well as allow for more reviews to be performed on each section of the ACFR. We are also investigating opportunities to leverage technology to reduce errors.

Single Audit  
Corrective Action Plan  
Year Ended June 30, 2023**

State Agency: Department of Revenue

Audit Finding Number: FS2023-002 Department of Revenue Financial Reporting Controls

Name of the contact person responsible for corrective action: Amanda Bolin

Anticipated completion date for corrective action: April 8, 2024

Corrective action planned is as follows:

The Department of Revenue is aware of the concerns noted in the State Auditor's Office (SAO) finding regarding controls and procedures over the financial reporting of certain governmental and custodial fund financial activities. The Department of Revenue experienced significant turnover in the Administration Division during the fiscal year ended June 30, 2023, and as a result, the two-step review did not ensure our financial reports submitted to the Office of Administration – Division of Accounting (DOA) and SAO were accurate. The Department of Revenue took immediate corrective action by resubmitting the financial reports to the DOA, continuing to use our two-step review process, providing additional cross-training to team members, and maintaining adequate supporting documentation for all financial reports being submitted to the DOA and the SAO. The Department of Revenue will ensure all financial reports are submitted accurately to the DOA and SAO in the future.

State Agency: Department of Social Services (DSS)

Audit Finding Number: FS2023-003 – DSS Financial Reporting Controls –  
Accounts Receivable

Name of the contact person responsible for corrective action: Carla Henry and  
Angela Wallace

Anticipated completion date for corrective action: March 1, 2024

Recommendation: The DSS through the DFAS strengthen controls and  
procedures to prepare and submit accurate federal grant accounts receivable  
reports to the DOA.

DSS Response: The department agrees with the SAO's recommendation to  
strengthen controls and procedures regarding accounts receivable financial  
reporting. It is important to note that there are 26 surveys requested of the  
department each year as part of the financial reporting process.

The Corrective Action Plan includes the department's planned action to address  
this finding.

Corrective action planned is as follows: DFAS staff are documenting the  
Accounts Receivable Financial Reporting processes in order to enhance current  
procedures for submitting accurate Accounts Receivable reports to the state's  
Division of Accounting (DOA). Additionally, to strengthen controls, DFAS staff  
will document the overall process for submitting department financial reports to  
the DOA. DFAS staff plan to implement the written procedures during  
completion of the State Fiscal Year 2024 financial reports.

State Agency: Missouri Secretary of State (SOS)

Audit Finding Number: FS2023-004 – SOS Financial Reporting Controls

Name of the contact person responsible for corrective action: Miranda  
Stephenson

Anticipated completion date for corrective action: August, 2024

Corrective action planned is as follows:

The SOS has established and implemented a process with a methodology to present logical assumptions based on historical information and probability to provide estimated civil penalty uncollectible amounts for financial reporting purposes and for future reporting to DOA and SAO. The SOS will re-evaluate annually and provide timely estimates to OA and the SAO for future ACFR reports.

State of Missouri - Single Audit  
Corrective Action Plans  
Year Ended June 30, 2023

**State of Missouri  
Single Audit  
Corrective Action Plan

State Agency: Office of Administration (OA)

Audit Finding Number: FS2023-005 – OA SAMII Transaction Approvals

Name of the contact person responsible for corrective action: Stacy Neal,  
Director

Anticipated completion date for corrective action: February 2024

Corrective action planned is as follows:

As mentioned in the audit finding, "OA has taken steps to limit this risk". Only 1 SAMII Financial User from another agency was noted in the finding, and this individual did not both enter and approve any transactions during the period she had this authority.

Periodic reviews will be performed, and OA will continue to provide oversight of user accounts. We are currently implementing MOVERS to replace the existing ERP system, which will reduce if not eliminate conflicts with security access.

State of Missouri - Single Audit  
Corrective Action Plans  
Year Ended June 30, 2023

**State of Missouri  
Single Audit  
Corrective Action Plan  
Year Ended June 30, 2023**

State Agency: Department of Social Services (DSS) – MO HealthNet Division (MHD)

Audit Finding Number: 2023-001 - Medicaid National Correct Coding Initiative

Name of the contact person responsible for corrective action: Kim Johnson

Anticipated completion date for corrective action: July 1, 2024

Recommendation: The DSS through the MHD continue to strengthen controls over the NCCI requirements to ensure claims are reprocessed when NCCI edits are not implemented timely, as required.

DSS Response: DSS agrees with the auditor's recommendation. The Corrective Action Plan includes the department's planned actions to address the finding.

Corrective action planned is as follows: The DSS through the MHD will continue to update the NCCI edits quarterly, within the Centers for Medicare & Medicaid Services (CMS) requirement that the files must be implemented by the beginning of the second month of the calendar quarter. MHD will reprocess January 1, 2023, through February 17, 2023. MHD is not reprocessing claims submitted July 1, 2022, through August 22, 2022, as the system changes were not in place until August 23, 2022. Any claims for this time frame submitted after August 22, 2022, were subject to the updated NCCI edits. Moving forward, claims will be reprocessed when changes are not in the system, as required by CMS.

State of Missouri - Single Audit  
Corrective Action Plans  
Year Ended June 30, 2023

**State of Missouri  
Single Audit  
Corrective Action Plan  
Year Ended June 30, 2023**

State Agency: Department of Social Services (DSS) – MO HealthNet Division (MHD)

Audit Finding Number: 2023-002 - Medicaid Management Information System Access

Name of the contact person responsible for corrective action: Christopher Boyle

Anticipated completion date for corrective action: March 10, 2024

Recommendation: The DSS through the MHD review user access to the MMIS annually and ensure inappropriate access, including that of terminated users, is removed in a timely manner.

DSS Response: DSS agrees with the auditor's recommendation. The Corrective Action Plan includes the department's planned actions to address the finding.

Corrective action planned is as follows: MHD will continue to perform the annual review, but to ensure that the annual review is completed timely, monthly calendar meetings have been created. The FY24 annual review is in progress.

In addition to the annual review, instead of relying on supervisors to inform MHD of terminations, MHD staff have updated the off-boarding process to identify additional eMOMED and eMMIS users who no longer require access. MHD staff are comparing the MMIS active user lists with lists of terminated users. When an active user is located on a termination list, a request to disable the MMIS account is submitted.

State of Missouri - Single Audit

Year Ended June 30, 2023

**State of Missouri  
Single Audit  
Corrective Action Plan  
Year Ended June 30, 2023**

State Agency: Department of Social Services (DSS) – MO HealthNet Division (MHD) and Missouri Medicaid Audit and Compliance (MMAC)

Audit Finding Number: 2023-003 - Medicaid and CHIP New Provider Eligibility

Name of the contact person responsible for corrective action: Dale Carr

Anticipated completion date for corrective action: June 30, 2024

Recommendation: The DSS through the MHD and the MMAC review, strengthen, and enforce internal controls to ensure complete new provider enrollment application checklists are prepared and retained documenting that new Medicaid and CHIP provider applications were reviewed and screened as required.

DSS Response: DSS agrees with the auditor's recommendation. The Corrective Action Plan includes the department's planned actions to address the finding.

Corrective action planned is as follows:

1. The MMAC Provider Enrollment Unit (PEU) will add a new final check box at the bottom of the provider enrollment verification form where the PEU clerk will verify each required step to enroll a new provider was completed.
2. The MMAC PEU will increase the number of quality control reviews of completed provider enrollment verification checklists by supervisors and managers.
3. MMAC PEU will train the staff that are scanning the completed enrollment files into FileNet to look at the verification checklist and make sure it has all required initials and checks. If they determine it does not, it will be returned to the PEU staff member that processed the enrollment.
4. All PEU staff working new enrollments will be retrained on the importance of checking each step on the verification checklist to indicate whether each step was completed or "not applicable".

State of Missouri - Single Audit  
Corrective Action Plans  
Year Ended June 30, 2023

**State of Missouri  
Single Audit  
Corrective Action Plan  
Year Ended June 30, 2023**

State Agency: Department of Social Services (DSS) – MO HealthNet Division (MHD)

Audit Finding Number: 2023-004 – Medicaid and CHIP Receipt Controls

Name of the contact person responsible for corrective action: Ashley Logan

Anticipated completion date for corrective action: June 30, 2024

Recommendation: The DSS through the MHD review, strengthen, and enforce internal controls over Medicaid and CHIP receipts. The MHD should restrict user access within the MMIS for FORU accounting personnel and adequately segregate asset custody and receipt recording duties from accounts receivable duties, or perform documented supervisory reviews of MMIS entries and changes made by employees whose duties are not segregated. In addition, the MHD should establish procedures to account for all cash control numbers to ensure all receipts are deposited or returned to senders.

DSS Response: DSS agrees with the auditor's finding. Our Corrective Action Plan includes the department's planned actions to address the finding.

Corrective action planned is as follows: MHD has implemented a process to document supervisory reviews of the Finance Manual Checks Quarterly report to ensure segregation of duties in HeathTrack/AHS. MHD will continue to perform the audit of clerk ID adhoc reports to review any segregation of duties within the MMIS. To ensure all cash control numbers are accounted for, MHD is implementing a new cash control number sequence, exclusive to manual checks logged within the FORU. This will resolve the issue of cash control numbers occurring out of sequence due to AHS running files in the background at the same time checks are being logged.

State of Missouri - Single Audit  
Corrective Action Plans  
Year Ended June 30, 2023

**State of Missouri  
Single Audit  
Corrective Action Plan  
Year Ended June 30, 2023**

State Agency: Department of Social Services (DSS) – MO HealthNet Division (MHD) and Family Support Division (FSD)

Audit Finding Number: 2023-005 Medicaid and CHIP MAGI-Based Participant Eligibility Redeterminations

Name of the contact person responsible for corrective action: Heather Atkins

Anticipated completion date for corrective action: N/A

Recommendations: The DSS through the MHD and the FSD review and correct cases for participants with manual overrides in the MEDES, ensure redeterminations are completed for these participants as required, and close the cases of any ineligible participants. In addition, the DSS should ensure system controls are functioning as designed for these participants.

DSS Response: The DSS disagrees with this finding. The DSS disagrees there is a significant deficiency in internal controls. As noted in the finding, from the 60 participants selected, the SAO did not identify any participants with previously-established overrides; therefore, no incorrect payments were cited.

Section 6008 of the Families First Coronavirus Response Act (FFCRA) required states to provide continuous coverage, through the end of the month in which the PHE period ends, to all Medicaid beneficiaries who were enrolled in Medicaid on or after March 18, 2020, regardless of any changes in eligibility unless the individual voluntarily terminated eligibility, is deceased, or moved out of state. As required by the Centers for Medicaid and Medicare Services (CMS) during the PHE, the DSS had processes in place to terminate eligibility for individuals who were deceased, voluntarily requested closure, or reported they have moved out of state when a current change was reported.

The Consolidated Appropriations Act, 2023, signed on December 29, 2022, amended section 6008 of the FFCRA such that the continuous enrollment condition ended on March 31, 2023.

During the PHE, the DSS did not conduct reviews of cases that did not report current changes.

---

State of Missouri - Single Audit  
Corrective Action Plans  
Year Ended June 30, 2023

---

The DSS developed a report identifying all individuals with manual overrides and their certification dates to complete annual reviews on them. The DSS is actively working the report and have initiated annual reviews on all individuals that have had MO HealthNet eligibility for at least twelve consecutive months. The DSS anticipates completing the review of all individuals by August 31, 2024, to account for the required 90 day reconsideration period as required in 42 CFR 435.916.

State of Missouri - Single Audit  
Corrective Action Plans  
Year Ended June 30, 2023

**State of Missouri  
Single Audit  
Corrective Action Plan  
Year Ended June 30, 2023**

State Agency: Department of Social Services (DSS) – MO HealthNet Division (MHD) and Family Support Division (FSD)

Audit Finding Number: 2023-006 Medicaid and CHIP Participant Eligibility Terminations

Name of the contact person responsible for corrective action: Heather Atkins

Anticipated completion date for corrective action: June 30, 2024

Recommendations: The DSS through the MHD and the FSD review, strengthen, and enforce internal controls to ensure ineligible participant cases are closed when necessary and resume the DHSS vital records death match in the MEDES.

DSS Response: The DSS partially agrees with this finding.

Although, at this time, a death match with Department of Health and Senior Services (DHSS) vital records is not functional in MEDES, the death match is functional in the Family Assistance Management Information System (FAMIS) eligibility system currently used for SNAP, TANF, and MO HealthNet for Aged, Blind, and Disabled individuals. When the match is received into FAMIS from DHSS, that information is included on the eligibility file submitted to MMIS to ensure that the death date is captured in MMIS to prohibit any payments after the death of the individual. This control ensures that no improper payments are made on a beneficiary's behalf after the date of death. DSS has processes in place to close eligibility when death information is received from family members and providers during the certification period. Additionally, DSS administers an electronic verification match with the federal hub during the annual review process to inquire about death. DSS also intends to resume use of the DHSS vital statistics match in MEDES in the future, but does not have an expected resumption date at this time.

During the audit period, the FSD Call Center had processes in place to accept calls for applications, renewals, change in circumstance, and inquiries. However, contracted staff are unable to authorize any action that results in a case closing and that authorization must be completed by a DSS employee. There were procedures in place to transfer a call that will result in a case closing to a DSS

State of Missouri - Single Audit  
Corrective Action Plans  
Year Ended June 30, 2023

employee. However, the participant cited in the finding failed to remain on the line during the transfer process, resulting in DSS staff not receiving the request to voluntarily close the case. Although call center staff noted in the electronic case file the purpose of the call, there are not systematic controls in place to take action or create tasks for DSS employees from the case notes.

The DSS is strengthening internal controls by developing technology to receive changes from participants using technology that will populate the changes reported into MEDES and will create a task for DSS staff to review and authorize the change in the case. Additionally, participants can also report changes, including voluntary case closure on the FSD Portal at <https://mydss.mo.gov/>. Changes reported through the FSD Portal are uploaded and tasks are generated for DSS staff to review and complete the determination.

Corrective action planned is as follows: Technology updates to receive changes from participants will be implemented in June 2024.

Audit Finding Number: 2023-007 Medicaid and CHIP Eligibility Determination Timeliness

Name of the contact person responsible for corrective action: Heather Atkins

Anticipated completion date for corrective action: July 31, 2024

Recommendations: The DSS through the MHD and the FSD ensure participant eligibility is determined within the required timeframes.

DSS Response: The DSS agrees with this finding. During SFY 2022, DSS experienced significant delays in completing determinations of eligibility at application, resulting in sizable backlogs and applications pending beyond the timeframes permitted in regulation. Due to this, Missouri collaborated with CMS to mitigate the backlog. As of September 30, 2022, DSS had completed processing of all overdue applications. The mitigation plan is located at <https://www.medicaid.gov/medicaid/eligibility/downloads/missouri-mitigation-plan.pdf>.

Since DSS completed the processing of all overdue applications as of September 30, 2022, DSS has continued to receive a substantial increase in applications, both directly from applicants and from the Federal Facilitated Exchange (FFE). Additionally, DSS FSD has encountered staffing shortages, which has contributed to the delay in application processing.

To address the continued increase in applications, DSS is leveraging new and available technologies. These technologies are intended to assist the department and participants with necessary actions such as submitting applications, verifying income and resources, and providing required information.

Corrective action planned is as follows: The DSS will continue to work towards completing applications within the established timeframes outlined in 42 CFR 435.912(c)(3) and 42 CFR 457.340(d).

Corrective Action Plan  
Year Ended June 30, 2023**

State Agency: Department of Social Services (DSS) – Division of Finance and Administrative Services (DFAS) and Children's Division

Audit Finding Number: 2023-008 – Department of Social Services Cost Allocation

Name of the contact person responsible for corrective action: Arlene Damron

Anticipated completion date for corrective action: April 2024

Recommendation: The DSS continue to strengthen internal controls and procedures over the PACAP, the AlloCAP system, the RMTS process, and the RMTS allocation to ensure costs are properly allocated to federal programs. In addition, the DSS should revise the PACAP to reflect updates to the RMTS process.

DSS Response: The department partially agrees with the recommendation. DSS does not agree internal controls need to be strengthened for the PACAP and the AlloCAP. This part of the process functioned as intended.

The issues identified by the auditor occurred based upon the way the RMTS universe was defined after revisions were made in the HR data that was being entered into SAM II HR. Staff that were not eligible were selected for the RMTS due to these changes.

Corrective action planned is as follows: The RMTS universe has been corrected to exclude staff that do not fall into the specific criteria of eligible staff. An RMTS response report will be pulled monthly to review the results to make sure invalid responses are removed prior to allocating administrative costs.

**State of Missouri  
Single Audit  
Corrective Action Plan  
Year Ended June 30, 2023**

State Agency: Office of Administration

Audit Finding Number: 2023-010, SLFRF Program Subrecipient Monitoring

Name of the contact person responsible for corrective action: Stacy Neal

Anticipated completion date for corrective action: September 2024

Recommendation A.: Develop policies and procedures to determine whether recipients of SLFRF program funds are subrecipients or contractors. Work with the state agencies to ensure accurate and documented determinations are prepared for all recipients and modify subrecipient records as needed.

OA partially agrees with the auditor's finding.

Corrective action planned is as follows: OA believes there are opportunities to improve the classification of subrecipient vs. contractor to ensure compliance with federal regulations. We concur that OA, as the responsible party, should modify a department determination of subrecipient when there is a conflict with the regulation. Finally, we agree that clear communication on roles and responsibilities of OA vs. departments related to compliance is essential and can be improved. Given this position, we disagree that OA needs to issue procedures that restate the rules the uniform guidance and SLFRF regulations already state. We will continue to have discussions with agencies and ensure compliance with federal regulations.

Recommendation B.: Develop a subrecipient monitoring program in accordance with the Uniform Guidance, that including performing risk assessments for each subrecipient for the purposes of determining the appropriate subrecipient monitoring procedures; monitoring for compliance with federal requirements and subaward terms and conditions and ensuring subaward performance goals are achieved; and reviewing subrecipient single audit reports. Ensure tasks delegated to state agencies are adequately communicated and establish procedures to ensure those tasks are appropriately completed.

OA agrees with the auditor's finding.

---

State of Missouri - Single Audit  
Corrective Action Plans  
Year Ended June 30, 2023

---

Corrective action planned is as follows: OA approached the SLFRF money to consider all spending (whether to subrecipients or any other payment) as high risk due to the large dollar amount of one-time funding that is subject to rules that have changed over time. We have continued to treat this unique and highly publicized funding as high risk for fraud and exercise due diligence to mitigate that risk. OA agrees however, that our universal determination related to the SLFRF does not meet the specific uniform guidance rules. OA agrees to provide additional communications to departments to ensure agencies understand their responsibilities for sub-recipient monitoring including sub-recipient specific risk assessments and monitoring. Finally, OA will implement random reviews of the sub-recipient monitoring compliance.

State Agency: Department of Health and Senior Services

Audit Finding Number: 2023-012 CACFP Subrecipient Reimbursements

Name of the contact person responsible for corrective action: Sarah Walker, Bureau Chief

Anticipated completion date for corrective action:

The agency does not agree with the audit findings or believes that corrective action is not required.  
Explanation and specific reasons are as follows:

**CACFP Subrecipient Reimbursements**

DHSS disagrees. The DHSS through BCFNA maintains a strong system of internal controls over meal reimbursements to CACFP facilities/sponsors to ensure costs are allowable and supported. The system is in compliance with Uniform Guidance and USDA program requirements. The system includes subrecipient monitoring based on risk assessments per the substance and spirit of Uniform Guidance, initial and ongoing training and technical assistance opportunities, and reviews of invoices.

Throughout the SAO's finding they repeatedly acknowledge that the BCFNA monitoring process is in compliance with Nutritionist Manual which is based on USDA requirements, but is somehow not in compliance with broader federal requirements. This goes against the accepted hierarchy of federal compliance guidance which says that 2 CFR 200 Uniform Grant Guidance is broader and less specific than the higher ranking requirements set forth by specific federal grant funders and awards. The SAO has not noted any specific noncompliance with federal requirements regarding subrecipient monitoring. The SAO's finding noted the DHSS could enhance or improve its process but not that it is out of compliance with federal requirements for subrecipient monitoring. The SAO is trying to hold DHSS to a higher standard than what is federally required.

The DHSS' strong system of internal controls which is documented in the Nutritionist Manual is in compliance with federal regulations and is used as a best practice by the USDA for other states. The report from the most recent USDA Management Evaluation Report for Fiscal Year 2023 issued November 2023 stated "*The FNS<sup>1</sup> determined that the SA<sup>2</sup> Monitoring of Sponsors and SA Oversight of Sponsor Monitoring's has adequate management controls in place for administering the CACFP in*

<sup>1</sup> FNS: U.S. Department of Agriculture (USDA) Food and Nutrition Service

<sup>2</sup> SA: State Agency

State of Missouri - Single Audit  
Corrective Action Plans  
Year Ended June 30, 2023

*accordance with Federal regulations. The FNS staff reviewed SA practices that included detailed SA review forms, spreadsheets that provided extra oversight, and written procedures detailing the monitoring process. The SA provides online CACFP trainings along with a handbook to institutions that detail policies and procedures governed by the SA. The SA developed an extensive tracking system in addition to a very thorough review tool that contains meal component and pattern calculation. The SA conducts oversight of the review process and tracks each step to confirm completion of any follow up required of institution. The SA CACFP training resources and online modules were reviewed and evaluated to ensure it contained the correct information and up to date policies and procedures. The FNS staff reviewed the SA policies and procedures and interviewed key SA staff regarding procedures for each respective area of this Section. All files reviewed are compliant with Program requirements. The FY 2023 CACFP ME review did not identify any significant reportable issues."*

This entitlement program provides reimbursements for nutritious meals and snacks to organizations that serve eligible children and adults. CACFP processes an average of 700 claims per month and provided healthy meals in Missouri to over 31 million children and adults in 2023. The increased claim testing and recoupment suggested by the SAO would create a significant barrier to participation for sponsors/facilities (many of which are small child care centers, day care homes, emergency shelters and adult day care centers) which is prohibited by USDA.

Reviewing supporting documentation with every individual reimbursement claim at the time of submission as suggested in the finding is not feasible given the number of reimbursement claims processed monthly by program staff already functioning at capacity. Neither is it required by Uniform Guidance, the USDA or standard subrecipient monitoring procedures. The BCFNA already requires claims to be paid on a reimbursement basis rather than in advance and performs various reviews of the claims in CNPWeb, so the additional step of requiring supporting documentation with every reimbursement claim at the time of submission is unnecessary and is intended as a specific condition to remedy high risk subrecipients per 2 CFR 200.208. Furthermore, BCFNA offers technical assistance training and reviews in addition to regular monitoring reviews.

In addition to the edit checks within the CNPWeb system which validate such things as capacity limits and licensing, BCFNA staff has, and continues to perform, additional verification such as spot-checks for inconsistencies (i.e. a greater number of enrolled participants as compared to licensed or total capacity or suspicious claim irregularities or patterns). Each claim submitted also requires a certification of truthfulness, accuracy, completeness with potential criminal, civil or administrative penalties in accordance with U.S. Code Title 18, Section 1001 and Title 31, Sections 3729-3730 and 3801-3812. As noted by the SAO, the risk based monitoring approach implemented by BCFNA has been effective in identifying significant issues and claim errors in recent years.

The USDA established an acceptable level of risk with respect to the CACFP program and provided approved risk management processes and requirements. DHSS disagrees with the methodology the SAO used in its calculations. Out of the SAO's test sample of 60 monitoring reviews, only 9 of the overclaims were over the \$600 threshold of acceptable risk set by the USDA. 7 CFR 226.8(f): *In conducting management evaluations, reviews, or audits in a fiscal year, the State agency, FNS, or OIG may disregard an overpayment if the overpayment does not exceed \$600. A State agency may establish, through State law, regulation or procedure, an alternate disregard threshold that does not exceed \$600.*

---

State of Missouri - Single Audit  
Corrective Action Plans  
Year Ended June 30, 2023

---

The SAO left the inflated error percentage in the body of the finding despite repeated requests and only included the lower suggested rates in footnote 4. The SAO also did not explain how their test of monitoring reviews performed by BCFNA, instead of a sample of claims submitted, was representative of CACFP reimbursements that would lend to projecting to the total population.

BCFNA monitors using a risk-based approach as required and in response to known erroneous claims and to proactively address issues. A sample of monitoring reviews is proportionally more likely to include a higher number of claims with discrepancies. For example, fifty five percent of the monitoring reviews completed during fiscal year 2023 were graded as a B or C and were give additional technical assistance and/or monitoring follow up as a result.

State of Missouri - Single Audit  
Corrective Action Plans  
Year Ended June 30, 2023

**State of Missouri  
Single Audit  
Corrective Action Plan  
Year Ended June 30, 2023**

State Agency: Department of Health and Senior Services

Audit Finding Number: 2023-013 CACFP Subrecipient Monitoring

Name of the contact person responsible for corrective action: Sarah Walker, Bureau Chief

Anticipated completion date for corrective action:

The agency does not agree with the audit findings or believes that corrective action is not required. Explanation and specific reasons are as follows:

**A- Risk Assessments**

DHSS disagrees with this recommendation because the risk assessment process performed by BCFNA is in compliance with the substance and spirit of federal regulations – both of the federal funding agency, USDA, and 2 CFR 200, Uniform Grant Guidance. BCFNA risk assessments consider relevant information and are used to determine the extent and timing of monitoring as set out in the Nutritionist Manual. The BCFNA risk-based monitoring approach already allows for monitoring subrecipients more frequently than required by USDA.

2 CFR 200.332 states pass-through entities are to evaluate each subrecipient's risk of noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward for purposes of determining the appropriate subrecipient monitoring described in paragraphs (d) and (e) of this section, which may include consideration of such factors as:

- (1) The subrecipient's prior experience with the same or similar subawards;
- (2) The results of previous audits including whether or not the subrecipient receives a Single Audit in accordance with Subpart F of this part, and the extent to which the same or similar subaward has been audited as a major program;
- (3) Whether the subrecipient has new personnel or new or substantially changed systems; and
- (4) The extent and results of Federal awarding agency monitoring (*e.g.*, if the subrecipient also receives Federal awards directly from a Federal awarding agency).

The BCFNA formal risk assessment process takes into consideration the results of current and previous experience with the same subaward (item 1 in the suggested criteria) as well as whether the subrecipient has new personnel or new or substantially changed systems (item 3 in the suggested criteria). These observations are made when performing onsite monitoring by Nutritionists who are familiar with the program, its requirements and its participants, and are

State of Missouri - Single Audit  
Corrective Action Plans  
Year Ended June 30, 2023

trained in recognizing significant issues. BCFNA also takes into consideration the results of the subrecipient's prior experience with similar subawards in other programs such as SFSP, NSLP and Child Care Licensing Reviews (item 1 in the suggested criteria), audit results (item 2 in the suggested criteria) as well as the results of Technical Assistance Reviews offered to new subrecipients which could move up the planned monitoring schedule.

B- Subrecipient Monitoring Procedures

DHSS disagrees with this recommendation. The State Auditor's Office (SAO) states in this finding, "While our review found the sample monitoring reviews were performed in accordance with the policies and procedures outlined in the Internal Nutritionist Manual we identified areas where these policies and procedures could be strengthened and improved..." The SAO has not noted any specific noncompliance with federal requirements regarding subrecipient monitoring. The SAO's finding noted the DHSS could enhance or improve its process but not that it is out of compliance with federal requirements for subrecipient monitoring. The SAO is trying to hold DHSS to a higher standard than what is federally required.

Throughout the SAO's finding they repeatedly acknowledge that the BCFNA monitoring process is in compliance with Nutritionist Manual which is based on USDA requirements, but is somehow not in compliance with broader federal requirements. This is incongruent with the accepted hierarchy of federal compliance guidance which says that 2 CFR 200 Uniform Grant Guidance is broader and less specific than the higher-ranking requirements set forth by specific federal grant funders and awards.

In addition, the DHSS has a strong system of internal controls documented in the Nutritionist Manual which is in compliance with federal regulations and is used as a best practice by the USDA for other states. The report from the most recent USDA Management Evaluation Report for Fiscal Year 2023 issued November 2023 stated "*The FNS<sup>1</sup> determined that the SA<sup>2</sup> Monitoring of Sponsors and SA Oversight of Sponsor Monitoring's has adequate management controls in place for administering the CACFP in accordance with Federal regulations. The FNS staff reviewed SA practices that included detailed SA review forms, spreadsheets that provided extra oversight, and written procedures detailing the monitoring process. The SA provides online CACFP trainings along with a handbook to institutions that detail policies and procedures governed by the SA. The SA developed an extensive tracking system in addition to a very thorough review tool that contains meal component and pattern calculation. The SA conducts oversight of the review process and tracks each step to confirm completion of any follow up required of institution. The SA CACFP training resources and online modules were reviewed and evaluated to ensure it contained the correct information and up to date policies and procedures. The FNS staff reviewed the SA policies and procedures and interviewed key SA staff regarding procedures for each respective area of this Section. All files reviewed are compliant with Program requirements. The FY 2023 CACFP ME review did not identify any significant reportable issues.*"

<sup>1</sup> FNS: U.S. Department of Agriculture (USDA) Food and Nutrition Service

<sup>2</sup> SA: State Agency

State of Missouri - Single Audit  
Corrective Action Plans  
Year Ended June 30, 2023

The DHSS through BCFNA has and will continue to review, strengthen and enforce subrecipient monitoring procedures in accordance with federal program requirements and management evaluation. BCFNA has and continues to exceed what is required by the federal awarding agency by implementing a risk-based monitoring plan that allows for more frequent onsite monitoring than required by the USDA. In addition, even though COVID waivers allowed for monitoring to be suspended during the COVID Public Health Emergency, the BCFNA continued to monitor through the use of desk reviews. BCFNA also returned to onsite monitoring months before it was required by the USDA. Furthermore, BCFNA has recently hired a financial manager to help identify red flags with new and returning sponsors and recently enhanced training and technical assistance opportunities based on issues found during monitoring.

#### Corrective Action Plans

Due to the size of the CACFP program it is imperative that a risk-based approach be used in performing monitoring and follow up activities. DHSS through BCFNA follows up and ensures that subrecipients take timely and appropriate action on all deficiencies detected through on-site reviews of the subrecipient using a risk-based approach approved by the USDA. Standard practices are in compliance with federal regulations. Physical verification or review of supporting documentation immediately at the time of submission to verify the CAP is not a federal requirement. Follow-up during the next scheduled review is in accordance with USDA regulations and BCFNA policy and procedure.

BCFNA reviews Corrective Action Plans (CAPs) submitted by subrecipients to ensure they are acceptable and correct noted issues. Supporting documentation of CAP implementation may be reviewed by BCFNA's trained Nutritionist performing the monitoring reviews prior to the next monitoring visit if deemed necessary, or during the next onsite monitoring visit. This follow up is timely and appropriate because the scheduling of the next monitoring visit is determined by the USDA-approved risk-based approach. For example, subrecipients that had significantly deficient issues in their monitoring will be reviewed onsite within 90 days to verify whether corrective actions have been taken and if not, move towards termination. The corrective action plans of other subrecipients that were deemed to not be as significant by the Nutritionist, such as using the wrong percent of milk, are verified at the next monitoring review which could range from 1 to 3 years. The criteria used by the SAO do not specify what is timely or appropriate and allows for BCFNA's professional judgement and discretion of what is timely and appropriate.

#### Claims testing

BCFNA standard practice is test only the selected month(s) claim(s) per USDA requirements, although when warranted, additional reviews are conducted beyond the test month. Actual noncompliance has not been noted in regards to testing. The BCFNA Nutritionist Manual allows for expanded testing if needed and BCFNA does perform expanded testing if deemed necessary. However, the USDA risk-based monitoring approach implemented by BCFNA sets prompt follow-up standards for significant deficiencies to determine if addressed, and if not, move on to termination.

State of Missouri - Single Audit  
Corrective Action Plans  
Year Ended June 30, 2023

Overclaim recoupment

BCFNA standard practice is to pursue recoupment of overclaims of only the test month per USDA requirements, although when warranted, additional reviews are conducted beyond the test month. In addition, BCFNA officials pursue recoupment of overclaims for facilities/sponsors with terminated contracts on a case-by-case basis, taking into consideration various factors.

BCFNA strives to maintain an appropriate balance between adequate monitoring and not creating barriers to program participation per USDA and the Paperwork Reduction Act. Starting the termination process is more effective than performing additional testing and pursuing historically unsuccessful recoupment of overclaims.

CACFP is an important program that provides healthy meals to children and adults. The CACFP plays a vital role in improving the quality of day care and making it more affordable for many low-income families. This entitlement program provides reimbursements for nutritious meals and snacks to organizations that serve eligible children and adults who are enrolled for care at participating child care centers, day care homes, emergency shelters and adult day care centers. CACFP processes an average of 700 claims per month and provided healthy meals in Missouri to over 31 million children and adults in 2023. USDA prohibits creating barriers to program participation and provision of services. The steps over and above the USDA requirements suggested by the SAO would place significant barriers to participation in the CACFP program and in turn cause harm to needy children and adults.

The USDA established an acceptable level of risk with respect to the CACFP program and provided approved risk management processes and requirements. DHSS disagrees with the methodology the SAO used in its calculations. Out of the SAO's test sample of 60 monitoring reviews, only 9 of the overclaims were over the \$600 threshold of acceptable risk set by the USDA. 7 CFR 226.8(f): *In conducting management evaluations, reviews, or audits in a fiscal year, the State agency, FNS, or OIG may disregard an overpayment if the overpayment does not exceed \$600. A State agency may establish, through State law, regulation or procedure, an alternate disregard threshold that does not exceed \$600.* The SAO left the inflated error percentage in the body of the finding despite repeated requests and only included the lower suggested rates in footnote 4. The SAO also did not explain how their test of monitoring reviews performed by BCFNA, instead of a sample of claims submitted, was representative of CACFP reimbursements that would lend to projecting to the total population. BCFNA monitors using a risk-based approach as required in response to known erroneous claims and to proactively address issues. A sample of monitoring reviews is proportionally more likely to include a higher number of claims with discrepancies.

Corrective Action Plans  
Year Ended June 30, 2023

**State of Missouri  
Single Audit  
Corrective Action Plan  
Year Ended June 30, 2023**

State Agency: Department of Health and Senior Services (DHSS)

Audit Finding Number: 2023-014 Medicaid SPPC Participant Choice Agreements

Name of the contact person responsible for corrective action:  
Kim Toebben, Deputy Division Director, Division of Senior and Disability Services (DSDS)

Anticipated completion date for corrective action: March 2025

Corrective action planned is as follows:

The Division of Senior and Disability Services will implement the following actions to ensure a signed Participant Choice Agreement is completed and retained for all participants of the State Plan Personal Care program:

- DSDS is developing additional training for staff completing the Participant Choice Statement. Staff historically received formal training regarding the use of the Participant Choice Statement at new employee training. Now form completion will be a component of both ongoing in-service trainings offered throughout the year to experienced staff and a component of a new training track designed specifically for those who have been employed 6-9 months. The goals of these new trainings will be to reiterate the importance of form completion at each assessment.
- DSDS will include education on form completion at the twice annual provider update meeting that is required for all providers to attend.
- DSDS continues to work closely with the current Case Management System vendor, Conduent. In the fall of 2023, enhancements were completed to the system to address issues related to attaching documents.
- DSDS is actively developing a new Case Management System to replace the legacy system. The system is anticipated to go live in early 2025. This system will provide additional checks and balances to ensure forms are uploaded for each case completed.

---

**State of Missouri  
Single Audit  
Corrective Action Plan  
Year Ended June 30, 2023**

State Agency: Department of Health and Senior Services (DHSS)

Audit Finding Number: 2023-015 Medicaid Facility Survey Timeliness

Name of the contact person responsible for corrective action: Tracy Niekamp,  
Administrator, Section for Long Term Care Regulation, Division of Regulation  
and Licensure

Anticipated completion date for corrective action: December 31, 2024

Corrective action planned is as follows:

Missouri Department of Health and Senior Services (DHSS) through the Section for Long-term Care Regulation (SLCR) will continue its efforts to conduct survey procedures within required timeframes.

Since 2019, there has been a substantial increase in the number and severity of complaints, as well as the severity of violations in long term care facilities. Complaints have increased overall by thirty-six percent (36%) from 9,011 complaints in FY2019 to 12,236 complaints in FY2023. The largest increase has been in severe complaints, including a 125% increase in immediate jeopardy complaints (which require an onsite investigation within 24 hours) and a twenty-five percent (25%) increase in non-immediate jeopardy high priority complaints (which require onsite investigation within 10 working days). Surveyors often must be reassigned to investigate these serious complaints, which results in delays in conducting revisits and sending statements of deficiencies.

In addition to frequency and severity of complaints, DHSS has seen an increase in the number of citations issued per recertification survey and per complaint investigation. Since 2019, the average number of health citations issued to a facility during a recertification survey has increased by 25% and the number of citations issued from stand-alone complaint findings has increased 100% during the same timeframe. The number of citations issued at an immediate jeopardy level scope and severity have increased from 2021 to 2023 by almost 38%.

These increases require additional time devoted to investigating often complex violations and additional time spent performing write up activities, including the

State of Missouri - Single Audit  
Corrective Action Plans  
Year Ended June 30, 2023

creation of the Statement of Deficiency, plan of correction reviews, onsite and offsite revisit activities and communication with complainants and facilities. Workload increases often require team members to begin investigating new complaints prior to the write up activities or revisits from earlier surveys. Additionally, subsequent complaint investigations often cause revisits to be delayed due to open enforcement cases and substantial compliance date conflicts.

DHSS continues to experience staffing shortages, particularly in the Registered Nurse job classification, which impacts the ability to complete work consistently within the prescribed time frames. Each recertification survey requires at least one team member to be a Registered Nurse and due to the nature of many complaints, a Registered Nurse must also complete these investigations. There has been no meaningful increase in the federal budget since 2015, which further impacts the ability to hire and retain Registered Nurses. In addition, there is an ongoing shortage in the labor market for these professionals. The shortage has driven salaries well beyond the DHSS surveyor salary structure. DHSS has experienced turnover among surveyors leaving for other opportunities offering a much higher salary. DHSS invests at least one calendar year into training new surveyors to meet Centers for Medicare and Medicaid Services (CMS) requirements for surveyor qualifications. In 2015, the number of Registered Nurse vacancies in the Section for Long-Term Care averaged 14 positions. In 2023, the average was 27 positions. Candidates routinely will not apply for positions or show up for interviews because of the salary gap.

In order to attempt to meet these time frames, DHSS has and will continue to request additional funding from both federal and state sources to increase across the board salaries for Registered Nurse and other survey staff.

DHSS has also hired retired federally-qualified surveyors part-time to help with survey and complaint backlogs. DHSS continually works to identify inefficiencies and implement measures to address them, such as bundling complaint investigations with other regulatory processes.

As a short-term, time-limited solution possible through one-time additional funding from the CMS and the Centers for Disease Control and Prevention (CDC) Epidemiology and Laboratory Capacity Enhancing Detection Expansion grant (ELC EDEX), DHSS has contracted with three third-party contractors to complete recertification surveys.

**State of Missouri  
Single Audit  
Corrective Action Plan  
Year Ended June 30, 2023**

State Agency: Department of Elementary and Secondary Education (DESE)

Audit Finding Number: 2023-016 Child Care Payments

Name of the contact person responsible for corrective action: Shelley Woods

Anticipated completion date for corrective action: 12/31/2024

Corrective action planned is as follows:

DESE agrees with the auditor's finding. It has been challenging to have adequate internal controls over the child care program with two separate state agencies trying to administer different aspects of the program. The Department of Social Services (DSS) has been implementing eligibility and authorizations for families, while DESE has been administering rates, rules, licensure, and provider agreements. Effective July 1, 2024, eligibility and authorizations for families transfers under DESE's authority to ensure all facets of program implementation are within one state agency for better internal controls.

In addition, DESE transitioned to a new Child Care Data System (CCDS) for provider payments in the beginning of January 2024. Access, interfaces, and updates within the older systems has created multiple barriers and payments issues for the program. This single system, CCDS, allows parents to have a streamlined process for eligibility determinations, report changes in address or income, find or change providers, while also giving providers one place to apply for a contract, view authorizations, update contact information, view payment remittances, and make payment adjustments. By December 31, 2024, the CCDS will have combined all functions of FAMIS, FACES, and CCBIS attendance system into CCDS. DESE users can easily and efficiently make family and rate changes as necessary and view all information in the system, which will also strengthen internal controls.

DESE also continues to revise and clarify internal procedures to ensure consistent and accurate eligibility determinations and claims processing.

CCDF regulations specifically state pursuant to 45 CFR 98.21(a)(1) that because a child meeting eligibility requirements at the most recent eligibility determination

---

State of Missouri - Single Audit  
Corrective Action Plans  
Year Ended June 30, 2023

---

or redetermination is considered eligible between redeterminations, any payment for such a child shall not be considered an error or improper payment due to a change in the family's circumstances. Based on this regulation, DESE will work with the Administration for Children and Families to repay any claims considered questioned costs.

State of Missouri - Single Audit  
Corrective Action Plans  
Year Ended June 30, 2023

**State of Missouri  
Single Audit  
Corrective Action Plan  
Year Ended June 30, 2023**

State Agency: Department of Elementary and Secondary Education (DESE)

Audit Finding Number: 2023-017 DESE FFATA Reporting

Name of the contact person responsible for corrective action: Shelley Woods

Anticipated completion date for corrective action: July 1, 2024

Corrective action planned is as follows:

DESE expended over \$2.5 billion in federal funds in FY23, of which approximately \$1.8 billion was applicable to FFATA reporting. While this CCDF grant finding constitutes less than 1% of an error rate in FFATA reporting, DESE agrees with the auditor's conclusion and will strengthen internal controls surrounding FFATA reporting. The grant has been reported in FSRs as of November 2023 to meet FFATA requirements. While procedures were updated in FY24 to strengthen internal controls based on previous findings, DESE has made further revisions to the procedure and grant tracking forms to ensure FFATA compliance.

State of Missouri - Single Audit  
Corrective Action Plans  
Year Ended June 30, 2023

**State of Missouri  
Single Audit  
Corrective Action Plan  
Year Ended June 30, 2023**

State Agency: Missouri National Guard (MONG)

Audit Finding Number: 2023-018 – MONG Cooperative Agreement Extensions and Final Accounting

Name of the contact person responsible for corrective action: Lindsey Hedges

Anticipated completion date for corrective action: October 2024

Recommendation: The MONG establish controls and procedures to ensure a final accounting of all funding and disbursements and/or a written request(s) for extension is filed for each CA appendix in compliance with National Guard regulations.

Corrective action planned is as follows:

Missouri National Guard will implement internal controls and procedures for ensuring final accounting and extension requests are filed timely through regular monitoring of Cooperative Agreement (CA) appendices to identify upcoming lapses in completion of final accounting of all funding and disbursements or for extension request.

# CITIZENS SUMMARY

## Findings in the audit of the Washington County Collector and Property Tax System

### Background

In October 2021, concerns were brought to the attention of the Sheriff regarding fees paid in cash to the County Collector's office for property sales that were not deposited. At the request of the Sheriff, the Missouri State Highway Patrol (MSHP) opened an investigation. In June 2022, charges were initially filed relating to the MSHP's investigation. On November 28, 2022, the County Commission sent a letter to the State Auditor requesting an audit of the County Collector's office. On January 23, 2023, Carla Zettler, County Collector, was removed from office, and on January 26, 2023, Kris Richards was sworn in as the new County Collector.

State law requires an audit be conducted by the State Auditor's Office after a vacancy occurs in the office of the County Collector. We began an audit of the County Collector's office on January 30, 2023.

### Undeposited Receipts, Improper Transfers, and Questionable Disbursements

The former County Collector did not record or deposit at least \$107,081 in county trustee property sales receipts from the sale of over 1,700 properties from 2018 to 2021. The County Trustee sold most of the properties for \$1 plus \$99 in fees, for a total of \$100 per lot. Of the total \$100 paid per lot, only the \$1 collected for the county was recorded, deposited, and distributed by the County Collector's office. The remaining \$99 was held, in cash, in envelopes stored in the cash drawer or vault of the County Collector's office until distributed. Some of these receipts were likely distributed to the County Collector's office employees and the County Trustee. Additionally, it was reported that some of the receipts may have been maintained in cash in the County Collector's office and used for lunches and other petty cash type disbursements. However, there is no documentation to support any of these payments. The former County Collector improperly transferred at least \$3,700 from the Tax Maintenance Fund bank account to her personal bank account during 2018 and 2019. In addition, from 2019 to 2022, she made questionable disbursements by check and debit card, totaling at least \$3,211. An additional \$1,278 in questionable disbursements were identified by the MSHP between 2019 and 2020.

### County Trustee Property Sales

The former County Collector used proceeds from the county trustee property sales to make questionable and unsupported payments to office employees. The employees received a total of at least \$32,500 from 2018 to 2021 for trustee sales. In addition, the compensation per lot paid to the County Trustee significantly exceeded the amount allowed by state law and the county did not issue 1099 forms for the amounts paid to the County Trustee. The County Trustee received at least \$23 from each trustee property lot sold, and received at least \$39,400 from 2018 to 2021 for trustee sales. Also, the county could not provide justification to support how the total price for the trustee property lots was determined.

### Tax Maintenance Fund

The former County Collector approved 5 employee bonus payments from the Tax Maintenance Fund, totaling \$11,989, during 2021 and 2022, in violation of the Missouri Constitution. The amount paid for each employee was calculated on the number of hours worked during previous periods at an additional rate of pay per hour ranging from \$1.50 to \$2.30 per hour. The payments were in addition to regular payroll disbursements. The former

County Collector did not transfer receipts into the Tax Maintenance Fund on a monthly basis as required by state law, instead distributions were often made for several months at one time. The practice of transferring multiple months at one time made it more likely errors would occur.

---

Accounting Controls and Procedures

Weaknesses in accounting controls and procedures include not always depositing receipts intact, not accounting for the numerical sequence of receipt slip numbers, and office personnel sharing the same cash drawer when collecting receipts. General account bank reconciliations prepared by the former County Collector were not always complete, accurate, or timely. As of January 30, 2023, the former County Collector had only completed bank reconciliations on the general account through August 2022. The former County Collector did not prepare lists of liabilities for the general or the ACH (installment) bank accounts, and consequently, liabilities were not agreed to reconciled bank balances. The former County Collector did not transfer the balance of the ACH bank account to cover tax liabilities paid in November 2022. In addition, the former County Collector did not distribute protested taxes in a timely manner and did not maintain protested taxes in an interest bearing bank account as required by state law.

---

Property Tax System

The County Commission does not perform any procedures to verify the accuracy and completeness of the County Collector's annual settlements as required by state law. As a result, there is an increased risk of loss, theft, or misuse of property tax money going undetected, and less assurance the annual settlements are complete and accurate. The current County Collector has not completed and filed an annual settlement for the years ended February 28, 2023, and February 29, 2024, in violation of state law.

In the areas audited, the overall performance of this entity was <b>Poor</b> .*
---

\*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

## SCOTT FITZPATRICK MISSOURI STATE AUDITOR

County Commission  
and  
County Collector  
Washington County, Missouri

We have audited certain operations of the County Collector and Property Tax System of Washington County in fulfillment of our duties under Sections 29.230 and 52.150, RSMo. On November 28, 2022, the County Commission of Washington County requested the State Auditor to audit the office of the County Collector due to concerns regarding misappropriated money. Subsequently, on January 23, 2023, a vacancy occurred in the office of the County Collector. Section 52.150, RSMo, requires the State Auditor to audit the office of the County Collector after being notified of a vacancy in that office. A successor was appointed and sworn into office effective January 26, 2023. The scope of our audit included, but was not necessarily limited to, the year ended February 28, 2022, and the period of March 1, 2022, to January 23, 2023. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant property tax functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Determine the extent of money misappropriated and/or missing from the County Collector's office, if any.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We reviewed receipt and disbursement transactions, tax and trustee property sale documentation, addition and abatement activity, commissions, and the annual settlement; and performed sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. In addition, we used the report of other auditors and their review of county trustee property sales to determine the extent of undeposited receipts to address our audit objectives. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

Section 52.150, RSMo, requires the County Commission to accept the State Auditor's report and, if necessary, to take certain specific actions if the State Auditor finds any funds owed to the county or the former County Collector. For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) undeposited receipts totaling at least \$107,081, improper transfers totaling at least \$3,700, and questionable disbursements totaling at least \$3,211. The accompanying Management Advisory Report presents our findings arising from our audit of the County Collector and Property Tax System of Washington County.

A handwritten signature in black ink, appearing to read "S. Fitzpatrick". The signature is stylized with a large, looped initial "S" and a cursive "Fitzpatrick".

Scott Fitzpatrick  
State Auditor

# Washington County Collector and Property Tax System

## Introduction

---

### Background

The County Collector bills and collects property taxes for the county and most local governments within the county. The county's population was 23,514 in 2020, according to the U.S. Census Bureau.

Pursuant to Section 52.015, RSMo, the term for which collectors are elected expires on the first Monday in March of the year in which they are required to make their last final settlement for the tax book collected by them. Annual settlements are to be filed with the county commission for the fiscal year ended February 28 (29). Property taxes and other money collected by the Washington County Collector's office totaled approximately \$17.3 million during the year ended February 28, 2023.

Carla Zettler was elected Washington County Collector in November 2014, took office in March 2015, and was subsequently re-elected to the position in November 2018. During the years ended February 28, 2021, 2022, and 2023, she received salary and commissions of \$45,899, \$46,149, and \$47,350, respectively. Commissions for collecting city property taxes were \$2,899, \$3,149, and \$3,075, respectively. The County Collector's salary was in accordance with statutory provisions.<sup>1</sup>

The County Collector's office handles property sales, which occur when real estate parcels with delinquent taxes for 2 successive years are offered for sale at annual tax sales.<sup>2</sup> If after the third year of offering the property for sale, there is no purchaser, Section 140.260, RSMo, allows the County Commission to designate a person (county trustee) to purchase the property on behalf of the county.<sup>3</sup>

In October 2021, concerns were brought to the attention of the Sheriff regarding fees paid in cash to the County Collector's office for property sales that were not deposited. At the request of the Sheriff, the Missouri State Highway Patrol (MSHP) opened an investigation.

In June 2022, charges were initially filed relating to the MSHP's investigation. County Collector Carla Zettler was charged with felony stealing, felony money laundering or attempted money laundering, and misdemeanor official misconduct. A hearing is scheduled for September 23, 2024, related to these charges. Deputy County Collector Laura Laramore and County Collector's office employee Leslie Harmon entered into deferred prosecution agreements

---

<sup>1</sup> The salary paid to Carla Zettler was in accordance with statutory provisions; however, as noted throughout this report, the former County Collector made other questionable payments to herself.

<sup>2</sup> For information on the annual tax sale, see Section 140.150, RSMo.

<sup>3</sup> The county trustee is not required to pay the amount of delinquent taxes due. If the county trustee does not bid and no sale occurs at the annual tax sale, the county collector may sell such real property subsequent to the third offering at any time and for any amount.

## Washington County Collector and Property Tax System Introduction

---

and each paid \$10,000 in restitution. County Trustee Hanna Zettler<sup>4</sup> pled guilty to misdemeanor official misconduct, received 2 years of probation with a suspended imposition of sentence, and paid \$40,802 in restitution.

On November 28, 2022, the County Commission sent a letter to the State Auditor requesting an audit of the County Collector's office. On January 23, 2023, Carla Zettler was removed from office, and on January 26, 2023, Kris Richards was sworn in as the new County Collector.

We began an audit of the County Collector's office on January 30, 2023. We reviewed the activity of the County Collector's bank accounts, and various other records and documentation maintained by the County Collector's office, including property tax records, annual tax sale and trustee property sales records, and Tax Maintenance Fund records. Based on information provided by the MSHP, we also applied limited procedures to certain property tax records and bank account records for the period March 1, 2018, through February 28, 2021.

---

<sup>4</sup> Hanna Zettler is the former County Collector's daughter-in-law. She resigned her position as County Trustee in October 2021.

---

# Washington County Collector and Property Tax System

## Management Advisory Report

### State Auditor's Findings

---

#### **1. Undeposited Receipts, Improper Transfers, and Questionable Disbursements**

From 2018 to 2021, receipts collected from county trustee property sales totaling at least \$107,081<sup>5</sup> were not deposited and were instead paid in cash to County Collector's office employees and the County Trustee. In addition, from 2018 to 2022, the former County Collector improperly transferred at least \$3,700 to her personal bank account and made questionable disbursements totaling at least \$3,211 from the Tax Maintenance Fund.

##### **1.1 County trustee property sales**

The former County Collector did not record or deposit at least \$107,081 in county trustee property sales receipts from the sale of over 1,700 properties from 2018 to 2021 (see Appendix A). Some of these receipts were likely distributed to the County Collector's office employees and the County Trustee. Additionally, it was reported that some of the receipts may have been maintained in cash in the County Collector's office and used for lunches and other petty cash type disbursements. However, there is no documentation to support any of these payments.

Most of the real estate properties handled by the County Trustee consist of lots surrounding Woodland Lakes (see Appendix C). From 2018 to 2021, the County Trustee sold most of the properties for \$1 plus \$99 in fees, for a total of \$100 per lot. The following table shows how the \$100 paid per lot was typically distributed.

Distribution	Amount
Sale price paid to the county	\$ 1
Recorder of Deeds - collector's deed	30
Recorder of Deeds - county trustee's deed	27
County Collector's office employees <sup>6</sup>	19
County trustee <sup>7</sup>	23
Total amount paid per lot	\$ 100

---

<sup>5</sup> The County Commission hired an accounting firm to review trustee property sales completed from 2018 to 2021. The accounting firm concluded a total of \$107,081 collected during this 4-year period was unaccounted for. This total includes the distributions to the County Collector's office employees and the County Trustee. This amount does not include amounts paid to the Recorder of Deeds for the collector's or county trustee's deeds.

<sup>6</sup> The \$19 for the office employees was paid \$10 to one employee and \$9 to the other.

<sup>7</sup> If more than one county trustee property lot was sold at the same time to the same purchaser, each lot was sold for \$100. However, in these instances, the multiple lots may have been recorded on the same collector's deed and the same county trustee's deed, thereby decreasing the amount of fees paid to the Recorder of Deeds. These unused deed fees likely account for the difference between the \$107,081 in undeposited receipts and the estimated amounts paid to the County Collector's office employees (at least \$32,500) and the County Trustee (at least \$39,400) as discussed in Management Advisory Report finding numbers 2.1 and 2.2. As noted, it is unknown how the unused deed fees were distributed, but at least some of the fees may have been used in the County Collector's office for lunches and other petty cash type disbursements.

## Washington County Collector and Property Tax System Management Advisory Report - State Auditor's Findings

Of the total \$100 paid per lot, only the \$1 collected for the county was recorded, deposited, and distributed by the County Collector's office. The remaining \$99<sup>8</sup> was held, in cash, in envelopes stored in the cash drawer or vault of the County Collector's office until distributed. The Deputy County Collector indicated the cash payments to the office employees and the County Trustee were personally retained by those individuals. However, there is no documentation to support these cash distributions or why it would be appropriate to distribute unrecorded and undeposited collections in this manner.

### Conclusion

The former County Collector had a fiduciary responsibility to ensure all receipts collected by her office were properly deposited and accounted for. Failure to implement adequate controls and procedures to ensure all trustee property sales receipts were recorded in the accounting system, deposited intact, and distributed by official check contributed to receipts going unrecorded, undeposited, and inappropriately distributed in cash. These inadequate controls and procedures are further discussed in Management Advisory Report (MAR) finding number 2.

### 1.2 Tax Maintenance Fund improper transfers and questionable disbursements

The former County Collector improperly transferred at least \$3,700 from the Tax Maintenance Fund bank account to her personal bank account<sup>9</sup> during 2018 and 2019 (see Appendix B). In addition, from 2019 to 2022, she made questionable disbursements by check and debit card, totaling at least \$3,211 (see Appendix B).

Our review of the Tax Maintenance Fund bank account records and information provided by the Missouri State Highway Patrol (MSHP) identified the following questionable disbursements:

- The County Collector wrote a check for \$1,000 made payable to herself. Although the memo line of the check indicated "city taxes for Dec," there was no documentation to explain why city taxes were paid from the Tax Maintenance Fund. Additionally, the city tax commissions received by the County Collector are based on a percentage of collections so it is unlikely the commissions would be an even dollar amount. Also, the city commissions are typically processed through the county's payroll system, not paid with a Tax Maintenance Fund check.
- Three \$400 (\$1,200 total) ATM withdrawals.

<sup>8</sup> Most purchasers paid in cash. If a purchaser paid by check, County Collector's office personnel would cash the check, put the cash in an envelope, and hold it at the Collector's office until distributed.

<sup>9</sup> Information related to the former County Collector's personal bank account was provided by the Missouri State Highway Patrol.

## Washington County Collector and Property Tax System Management Advisory Report - State Auditor's Findings

- Debit card purchases at a Rhodes convenience store (\$42.55), Walmart (\$52.30), and Longhorn Steakhouse (\$45.49).
- A check for \$870.40 made payable to the Recorder of Deeds for Sunshine Law request fees. On June 17, 2022, the former County Collector made a Sunshine Law request for a copy of all trustee deeds from January 1, 2018, through December 31, 2021. After the payment was made on June 23, 2022, the Recorder of Deeds contacted the Sheriff's office and the check was taken into evidence and turned over to the MSHP. No documentation was available to explain why the former County Collector requested this information or why such fees were paid from the Tax Maintenance Fund.

An additional \$1,278 in questionable disbursements were identified by the MSHP between 2019 and 2020. These disbursements primarily included payments to Verizon and Amazon.

Pursuant to Section 52.290, RSMo, the County Collector is required to collect a penalty of 9 percent of the total charged on delinquent taxes, and two-ninths of this penalty is required to be paid into the Tax Maintenance Fund of the county. Section 52.315, RSMo, requires Tax Maintenance Fund money to be spent only for additional administration and operation costs of the County Collector's office. It is unclear how, and there is no documentation to support that, these transfers and disbursements benefited the County Collector's office, and most appear to be personal in nature.

## Recommendation

- 1.1-1.2 The County Commission and the County Collector continue to work with law enforcement officials regarding criminal prosecution of the unaccounted for receipts, inappropriate transfers, and questionable disbursements. In addition, the County Collector should ensure all receipts are recorded timely in the accounting system, deposited intact, and distributed by official check; and sufficient documentation is maintained to support all distributions. Also, the County Collector should ensure future disbursements from the Tax Maintenance Fund are in compliance with state law and supporting documentation is maintained for all disbursements.

## Auditee's Response

- 1.1-1.2 The County Commission and the County Collector agree and will continue to work with law enforcement officials. The County Collector has developed policies and procedures to ensure that all receipts are recorded in a timely manner in the accounting system, deposited intact, and disbursed by official check. The County Collector will ensure future disbursements from the Tax Maintenance Fund are in compliance with state law and supporting documentation is maintained for all disbursements.*

## Washington County Collector and Property Tax System Management Advisory Report - State Auditor's Findings

### 2. County Trustee Property Sales

Significant weaknesses existed in the controls and procedures over county trustee property sales. The County Collector's office collected approximately \$204,000 in county trustee property sales receipts from 2018 to 2021.

#### 2.1 County employees payments

The former County Collector used proceeds from the county trustee property sales to make questionable and unsupported payments to office employees. The employees received a total of at least \$32,500<sup>10</sup> from 2018 to 2021 for trustee sales. Each employee would have received approximately half of this amount. No justification could be provided to explain why the \$19 paid to the employees for each lot sold was appropriate and allowable by state law or why the payments were not processed through the normal payroll process.

Office personnel did not provide documentation about these payments to the County Clerk's office to allow for processing through the county's payroll system, necessary payroll tax withholdings, or reporting on the employee's W-2 forms. Also, because the employees of the County Collector's office collected the trustee property sale receipts during their normal working hours as part of their regular duties, there is nothing to support that these employees should have received the additional compensation. Since there does not appear to be any increase in the time worked by the employees, these payments represent additional compensation in the form of a bonus for services previously rendered and, as such, are in violation of Article III, Section 39, of the Missouri Constitution.

To ensure all compensation is properly reported and taxed, all compensation should be paid through the normal county payroll process. The failure to properly report and tax all wages, and to properly report all non-wage payments, could result in penalty and interest charges assessed against the county. Also, Article III, Section 39, of the Missouri Constitution, prohibits granting any extra compensation to employees for services already rendered.

#### 2.2 Excessive county trustee compensation

The compensation per lot paid to the County Trustee significantly exceeded the amount allowed by state law and the county did not issue 1099 forms for the amounts paid to the County Trustee. The County Trustee received at least \$23 from each trustee property lot sold, and received at least \$39,400<sup>11</sup> from 2018 to 2021 for trustee sales.

Section 140.260.7, RSMo, states compensation to trustees shall not be in excess of 10 percent of the price for which any such lands and lots are sold

<sup>10</sup> The amount received by the county employees was calculated using the county trustee property sales information included in the accounting firm's Independent Accountant's Report, dated May 24, 2022, and the assumption the county employees were paid \$19 for each lot sold.

<sup>11</sup> The amount received by the County Trustee was calculated using the county trustee property sales information included in the accounting firm's Independent Accountant's Report, dated May 24, 2022, and the assumption the County Trustee received \$23 for each lot sold.

## Washington County Collector and Property Tax System Management Advisory Report - State Auditor's Findings

by the trustees. State law is unclear as to what constitutes the price of a lot sold. Conservatively, if the sale price was the full \$100 collected per lot sold, the trustee's compensation should have been no more than \$10 (10 percent of \$100) or approximately \$17,000 total. By comparison, if the sale price was just the \$1 approved by the County Commission for the value of the property, then state law would allow the trustee's compensation to be no more than 10 cents (10 percent of \$1) per lot sold or a total of approximately \$170. The minimum of \$23 per lot paid to the County Trustee is clearly in excess of the amount allowed by state law. In addition, Sections 6041 to 6050W of the Internal Revenue Code require non-wage payments of at least \$600 in one year to an individual be reported to the federal government on 1099-MISC forms.

The former County Collector's failure to ensure compensation paid to the county trustee complied with state and federal law resulted in the excess compensation paid to the County Trustee, the purchaser incurring unnecessary fees, and possible fines and penalties for the county.

### 2.3 Sales price

The county could not provide justification to support how the total price for the trustee property lots was determined. According to the January 30, 2012, County Commission meeting minutes, the County Commission approved selling Woodland Lakes properties handled by the county trustee at the price noted on the map shown at Appendix C. Notations on the map indicate "lots marked good to be sold at full price. All other lots to be sold for \$1 or \$50 based on the likeliness of the lot to be made campable." While the County Commission meeting minutes noted the sales price of the various Woodland Lakes lots, how or why the total cost was set at \$100 could not be explained.

Without justification or support for how the total cost was determined, it is unclear if the charged amounts were equitable and allowable, and how the trustee property sales receipts were intended to be distributed. In addition, maintaining sufficient documentation is necessary to support the validity of transactions, to provide an audit trail, and to ensure all receipts collected are properly distributed.

## Recommendations

The County Commission and the County Collector:

- 2.1 Ensure all compensation is paid through the county's normal payroll process, properly taxed, and reported to the IRS and the Missouri Department of Revenue as employee compensation; and complies with the Missouri Constitution.
- 2.2 Ensure compensation paid to the county trustee complies with state law and is reported to the IRS and the Missouri Department of Revenue on 1099 forms.

## Washington County Collector and Property Tax System Management Advisory Report - State Auditor's Findings

### Auditee's Response

- 2.3 Evaluate the total sales price for each trustee property lot, and maintain documentation to support how the total sales price is determined and how the sales receipts are to be distributed.
- 2.1 *All compensation that is reported to the County Clerk's office is paid through the county's normal payroll process, properly taxed, and reported to the IRS and the Missouri Department of Revenue. The only reason the payments referred to in this finding were not paid using this process is because no one except the previous County Collector and her employees who received the payments were aware of these cash payments.*
- 2.2 *All payments to the County Trustee are now paid through the County Clerk's office and are appropriately reported to the IRS and the Missouri Department of Revenue on 1099 forms.*
- 2.3 *The county has hired a trustee who now turns in documentation indicating the sale price for each tract sold. This allows the County Clerk's office to ensure that the trustee will only be paid 10 percent of the sale price. The sale price is now determined to be the delinquent taxes due.*

### 3. Tax Maintenance Fund

As discussed in MAR finding number 1.2, the former County Collector improperly transferred money from the Tax Maintenance Fund to her personal bank account and made questionable and improper disbursements from the fund. In addition, the former County Collector paid employee bonuses from the Tax Maintenance Fund and did not transfer receipts monthly to the fund as required by state law. Receipts of the Tax Maintenance Fund totaled \$44,406 and \$49,472 for the years ended February 28, 2022, and 2023, respectively. The balance of the Tax Maintenance Fund was \$27,491 as of February 28, 2023.

#### 3.1 Employee bonuses

The former County Collector approved 5 employee bonus payments, totaling \$11,989, during 2021 and 2022, in violation of the Missouri Constitution. The amount paid for each employee was calculated on the number of hours worked during previous periods at an additional rate of pay ranging from \$1.50 to \$2.30 per hour. The payments were in addition to regular payroll disbursements. These payments were processed by the County Clerk through the county's payroll system, and then disbursed to the employees. The County Clerk stated it was a common practice among county officials to pay bonuses to employees out of discretionary funds; however, this practice has since stopped. The following table provides a summary of the employee bonus payments.

Washington County Collector and Property Tax System  
Management Advisory Report - State Auditor's Findings

Payment Date	Covered Period	Employee	Hours Worked	Rate of Pay per Hour	Total Bonus Paid
04/26/21	01/11/21 - 04/23/21	Employee 1	555.0	\$ 1.80	\$ 999.00
		Employee 2	555.0	1.50	832.50
					<u>1,831.50</u>
08/13/21	04/26/21 - 08/13/21	Employee 1	600.0	1.80	1,080.00
		Employee 2	600.0	1.50	900.00
					<u>1,980.00</u>
11/17/21	08/16/21 - 12/31/21	Employee 1	750.0	2.30	1,725.00
		Employee 2	750.0	1.75	1,312.50
		Employee 3	454.5	1.50	681.75
					<u>3,719.25</u>
04/08/22	01/03/22 - 04/08/22	Employee 1	525.0	2.00	1,050.00
		Employee 3	525.0	1.75	918.75
					<u>1,968.75</u>
08/30/22	04/11/22 - 08/26/22	Employee 1	750.0	2.25	1,687.50
		Employee 3	534.5	1.50	801.75
					<u>2,489.25</u>
Total Employee Bonuses					\$ 11,988.75

Bonuses payments represent additional compensation for services previously rendered and, as such, are in violation of Article III, Section 39, the Missouri Constitution, and contrary to Attorney General's Opinion No. 72-1955 (June 14, 1955), which states, ". . . a government agency which derives its power and authority from the Constitution and laws of this state would be prohibited from granting extra compensation in the form of bonuses to public officers or servants after the service has been rendered."

### 3.2 Monthly receipts

The former County Collector did not transfer receipts into the Tax Maintenance Fund on a monthly basis as required by state law. Tax collections are deposited into the County Collector's general bank account and typically distributed to the various entities and funds the money is owed to by check or electronic transfer after the end of each month. However, distributions to the Tax Maintenance Fund were not made monthly as required by state law, and instead were often made for several months at one time. It is unclear why the former County Collector did not transfer receipts into the Tax Maintenance Fund on a monthly basis. See Appendix D for a summary of the transfers made from the County Collector's general bank account to the Tax Maintenance Fund bank account.

## Washington County Collector and Property Tax System Management Advisory Report - State Auditor's Findings

In addition, the former County Collector transferred the October 2021 distribution, totaling \$1,520, to the Tax Maintenance Fund bank account twice, once in November 2021, and again in April 2022 with the distributions of November 2021 through February 2022. The former County Collector's practice of transferring multiple months at one time made it more likely such errors would occur.

Section 52.315.1 RSMo, states the two-sevenths collected to fund the Tax Maintenance Fund pursuant to Section 52.290, RSMo, and all money collected to fund the Tax Maintenance Fund under subsection 2 of Section 52.290, RSMo, shall be transmitted monthly for deposit into the Tax Maintenance Fund. Effective January 1, 2018, Section 52.290, RSMo, was modified to increase the delinquent penalty to 9 percent, with two-ninths of this penalty required to be paid to the Tax Maintenance Fund.

### Recommendations

The County Collector:

- 3.1 Discontinue paying employee bonuses.
- 3.2 Transfer receipts into the Tax Maintenance Fund monthly as required by state law and ensure the transfer amount is accurate.

### Auditee's Response

- 3.1 *The County Collector has discontinued the payment of bonuses to employees.*
- 3.2 *The County Collector transfers the distribution amount for the Tax Maintenance Fund following the distribution of money to the County Treasurer and entities during each monthly distribution process. A transfer record is generated, printed, and filed with the bank statements for the Tax Maintenance Fund account.*

## 4. Accounting Controls and Procedures

Significant weaknesses existed in the former County Collector's accounting controls and procedures. Some improvements have been made under the current County Collector, but additional improvements are needed.

### 4.1 Receipting and cash controls

The current and former County Collector's procedures for receipting and depositing money need(ed) improvement.

- Office personnel did not always deposit receipts intact. For example, on February 17, 2021, the daily receipt report indicated office personnel collected cash totaling \$1,500 and checks/money orders totaling \$3,419. However, personnel made manual adjustments to the daily receipt report to indicate cash totaling \$1,300 and checks/money orders totaling \$3,619 had been collected. According to the Deputy County Collector, these

## Washington County Collector and Property Tax System Management Advisory Report - State Auditor's Findings

adjustments were made to account for a \$200 money order that was used to pay for 2 county trustee property lots. The money order was added to the deposit and \$200 in cash was removed from the deposit and used to disburse the trustee sale proceeds in cash.

- The former County Collector did not account for the numerical sequence of receipt slip numbers to ensure money received had been properly recorded and deposited. The Deputy County Collector indicated she and other office personnel did not know the property tax system had the capability to print a report of daily transactions with receipt numbers.
- Current office personnel often share the same cash drawer when collecting receipts. Restricting access to cash drawers to only one person per drawer provides more assurance the responsible party can be identified in the event of loss, theft, or misuse of money. The Deputy County Collector stated sharing the cash drawer was the way it had always been done, and she was unsure how it started.

Failure to implement adequate receipting and depositing procedures increases the risk that loss, theft, or misuse of money received could occur and go undetected. Also, limiting access to the cash drawer is necessary to ensure responsibility for any losses or unreconciled differences can be determined.

### 4.2 Bank reconciliations

General account bank reconciliations prepared by the former County Collector were not always complete, accurate, or timely. As of January 30, 2023, the former County Collector had only completed bank reconciliations on the general account through August 2022.

The August 2022 bank reconciliation for the general account included a deposit in transit of \$9,341 from February 25, 2021, as a reconciling item. Upon further review, we noted the former County Collector had included this deposit in transit on each monthly bank reconciliation since February 2021. The February 2021 bank statement showed this deposit actually cleared the bank on February 26, 2021. Therefore, the former County Collector continued to report this deposit as a reconciling item in error, without investigating. With this error, the bank reconciliations prepared by the former County Collector showed the reconciled bank balance as agreeing to the general ledger account balance each month. We noted similar inaccurate deposit-in-transit reconciling items on other monthly bank reconciliations.

While the reconciled bank balance consistently agreed to the general ledger account balance according to the reconciliation, not all reconciling items (deposits in transit and outstanding checks) were accurate or traced to supporting documentation; therefore, the account was not actually in balance with the general ledger. Errors were caused by marking transactions as cleared when they had not cleared or recording incorrect information as

## Washington County Collector and Property Tax System Management Advisory Report - State Auditor's Findings

reconciling items, such as the example above. The Deputy County Collector stated reconciliations were completed solely by the former County Collector. The Deputy County Collector was not aware of how the bank reconciliations were completed.

The preparation of complete and accurate monthly bank reconciliations is necessary to ensure accounting records balance, transactions are properly recorded, and errors or discrepancies are detected and resolved timely.

### 4.3 Liabilities

The former County Collector did not prepare lists of liabilities for the general or the ACH (installment) bank accounts, and consequently, liabilities were not agreed to reconciled bank balances. In addition, the former County Collector did not transfer the balance of the ACH bank account to cover tax liabilities paid in November 2022. It is unclear why the former County Collector did not prepare lists of liabilities for the general or the ACH bank accounts and why she did not transfer the balance of the ACH bank account when required.

#### General account

As of August 2022, the reconciled bank balance of the general bank account totaled \$424,401, and no list of liabilities was found to support this balance. The current County Collector opened new bank accounts for tax activity beginning March 1, 2023, and no new deposits were made to the bank accounts of the former County Collector, but the bank accounts remained open for checks to clear.

As of July 2023, the former County Collector's general bank account had a remaining balance of \$22,687. The makeup of this balance could not be identified by the current County Collector or current office personnel. The current County Collector closed the former County Collector's general bank account and transferred the remaining balance to one of his new bank accounts for holding.

#### ACH account

The former County Collector did not prepare lists of liabilities for the ACH bank account<sup>12</sup> in which installment payments were deposited and did not transfer the balance of the ACH bank account to the general account to cover tax liabilities paid in full in November 2022. Current office personnel prepared a listing of installment payments made during 2022 and reconciled

---

<sup>12</sup> The ACH bank account is used to maintain deposits and disbursements of the installment program. Each year, from February through October, taxpayers enrolled in the program have monthly payments withdrawn electronically from their personal bank accounts and deposited into the ACH bank account. These payments are held until a taxpayer's tax bill can be fully paid, typically in November of each year. At that time, payments are recorded in the property tax system and applied to each respective taxpayer to reflect the payment of his/her tax liability, and the money is to be transferred to the general bank account for distribution to various entities and funds.

## Washington County Collector and Property Tax System Management Advisory Report - State Auditor's Findings

the balance with the ACH bank account balance as of February 28, 2023, and noted a difference of \$19.

The payments for the taxpayers enrolled in the installment program during 2022 were posted as paid in the property tax system on November 1, 2022. However, the balance to cover these tax payments was not transferred from the ACH bank account until the current County Collector transferred \$52,615 in March 2023. Had the former County Collector reconciled liabilities to the bank balances for the general and ACH bank accounts, the November transfer error would have been identified.

### Conclusion

Without accurate lists of liabilities, regular comparison of liabilities to the available cash balances, and investigation of the differences, the County Collector has no assurance cash is sufficient to meet liabilities, there is less likelihood errors will be identified, and the ability to resolve errors is diminished. In addition, without timely transfers of installment payments from the ACH account to the general account, there may not be sufficient funds in the general account to distribute taxes as required.

### 4.4 Protested taxes

The former County Collector did not distribute protested taxes in a timely manner and did not maintain protested taxes in an interest bearing bank account as required by state law.

#### Timely distribution

The former County Collector did not distribute \$99,429 of protested taxes related to a case that was ordered to be distributed by the State Tax Commission on November 10, 2020. It is unknown why the former County Collector had not distributed these taxes. The taxpayer brought this issue to the attention of the current County Collector when he took office in January 2023. In March 2023, the current County Collector distributed protested taxes of \$90,827 to the political subdivisions and refunded protested taxes of \$8,602 to the taxpayer.

The former County Collector did not properly account for additional protested taxes of \$784 and \$295 received on December 14, 2020. Both payments were noted as being paid under protest and deposited into the protest bank account. However, the taxpayers did not file petitions for the recovery of the amounts protested in the Washington County Circuit Court within 90 days as required by Section 139.031, RSMo, and as a result, these taxes should have been distributed 90 days from the date of protest. Instead, the protested taxes remained in the protest bank account. The current County Collector researched the property tax system and identified that both of these protested taxes had already been posted as paid and distributed, but the taxes had not been transferred from the protested bank account. It is unclear why the former County Collector did not transfer these funds.

## Washington County Collector and Property Tax System Management Advisory Report - State Auditor's Findings

In addition to being required by state law, timely distribution of property tax collections to the political subdivisions is necessary because most political subdivisions rely heavily on property tax revenues to fund their operations.

### Interest bearing

The former County Collector did not deposit protested taxes into an interest bearing account as required by state law. Section 139.031.7, RSMo, requires that all protested taxes impounded and disputed shall be invested by the collector in the same manner as assets specified in Section 30.260, RSMo, for investment of state money. Furthermore, Section 139.031.7, RSMo, requires the County Collector to disburse the proportional amount of interest earned either to the taxpayer, taxing authority, or both. It is unclear why the former County Collector did not deposit the protested taxes into an interest bearing account and both the taxpayer and the county were deprived of the interest earnings on this money while the protest was being resolved.

## Recommendations

The County Collector:

- 4.1 Ensure all receipts are deposited intact, account for the numerical sequence of receipt slip numbers, and limit access to the cash drawer.
- 4.2 Prepare accurate and timely bank reconciliations. Promptly investigate and resolve any differences identified.
- 4.3 Prepare monthly lists of liabilities and reconcile the listings to the reconciled bank balances, promptly investigate any differences, and if any money remains unidentified dispose of it in accordance with state law. In addition, establish procedures to ensure installment payments are transferred from the ACH bank account to the general bank account when payments are posted to the property tax system.
- 4.4 Ensure protested taxes are maintained in an interest bearing bank account, accounted for properly, and distributed in a timely manner.

## Auditee's Response

- 4.1 *The County Collector has established a procedure for processing all deposits intact and deposited on the day of the transaction. Daily Collection Receipt Reports are printed and compared with receipt numbers in consecutive order. Cash drawer use is limited to the staff on duty in the office and security cameras have been installed in the office.*
- 4.2 *The bank reconciliation process has been updated and is ongoing, including reviewing prior period records in an attempt to reconcile those as well as reconciling current activity. Any differences will be investigated and resolved.*

---

Washington County Collector and Property Tax System  
Management Advisory Report - State Auditor's Findings

---

- 4.3 *Liabilities are being identified with current balances for the General, Bankruptcy, and ACH accounts. Any differences will be investigated and resolved. ACH accounts are set up for current year tax installments and are transferred to the account holder's tax account following November 1st when the current year tax bill is due. A bill is generated for the difference and is sent to the account holder.*
- 4.4 *Protest accounts will be identified and held in an interest-bearing account and processed as resolved in accordance with state law.*
- 

## 5. Property Tax System

Controls and procedures over the property tax system need improvement.

### 5.1 Review of property taxes

The County Commission does not perform any procedures to verify the accuracy and completeness of the County Collector's annual settlements as required by state law. As a result, there is an increased risk of loss, theft, or misuse of property tax money going undetected, and less assurance the annual settlements are complete and accurate. The County Commission indicated it was unaware of the need to review the annual settlements.

Section 139.190, RSMo, requires the County Commission to carefully and fully examine the annual settlement of the County Collector. Such procedures are intended to establish checks and balances related to the collection of property taxes.

### 5.2 Annual settlements

The current County Collector has not completed and filed an annual settlement for the years ended February 28, 2023, and February 29, 2024, in violation of state law. The current County Collector indicated that he had not filed the annual settlements yet because the settlements did not balance. In addition, the distribution amounts were the same on the 2023 and 2024 annual settlements, and the total distributions were not mathematically correct on either annual settlement. The annual settlements are produced from the County Collector's computer system; however, the current County Collector is not familiar with how the annual settlements are compiled and could not explain the distribution amounts reported. Because the County Collector has not filed annual settlements, the County Commission cannot verify the County Collector's accounts.

To help ensure the validity of tax book charges, collections, and credits, and for County Commission to properly verify these amounts, the County Collector must file annual settlements. Section 139.160, RSMo, requires the County Collector to annually settle with the County Commission the accounts of all money received from taxes and other sources.

---

Washington County Collector and Property Tax System  
Management Advisory Report - State Auditor's Findings

---

Recommendations

- 5.1 The County Commission develop procedures to review the accuracy and completeness of the County Collector's annual settlements.
- 5.2 The County Collector prepare and file annual settlements in accordance with state law.

Auditee's Response

- 5.1 *The County Collector year closes at the end of February and the annual settlement will be presented to the County Commission as a complete review of the year with specific information on collections, disbursements, and abatements. The County Commission and the County Collector will work together to establish a process for the County Commission to verify the information on the annual settlement.*
- 5.2 *The County Collector is working with the computer software company that is contracted for collections to provide correct and accurate information for the 2022 and 2023 tax years as required by state law. Annual settlements will be completed timely in the future.*

### Washington County Collector and Property Tax System Tax Maintenance Fund Receipts March 1, 2021, through January 23, 2023

Month	Amount to be Distributed (1)	Date of Transfer	Actual Transfer Amount	Difference
March 2021 (2)				
April 2021	\$ 4,492.96	05/04/21	\$ 4,492.96	\$ 0.00
May 2021	2,185.48			
June 2021	3,361.99			
July 2021	3,561.03			
August 2021	2,995.56			
September 2021	829.53			
	<u>12,933.59</u>	10/08/21	12,933.59	0.00
October 2021	1,520.20	11/30/21	1,520.20	0.00
November 2021	1,279.01			
December 2021	2,131.98			
January 2022	8,801.04			
February 2022	5,276.03			
	<u>17,488.06</u>	04/08/22	19,008.26	1,520.20 (3)
March 2022	7,255.90	04/14/22	7,255.90	0.00
April 2022	3,166.78			
May 2022	2,863.10			
June 2022	4,272.27			
July 2022	3,605.76			
	<u>13,907.91</u>	08/17/22	13,907.91	0.00
August 2022	3,476.07			
September 2022	1,172.90			
October 2022	1,008.10			
November 2022	1,011.27			
December 2022	2,079.96			
	<u>8,748.30</u>	01/20/23	<u>8,748.30</u>	<u>0.00</u>
Total	\$ <u>66,346.92</u>		\$ <u>67,867.12</u>	\$ <u>1,520.20</u>

- (1) Receipts of the Tax Maintenance Fund are required to be distributed monthly from the County Collector's general bank account. The monthly amount to be distributed was scheduled from the monthly property tax distribution reports prepared by the County Collector's office.
- (2) The March 2021 distribution to the Tax Maintenance Fund was combined with several previous months for a transfer totaling \$25,412.86 made on April 6, 2021.
- (3) The transfer made on April 8, 2022, was \$1,520.20 more than it should have been due to the County Collector's office making the October 2021 distribution twice; once in November 2021, and again in April 2022.

### **INDEPENDENT AUDITOR'S REPORT**

To the County Commission and  
Officeholders of Putnam County, Missouri

#### **Report on the Audit of the Financial Statements**

##### ***Opinion***

We have audited the accompanying financial statements of Putnam County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements.

##### ***Unmodified Opinion on Regulatory Basis of Accounting***

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Putnam County, Missouri, as of December 31, 2023, and their respective cash receipts and disbursements, and budgetary results for the year then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

##### ***Adverse Opinion on U.S. Generally Accepted Accounting Principles***

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Putnam County, Missouri, as of December 31, 2023, or the changes in financial position thereof for the year then ended.

##### ***Basis for Opinion***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Putnam County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles***

As described in Note 1, the financial statements are prepared by Putnam County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri Law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Putnam County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Putnam County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated August 12, 2024, on our consideration of Putnam County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Putnam County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Putnam County, Missouri's internal control over financial reporting and compliance.

The accompanying Notes to the Financial Statements are an integral part of this statement.

PUTNAM COUNTY, MISSOURI  
NOTES TO THE FINANCIAL STATEMENTS  
DECEMBER 31, 2023

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Putnam County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are nine elected Constitutional Officers: Assessor, Circuit Clerk, Collector/Treasurer, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder and Sheriff.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Putnam County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County's legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk (other than the portion that is funded by the General Revenue Fund) and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County, particularly the Collector/Treasurer, as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County's custodial funds.

### C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

### D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.
2. On or before the second Monday in January, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.
4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.
5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.
6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.
8. Budgets are prepared and adopted on the cash basis of accounting.
9. Adoption of a formal budget is required by law.
10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceed budgeted amounts for the Senior Citizens Service Board Fund and the Victims of Domestic Violence Fund.

- E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2023 for purposes of taxation were:

Real Estate	\$ 77,723,572
Personal Property	27,840,490
Railroad and Utilities	<u>6,122,684</u>
Total	<u>\$ 111,686,746</u>

For calendar year 2023 the County Commission approved a tax levy per \$100 of assessed valuation of tangible taxable property as follows:

General Revenue	0.4572
Senior Citizens Service Board	0.0457

The Special Road and Bridge Fund receives 1/5 of the special road district levy collections and 1/7 of the township levy collections.

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investments balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

## 2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Cash includes deposits and short-term investments with maturities that are less than ninety days. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2023, the County had the following cash and investment balances:

	<u>Carrying Value</u>	<u>Bank Balance</u>	<u>FDIC Coverage</u>
Cash and Cash Equivalents	\$ 2,530,973	\$ 2,709,205	\$ 250,000
Investments	444,267	444,267	250,000
Total Governmental Funds	<u>\$ 2,975,240</u>	<u>\$ 3,153,472</u>	<u>\$ 500,000</u>
 Cash and Cash Equivalents - Fiduciary Funds	 <u>\$ 5,044,658</u>	 <u>\$ 4,030,949</u>	 <u>\$ 314,233</u>

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2023 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

## 3. COUNTY EMPLOYEES' RETIREMENT PLANS

### A. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

#### 1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

## 2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, [www.mocerf.org](http://www.mocerf.org).

## 3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, a contribution to CERF of 2% of annual salary is required for eligible employees hired before February 2002, while a contribution of 6% of annual salary is required of employees hired after February 2002. During 2023 the County collected and remitted to CERF employee withholdings of \$52,262 for the year then ended.

### B. Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed \$3,366 for the year ended December 31, 2023.

### C. Other Retirement Plans

Putnam County has voluntary 457 and 401(a) plans administered by Empower Retirement (formerly Great-West Retirement Services) which are paid by a deduction from employees' salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the year ended December 31, 2023 for the 457 plan were \$23,619, and employee contributions collected and remitted by the County for the year ended December 31, 2023 for the 401(a) plan were \$4,790.

## 4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

## 5. CLAIMS, COMMITMENT AND CONTINGENCIES

### A. Compensated Absences

The County provides full-time employees with up to 20 days of sick time to accrue at one day per complete calendar month of employment. Permanent part-time employees accrue sick leave proportional to hours worked. Upon termination of employment, the employee will be compensated at \$10 per day of accrued sick time. Vacation time is accrued for full-time regular employees after a six-month probationary period based on years of employment with the County. After one year of employment, one week may be taken. After two years, and each year thereafter, two weeks of eligibility is earned. Upon termination, the employee is compensated for accrued vacation time at the employee's final rate of pay, up to a maximum of four weeks.

### B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

### C. Litigation

The County was involved in pending litigation as of the audit report date. The County's management and legal counsel anticipate that potential claims, if any, against the County resulting from such litigation would not have a material effect on the financial position of the County.

## 6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body. The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

## 7. LONG-TERM DEBT

The County had the following long-term debt outstanding as of December 31, 2023:

- A. In 2012, the county issued \$7,630,000 in general obligation bonds for the purpose of (1) refinancing the County's Hospital Revenue Bonds, series 2006; (2) renovating, constructing, furnishing, and equipping a portion of the Putnam County Memorial Hospital for use as a specialized geriatric care ward; (3) funding a debt service reserve account; (4) paying the costs of complying with certain tax and securities law requirements; and (5) paying the cost of issuing the Bonds. Funds from a dedicated property tax and hospital improvement sales tax collected by the County and remitted to the paying agent are used to make principal and interest payments.

In 2021, the County refunded the original general obligation bonds and issued \$4,115,000 in General Obligation Hospital Refunding Bonds. Funds from a dedicated property tax and hospital improvement sales tax collected by the County and remitted to the paying agent are used to make principal and interest payments. The general obligation bonds bear interest at 3.00% and mature in September 2029. The schedule of remaining payments and interest is listed below:

Fiscal Year Ending December 31,	Principal	Interest	Total
2024	\$ 505,000	\$ 94,500	\$ 599,500
2025	520,000	79,350	599,350
2026	535,000	63,750	598,750
2027	555,000	47,700	602,700
2028	570,000	31,050	601,050
2029	465,000	13,950	478,950
Totals	<u>\$ 3,150,000</u>	<u>\$ 330,300</u>	<u>\$ 3,480,300</u>

- B. In December 2019, the County entered into a lease purchase agreement to finance the purchase of a 2019 Ram 1500 Classic Crew Cab at a cost of \$29,222. The agreement requires five annual payments of \$6,185, which include interest payable at 4.15% until 2023. The final payment was paid on March 29, 2023.
- C. In April 2020, the County entered into a lease purchase agreement to finance the purchase of a 2020 Dodge Durango Pursuit AWD at a cost of \$32,065. The agreement required five annual payments of \$6,945, which include interest payable at 4.15% until 2024. The final payment is due on April 13, 2024.

Fiscal Year Ending December 31,	Principal	Interest	Total
2024	\$ 6,669	\$ 276	\$ 6,945

- D. In April 2021, the County entered into a lease purchase agreement to finance the purchase of a 2021 Caterpillar Excavator at a cost of \$186,087. The agreement requires four annual payments of \$48,983, which includes interest payable at 3.550% until 2024. The final payment is due April 26, 2024.

Fiscal Year Ending December 31,	Principal	Interest	Total
2024	\$ 47,305	\$ 1,678	\$ 48,983

- E. In July 2022, the County entered into a lease purchase agreement to finance the purchase of a 2022 Ford Bronco Sport 4x4 at a cost of \$27,417. The agreement requires four annual payments of \$7,233, which includes interest payable at 4.850% until 2025. The final payment is due on January 31, 2025. The schedule of remaining payments and interest is listed below:

Fiscal Year Ending December 31,	Principal	Interest	Total
2024	\$ 6,580	\$ 653	\$ 7,233
2025	6,899	334	7,233
Totals	<u>\$ 13,479</u>	<u>\$ 987</u>	<u>\$ 14,466</u>

- F. In October 2022, the County entered into a lease purchase agreement to finance the purchase of a 2022 Dodge Durango Pursuit AWD at a cost of \$35,883. The agreement requires four annual payments of \$9,501, which includes interest payable at 5.450% until 2025. The final payment is due on April 15, 2025. The schedule of remaining payments and interest is listed below:

Fiscal Year Ending December 31,	Principal	Interest	Total
2024	\$ 8,545	\$ 956	\$ 9,501
2025	9,010	491	9,501
Totals	<u>\$ 17,555</u>	<u>\$ 1,447</u>	<u>\$ 19,002</u>

The following schedule shows changes in long-term debt during the year ended December 31, 2023:

Description	Balance 12/31/2022	Additions	Payments	Balance 12/31/2023	Interest Paid
Hospital GO Bonds	\$ 3,640,000	\$ -	\$ (490,000)	\$ 3,150,000	\$ 109,200
2019 Ram 1500 Crew Cab	5,938	-	(5,938)	-	247
2020 Dodge Durango	13,071	-	(6,402)	6,669	543
2021 Caterpillar Excavator	92,987	-	(45,682)	47,305	3,301
2022 Ford Bronco	20,184	-	(6,705)	13,479	528
2022 Dodge Durango	26,382	-	(8,827)	17,555	674

## 8. OPERATING LEASES

At December 31, 2023, the County has three non-cancellable leases for copiers. The County Clerk's Office has one non-cancellable 60-month lease for a copier through February 2028 with a monthly payment of \$131. The Recorder's Office has one non-cancellable 60-month lease for a copier through December 2025 with a monthly payment of \$137. The Assessor's Office has one non-cancellable 60-month lease for a copier through January 2028 with a monthly payment of \$210.

Fiscal Year Ending December 31,	Amount
2024	\$ 5,750
2025	5,750
2026	4,100
2027	4,100
2028	472

## 9. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2023 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through August 12, 2024, the date the financial statements were available to be issued.

## **COMPLIANCE SECTION**

CERTIFIED PUBLIC ACCOUNTANTS

### **INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the County Commission and  
Officeholders of Putnam County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Putnam County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2023, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements, which collectively comprise Putnam County, Missouri's basic financial statements and have issued our report thereon dated August 12, 2024.

#### **Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Putnam County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Putnam County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Putnam County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses, or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

## **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Putnam County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**ITEMS OF NONCOMPLIANCE**

None

PUTNAM COUNTY, MISSOURI  
FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN AUDIT OF FINANCIAL STATEMENTS  
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Putnam County, Missouri, on the applicable findings in the prior audit report issued for the year ended December 31, 2022.

**2022-001:** During the audit, it was noted the County was not in compliance with Missouri budgetary statute Chapter 50, RSMo. The following funds had actual expenditures which exceeded the budgeted expenditures in 2022: Law Enforcement Fund and Senior Citizens Service Board Fund.

*Status:* Considered resolved. Similar conditions were noted in the current audit (see Note 1.D.10) but were not considered to be instances of material noncompliance.

---

CERTIFIED PUBLIC ACCOUNTANTS

August 12, 2024

To the County Commission  
Putnam County, Missouri

We have audited the regulatory basis financial statements of Putnam County, Missouri for the years ended December 31, 2023. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 28, 2024. Professional standards also require that we communicate to you the following information related to our audit.

### Significant Audit Matters

#### *Qualitative Aspects of Accounting Practices*

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Putnam County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2023. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

#### *Difficulties Encountered in Performing the Audit*

We encountered no significant difficulties in dealing with management in performing and completing our audit.

#### *Corrected and Uncorrected Misstatements*

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. In addition, none of the misstatements detected as a result of audit procedures and corrected

by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

#### *Disagreements with Management*

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

#### *Management Representations*

We have requested certain representations from management that are included in the management representation letter dated August 12, 2024.

#### *Management Consultations with Other Independent Accountants*

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

#### *Other Audit Findings or Issues*

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

In planning and performing our audit of the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis, the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the year ended December 31, 2023, we considered Putnam County's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control. We issued our report on our consideration of internal control over financial reporting dated August 12, 2024. However, during our audit we became aware of matters that are opportunities for strengthening internal controls.

#### **Absence of Proper Investment Policy**

The County has not adopted a formal investment policy as required by state statute. Section 30.950, RSMo requires political subdivisions that manage public funds to adopt an investment policy that prioritizes safety, liquidity and yield; prohibits derivatives, leveraging, and speculation with public funds; and requires collateralization of deposits. We recommend the County adopt an investment policy that meets the requirements of state statutes.

Restriction on Use

This information is intended solely for the information and use of the County Commission and management of Putnam County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

### Missouri Retirement Systems' Proxy Voting Policies

Report No. 2024-060

September 2024

[auditor.mo.gov](https://auditor.mo.gov)

**Scott Fitzpatrick**  
Missouri State Auditor

# CITIZENS SUMMARY

## Findings in the audit of Missouri Retirement Systems' Proxy Voting Policies

**Background and Methodology** A total of 129 public retirement systems exist in the State of Missouri to provide retirement benefits to public employees of the State of Missouri, public schools, and local governments. These retirement systems administer net assets of approximately \$100 billion and serve approximately 661,000 public employee members.

Public retirement systems typically use internal investment staff to manage system assets. However, many systems also invest a portion of system assets in managed accounts, which are investment accounts owned by investors (the retirement systems) but actively managed by third parties. Managed accounts can result in the retirement system becoming a shareholder of a publicly traded company. As a shareholder, the retirement system may inherit the ability to vote on a variety of business actions for publicly traded companies through shareholder elections.

To simplify the process of potentially voting on a number of issues for multiple companies, shareholders can designate another individual or firm to vote on their behalf. This other individual or firm is referred to as a "proxy." The proxy voter may then vote in accordance with the shareholder's directions.

Missouri's retirements systems have varying levels of system funds invested in managed accounts, and therefore, own voting shares of various companies via external investment managers. These shares are voted by the investment managers via proxy votes pursuant to agreements between the various retirement systems and the investment managers or other proxy voting service.

Concerns over environmental, social, and governance (ESG) factors being used to make investment decisions have resulted in increased scrutiny of proxy voting policies for public investments. ESG investing is defined as the systematic consideration of environmental, social, and governance criteria in investment decisions and portfolio construction to identify risks and opportunities. The general concern regarding ESG investing is that decisions on investments are made on the basis of something other than investment risk and return objectives that may not be in the best interest of the taxpayer and retirement system members.

The SAO reviewed investment and proxy policies for state's 8 largest retirement systems based on the total amount of funds invested. The SAO also interviewed system officials regarding their procedures, requested investment manager proxy voting policies and proxy voting reports, and reviewed selected proxy votes for compliance with applicable policies.

### Proxy Voting Policies and Procedures

Improvements are needed in the proxy voting policies and procedures of the majority of Missouri's retirement systems reviewed. The review determined 2 of the 8 systems reviewed included specific guidelines on how certain issues should be voted, while the remainder of the systems reviewed had policies that only included general language stating proxy votes are to be cast in the

best interest of the system and its participants without any specific guidelines on how votes should be cast. Only 1 out of the 8 systems reviewed requires a proxy voting advisor be retained and specifies which factors the proxy voting advisor shall consider. In addition, improvements are needed in the monitoring of proxy policies and procedures for retirement systems. None of the retirement systems reviewed had policies instructing personnel to review the proxy votes cast on behalf of the system, and 5 of the 8 systems did not perform a regular review of proxy voting reports to ensure compliance. As a result, the review of ESG-related votes noted multiple instances in which a retirement system's proxy votes were used inconsistently, with different investment managers voting on different sides of the same issue, essentially canceling the systems' votes.

Because of the nature of this audit, no rating is provided.

Mun Y. Choi, President, University of Missouri  
University of Missouri System Retirement

We have audited certain aspects of the proxy voting policies for the 8 largest Missouri public retirement systems as authorized under Chapter 29, RSMo. Due to the increased attention on taxpayer funded retirement system proxy voting policies and concerns related to proxies potentially not meeting their fiduciary responsibilities to the retirement systems, the proxy voting policies of the state's various public retirement systems are a significant issue to taxpayers and state employees. Due to my role on the MOSERS Board of Trustees as State Treasurer during the audit period, I recused myself from all portions of the audit involving MOSERS. For those portions of the audit, the Audit Director oversaw procedures performed by the professional audit staff of the State Auditor's Office, as appropriate. The scope of the audit included, but was not limited to, the fiscal year ended June 30, 2022. The objectives of our audit were to:

1. Evaluate certain Missouri public retirement systems' policies and procedures regarding proxy voting.
2. Evaluate certain Missouri public retirement systems' monitoring of proxy voting agreements with service providers.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

For the areas audited we identified (1) deficiencies in policies and procedures regarding proxy voting, and (2) deficiencies in the monitoring of proxy voting agreements with service providers.

The accompanying Management Advisory Report presents our finding arising from our audit of the Missouri Retirement Systems' Proxy Voting Policies.

A handwritten signature in black ink, appearing to read "S. Fitzpatrick". The signature is stylized with a large, looped "S" and a cursive "Fitzpatrick".

# Missouri Retirement Systems' Proxy Voting Policies

## Introduction

---

### Background

A total of 129 public retirement systems exist in the State of Missouri to provide retirement benefits to public employees of the State of Missouri, public schools, and local governments. These retirement systems administer net assets of approximately \$100 billion and serve approximately 661,000 public employee members.<sup>1</sup> These retirement systems are considered fiduciaries and may invest system funds according to the prudent person standard. As such, retirement systems invest system assets in a variety of investment types, including publicly traded funds, government securities, and private equity investments.

Public retirement systems typically use internal investment staff to manage system assets. However, many systems also invest a portion of system assets in managed accounts, which are investment accounts owned by investors (the retirement systems) but actively managed by third parties. Managed accounts can result in the retirement system becoming a shareholder of a publicly traded company. As a shareholder, the retirement system may inherit the ability to vote on a variety of business actions for publicly traded companies through shareholder elections. These elections generally occur during the company's annual meeting, and are used to make decisions on a variety of issues; including board placements, executive salaries and benefits, and significant changes in the company's goals. Ownership of the voting stock typically allows the owner one vote for each share of voting stock owned.

To simplify the process of potentially voting on a number of issues for multiple companies, shareholders can designate another individual or firm to vote on their behalf. This other individual or firm is referred to as a "proxy." The proxy voter may then vote in accordance with the shareholder's directions. Shareholders receive a proxy ballot in the mail, or electronically, along with an information booklet, called a proxy statement, that describes the issues to be voted on during the meeting.

External investment managers may also cast proxy votes on behalf of mutual fund shareholders or high net worth investors in separately managed accounts. Missouri's retirements systems have varying levels of system funds invested in managed accounts, and therefore, own voting shares of various companies via external investment managers. These shares are voted by the investment managers via proxy votes pursuant to agreements between the various retirement systems and the investment managers or other proxy voting service.

## Missouri Retirement Systems' Proxy Voting Policies

### Introduction

#### ESG Concerns

Concerns over environmental, social, and governance (ESG) factors being used to make investment decisions have resulted in increased scrutiny of proxy voting policies for public investments. ESG investing is defined as the systematic consideration of environmental, social, and governance criteria in investment decisions and portfolio construction to identify risks and opportunities. Environmental criteria consider how a company safeguards the environment, including, for example, corporate policies addressing climate change. Social criteria examine how a company manages relationships with employees, suppliers, customers, and the communities where it operates. Governance pertains to a company's leadership, executive pay, audits, internal controls, and shareholder rights.

Examples of ESG issues being voted on with retirement system proxy votes during the audit include: (1) a vote to establish an "Environmental Sustainability Board Committee," (2) a vote to procure a report on the "impacts of reproductive healthcare legislation," (3) a vote to procure a report on the "congruency of political spending with company values," (4) a vote to procure a report on "steps to improve gender and racial equity on the board," and (5) a vote to procure a third party "racial equity audit."

The general concern regarding ESG investing is that decisions on investments are made on the basis of something other than investment risk and return objectives that may not be in the best interest of the taxpayer and retirement system members.

Our audit focused on a sample of Missouri's public retirement systems and their respective proxy voting policies and procedures.

#### Acronyms

The following acronyms were commonly used in the body of this report:

CERF	County Employees' Retirement Fund
KC PSRS	Kansas City Public School Retirement System
LAGERS	Local Government Employees Retirement System
MOSERS	Missouri State Employees' Retirement System
MPERS	Missouri Department of Transportation and Missouri Highway Patrol Employees' Retirement
PSRS/PEERS	Public School and Education Employee Retirement Systems of Missouri
PSRSSTL	Public School Retirement System of the City of St. Louis
UM RET	University of Missouri System Retirement

Table 1 documents the retirement systems reviewed, the total dollar amount under investment for each of these systems, the amount of investment in active management that would be subject to proxy votes, and the number of investment managers used to invest this money. Additional information

## Missouri Retirement Systems' Proxy Voting Policies Introduction

regarding the proxy policies and procedures for each system reviewed is located in Appendix A.

Source: Compiled by the State Auditor's Office using the retirement systems' annual reports and discussions with retirement systems' personnel.

## Scope and Methodology

The scope of our audit included, but was not limited to, the year ended June 30, 2022. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives.

To gain an understanding of proxy voting policies in place at Missouri's public retirement systems, we selected 8 of the state's largest retirement systems based on the total amount of funds invested. See the retirement systems listed in Table 1. Investment and proxy policies for the selected retirement systems were obtained and reviewed.

To evaluate certain Missouri public retirement systems' policies and procedures regarding proxy voting, we requested proxy voting policies of each selected retirement system, and interviewed system officials involved in proxy voting policy development and approval, implementation, and monitoring. We then compared this information across retirement systems. In addition, we performed procedures to compare a judgmentally selected sample of ESG-related proxy votes by each systems' investment managers to determine compliance with existing policies. The results of our sample cannot be projected to the entire populations from which the items were selected. A summary of this information is located in Appendix B.

## Missouri Retirement Systems' Proxy Voting Policies

### Introduction

---

To evaluate certain Missouri public retirement systems' monitoring of proxy voting agreements with service providers, we interviewed system officials regarding their procedures, requested investment manager agreements, proxy voting policies and proxy voting reports, and reviewed selected proxy votes for compliance with applicable policies.

---

# Missouri Retirement Systems' Proxy Voting Policies

## Management Advisory Report

### State Auditor's Finding

---

#### **Proxy Voting Policies and Procedures**

Improvements are needed in the proxy voting policies and procedures of the majority of Missouri's retirement systems reviewed. Our review determined 2 of the 8 systems reviewed (MOSERS and PSRS/PEERS) included specific guidelines on how certain issues should be voted, while the remainder of the systems reviewed had policies that only included general language stating proxy votes are to be cast in the best interest of the system and its participants without any specific guidelines on how votes should be cast. Only 1 out of the 8 systems reviewed (MOSERS) requires a proxy voting advisor be retained and specifies which factors the proxy voting advisor shall consider. In addition, improvements are needed in the monitoring of proxy policies and procedures for retirement systems. None of the retirement systems reviewed had policies instructing personnel to review the proxy votes cast on behalf of the system, and 5 of the 8 systems did not perform a regular review of proxy voting reports to ensure compliance. As a result, our review of ESG-related votes noted multiple instances in which a retirement system's proxy votes were used inconsistently, with different investment managers voting on different sides of the same issue, essentially canceling the systems' votes.

#### **Proxy policies do not contain specific guidance**

The majority of Missouri's public retirement systems have proxy voting policies with language requiring proxy votes be cast in the economic best interest of the system and its members, or other language to that effect. Policies of this nature do not provide any specific guidance on how certain ESG-related votes should be cast and are subjective. While system personnel indicated they monitor the investment return earned through the investment managers to ensure they are meeting investment goals, only MOSERS and PSRS/PEERS have adopted policies<sup>2</sup> that provide proxy managers a specific framework on how the system wants its proxy votes used for certain issues when what is in the best interest of the system may be in question, and only MOSERS requires a proxy voting advisor be retained.

The lack of clear guidelines for how votes should be cast has resulted in proxy votes for public retirement systems being cast in an inconsistent manner. For example, our review of 7 ESG-related proxy votes across the 8 retirement systems during our audit period noted 5 instances in which proxy votes for a system were made both for, and against, the same proposal. While both of the systems in question had a policy to vote in the best financial interest of the system, the lack of specific guidance on how the system's votes on these types of issues should be cast allowed different investment managers to reach opposing conclusions about which vote complied with the policy, and also highlights the subjectivity of the policy. According to several retirement system representatives, it may not be possible to eliminate inconsistent proxy

---

<sup>2</sup> MOSERS adopted *Egan-Jones Proxy Services Wealth Focused Principles and Guidelines*, 2023, as its proxy voting policy, while PSRS/PEERS adopted the *Glass Lewis Governance-Focused Thematic Policy* in December 2022 as its proxy policy.

## Missouri Retirement Systems' Proxy Voting Policies Management Advisory Report - State Auditor's Finding

votes across investment managers, and such inconsistencies could potentially be seen as an indication of diversity within the plan's portfolio. However, the proxy votes are the responsibility of the individual plan, and should be voted in a way that maximizes return to plan members, rather than representing diversity of thought among hired investment managers. If plans are voting their proxies on both sides of an issue, they are essentially canceling out their vote(s). A policy to provide investment managers or proxy managers specific guidance on how proxies should be voted would provide clarity to how the system wants its voting power used regarding certain issues and would reduce the likelihood that proxy votes would be cast in an inconsistent manner.

See Appendix B for a summary of judgmentally selected ESG-related proxy votes made by each system's investment managers.

### Improvements needed in proxy vote monitoring

Based on interviews of personnel of the 8 retirement systems reviewed, 5 did not perform a regular review of proxy voting reports to ensure compliance with their proxy voting policies. In addition, a representative of CERF stated the system did not receive reports of proxy votes made on the system's behalf. Representatives of LAGERS, MOSERS, PSRS/PEERS, and UM RET stated that while they do receive reports of their proxy votes, there is no regular review of those reports. LAGERS passed a new policy in June of 2023, requiring its investment team to monitor proxy voting reports. In addition, PSRS/PEERS implemented a new policy in December 2022 establishing guidelines for proxy voting, and further revised the policy in December 2023 detailing the implementation of staff's ability to provide direct input to the system's proxy voting as well as the ability to monitor proxy activity. In addition, MOSERS indicated it is in the process of establishing policies to monitor future proxy voting.

Based on interviews with system representatives, proxy reports were not being reviewed because system personnel (1) delegated this duty to their investment managers, (2) did not believe the review of these reports was important, and/or (3) did not believe these reviews were critical because they were actively monitoring the returns of the applicable investments. Additionally, none of the 8 retirement systems' policies required a review of the proxy voting reports. A representative of a smaller retirement system expressed concerns that smaller systems with less administrative resources may not be capable of monitoring all proxy votes by their investment managers.

Without proper monitoring of proxy voting reports and activity, retirement systems have less assurance proxy votes are being cast in the best interest of system members as required by policy. Formalizing the review of proxy votes in policies and procedures would allow each system's leadership to establish the parameters of the review in a clear manner for future implementation.

## Missouri Retirement Systems' Proxy Voting Policies Management Advisory Report - State Auditor's Finding

### Conclusion

Improving proxy policies to include guidelines by which proxy votes should be cast would provide clarity to proxies, as well as staff, evaluating such votes. In addition, improving proxy policies to require reports of proxy votes be reviewed by staff would provide assurance votes are being cast in compliance with policy.

### Recommendation

Public retirement systems consider improving proxy policies by including more specific guidance on how the system wants proxy votes used, similar to the MOSERS and PSRS/PEERS policies. In addition, systems should formalize policies and procedures to obtain proxy voting reports from applicable external investment managers and proxy managers and review such reports for compliance with applicable proxy voting policies.

### Auditee's Responses

Formal written responses were requested from the 8 Missouri retirement systems included in this report. The written responses received indicated LAGERS (Appendix E), MOSERS (Appendix F), MPERS (Appendix G), PEERS/PSRS (Appendix H), and UM RET (Appendix J) agreed with the recommendation in the report. The written responses received from CERF (Appendix C), KC PSRS (Appendix D), and PSRSSTL (Appendix I) either do not clearly indicate agreement/disagreement or indicate partial agreement.

### Auditor's Comment

CERF's response (Appendix C) does not clearly indicate the system agrees or disagrees with the recommendation, but indicates fund personnel would discuss the recommendations with investment consultants and investment managers to determine if any changes in current policy are needed. The CERF's response indicates the fund has subsequently obtained proxy voting reports and reviewed for compliance with the proxy policy, which had not been obtained previously. Our report provides support for the recommendation and why a more specific policy is necessary, as well as why reviewing proxy reports is necessary to ensure compliance.

KC PSRS's response (Appendix D) indicates the system partially agrees with the recommendations, but essentially states that its current policy is sufficient and that it may consider the recommendation to enhance its policy in the future. The report provides support for the recommendations and why KC PSRS should implement them.

PSRSSTL's response (Appendix I) indicates the system partially agrees with the recommendations. The system agrees with the recommendation that its proxy policy should include more specific guidance on proxy votes, but disagrees that it is necessary for the fund to review proxy reports since the system does not have the sufficient staff to perform this duty and it uses a third party proxy manager to monitor proxy voting activity. If the fund does not have sufficient staff to review proxy votes made on its behalf, the need for a more specific proxy voting policy becomes particularly important to provide proxy managers specific criteria by which to evaluate proxy votes cast.

---

## Appendix A

### Missouri Retirement Systems' Proxy Voting Policies

#### Summary of Proxy Voting Policies and Procedures by Retirement System

---

The proxy voting policies and procedures for each of the retirement systems reviewed are summarized below:

#### CERF

The County Employees' Retirement Fund (CERF) has an investment policy that is reviewed and updated annually by its Board of Directors. CERF uses 2 investment managers that exercise proxy voting rights on its behalf on 13 percent of its investment portfolio as of December 31, 2022. CERF has not contracted with any proxy advisors and instead lets its investment managers decide whether to use the services of a proxy advisor and allows them to choose and oversee the proxy advisor of choice. CERF's investment managers prepare voting reports annually showing all voting activity for the previous year. CERF meets with its investment managers regularly. CERF receives reports on a monthly basis showing the returns that the investment managers made on CERF's investments. The board then evaluates these returns on a quarterly basis to ensure that expected investment thresholds are being met.

#### KC PSRS

The Kansas City Public School Retirement System (KC PSRS) has an investment policy that is reviewed and updated annually by its investment committee. KC PSRS uses 1 investment manager that exercises proxy voting rights on its behalf on approximately 3 percent of system assets as of December 31, 2022. KC PSRS is not contracted with any proxy advisors and instead lets its investment manager decide whether to use a proxy advisor and allows the investment manager to choose and oversee the proxy advisor of choice. KC PSRS's investment manager prepares voting reports quarterly showing all voting activity for the previous quarter. KC PSRS meets with its investment manager multiple times a year and ensures that its returns are meeting expected investment thresholds.

#### LAGERS

The Missouri Local Government Employees Retirement System (LAGERS) has an investment policy that is reviewed and updated annually by the investment team and approved by the Board of Trustees. LAGERS uses 8 investment managers that exercise proxy voting rights on its behalf on approximately 12 percent of system assets as of December 31, 2022. LAGERS has not contracted with any proxy advisors and instead lets its investment managers decide whether to use the services of a proxy advisor and allows them to choose and oversee the proxy advisor of choice. LAGERS meets with its investment managers quarterly and ensures that its returns are meeting expected investment thresholds.

#### MOSERS

The Missouri State Employees' Retirement System (MOSERS) implemented a new investment policy in December 2022, which will be reviewed and updated by the advisor and approved by the Board of Trustees on an annual basis. MOSERS uses 5 investment managers that exercises proxy voting rights on its behalf on approximately 20 percent of system assets as of June 30, 2022. MOSERS currently uses the service of a proxy advisor Egan-Jones and its "Wealth Focused" proxy policy when casting votes. MOSERS meets

---

## Appendix A

### Missouri Retirement Systems' Proxy Voting Policies

#### Summary of Proxy Voting Policies and Procedures by Retirement System

---

with its investment managers quarterly and ensures that its returns are meeting expected investment thresholds.

#### MPERS

The Missouri Department of Transportation and Missouri State Highway Patrol Employees' Retirement System (MPERS) has a policy that is reviewed and updated regularly by the Board of Trustees. MPERS uses 1 investment manager that exercises proxy voting rights on its behalf on approximately 3 percent of system assets as of June 30, 2022. MPERS has not contracted with any proxy advisors and instead lets its investment manager decide whether to use the services of a proxy advisor and allows the investment manager to choose and oversee the proxy advisor of choice. MPERS investment manager prepares voting reports annually showing all voting activity for the previous year. MPERS meets with its investment manager regularly and receives reports at least annually showing the returns that the investment manager made on MPERS's investments. The board then evaluates these returns to ensure that expected investment thresholds are being met.

#### PSRS/PEERS

The Public School and Education Employee Retirement Systems of Missouri (PSRS/PEERS) implemented a new policy in December 2022, and revised in 2023. This policy will be updated annually and all changes will be approved by the Board of Trustees. PSRS/PEERS uses 22 investment managers that exercises proxy voting rights on its behalf on approximately 20 percent of system assets as of June 30, 2022. Staff meet with investment managers on an as-needed basis, and are provided with voting reports and return information on at least a quarterly basis. Staff bring this information before the Board of Trustees at each of its meetings. PSRS/PEERS uses a proxy advisor third-party platform to implement the Board-approved proxy voting policy, which allows PSRS/PEERS to determine how proxy votes are cast, monitor the votes, and ensure all votes are cast in accordance with Board-approved policy. Investment managers no longer have discretion on how proxy votes are cast. PSRS/PEERS also evaluates all of its investment managers to ensure that they are meeting expected returns.

#### PSRSSTL

The Public School Retirement System of the City of St. Louis (PSRSSTL) has an investment policy that is reviewed and updated annually. All changes to the investment policy are reviewed and approved by its Board of Trustees. PSRSSTL uses 14 investment managers that exercise proxy voting rights on its behalf on approximately 51 percent of system assets as of December 31, 2022. PSRSSTL has not contracted with any proxy advisors and instead lets its investment managers decide whether to use the services of a proxy advisor and allows them to choose and oversee the proxy advisor of choice. PSRSSTL works with an investment consultant that receives all investment and voting reports. The investment consultant ensures that investment managers are meeting their expected returns on investments and presents updated financial data to the board monthly.

Appendix A  
Missouri Retirement Systems' Proxy Voting Policies  
Summary of Proxy Voting Policies and Procedures by Retirement System

---

UM RET

The University of Missouri Retirement System (UM RET) has an investment policy that is reviewed and updated regularly. This policy was last updated in 2022. UM RET uses 2 investment managers that exercises proxy voting rights on its behalf on approximately 6 percent of system assets as of June 30, 2022. UM RET has not contracted with any proxy advisors and instead let its investment managers decide whether to use the services of a proxy advisor and allows them to choose and oversee the proxy advisor of choice, with the expectation that the investment manager acts in accordance with UM RET's investment policy. UM RET regularly meets with its investment managers and ensures that they are meeting expected returns on investments.

## Appendix B

### Missouri Retirement Systems' Proxy Voting Policies

#### Summary of Selected ESG-related Proxy Votes by Retirement System and Investment Manager

The table below includes the results of our review of a judgmentally selected sample of ESG-related proxy votes. We obtained records of how each retirement system included in our audit voted on these resolutions. The systems all had varying levels of exposure to the investments in question depending largely on how much money they have in managed accounts and how many investment managers they use. Four systems (CERF, MPERS, KC PSRS, and UM RET) were not involved in the 7 votes reviewed. For the 4 systems that had proxy votes cast for any of these votes, we noted conflicting votes on 5 of the 7 votes across all systems. Within systems, there were 4 examples of conflicting votes involving 2 systems. Votes for each resolution are shaded green, with votes against each resolution shaded red to make the conflicts in the votes easier to identify. PSRS/PEERS staff indicated conflicting votes are no longer possible given proxy voting policy changes since these votes occurred. The SAO made no attempt to evaluate each vote and makes no judgement of the propriety of the votes presented.

Table 2: Summary of Reviewed ESG-related Proxy Votes, by Retirement System and Investment Manager

	Date	4/28/2022	5/19/2022	5/19/2022	5/25/2022	6/1/2022	6/1/2022	6/1/2022

### Missouri Retirement Systems' Proxy Voting Policies

### County Employees' Retirement Fund Response

2121 Schotthill Woods Drive  
Jefferson City, MO 65101

June 12, 2024

Honorable Scott Fitzpatrick  
Missouri State Auditor  
301 West High Street, Room 880  
P.O. Box 869  
Jefferson City, MO 65102

Dear Auditor Fitzpatrick:

The County Employees' Retirement Fund has prepared the following response to your office's report "Missouri Retirement Systems' Proxy Voting Policies." For the purpose of providing a response, CERF has divided the recommendation into two parts and comments on each part separately.

**Part 1:** Public retirement systems consider improving proxy policies by including more specific guidance on how the system wants proxy votes used, similar to the MOSERS and PSRS/PEERS policies.

**Response:**

CERF will work with its investment consultant and investment managers to consider and determine whether to add more specific guidance on how proxy votes would be used and how any potential changes would be in the best interest of CERF plan participants.

**Part 2:** In addition, systems should formalize policies and procedures to obtain proxy voting reports from all investment managers and proxy managers and review such reports for compliance with applicable proxy voting policies.

**Response:**

CERF will review its investment policy and engage its investment consultant to consider and determine what updates are necessary relating to CERF's review of investment manager proxy voting reports and policies and procedures for compliance with CERF's investment policy. This may include, but not be limited to, annually requiring the investment managers to provide CERF their policies and procedures used to determine how to vote proxies relating to securities in the portfolios. At its December 2023 meeting, the Board began discussing how to update its investment policy to include additional oversight of the proxy voting process. Since then, CERF

---

Appendix C  
Missouri Retirement Systems' Proxy Voting Policies  
County Employees' Retirement Fund Response

---

has obtained the most recent proxy voting reports from its investment managers. The CERF Investment & Planning Committee met in March and discussed the issue and investment manager proxy voting reports with its investment consultant. CERF and its investment consultant believe that the investment managers' proxy voting policies are in line with CERF's investment policy and the managers have properly voted the proxies in compliance with CERF's investment policy. CERF's investment policy complies with current state law. CERF will continue to monitor and review its investment policy on an annual basis.

Sincerely,

A handwritten signature in cursive script that reads "Michael Ruff".

Michael Ruff  
Executive Director

Honorable Scott Fitzpatrick

Missouri State Auditor  
301 West High Street, Room 880  
P.O. Box 869  
Jefferson City Missouri

We have reviewed the findings from your office's audit of the proxy voting policies. Below you will find our responses to the audit findings.

**Recommendation: Public retirement systems consider improving proxy policies by including more specific guidance on how the system wants proxy votes used, similar to the MOSERS policy. In addition, systems should formalize policies and procedures to obtain proxy voting reports from all investment managers and proxy managers and review such reports for compliance with applicable proxy voting policies.**

Kansas City Public School Retirement System (KCPSRS) partially agrees with the State Auditor recommendation as stated above.

Current KCPSRS investment policy regarding proxy voting procedures requires investment managers shall exercise its proxy voting authority acting solely in the interest of and for the exclusive purpose of providing benefits to participants and beneficiaries, and always acting in the best interests of participants and beneficiaries.

While KCPSRS current policy language indicates proxy votes for economic reasons, the KCPSRS Board may consider adding more specific guidelines regarding proposals regarding social, governance, or environmental proposals and on election of board of directors, votes will be based solely on enhancing or protecting long-term economic value, and not on establishing or endorsing social policy.

Sincerely,

A handwritten signature in cursive script, reading "Laura J. Oswald".

Laura J. Oswald  
Fiscal Manager

## Appendix G

### Missouri Retirement Systems' Proxy Voting Policies

### Missouri Department of Transportation and Missouri Highway Patrol

### Employees' Retirement System Response

#### MoDOT & Patrol Employees' Retirement System

Honorable Scott Fitzpatrick  
Missouri State Auditor  
301 West High Street, Room 880  
P.O. Box 869  
Jefferson City Missouri

We have reviewed the findings from your office's audit of the proxy voting policies. Below you will find our responses to the audit findings.

**Recommendation: Public retirement systems consider improving proxy policies by including more specific guidance on how the system wants proxy votes used, similar to the MOSERS and PSRS/PEERS policies. In addition, systems should formalize policies and procedures to obtain proxy voting reports from all investment managers and proxy managers and review such reports for compliance with applicable proxy voting policies.**

MoDOT and Highway Patrol Employees' Retirement System (MPERS) Response: The MPERS agrees with the finding.

MPERS has a robust and comprehensive set of governance policies necessary for maintaining fiduciary standards and for optimal administration of system responsibilities. That said, these policies are in perpetual evolution with updates and revisions occurring routinely to be sure best and prevailing practices are utilized. Proxy policies, of course, are included in these policies. Staff will share this report with the Board of Trustees and consider improving this policy to be sure it fully reflects the Board's intentions and is administered in the best financial interests of plan beneficiaries.

Much like the governing statutes for the state of Missouri, the policies of MPERS are often best understood when read together and not in isolation. The proxy voting policy appears to lack some specificity in the eyes of the SAO as it relates to ESG considerations. While it is true the policy does not specifically identify these considerations, other policies do. For example, Section XI of the investment policy addresses Environmental, Social, and Governance Considerations along with other Economically Targeted Investments. When read together, it is apparent that the investment of system assets is completed with one specific goal—the best economic interests of plan beneficiaries, period. The following criteria may be useful in understanding this goal:

- The fiduciary principles of prudence and exclusive interest of participants will not be abrogated or modified in order to increase the attractiveness of ESG or ETI investments.
- There will be no concession on rate of return. This means there will be no hidden subsidies and that the classic "efficient frontier" test is applicable; a commensurate unit of return will be received for each unit of risk incurred.
- All participation in such investments should be voluntary on the part of the System and should not stem from a legal or policy mandate.
- Each ESG or ETI investment will be evaluated using an integral, objective process, that is, each will be meticulously analyzed solely on its own risk/return characteristics. No weight will be given to redeeming social, economic, and/or political interests.
- The System will participate only if at least one other comparable investor is participating.
- When evaluating an investment, appropriate consideration must be given to the role that the investment or investment course of action plays (i.e., diversification, liquidity, risk, and return) with respect to the entire

investment portfolio of the System. Consideration should also be given to alternative investments with similar risks available to the System.

Lastly, Board procedures require staff to review and report proxy votes to the Board annually. This is done at the September board meeting and is based on the proxy votes from the last fiscal year. Including this practice in policy would be an obvious improvement to the investment policy.

Sincerely,

A handwritten signature in cursive script, appearing to read "Scott Simon", is written above the printed name.

Response

May 29, 2024

Honorable Scott Fitzpatrick  
Missouri State Auditor  
301 West High Street, Room 880  
P.O. Box 869  
Jefferson City, Missouri 65102

Auditor Fitzpatrick,

We have reviewed the findings from your office's audit of the proxy voting policies. Below you will find our responses to the audit findings.

**Recommendation:** Public retirement systems consider improving proxy policies by including more specific guidance on how the system wants proxy votes used, similar to the MOSERS and PSRS/PEERS policies. In addition, systems should formalize policies and procedures to obtain proxy voting reports from applicable external investment managers and proxy managers and review such reports for compliance with applicable proxy voting policies.

PSRS/PEERS agrees with the recommendation. As indicated in the audit, the Systems implemented revised proxy voting policies in December 2022, and again in December 2023, that align with the recommendation.

Sincerely,

Darold Snider  
Executive Director

## Appendix I

### Missouri Retirement Systems' Proxy Voting Policies

#### Public School Retirement System of the City of St. Louis Response

#### Public School Retirement System of the City of St. Louis

##### Office of the Executive Director

Honorable Scott Fitzpatrick  
Missouri State Auditor  
301 West High Street, Room 880  
P.O. Box 869  
Jefferson City Missouri

We have reviewed the findings from your office's audit of the proxy voting policies. Below you will find our responses to the audit findings.

**Recommendation:** Public retirement systems consider improving proxy policies by including more specific guidance on how the system wants proxy votes used, similar to the MOSERS and PSRS/PEERS policies. In addition, systems should formalize policies and procedures to obtain proxy voting reports from applicable external investment managers and proxy managers and review such reports for compliance with applicable proxy voting policies.

**Response:** Public School Retirement System of the City of St. Louis (PSRSSTL) **partially agrees** with the findings.

Recommendation 1:

PSRSSTL agrees with the first recommendation that public retirement systems consider improving proxy policies by including more specific guidance on how the system wants proxy votes used and specifically provide that proxies should be voted in the monetary interests of retirees, similar to the MOSERS and PSRS/PEERS policies.

Recommendation 2:

PSRSSTL disagrees that all systems should obtain and review proxy voting reports for compliance with applicable proxy voting policies.

PSRSSTL finds that obtaining and reviewing proxy voting reports places an undue burden on systems with less infrastructure, staff, and financial resources.

PSRSSTL's Board of Trustees is primarily made up of current and retired teachers and school administrators. Additionally, PSRSSTL has only seven staff members. This differs from Boards of other systems, such as MOSERS, which includes highly sophisticated business individuals and has many staff. While well-educated, many of PSRSSTL's Trustees work tirelessly to run classrooms and have less investment acumen. As such, the Trustees and staff have neither the time nor sufficient knowledge base to obtain and review a plethora of proxy voting records and determine whether such votes were in the best monetary interest of the retirees.

To properly execute their fiduciary duties, the Trustees have made it a practice to hire specialized third-party managers who vote proxies. PSRSSTL conducts thorough reviews of its third-party managers to manage assets in a way that prioritizes the maximum possible returns.

PSRSSTL wishes to reaffirm its commitment to prioritizing the economic interest of its pensioners and does not take lightly its fiduciary obligations to them.

Appendix J  
Missouri Retirement Systems' Proxy Voting Policies  
University of Missouri System Retirement Response

University of Missouri System

July 7, 2024

Honorable Scott Fitzpatrick  
Missouri State Auditor  
301 West High Street, Room 880  
P.O. Box 869  
Jefferson City, Missouri

We have reviewed the findings from your office's audit of the proxy voting policies. Below you will find our responses to the audit findings.

**Recommendation: Public retirement systems consider improving proxy policies by including more specific guidance on how the system wants proxy votes used, similar to the MOSERS and PSRS/PEERS policies. In addition, systems should formalize policies and procedures to obtain proxy voting reports from applicable external investment managers and proxy managers and review such reports for compliance with applicable proxy voting policies.**

The Curators of the University of Missouri ("Curators") generally agrees with the recommendation in that specific guidance and compliance monitoring are generally appropriate, but that the extent and/or complexity of policies and procedures should be sized according to the relative significance of the affected plan assets. At May 31, 2024, UM RET had one remaining account subject to the scope of this audit, representing just 4.2% of total plan assets; the audit report identifies no specific deficiencies or concerns with its proxy votes. As such, we continue to believe that our current proxy voting policy is in compliance.

However, to remove any doubt as to intent, the Curators have already clarified its proxy voting policy to better reflect actual practice, through the addition of the following language: *"Voting shares for the sole purpose of furthering noneconomic environmental, social, political, ideological, or other goals is prohibited."*

Respectfully,

Ryan D. Rapp  
Executive Vice President for Finance & Operations

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions, other than cities, towns, and villages, required to file a financial report under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office shall notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Due to different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 10 political subdivisions required to file a financial report by July 31, 2024, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in July 2024, after their filing deadline. The filing status for these 145 entities is presented in summary on page 3 and by individual entity in Appendixes B to E.

Scott Fitzpatrick  
State Auditor

# Monthly Report on Political Subdivision Filings

## July 2024

### Executive Summary

---

#### **Executive Summary**

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

This report includes the filing status for the 10 political subdivisions, other than cities, towns, and villages, with a fiscal year end of January 31, 2024. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 10 political subdivisions, 7 filed an annual financial report timely.

This report also includes the filing status for 145 political subdivisions, other than cities, towns, and villages, that filed their financial report in July 2024, after their filing deadline.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by July 31, 2024, under Section 105.145, RSMo, and 15 CSR 40-3.030 and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) shall notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO shall notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Due to different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 1 city is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in July 2024, after their filing deadline. The filing status for these 57 cities, 1 town, and 10 villages is presented in summary on page 4 and by individual entity in Appendixes B to D.

Scott Fitzpatrick  
State Auditor

July 2024

## Executive Summary

---

### Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedure to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. Rule 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires the SAO to notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359, RSMo, and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and a mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 1 city with a fiscal year end of January 31, 2024, whose financial report was due by July 31, 2024. The municipality filed the financial report timely. The municipality was not required to file an addendum or certification.

## Missouri State Auditor

Pershall Road  
Transportation Development District

Report No. 2024-057

August 2024

[auditor.mo.gov](https://auditor.mo.gov)

**Scott Fitzpatrick**  
Missouri State Auditor

# CITIZENS SUMMARY

## Findings in the audit of the Pershall Road Transportation Development District

### Background

The Pershall Road Transportation Development District (TDD) was formed in July 2003 for the purpose of improving Pershall Road including a new shoulder and widening of the road, improvements to a secondary access road, improvements related to vehicular access and traffic flow, and the accompanying grading, drainage, pavement, curb, gutter, sidewalk, storm water facilities, structures, signing, striping, lighting, traffic signals, landscaping, and other related infrastructure. The project was completed in July 2004, and the City of Ferguson and the Missouri Highways and Transportation Commission (MHTC) subsequently accepted ownership of the project. Project costs for the Pershall Road TDD totaled \$615,611.

The project was funded by a 1 cent (1 percent) sales tax on all taxable transactions within the boundaries of the district. The sales tax was effective January 2004.

In January 2005, the Pershall Road TDD financed the project through a revenue note for \$615,611, the total project cost. The note was issued to the district by Cracker Barrel Old Country Store, Inc., the district's property owner. In March 2023, Cracker Barrel Old Country Store, Inc. went out of business, leaving no remaining businesses within the district's boundary to generate sales tax. In November 2023, Cracker Barrel Old Country Store, Inc. canceled its note for the district. Prior to the note's cancellation, the district paid occasional interest, but zero principal. The Board repealed the district's sales tax on January 2024, effective after March 2024.

Based on the audit, the cash balance of the Pershall Road TDD as of December 31, 2023, was \$36,216. According to the district's administrator, after additional costs were paid out in 2024, the district's cash balance was \$11,159 as of July 31, 2024, and the district expects to incur costs related to the dissolution of the district of \$11,059 of legal fees and \$100 of banking fees. Any fees that are incurred above the remaining cash amount will be covered by the property owner directly. If the district has any cash remaining after satisfying its liabilities, it will distribute the excess cash between the City of Ferguson and the MHTC, as appropriate.

### Financial Status

The audit of the Pershall Road Transportation Development District indicates the financial condition of the district is such that it may be abolished.

Because of the nature of this audit, no rating is provided.

Management Advisory Report - State Auditor's Findings	Financial Status .....3
---	-------------------------

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

John Hampton, Chairman  
and  
Board of Directors  
Pershall Road Transportation Development District  
Ferguson, Missouri

The State Auditor is required under Section 238.275, RSMo, to audit a transportation development district prior to the question of abolishment being submitted to a vote. On January 18, 2024, the Board of Directors of the Pershall Road Transportation Development District approved a resolution of its intent to dissolve the district and request an audit as required by statute. The State Auditor was subsequently notified of this resolution.

The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2023. The objectives of our audit were to evaluate the financial status of the district and determine whether it may be abolished pursuant to law.

Our methodology included reviewing minutes of meetings, financial records, and other pertinent documents; and interviewing various personnel of the district, as well as certain external parties. We obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The audit determined the Board of Directors may proceed with abolishment of the district in accordance with Section 238.275, RSMo.

The accompanying Management Advisory Report presents our findings arising from our audit of the Pershall Road Transportation Development District.

Scott Fitzpatrick  
State Auditor

## Management Advisory Report

### State Auditor's Findings

---

#### **Financial Status**

Our audit of the Pershall Road Transportation Development District (TDD) indicates the financial condition of the district is such that it may be abolished.

The Pershall Road TDD is located in St. Louis County, in the City of Ferguson. The district was organized in July 2003 by petition of the property owner/developer within the proposed TDD. The district consists of 1 property owner. There are 5 members of the Board of Directors: 3 representatives of the city and 2 vacancies formerly filled by the property owner. The district has a fiscal year end of December 31.

The Pershall Road TDD was formed for the purpose of improving Pershall Road including a new shoulder and widening of the road, improvements to a secondary access road, improvements related to vehicular access and traffic flow, and the accompanying grading, drainage, pavement, curb, gutter, sidewalk, storm water facilities, structures, signing, striping, lighting, traffic signals, landscaping, and other related infrastructure. The City of Ferguson is the public entity with jurisdiction over the local portion of the project and serves as the Local Transportation Authority. The Missouri Highways and Transportation Commission (MHTC) serves as the entity with jurisdiction over the state portion of the project. The project was completed in July 2004, and the City of Ferguson and MHTC subsequently accepted ownership of the project. Project costs for the Pershall Road TDD totaled \$615,611.

In January 2004 the Board of Directors passed a resolution formally approving the submission of the proposed sales tax rate to the qualified voters of the district and establishing a sales tax rate of 1 cent (1 percent) on all taxable transactions within the boundaries of the district. The sales tax was effective January 2004.

In January 2005, the Pershall Road TDD financed the project through a revenue note for \$615,611, the total project cost. The note was issued to the district by Cracker Barrel Old Country Store, Inc., the district's property owner. In March 2023, Cracker Barrel Old Country Store, Inc. went out of business, leaving no remaining businesses within the district's boundary to generate sales tax. In November 2023, Cracker Barrel Old Country Store, Inc. canceled its note for the district. Prior to the note's cancellation, the district paid occasional interest, but zero principal. The Board repealed the district's sales tax on January 2024, effective after March 2024. See the table below for district financial activity for the year ended December 31, 2023.

In January 2024, the Pershall Road TDD Board of Directors formalized its intent to dissolve the district, advised the State Auditor's Office (SAO) of this resolution, and requested the SAO proceed with all necessary actions as required pursuant to Section 238.275, RSMo. That statute requires the State Auditor to audit the district to determine its financial status, and determine whether it may be abolished pursuant to law. It also states the board shall not

Pershall Road Transportation Development District  
Management Advisory Report - State Auditor's Findings

propose the question to abolish the district while there are outstanding claims or causes of action pending against it; if its liabilities exceed its assets; or while the district is insolvent, in receivership, or under the jurisdiction of a bankruptcy court.

The following table presents the financial activity and cash balances the year ended December 31, 2023.

	Year Ended December 31, 2023
RECEIPTS	
Sales Tax	\$ 11,182
Interest Income	1,975
Total Receipts	13,157
DISBURSEMENTS	
Legal Fees	2,955
Bank Fees	185
Trustee Fees	2,350
Administrative	9,245
Debt Service - Interest	2,130
Total Disbursements	16,865
RECEIPTS OVER (UNDER) DISBURSEMENTS	(3,708)
BEGINNING CASH	39,924
ENDING CASH	\$ 36,216

Source: Compiled by the SAO using the district's bank statements and unaudited financial statement.

Based on our audit, the cash balance of the Pershall Road TDD as of December 31, 2023, was \$36,216. According to the district's administrator, after additional costs were paid out in 2024, the district's cash balance was \$11,159 as of July 31, 2024, and the district expects to incur costs related to the dissolution of the district of \$11,059 in legal fees and \$100 in banking fees. Any fees that are incurred above the remaining cash amount will be covered by the property owner directly. If the district has any cash remaining after satisfying its liabilities, it will distribute the excess cash between the City of Ferguson and the MHTC, as appropriate.

Based on our audit, the Board of Directors may proceed with the abolishment of the district in accordance with Section 238.275, RSMo.

# CITIZENS SUMMARY

## Findings in the audit of the Neosho Transportation Development District

### Background

The Neosho Transportation Development District (TDD) was formed in February 2011 for the purpose of improving Highway 60 and Adams Drive in the City of Neosho and Newton County. These projects generally included traffic signals, curb, gutter, storm sewer, storm drainage, a roundabout, and various improvements. The first, second, and third project phases were completed in 2016, 2017, and 2022, respectively. In addition, the Neosho TDD made repairs to Adams Drive, which were completed in May 2024. Upon dissolution of the district, the City of Neosho will continue ongoing maintenance, receive the allocation of excess revenues, and accept ownership of the project. The Neosho TDD's total portion of the project costs was \$4,940,920.

The project was funded by a 1/2-cent (0.5 percent) sales tax on all taxable transactions within the boundaries of the district. The sales tax was effective April 2011.

In October 2014, the Board of Directors entered into an agreement with Arvest Bank to issue revenue notes to pay for the project costs as well as other costs related to the redevelopment project. The Neosho TDD satisfied this debt in November 2023. The Board of Directors approved rescinding the sales tax and notifying the Department of Revenue to stop collecting the district's sales tax on February 20, 2024. The sales tax officially expired on March 31, 2024.

Based on the audit, the cash balance of the Neosho TDD as of April 30, 2024, was \$478,364. According to the district's Executive Director, as of February 19, 2024, the district is expected to incur approximately \$152,500 in fees to dissolve the district. After the district's final costs and professional fees are paid, the TDD will distribute the surplus funds to the City of Neosho in accordance with the cooperative agreement dated March 29, 2012, and state law.

### Financial Status

The audit of the Neosho Transportation Development District indicates the financial condition of the district is such that it may be abolished.

Because of the nature of this audit, no rating is provided.

---

Management Advisory Report - State Auditor's Findings	Financial Status .....3
---	-------------------------

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Steve Roark, Chairman and Director  
and  
Board of Directors  
Neosho Transportation Development District  
Neosho, Missouri

The State Auditor is required under Section 238.275, RSMo, to audit a transportation development district prior to the question of abolishment being submitted to a vote. On October 19, 2023, the Board of Directors of the Neosho Transportation Development District approved a resolution of its intent to dissolve the district and request an audit as required by statute. The State Auditor was subsequently notified of this resolution.

The district engaged Hardy, Wrestler & Associates, Certified Public Accountants (CPAs), to audit the district's financial statements for the year ended December 31, 2023. To minimize duplication of effort, we reviewed the CPA firm's audit report. The scope of our audit included, but was not necessarily limited to, the 2 years ended December 31, 2023. The objectives of our audit were to evaluate the financial status of the district and determine whether it may be abolished pursuant to law.

Our methodology included reviewing minutes of meetings, financial records, and other pertinent documents; and interviewing various personnel of the district, as well as certain external parties. We obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The audit determined the Board of Directors may proceed with abolishment of the district in accordance with Section 238.275, RSMo.

The accompanying Management Advisory Report presents our findings arising from our audit of the Neosho Transportation Development District.

Scott Fitzpatrick  
State Auditor

---

# Neosho Transportation Development District Management Advisory Report - State Auditor's Findings

---

## **Financial Status**

Our audit of the Neosho Transportation Development District (TDD) indicates the financial condition of the district is such that it may be abolished.

The Neosho TDD is located in Newton County, in the City of Neosho. The district was organized in February 2011 by petition of the property owners/developers within the proposed TDD. The district consisted of 41 property owners at the time of formation. The members of the Board of Directors consist of 6 representatives appointed by the property owners. The district has a fiscal year end of December 31.

The Neosho TDD was established for the purpose of improving Highway 60 and Adams Drive in the City of Neosho and Newton County. These projects generally included traffic signals, curb, gutter, storm sewer, storm drainage, a roundabout, and various improvements. The Missouri Highways and Transportation Commission (MHTC) serves as the transportation authority with jurisdiction over the portion of the project intended to be merged into the state highways and transportation system. The City of Neosho serves as a local transportation authority with jurisdiction over the local portion of the project. The first, second, and third project phases were completed in 2016, 2017, and 2022, respectively. In addition, the Neosho TDD made repairs to Adams Drive, which were completed in May 2024. Upon dissolution of the district, the City of Neosho will continue ongoing maintenance, receive the allocation of excess revenues, and accept ownership of the project. The Neosho TDD's total portion of the project costs was \$4,940,920.

In February 2011, the qualified voters of the district approved a 1/2-cent (0.5 percent) sales tax on all taxable transactions within the boundaries of the district. The Board of Directors subsequently passed a resolution formally establishing the sales tax rate to be effective April 2011 for 20 years unless terminated sooner.

In October 2014, the Board of Directors entered into an agreement with Arvest Bank to issue revenue notes to pay for the project costs as well as other costs related to the redevelopment project. The Neosho TDD satisfied this debt in November 2023.

The Board of Directors approved rescinding the sales tax and notifying the Department of Revenue to stop collecting the district's sales tax on February 20, 2024. The sales tax officially expired on March 31, 2024.

In October 2023, the Neosho TDD Board of Directors formalized its intent to dissolve the district. The District subsequently advised the State Auditor's Office (SAO) of this resolution and requested the SAO proceed with all necessary actions as required pursuant to Section 238.275, RSMo. That statute requires the State Auditor to audit the district to determine its financial status, and determine whether it may be abolished pursuant to law. It also

Neosho Transportation Development District  
Management Advisory Report - State Auditor's Findings

states the board shall not propose the question to abolish the district while there are outstanding claims or causes of action pending against it; if its liabilities exceed its assets; or while the district is insolvent, in receivership, or under the jurisdiction of a bankruptcy court.

The following table presents the financial activity and cash balances for the year ended December 31, 2023.

	Year Ended December 31, 2023
RECEIPTS	
Sales Tax\$	\$ 849,793
Interest	19,004
Total Receipts	868,797

Debt Service	622,502
Bank Fees	1,909
Contract Services	9,427
Total Disbursements	705,938
RECEIPTS OVER (UNDER) DISBURSEMENTS	162,859
BEGINNING CASH	120,929
ENDING CASH	\$ 283,788

Source: Compiled by the SAO using the district's audited financial statements.

Based on our audit, the cash balance of the Neosho TDD as of April 30, 2024, was \$478,364. According to the district's Executive Director, as of February 19, 2024, the district is expected to incur approximately \$152,500 in fees to dissolve the district. There are no pending, threatened, or unasserted claims or assessments against the district according to district legal counsel. District officials confirmed the district is not insolvent, in receivership, or under the jurisdiction of a bankruptcy court. Based on these representations, district assets are sufficient to pay any remaining costs and obligations. After the district's final costs and professional fees are paid, the TDD will distribute the surplus funds to the City of Neosho in accordance with the cooperative agreement dated March 29, 2012, and Section 238.275.5(1), RSMo.

Based on our audit, the Board of Directors may proceed with the abolishment of the district in accordance with Section 238.275, RSMo.

## Missouri State Auditor

Hawthorne Development  
Transportation Development District

Report No. 2024-055

August 2024

[auditor.mo.gov](https://auditor.mo.gov)

# CITIZENS SUMMARY

## Findings in the audit of the Hawthorne Development Transportation Development District

### Background

The Hawthorne Development Transportation Development District (TDD) was formed in November 2005 for the purpose of making improvements to Hawthorne Boulevard, Highway 13, Simpson Street, Cooper Boulevard, Basswood Street, Northern Hill Drive, and Thompson Street. Phase 1 included improving and relocating intersections, upgrading traffic signals, and adding additional turn lanes. Phase 2 included construction of a roundabout, installing a permanent ground mounted traffic signal, and ingress and egress improvements. Phase 3 included construction of an extension of Cooper Boulevard. The first, second, and third project phases were completed in 2011, 2019, and February 2024, respectively, and the City of Warrensburg and the Missouri Highways and Transportation Commission (MHTC) subsequently accepted ownership of the project. Project costs for the Hawthorne Development TDD totaled \$5,700,000.

The project was funded by a 1/2-cent (0.5 percent) sales tax on all taxable transactions within the boundaries of the district. The sales tax was effective January 2006.

In April 2006, the Board of Directors entered into an agreement with Commerce Bank to issue revenue bonds up to \$4,265,000 for phase one of the project. In April 2017, the Board of Directors entered into an agreement with Commerce Bank to issue revenue bonds up to \$2,530,000 for phase two. This agreement included the redemption of the Series 2006 bonds with the Series 2017 bond issuance. The Hawthorne Development TDD satisfied the debt in October 2022. In January 2023, the Board of Directors entered into an amended cooperative agreement with the City of Warrensburg. Pursuant to the agreement, the Hawthorne Development TDD reimbursed the City of Warrensburg \$1,052,556 in April 2024 for phase three project costs incurred. The Board of Directors approved rescinding the sales tax and notifying the Department of Revenue to stop collecting the district's sales tax on December 29, 2023. The sales tax officially expired on March 31, 2024.

Based on the audit, the cash balance of the Hawthorne Development TDD as of April 30, 2024, was \$542,470. According to district legal counsel, as of April 4, 2024, the district is expected to incur approximately \$75,000 in fees to dissolve the district. After the district's final costs and professional fees are paid, the remaining balance will be distributed to the City of Warrensburg in accordance with the amended cooperative agreement dated January 9, 2023, and state law.

### Financial Status

The audit of the Hawthorne Development Transportation Development District indicates the financial condition of the district is such that it may be abolished.

Management Advisory Report - State Auditor's Findings	Financial Status .....3
---	-------------------------

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Courtney Christensen, Chairperson  
and  
Board of Directors  
Hawthorne Development Transportation Development District  
Warrensburg, Missouri

The State Auditor is required under Section 238.275, RSMo, to audit a transportation development district prior to the question of abolishment being submitted to a vote. On December 18, 2023, the Board of Directors of the Hawthorne Development Transportation Development District approved a resolution of its intent to dissolve the district and request an audit as required by statute. The State Auditor was subsequently notified of this resolution.

The district engaged Hood and Associates CPAs, PC, to audit the district's financial statements for the year ended December 31, 2022. To minimize duplication of effort, we reviewed the CPA firm's audit report for the year ended December 31, 2022, since the year ended December 31, 2023, financial statements will not be audited. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2023. The objectives of our audit were to evaluate the financial status of the district and determine whether it may be abolished pursuant to law.

Our methodology included reviewing minutes of meetings, financial records and other pertinent documents; and interviewing various personnel of the district, as well as certain external parties. We obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The audit determined the Board of Directors may proceed with abolishment of the district in accordance with Section 238.275, RSMo.

The accompanying Management Advisory Report presents our findings arising from our audit of the Hawthorne Development Transportation Development District.

Scott Fitzpatrick  
State Auditor

---

# Hawthorne Development Transportation Development District Management Advisory Report - State Auditor's Findings

---

## **Financial Status**

Our audit of the Hawthorne Development Transportation Development District (TDD) indicates the financial condition of the district is such that it may be abolished.

The Hawthorne Development TDD is located in Johnson County, in the City of Warrensburg. The district was organized in November 2005 by petition of the property owners/developers within the proposed TDD. The district consisted of 7 property owners at inception. The members of the Board of Directors consist of 3 City of Warrensburg employees and 2 representatives of the property owner/developer. The district has a fiscal year end of December 31.

The Hawthorne Development TDD was established for the purpose of making improvements to Hawthorne Boulevard, Highway 13, Simpson Street, Cooper Boulevard, Basswood Street, Northern Hill Drive, and Thompson Street. Phase 1 included improving and relocating intersections, upgrading traffic signals, and adding additional turn lanes. Phase 2 included construction of a roundabout, installing a permanent ground mounted traffic signal, and ingress and egress improvements. Phase 3 included construction of an extension of Cooper Boulevard. These projects reside within the City of Warrensburg and were completed for a total cost of \$5,700,000. The City of Warrensburg serves as the Local Transportation Authority with approval over the local portion of the project. The Missouri Highways and Transportation Commission (MHTC) serves as the entity with jurisdiction over the state portion of the project. The first, second, and third project phases were completed in 2011, 2019, and February 2024, respectively, and the City of Warrensburg and MHTC subsequently accepted ownership of the project.

In December 2005, the qualified voters of the district approved a 1/2-cent (0.5 percent) sales tax on all taxable transactions within the boundaries of the district. Additionally, the Board of Directors subsequently passed a resolution formally establishing the sales tax rate to be effective January 2006.

In April 2006, the Board of Directors entered into an agreement with Commerce Bank to issue revenue bonds up to \$4,265,000 for phase one of the project. In April 2017, the Board of Directors entered into an agreement with Commerce Bank to issue revenue bonds up to \$2,530,000 for phase two. This agreement included the redemption of the Series 2006 bonds with the Series 2017 bond issuance. The Hawthorne Development TDD satisfied the debt in October 2022. In January 2023, the Board of Directors entered into an amended cooperative agreement with the City of Warrensburg. Pursuant to the agreement, the Hawthorne Development TDD reimbursed the City of Warrensburg \$1,052,556 in April 2024 for phase three project costs incurred. The Board of Directors approved rescinding the sales tax and notifying the Department of Revenue to stop collecting the district's sales tax on December 29, 2023. The sales tax officially expired on March 31, 2024.

## Hawthorne Development Transportation Development District Management Advisory Report - State Auditor's Findings

In December 2023, the Hawthorne Development TDD Board of Directors formalized its intent to dissolve the district. The district subsequently advised the State Auditor's Office (SAO) in April 2024 of this resolution and requested the SAO proceed with all necessary actions as required pursuant to Section 238.275, RSMo. That statute requires the State Auditor to audit the district to determine its financial status, and determine whether it may be abolished pursuant to law. It also states the Board shall not propose the question to abolish the district while there are outstanding claims or causes of action pending against it; if its liabilities exceed its assets; or while the district is insolvent, in receivership, or under the jurisdiction of a bankruptcy court.

The following presents the financial activity and cash balances for the year ended December 31, 2023.

	Year Ended December 31, 2023
RECEIPTS	
Sales Tax	\$ 742,218
Interest Income	37,817
Total Receipts	<u>780,035</u>
DISBURSEMENTS	
Administrative fees	33,876
Total Disbursements	<u>33,876</u>
RECEIPTS OVER (UNDER) DISBURSEMENTS	746,159
BEGINNING CASH	581,145
ENDING CASH	<u>\$ 1,327,304</u>

Source: Compiled by the SAO using the district's unaudited financial statements.

During 2024 the district continued to collect sales tax through March, and expended over \$1 million in project costs in April. Based on our audit, the cash balance of the Hawthorne Development TDD as of April 30, 2024, was \$542,470. According to district legal counsel, as of April 4, 2024, the district is expected to incur approximately \$75,000 in fees to dissolve the district. There are no pending, threatened, or unasserted claims or assessments against the district according to district legal counsel. District officials confirmed the district is not insolvent, in receivership, or under the jurisdiction of a bankruptcy court. Based on these representations, district assets are sufficient to pay any remaining costs and obligations. After the district's final costs and professional fees are paid, the remaining balance will be distributed to the City of Warrensburg in accordance with the amended cooperative agreement dated January 9, 2023, and Section 238.275.5(1), RSMo.

Based on our audit, the Board of Directors may proceed with the abolishment of the district in accordance with Section 238.275, RSMo.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions, other than cities, towns, and villages, required to file a financial report under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office shall notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Due to different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 1,529 political subdivisions required to file a financial report by June 30, 2024, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in June 2024, after their filing deadline. The filing status for these 10 entities is presented in summary on page 3 and by individual entity in Appendixes B to F.

A handwritten signature in black ink that reads "S. Fitzpatrick". The signature is stylized, with the first name "S." and the last name "Fitzpatrick" written in a cursive-like script.

Scott Fitzpatrick  
State Auditor

## Executive Summary

---

### Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

This report includes the filing status for the 1,529 political subdivisions, other than cities, towns, and villages, with a fiscal year end of December 31, 2023. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 1,529 political subdivisions, 1,152 filed an annual financial report timely.

This report also includes the filing status for 10 political subdivisions, other than cities, towns, and villages, that filed their financial report in June 2024, after their filing deadline.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by June 30, 2024, under Section 105.145, RSMo, and 15 CSR 40-3.030 and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) shall notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO shall notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Due to different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 267 cities, 11 towns, and 130 villages is presented in summary on page 3 and by individual entity in Appendix A. The filing status for 5 counties is presented in summary on page 4 and by individual entity in Appendix B. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in June 2024, after their filing deadline. The filing status for these 8 cities and 1 village is presented in summary on page 4 and by individual entity in Appendixes C to F.

Scott Fitzpatrick  
State Auditor

---

# Monthly Report on Municipal Court and Revenue Filings

June 2024

## Executive Summary

---

### Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. Rule 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires the SAO to notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359, RSMo, and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and a mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 267 cities, 11 towns, and 130 villages with a fiscal year end of December 31, 2023, whose financial report was due by June 30, 2024. Of the 408 municipalities, 275 filed the financial report timely. Of the 239 municipalities required to file an addendum, 107 filed timely. Of the 94 municipalities required to file a certification, 53 filed timely.

Monthly Report on Municipal Court and Revenue Filings  
June 2024  
Executive Summary

---

This report includes the filing status for the 5 counties, with a fiscal year end of December 31, 2023, whose addendum and certification was due by June 30, 2024. Of these entities, 3 filed their addendum timely, and 3 filed their certification timely.

This report includes the filing status for 8 cities and 1 village that filed at least one of the items (financial report, addendum, or certification) in June 2024, after their filing deadline. Of these municipalities, 9 filed an annual financial report and 2 filed an addendum.

## Missouri State Auditor

### Wentzville II Transportation Development District

Report No. 2024-052

July 2024

[auditor.mo.gov](https://auditor.mo.gov)

**Scott Fitzpatrick**  
Missouri State Auditor

# CITIZENS SUMMARY

## Findings in the audit of the Wentzville II Transportation Development District

### Background

The Wentzville II Transportation Development District (TDD) was formed in March 2005 for the purpose of making improvements to Wentzville Parkway, West Pearce Boulevard, exit 208 from Interstate 70, and Bear Creek Drive; including widening existing driving lanes, construction of dedicated turn lanes, signalization, and related improvements within the city of Wentzville, for an estimated cost of \$2,077,500. The City of Wentzville serves as the Local Transportation Authority with approval over the local portion of the projects. The Missouri Highways and Transportation Commission (MHTC) serves as the State Transportation Authority. The project was substantially completed in December 2007. The projects were modified in 2008 to include the construction of a drive connecting Wentzville Parkway to May Road.

The project was funded by a 1/2 cent (0.5 percent) sales tax on all taxable transactions within the boundaries of the district. The Board of Directors passed a resolution formally establishing the sales tax rate to be effective November 2005. The Board approved rescinding the sales tax and notifying the Department of Revenue to stop collecting the district's sales tax on August 10, 2023. The sales tax officially expired on September 30, 2023. From the district's inception in 2005 through August 2023, the Wentzville II received \$2,269,265 in sales tax revenues.

In March 2006, the Wentzville II TDD Board entered into an agreement with UMB Bank to issue revenue notes up to \$2,077,500. Between March and October 2006, the District borrowed \$2,077,500 for project costs, and the district satisfied these notes in June 2022. In October 2008, the Wentzville II TDD Board entered into an agreement with UMB Bank to issue additional revenue notes up to \$672,500. The district borrowed \$503,768 in October 2008 and \$50,525 in April 2022. The district satisfied these notes in June 2022.

Based on the audit, the cash balance of the Wentzville II TDD as of August 31, 2023, was \$183,816. The cash balance as of February 29, 2024, was \$200,455. According to district legal counsel, as of August 31, 2023, the district is expected to incur approximately \$98,785 in fees to dissolve the district. After the district's final costs and professional fees are paid, the remaining balance will be distributed to the MHTC and the City of Wentzville in accordance with state law.

### Financial Status

The audit of the Wentzville II Transportation Development District indicates the financial condition of the district is such that it may be abolished.

Because of the nature of this audit, no rating is provided.

Management Advisory Report - State Auditor's Findings	Financial Status .....3
---	-------------------------

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Jeff Otto, Board Chair  
and  
Board of Directors  
Wentzville II Transportation Development District  
St. Charles County, Missouri

The State Auditor is required under Section 238.275, RSMo, to audit a transportation development district prior to the question of abolishment being submitted to a vote. On August 10, 2023, the Board of Directors of the Wentzville II Transportation Development District approved a resolution of its intent to dissolve the district and request an audit as required by statute. The State Auditor was subsequently notified of this resolution.

The scope of our audit included, but was not necessarily limited to, the year ended August 31, 2023. The objectives of our audit were to evaluate the financial status of the district and determine whether it may be abolished pursuant to law.

Our methodology included reviewing financial records and other pertinent documents; and interviewing various personnel of the district, as well as certain external parties. We obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The audit determined the Board of Directors may proceed with abolishment of the district in accordance with Section 238.275, RSMo.

The accompanying Management Advisory Report presents our findings arising from our audit of the Wentzville II Transportation Development District.

Scott Fitzpatrick  
State Auditor

---

# Wentzville II Transportation Development District Management Advisory Report - State Auditor's Findings

---

## Financial Status

Our audit of the Wentzville II Transportation Development District (TDD) indicates the financial condition of the district is such that it may be abolished.

The Wentzville II TDD is located in St. Charles County, in the City of Wentzville. The district was organized March 8, 2005, by petition of the property owners/developer within the proposed TDD. The district consisted of 2 property owners at the time of formation. The members of the Board of Directors and officers consist of 5 representatives of the property owners/developer. The district has a fiscal year end of December 31.

The Wentzville II TDD was established for the purpose of making improvements to Wentzville Parkway, West Pearce Boulevard, exit 208 from Interstate 70, and Bear Creek Drive; including widening existing driving lanes, construction of dedicated turn lanes, signalization, and related improvements within the city of Wentzville, for an estimated cost of \$2,077,500. The City of Wentzville serves as the Local Transportation Authority with approval over the local portion of the projects. The Missouri Highways and Transportation Commission (MHTC) serves as the State Transportation Authority. The project was substantially completed in December 2007. The projects were modified in 2008 to include the construction of a drive connecting Wentzville Parkway to May Road.

In October 2005, the qualified voters of the district approved a 1/2 cent (0.5 percent) sales tax on all taxable transactions within the boundaries of the district. Additionally, the Board of Directors passed a resolution formally establishing the sales tax rate to be effective November 2005.

In March 2006, the Wentzville II TDD Board entered into an agreement with UMB Bank to issue revenue notes up to \$2,077,500.<sup>1</sup> Between March and October 2006, the District borrowed \$2,077,500 for project costs, and the district satisfied these notes in June 2022.

In October 2008, the Wentzville II TDD Board entered into an agreement with UMB Bank to issue additional revenue notes up to \$672,500.<sup>2</sup> The district borrowed \$503,768 in October 2008 and \$50,525 in April 2022. The district satisfied these notes in June 2022.<sup>3</sup>

The Board approved rescinding the sales tax and notifying the Department of Revenue to stop collecting the district's sales tax on August 10, 2023. The sales tax officially expired on September 30, 2023. From the district's

---

<sup>1</sup> The agreement allowed the TDD to issue revenue note principal up to \$2,077,500, not including accrued interest or cost of issuance, which totaled \$43,599.

<sup>2</sup> The agreement allowed the TDD to issue revenue note principal up to \$672,500, not including accrued interest or cost of issuance, which totaled \$56,364.

<sup>3</sup> Based on the district's financial statements, there was non-sales tax revenue that was used for district purposes.

## Wentzville II Transportation Development District Management Advisory Report - State Auditor's Findings

inception in 2005 through August 2023, the Wentzville II received \$2,269,265 in sales tax revenues.

In August 2023, the Wentzville II TDD Board of Directors formalized its intent to dissolve the district. The district subsequently advised the State Auditor's Office (SAO) of this resolution and requested the SAO proceed with all necessary actions as required pursuant to Section 238.275, RSMo. That statute requires the State Auditor to audit the district to determine its financial status, and determine whether it may be abolished pursuant to law. It also states the board shall not propose the question to abolish the district while there are outstanding claims or causes of action pending against it; if its liabilities exceed its assets; or while the district is insolvent, in receivership, or under the jurisdiction of a bankruptcy court.

The following presents the financial activity and cash balances for the 12 months ended August 31, 2023:

	12 Months Ended August 31, 2023
RECEIPTS	
Sales Tax	\$ 157,544
Total Receipts	157,544
DISBURSEMENTS	
Legal	22,069
Administrative	21,413
Total Disbursements	43,482
RECEIPTS OVER (UNDER) DISBURSEMENTS	114,062
BEGINNING CASH	69,754
ENDING CASH	\$ 183,816

Source: Compiled by the SAO using the district's bank statements.

Based on our audit, the cash balance of the Wentzville II TDD as of August 31, 2023, was \$183,816. The cash balance as of February 29, 2024, was \$200,455. According to district legal counsel, as of August 31, 2023, the district is expected to incur approximately \$98,785 in fees to dissolve the district. There are no pending, threatened, or unasserted claims or assessments against the district according to district legal counsel. District officials confirmed the district is not insolvent, in receivership, or under the jurisdiction of a bankruptcy court. Based on these representations, district assets are sufficient to pay any remaining costs and obligations. After the district's final costs and professional fees are paid, the remaining balance will be distributed to the MHTC and the City of Wentzville in accordance with Section 238.275.5(1), RSMo.

Wentzville II Transportation Development District  
Management Advisory Report - State Auditor's Findings

---

Based on our audit, the Board of Directors may proceed with the abolishment of the district in accordance with Section 238.275, RSMo.

## Missouri State Auditor

North Main-Malone  
Transportation Development District

Report No. 2024-051

July 2024

[auditor.mo.gov](https://auditor.mo.gov)

**Scott Fitzpatrick**  
Missouri State Auditor

# CITIZENS SUMMARY

## Findings in the audit of the North Main-Malone Transportation Development District

### Background

The North Main-Malone Transportation Development District (TDD) was formed in January 2005 for the purpose of improving Main Street and Malone Avenue in the City of Sikeston. Details of this project include, but are not limited to, the construction of turning lanes and a new traffic signal at the intersection of Main Street and Lake Street, improvements to the intersection of Main Street and Malone Avenue, improvements to the intersection of Main Street and Tanner Street, municipal utility relocation, storm water related improvements, and sidewalk, street, and other public areas throughout the district. The Missouri Highways and Transportation Commission (MHTC) serves as the transportation authority with jurisdiction over the portion of the project intended to be merged into the state highways and transportation system. The City of Sikeston serves as a local transportation authority with jurisdiction over the local portion of the project. The project was completed in March 2006. The North Main-Malone TDD's portion of the project costs was \$925,587.

The project was funded by a 1-cent (1 percent) sales tax on all taxable transactions within the boundaries of the district. The sales tax was approved in June 2005, and the Board of Directors subsequently passed a resolution formally establishing that sales tax rate to be effective for 40 years unless terminated sooner.

In May 2006, the City of Sikeston issued Tax Increment Revenue Notes to pay for the project costs as well as other costs related to the redevelopment project. The North Main-Malone TDD satisfied its portion of this debt in April 2023. The Board approved repealing the District's sales tax on April 25, 2023. In June 2023, the North Main-Malone TDD Board formalized its intent to dissolve the district.

Based on the audit, the cash balance of the North Main-Malone TDD as of December 31, 2023, was \$133,377. The TDD's cash balance as of March 31, 2024, was \$135,039. According to district legal counsel, as of October 18, 2023, the district is expected to incur approximately \$5,000 in fees to dissolve the district. After the district's final costs and professional fees are paid, the North Main-Malone TDD will enter into an agreement with the City of Sikeston and the MHTC dictating how the surplus funds will be distributed in accordance with state law.

### Financial Status

The audit of the North Main-Malone Transportation Development District indicates the financial condition of the district is such that it may be abolished.

Because of the nature of this audit, no rating is provided.

Management Advisory Report - State Auditor's Findings	Financial Status .....3
---	-------------------------

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

J.D. Douglass, Chairperson  
and  
Board of Directors  
North Main-Malone Transportation Development District  
Sikeston, Missouri

The State Auditor is required under Section 238.275, RSMo, to audit a transportation development district prior to the question of abolishment being submitted to a vote. On June 28, 2023, the Board of Directors of the North Main-Malone Transportation Development District approved a resolution of its intent to dissolve the district and request an audit as required by statute. The State Auditor was subsequently notified of this resolution.

The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2023. The objectives of our audit were to evaluate the financial status of the district and determine whether it may be abolished pursuant to law.

Our methodology included reviewing minutes of meetings, financial records, and other pertinent documents; and interviewing various personnel of the district, as well as certain external parties. We obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The audit determined the Board of Directors may proceed with abolishment of the district in accordance with Section 238.275, RSMo.

The accompanying Management Advisory Report presents our findings arising from our audit of the North Main-Malone Transportation Development District.

Scott Fitzpatrick  
State Auditor

# North Main-Malone Transportation Development District Management Advisory Report - State Auditor's Findings

---

## **Financial Status**

Our audit of the North Main-Malone Transportation Development District (TDD) indicates the financial condition of the district is such that it may be abolished.

The North Main-Malone TDD is located in Scott County, in the City of Sikeston. The district was organized in January 2005 by petition of the property owner/developer within the proposed TDD. The district consisted of one property owner at the time of formation. The members of the Board of Directors and officers consist of three representatives of the property owner/developer with two vacant seats. The district has a fiscal year end of December 31.

The North Main-Malone TDD was established for the purpose of improving Main Street and Malone Avenue in the City of Sikeston. Details of this project include, but are not limited to, the construction of turning lanes and a new traffic signal at the intersection of Main Street and Lake Street, improvements to the intersection of Main Street and Malone Avenue, improvements to the intersection of Main Street and Tanner Street, municipal utility relocation, storm water related improvements, and improvements to sidewalks, streets, and other public areas throughout the district. The Missouri Highways and Transportation Commission (MHTC) serves as the transportation authority with jurisdiction over the portion of the project intended to be merged into the state highways and transportation system. The City of Sikeston serves as a local transportation authority with jurisdiction over the local portion of the project. The project was completed in March 2006. The North Main-Malone TDD's portion of the project costs was \$925,587.

In June 2005, the qualified voters of the district approved a 1-cent (1 percent) sales tax on all taxable transactions within the boundaries of the district. The Board of Directors subsequently passed a resolution formally establishing that sales tax rate to be effective for 40 years unless terminated sooner.

In May 2006, the City of Sikeston issued Tax Increment Revenue Notes to pay for the project costs as well as other costs related to the redevelopment project. The North Main-Malone TDD satisfied its portion of this debt in April 2023. The Board approved repealing the District's sales tax on April 25, 2023.

In June 2023, the North Main-Malone TDD Board formalized its intent to dissolve the district. The District subsequently advised the State Auditor's Office (SAO) of this resolution and requested the SAO proceed with all necessary actions as required pursuant to Section 238.275, RSMo. That statute requires the State Auditor to audit the district to determine its financial status, and determine whether it may be abolished pursuant to law. It also states the board shall not propose the question to abolish the district while there are outstanding claims or causes of action pending against it; if its

North Main-Malone Transportation Development District  
Management Advisory Report - State Auditor's Findings

liabilities exceed its assets; or while the district is insolvent, in receivership, or under the jurisdiction of a bankruptcy court.

The following table presents the financial activity and ending cash balance for the year ended December 31, 2023.

	Year Ended December 31, 2023
RECEIPTS	
Sales Tax	\$ 11,208
Interest	5,647
Total Receipts	16,855
DISBURSEMENTS	
Administrative	1,981
Total Disbursements	1,981
RECEIPTS OVER (UNDER) DISBURSEMENTS	14,874
BEGINNING CASH	118,503
ENDING CASH	\$ 133,377

Source: Compiled by the SAO using the district's accounting ledger.

Based on our audit, the cash balance of the North Main-Malone TDD as of December 31, 2023, was \$133,377. The TDD's cash balance as of March 31, 2024, was \$135,039. According to district legal counsel, as of October 18, 2023, the district is expected to incur approximately \$5,000 in fees to dissolve the district. There are no pending, threatened, or unasserted claims or assessments against the district according to district legal counsel. District officials confirmed the district is not insolvent, in receivership, or under the jurisdiction of a bankruptcy court. Based on these representations, district assets are sufficient to pay any remaining costs and obligations. After the district's final costs and professional fees are paid, the North Main-Malone TDD will enter into an agreement with the City of Sikeston and the MHTC dictating how the surplus funds will be distributed in accordance with Section 238.275.5(1), RSMo.

Based on our audit, the Board of Directors may proceed with the abolishment of the North Main-Malone TDD in accordance with Section 238.275, RSMo.

Report No. 2024-050

July 2024

[auditor.mo.gov](https://auditor.mo.gov)

**Scott Fitzpatrick**  
Missouri State Auditor

# CITIZENS SUMMARY

## Findings in the audit of the City of Excelsior Estates

### Misappropriated and Missing Money, and Conflicts of Interest

From January 1, 2014, through April 30, 2021, the former Mayor/City Administrator improperly transferred money and issued checks from city funds to himself and his two businesses, totaling at least \$37,496. In addition, \$798 in city receipts collected by the former Mayor/City Administrator were not deposited and are missing. During this time, he also paid himself and his two businesses approximately \$306,000 and supporting documentation was not available for approximately \$202,000 of those payments. Many of the payments made to the former Mayor/City Administrator and his two businesses were questionable due to their timing and/or the likelihood they were for personal use. The Board does not adequately monitor its activities for conflicts of interest.

### Improper Sewer Service Stipends

Board members improperly received stipends for sewer services as compensation when either compensation was not allowed by statute or the Board was not active. The city failed to submit its financial statement for the year ended December 31, 2021, until January 11, 2023, and failed to submit its financial statement for the year ended December 31, 2022, until October 27, 2023. Section 105.145.5, RSMo, prohibits payment of compensation to members of governing bodies that have not submitted their annual financial report to the SAO as required. Additionally, Board members improperly received \$880 in free sewer service prior to passing the ordinance allowing the stipend, \$320 while the Board was inactive during the COVID-19 pandemic (May and June 2020), and various other occasions when aldermen did not attend meetings as required. The former City Clerk improperly received free sewer services from May 2017 to December 2019 totaling \$1,392.

### Oversight and Annual Audits

The former Board did not establish adequate segregation of duties or supervisory reviews over the various financial accounting functions performed by the former Mayor/City Administrator, which led to the misappropriations, unsupported and questionable payments, and missing money. The Board did not review a list of bills or bank statements and Board members signed checks without reviewing supporting documentation. The former Mayor/City Administrator and Board also failed to monitor the city's cash balances, causing the city to incur overdraft and maintenance charges. The city did not obtain an annual audit of its sewer system for 2018, 2019, 2021, or 2022, as required by state law.

### Contracted Workers

The Board did not document the basis for classifying the former City Administrator, former city clerks, and former Billing Clerk/City Clerk as independent contractors rather than employees, and these employees were misclassified. Even if this classification was appropriate, the Board did not enter into a written contract with these individuals and did not prepare and file 1099 forms for payments made during 2015 through 2021. The current City Clerk is also classified as an independent contractor, and the city does not have documentation to support this decision. The former City Administrator, former City Clerk, and City Clerk/Billing Clerk did not submit timesheets or other documentation to support work performed. The former Mayor/City Administrator issued checks in advance of the end of the pay period to the part-time Billing Clerk. The advance payments are loans of city funds and the city has no statutory authority to make loans. The Missouri Constitution specifically prohibits counties, cities, or other political subdivisions of the state from granting public money or things of value to any corporation, association, or individual.

Accounting Controls and Procedures	The city's procedures for receipting, recording, and depositing money are poor. As a result, money collected was not properly receipted, recorded, and deposited. The former Mayor/City Administrator frequently commingled city funds with personal funds. The former Mayor/City Administrator also made excessive and unauthorized transfers of restricted funds between various bank accounts, which further allowed improper disbursements to occur and not be detected. The city did not properly store or retain numerous financial records. City officials could not locate manual receipt slips, bank statements, and supporting documentation for disbursements, including payments to the former Mayor/City Administrator and his two businesses. The city stored some city records in disarray in a trailer made from the bed of a pickup truck with a camper shell on it.
Sewer System Controls and Procedures	The city's sewer system controls and procedures need improvement. The former Mayor/City Administrator made adjustments to customer sewer statements without obtaining independent approval or maintaining adequate documentation to support the reasons for the adjustments. The city repeatedly violated the Missouri Clean Water Law and the former Mayor/City Administrator did not take sufficient corrective action to address the sewer treatment facility issues despite his company billing the city approximately \$269,000 for sewer services.
Financial Reporting	The city did not file annual financial reports timely or publish semiannual financial statements in compliance with state law. The Board failed to submit to the State Auditor's Office the financial statement for the year ended December 31, 2021, until January 11, 2023, and the financial statement for the year ended December 31, 2022, until October 27, 2023. The city has not published semiannual financial statements for the years ended December 31, 2014, through 2023.
Sunshine Law	The city did not always comply with the requirements of the Sunshine Law. A review of meeting minutes found minutes for 24 meetings were either missing or in an unreadable format, and 17 of 69 meeting minutes reviewed were not signed and did not indicate who prepared them. The minutes for an additional 36 of the 69 meetings reviewed, indicated they were prepared by the former Mayor/City Administrator, but not signed. These minutes included discussions and approval of payments to his two private businesses and himself. Additionally, the Board did not adopt a written policy regarding public access to city records as required by state law.

In the areas audited, the overall performance of this entity was **Poor**.\*

\*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

To the Honorable Mayor  
and  
Members of the Board of Aldermen  
City of Excelsior Estates, Missouri

We have audited certain operations of the City of Excelsior Estates as they relate to the city's finances in fulfillment of our duties under Chapter 29, RSMo. Due to concerns regarding misappropriated or missing money, the State Auditor initiated the audit with the approval of the City of Excelsior Estates Board of Aldermen. The scope of our audit included, but was not necessarily limited to, the period of January 1, 2014, to April 30, 2021. The objectives of our audit were to:

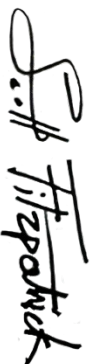

1. Evaluate the city's internal controls over significant management and financial functions.
2. Evaluate the city's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.
4. Determine the extent of money missing and/or misappropriated from the city.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the city, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) the need for improvement in management practices and procedures, and (4) missing and misappropriated money totaling at least \$38,294. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Excelsior Estates.

A handwritten signature in black ink, appearing to read "Scott Fitzpatrick". The signature is stylized with a large, looped "S" and a cursive "Fitzpatrick".

Scott Fitzpatrick  
State Auditor

# City of Excelsior Estates

## Introduction

---

### Background

Gary Fesenmeyer, Sr. served as Mayor from at least April 2004 until December 15, 2019, when he was appointed as the City Administrator, and continued to serve in that role until approximately April 19, 2021.<sup>1</sup> The Board did not appoint a Mayor in 2019 and a new Mayor was not elected until April 2021. Mr. Fesenmeyer, as City Administrator, performed all duties he had previously performed as Mayor during this time. Mr. Fesenmeyer is referred to as the former Mayor/City Administrator (M/CA) throughout the remainder of this report.

Mandy Rivera served as the part-time Billing Clerk from February 2015 to January 28, 2021, and as the part-time Billing/City Clerk from January 28, 2021, to April 2021. Joyce Snider served as a part-time City Clerk from May 5, 2017, to December 3, 2020. The former M/CA and Billing/City Clerk were primarily responsible for city financial accounting functions and city records from January 2014 to April 2021 including:

- Receipting and depositing - The former M/CA collected and recorded all city receipts, and prepared and made bank deposits.
- Disbursements - The former M/CA received invoices for payment; prepared, signed, and distributed checks; maintained supporting documentation; and transferred money between bank accounts. Another Board member also typically signed checks as a second signor.
- Sewer billing - The former Billing Clerk prepared sewer bills and the former M/CA mailed the sewer bills to customers. The former M/CA also authorized adjustments to sewer bills.
- Reporting - The former M/CA prepared an annual budget spreadsheet for the Board that was incomplete. He did not prepare other formal budgets or publish semiannual financial statements for the years ended December 31, 2014, through 2021 as required by Missouri Statutes.

### Former Mayor/City Administrator's Personal Businesses

The former M/CA owned two businesses, CAD Midwest, Inc. and Visual Sewer Inspection, Inc. (VSI) that performed work for the city. The last contract with either entity was dated 2012. We obtained invoices for some of the work provided by the businesses. The former M/CA routinely wrote checks to himself and his two businesses.

### Investigation and audit

In July 2021, the State Auditor's Office (SAO) Whistleblower Hotline received a complaint about operations and finances of the City of Excelsior Estates. The SAO subsequently conducted an initial review of these matters

---

<sup>1</sup> The last check issued to Gary Fesenmeyer for serving as City Administrator was dated April 1, 2021.

---

## City of Excelsior Estates Introduction

---

in December 2021, under Section 29.221, RSMo. After review of the documentation and communications provided, the SAO determined further investigation was warranted under Section 29.221, RSMo.

On February 17, 2022, the City of Excelsior Estates Board of Aldermen passed an ordinance formally requesting and authorizing an audit by the SAO, and the SAO subsequently agreed to conduct the audit under Chapter 29, RSMo. The SAO began the audit in October 2022.

The city's fiscal year is January 1 through December 31. The scope of our audit included, but was not necessarily limited to, the period January 1, 2014, through April 30, 2021. We applied procedures to city receipt and disbursement transactions to identify the amount of missing and/or misappropriated money and methods used to perpetrate and conceal the theft.

We sent a letter to the former M/CA on December 8, 2022, and again on January 25, 2023, requesting any city records in his possession related to the time period from January 1, 2014, through April 30, 2021; however, the former M/CA did not respond. The SAO then issued three subpoenas (see Appendix A) to compel the former M/CA to provide testimony and/or to produce records and documents pertaining to his testimony. The SAO also issued a subpoena to former Board member Snider (Appendix B) who also served as City Clerk during the audit period to compel her to provide testimony about her work with the city throughout the audit period and produce records and documents related to the city; however, she failed to appear or respond. Appendixes A and B include redactions of information of a personal, privileged, or sensitive nature, and/or information that is not directly related to the information requested in the subpoena. SAO auditors conducted a recorded interview with the former M/CA on March 20, 2023. SAO auditors also conducted recorded interviews with a former and current Board member, a former billing clerk, and a former subcontractor (who worked for the former M/CA's businesses), and requested copies of any city records they possessed that supported their statements. The SAO issued subpoenas to various banks for records related to city accounts and the personal accounts of the former M/CA (see Appendixes C, D, and E).

---

# City of Excelsior Estates Management Advisory Report State Auditor's Findings

---

## **1. Misappropriated and Missing Money, and Conflicts of Interest**

From January 1, 2014, through April 30, 2021, the former Mayor/City Administrator (M/CA) improperly transferred money and issued checks from city funds to himself and his two businesses, totaling at least \$37,496.<sup>2</sup> In addition, \$798 in city receipts collected by the former M/CA were not deposited and are missing. During this time, the former M/CA also paid himself and his two businesses approximately \$306,000, which is a conflict of interest, and supporting documentation was not available for approximately \$202,000 of those payments.<sup>3</sup> Many of the payments made to the former M/CA and his two businesses were questionable due to their timing and/or the likelihood they were for personal use.

Of the 839 checks written to the M/CA and his two businesses for which check images were available (217 to himself, 543 to Video Sewer Inspections, Inc. (VSI), and 79 to CAD Midwest, Inc.), 797 were signed in what appears to be the scripted handwriting of the former M/CA and another Board member. The former M/CA was the sole signor on 42 checks written to himself and his two businesses (10 to himself, 20 to VSI, and 12 to CAD Midwest). Two Board members indicated in recorded interviews that the M/CA brought checks to their homes to sign without providing any supporting invoices or other documentation for their approval.

### **1.1 Improper transfers and payments**

The former M/CA improperly transferred money from city bank accounts to his personal bank account. In addition he made improper, duplicate, and overpayments to himself and his two businesses.

#### **Improper transfers**

On June 13, 2019, the former M/CA improperly transferred \$6,200 from the city's Paving bank account (\$4,500) and general bank account (\$1,700) to his personal savings account.

The former M/CA's personal bank records show he then withdrew \$6,000 cash on the same day of the transfers (June 13) and another \$600 cash withdrawal on June 25, 2019, as follows:

---

<sup>2</sup>This includes \$4,995 in improper transfers and \$34,371 in improper/duplicate payments. We reduced the total amount misappropriated by \$720 because the former M/CA did not receive a sewer service stipend (\$40 per month) from July 2018 to December 2019 (18 months) in accordance with the city's ordinance. We also reduced the amount by \$1,150 because the M/CA made payments of that amount to the city.

<sup>3</sup> Amounts presented in the report are rounded to the nearest dollar, whereas amounts presented in appendixes are not rounded.

BE SURE EACH ITEM IS PROPERLY ENDORSED

**BANKLIBERTY**

The former M/CA indicated, in a June 18, 2019, letter to the bank Branch Manager (Appendix F), that he appreciated the help with the unauthorized transfers. The letter indicated, "It happened on my watch and I take appropriate responsibility." It is unclear what prompted the former Mayor/City Administrator to send this letter.

The former M/CA subsequently obtained a \$2,905 personal loan from the bank on July 9, 2019, and deposited that money into the same personal savings account that received the June 13, 2019, transfers. The former M/CA then withdrew the loan funds and deposited \$2,905 cash into city bank accounts on July 15, 2019 (\$1,700 in the general bank account, \$905 in the Paving bank account, and \$300 in the Equity bank account). He labeled the checks as follows: "REPLACEMENT OF UNAUTHORIZED FUNDS TRANSFER ON JUNE 13, 2019...", "PARTIAL REPLACEMENT OF UNAUTHORIZED FUNDS TRANSFER ON JUNE 13, 2019 FROM SAVINGS ACCT...", and "REPLACE TRF...."

There was very little activity in the personal savings account other than the improper transfers from the city (\$6,200), loan (\$2,905), and subsequent cash withdrawals (\$6,600 and \$2,905). Almost 2 years later, the former M/CA

City of Excelsior Estates  
Management Advisory Report - State Auditor's Findings

issued one of his businesses (CAD Midwest) 4 checks, totaling \$1,700, from the city's general bank account to reimburse himself for the \$1,700 in improper transfers (portion of the \$6,200 in transfers to his personal account discussed above) that he originally replaced/repaid as follows:

Check Date	Check Number	Check Amount	Purpose, as Shown in Check Memo Line
02/01/2021	3939	\$ 425	PYMT #1 REF 1700 CF ADV 7-15-19
02/08/2021	3948	425	PYMT#2 REF 1.7 KCF ADV 7-15-19
02/11/2021	3950	425	PYMT#3 REF 1.7K CITY CF ADV 7-05-19
02/20/2021	3956	425	PYMT #4 (BAL REPAY 1.7K CF ADV BY GF To CITY)

As a result, the former M/CA still owes the city \$4,995.<sup>4</sup> In the 2019 financial statements submitted to the State Auditor's Office (SAO) in June 2020, the former M/CA listed a \$6,000 disbursement for "Fraud - Unauthorized/Illegal Transfer." Also, almost 2 years later, in May 2021 (after the Board terminated the former M/CA), the former M/CA notified the city by letter (Appendix F) that these transfers were a "MICROSOFT hack." It is unclear how an outside "hack" would have resulted in funds transferred between city accounts and the former M/CA's personal savings account rather than the alleged hacker's account. A review of bank statement activity would have alerted the Board to the misappropriations.

Improper and duplicate payments and over (under) payments

The former M/CA improperly paid himself and his businesses \$34,371 from city funds for tech fees, duplicate payments, and overpayments from January 1, 2014, through April 19, 2021.

Tech fees

The former M/CA, through his business, VSI, improperly billed the city \$14,390 for work he did not perform. See Appendix I. The invoices listed the work as "tech fees" and represented fees for supervising subcontractor work. A former subcontractor indicated, in a recorded interview, that the former M/CA rarely provided supervision of his work. When questioned about the tech (supervision) fees during a recorded interview, the former M/CA indicated, "I probably owe that back to the city."

Of the payments to VSI, many were unsupported by an invoice (approximately \$179,700<sup>5</sup>). If these missing invoices included tech fees

<sup>4</sup> This is calculated as \$6,200 (improper transfers) less \$2,905 (originally repaid) plus \$1,700 (improperly paid to CAD Midwest).

<sup>5</sup> A total of \$181,102 in payments to VSI were unsupported. This included payments with no invoice (\$179,722) and payments for which an invoice supported only a portion of the payment.

---

City of Excelsior Estates  
Management Advisory Report - State Auditor's Findings

---

similar to the invoices that were retained, we estimate an additional \$29,750<sup>6</sup> in tech fees may have been improperly billed to the city.

Duplicate payments

The former M/CA improperly paid his business, VSI, at least \$18,290, from city funds, for the same invoice number, purpose, and/or service date. See Appendix J.

Our review of city payments to VSI found the following:

- The former M/CA wrote several checks for the same invoice number and purpose noted in the memo line. For example, check numbers 1165 and 1167 were both written in June 2014 for \$270. The memo lines of the checks indicated they were both for invoice number "140604" with a purpose of "culvert cleanout after storm." However, no invoice was present to support either payment.
- The former M/CA wrote other checks for the same purpose and date of service. For example, check numbers 3932 and 3933 were both written on August 7, 2019, for "STP O&M" (i.e., Sewer Treatment Plant Operation and Maintenance) with a service date of "7-22." One of the checks was for \$455 and the other was for \$435.
- In other instances, there was an invoice for one payment, but not the other. For example, check number 1345 for \$645 written in November 2017 was supported by invoice number 171008. Check number 1351 was also written for \$645 in November 2017 and referenced invoice number 171008, but there was no additional invoice. Invoice number 171008 was only for \$645 rather than the \$1,290 paid in total.
- The former M/CA also wrote numerous checks for the same invoice numbers and indicated checks were returned that were not. The former M/CA wrote check number 3655 on November 8, 2019, for invoice number 191008 for \$495, with a purpose of "STP O&M" and a service date of "1031." He then wrote two checks totaling \$495 (check numbers 1004 for \$250 and 1005 for \$245) later that month for the same invoice number, purpose, and service date. He then issued 2 more checks totaling \$495 (check numbers 1012 for \$250 and 1013 for \$245) on January 16, 2020, to replace check numbers 1004 and 1005 indicating those checks were returned. However, all 5 checks cleared the bank. As a result, the city overpaid a total of \$990 for the same invoice number, purpose, and service date.

---

<sup>6</sup> The estimated tech fees are based on the tech fees supported by invoices by type divided by the total amount of the invoices and applying those ratios (percentages) to the total of unsupported payments to VSI.

City of Excelsior Estates  
Management Advisory Report - State Auditor's Findings

The former M/CA was the only signor on at least 5 of these duplicate checks, totaling \$1,085.

Over (under) payments

The former M/CA overpaid himself and his two businesses. A comparison of invoices and reimbursement support to payments made show overpayments totaling \$1,691.<sup>7</sup>

VSI overpayments

The former M/CA issued checks to VSI for amounts that differed from the amounts invoiced resulting in overpayments. VSI was overpaid a total of \$1,380 as follows:

Invoice Number	Invoice Amount	Check Numbers	Check Date	Check Amount	Net Over (Under) Payment (2)
170705 (1)	\$ 380	3478	07/21/2017	\$ 440	\$ 60
170809	695	1328	09/01/2017	475	125
		1330	09/15/2017	345	
171004	2,070	1343	10/21/2017	2,110	40
180808	885	3731	08/31/2018	490	100
		3736	09/13/2018	495	
181209	1,125	3810	12/22/2018	980	1,990
		3817	12/26/2018	860	
		3822	01/17/2019	255	
		3838	02/09/2019	1020	
181212	600	N/A	N/A	0	(600)
181210	665	3821	01/04/2019	330	(335)
Totals	\$ 6,420			\$ 7,800	\$ 1,380

N/A Not Applicable

- (1) The total amount listed was higher than the sum of the individual line items listed on the invoice.
- (2) The net over (under) payment is the difference between the total check amount and the invoice amount.

Reimbursement  
overpayments

The former M/CA overpaid himself and one of his businesses \$311.

- The former M/CA reimbursed himself \$26 for items purchased costing \$5. Included in the transaction was \$20 cash back and an additional \$1 check payment fee, resulting in an overpayment of \$21.
- The former M/CA used coupons to reduce the purchase price of items, but reimbursed himself for the full price, resulting in \$40 in overpayments.

<sup>7</sup> Trivial overpayments (less than \$2) are not included in the total overpayment amount.

City of Excelsior Estates  
Management Advisory Report - State Auditor's Findings

- The former M/CA improperly reimbursed himself for personal items such as men's cologne, foot cream, and food/snacks totaling \$55.
- The former M/CA reimbursed himself twice for a \$100 deposit to open a new investment account for the city.
- The former M/CA reimbursed CAD Midwest, Inc. \$95 for amounts reduced by coupons, donations, cash back payments, and items that were returned.

Conclusion

The lack of segregation of duties and adequate controls, and the absence of proper oversight, as discussed in the remainder of this report, resulted in improper payments to the M/CA going undetected for a significant period of time. During recorded interviews, some Board members expressed concerns regarding these payments; however, they failed to take timely action to address or provide independent and supervisory reviews over transactions involving the M/CA.

1.2 Unsupported and  
questionable payments

Neither the former M/CA nor the city could provide documentation to support \$201,638<sup>8</sup> in payments made to the former M/CA and his 2 businesses. In addition, the M/CA and one of his businesses were not reimbursed timely for invoices totaling at least \$1,038 and it was difficult to determine if the related purchases were for city business.

VSI

Of the \$268,367 paid to VSI from January 1, 2014, through April 19, 2021, \$181,102 (67 percent) was unsupported. The following table shows the amount of unsupported and total payments to VSI by year. See Appendix I for payment details.

Year	Total Amount Paid	Amount of Unsupported Paid
2014	\$ 27,269	\$ 23,484
2015	22,395	22,395
2016	31,872	31,872
2017	38,225	5,200
2018	51,155	3,000
2019	43,426	41,126
2020	38,755	38,755
2021	15,270	15,270
Total	\$ 268,367	\$ 181,102 (1)

(1) The total amount of unsupported payments includes overpayments and duplicate payments noted at Appendixes I and J.

<sup>8</sup> This includes \$181,102 paid to VSI, \$4,157 paid to CAD Midwest, and \$16,379 paid to the former M/CA.

City of Excelsior Estates  
Management Advisory Report - State Auditor's Findings

In some years, including the two most recent years (2020 and 2021), supporting documentation was not available for any payments made and it is possible some of those payments represent actual work performed. However, without documentation we could not determine or estimate those amounts. In addition, while the billings suggest VSI performed significant sewer work for the city, the city sewer system was cited for numerous violations of the Missouri Clean Water Law during this time. See Management Advisory Report (MAR) finding number 6.2.

CAD Midwest, Inc.

The city did not retain supporting documentation for \$4,157 in payments made to CAD Midwest (including the \$95 in overpayments made to CAD Midwest discussed in section 1.1). The former M/CA issued himself 79 checks totaling \$8,479, indicating they were reimbursement of miscellaneous expenses from February 12, 2019, through April 12, 2021. See Appendix K for payment details.

Former M/CA expenses

The former M/CA issued himself checks totaling \$16,379 for unsupported expense reimbursements (including the \$216 in overpayments discussed in section 1.1). In total, he issued 304 checks, totaling \$28,998, for reimbursement of miscellaneous expenses and payments for City Administrator duties from January 4, 2014, through April 1, 2021. Payments are summarized by year in the following table. See Appendix L for payment details.

Year	Total Amount Paid	Amount of Unsupported Payment
2014	\$ 3,470	\$ 3,470
2015	3,760	3,760
2016	3,227	3,059
2017	4,290	2,073
2018	5,620	2,225
2019	3,522	1,183
2020	3,909	609
2021	1,200	0
Total	\$ 28,998	\$ 16,379

Former M/CA pay

The former M/CA paid himself \$300 a month during 11 months of 2020 (\$3,300) and 4 months of 2021 (\$1,200) for performing City Administrator duties. The city did not have timesheets or employment contracts to support any of these payments. These amounts are included in the previous table. See Appendix L for payment details. The city also did not report the payments as compensation to the Internal Revenue Service (IRS). See MAR finding number 4.3.

In November 2019, the Board passed an ordinance authorizing a monthly payment to the former M/CA for contracted services. The ordinance did not

City of Excelsior Estates  
Management Advisory Report - State Auditor's Findings

include the amount of the payment. In December 2019, the former M/CA submitted a proposal requesting he be considered for a City Administrator position with compensation of \$300 per month. The Board did not sign or approve the proposal. See appendix H for the ordinance and proposal.

**Questionable reimbursements** Many of the reimbursements paid to CAD Midwest, Inc. and the former M/CA are questionable.

**Untimely reimbursements** Several invoices, totaling at least \$1,038, were questionable because they were not reimbursed timely and it was difficult to determine if they were for city business, the private businesses of the former M/CA, or personal use. The former M/CA did not submit or timely pay several of the reimbursement requests/documentation for himself or CAD Midwest, Inc. We considered a reimbursement untimely if it was reimbursed more than 3 months after the expense occurred. The following payments are questionable:

Untimely Reimbursements to  
the Former M/CA

Invoice Date	Reimbursement Date	Amount of Reimbursement	Items Purchased
04/08/2010	08/17/2019	\$ 11	Truck ball hitch
09/02/2016	11/07/2017	38	Postage
10/14/2016	05/14/2018	22	2 oak shelves
04/04/2017	01/31/2018	16	Flash drive
04/14/2017	10/25/2018	7	Pipe and PVC stop valve
03/08/2018	07/22/2018	198	Ink and envelopes
04/16/2018	07/28/2018	58	Propane
04/16/2018	10/25/2018	16	Hose, bushing, adapter
04/20/2018	10/25/2018	36	Fasteners and screws
04/23/2018	07/28/2018	23	Postage
04/24/2018	10/25/2018	33	Hoses
05/13/2018	10/25/2018	16	Pipe, elbows, couple
05/17/2018	03/11/2019	11	Primer bulb assortment
11/14/2018	03/11/2019	85	Thermostat
11/24/2018	03/11/2019	29	Brakes
11/24/2018	03/11/2019	74	Hydraulic oil and gas can
01/20/2019	05/13/2019	27	Diesel fuel
03/20/2019	08/08/2019	84	Wallboard, paint brush, primer
02/18/2019	11/10/2019	7	Chainsaw bar and chain oil
07/08/2019	11/10/2019	13	Unleaded fuel
Total		\$ 804	

City of Excelsior Estates  
Management Advisory Report - State Auditor's Findings

Untimely Reimbursements to  
CAD Midwest, Inc.

Invoice Date	Reimbursement Date	Amount of Reimbursement	Items Purchased
11/21/2018	02/10/2020	\$ 52	Hydraulic oil
02/11/2019	09/30/2019	26	Diesel fuel
07/15/2019	05/26/2020	14	Unleaded fuel
11/10/2019	03/10/2020	35	Antifreeze and radiator leak
12/17/2019	05/25/2020	40	Propane and tie down straps
02/25/2020	05/25/2020	67	Propane and miscellaneous
Total		\$ 234	

In addition, several of the reimbursements paid to CAD Midwest, Inc. and the former M/CA were for expenses that could have been used in the former M/CA's private business (VSI) or for personal use. For example, the former M/CA requested reimbursement of consumables, such as propane, hydraulic oil, fuel, chainsaw bar, and chain oil that could have been used in the former M/CA's personal business, and there is nothing to support that these items were only used for city purposes. In addition, the city paid VSI for services including sewer services and snow and brush removal. It would be reasonable to expect the service payments would include costs of consumables and it would not be necessary for the city to reimburse the costs of consumables to CAD Midwest or the former M/CA. As there are no recent agreements between the M/CA or his businesses and the city, it is unclear whether these costs should have been included in the service payments or separately reimbursed.

Conclusion

The lack of segregation of duties and adequate controls, and the absence of proper oversight, as discussed in the remainder of this report, resulted in questionable payments to the M/CA. During recorded interviews, some Board members expressed concerns regarding these payments; however, they failed to take timely action to address or provide independent and supervisory reviews over transactions involving the M/CA.

**1.3 Undeposited city receipts** The former M/CA did not deposit \$400 in city cash receipts recorded in manual receipt books and did not deposit \$398 in city receipts recorded in the city's electronic accounting system, as follows:

- The former M/CA issued manual receipt number 1205 on December 3, 2020, for a \$100 cash deposit made on the purchase of the city's excavator blade, and he issued manual receipt number 801 on August 22, 2019, for a \$300 cash payment for refuse removal. Neither of these receipts were deposited.
- The former M/CA recorded 15, \$40 receipts (totaling \$600) in the accounting system on June 8, 2019; however, only a \$560 check for multiple customers was deposited on June 10, 2019, resulting in \$40 missing.

City of Excelsior Estates  
Management Advisory Report - State Auditor's Findings

- The former M/CA recorded a \$238 payment in the accounting system on July 5, 2019, that was not deposited and is missing.
- The former M/CA recorded three \$40 payments in the accounting system on September 1, 2019, December 19, 2019, and February 6, 2021, that were not deposited and are missing.

Conclusion

The lack of segregation of duties and adequate receipting controls, and the absence of proper oversight, as discussed in the remainder of this report, resulted in missing receipts going undetected.

1.4 Conflicts of Interest

The Board does not adequately monitor its activities for conflicts of interest.

Former M/CA

The former M/CA issued and approved payments totaling approximately \$306,000 to himself and his 2 businesses creating a conflict of interest. He also prepared the meeting minutes that documented discussions and approval of payments and services provided to/by his businesses and to himself.

The M/CA's businesses, VSI and CAD Midwest, Inc. performed services for the city from at least January 1, 2014, to April 19, 2021. The city last bid the services in 2012, and the former M/CA signed the related bid ordinance and a subsequent ordinance authorizing himself to sign and approve any additional work orders. He only approved 2 work orders (1 in 2013 and the other in 2014) despite the extensive billings to the city (see Appendix G).

A similar condition related to the former M/CA was noted in our prior audit report, No. 2006-03, *City of Excelsior Estates*, issued in January 2006.

Alderman

One alderman served on the Board while working for VSI, creating an apparent conflict of interest. The member served from July 30, 2020, through August 2021. During the year the alderman served on the Board, the city paid VSI \$29,705. It is unclear if he abstained from votes related to VSI because the city did not retain meeting minutes. The alderman indicated he was paid \$35 a day to tend to the sewer treatment plant by VSI and \$10 per hour for other VSI job duties.

Conclusion

The former M/CA and alderman served in a fiduciary capacity and had an obligation to the public to avoid apparent and/or actual conflicts of interest. Personal interests in business matters of the city could create such conflicts, and a lack of independence could harm public confidence in the Board and reduce its effectiveness.

Section 105.454, RSMo, prohibits elected officials and employees serving in an executive or administrative capacity from performing any service for compensation, other than compensation for the performance of their duties, that involve more than \$500 per transaction or \$5,000 per annum, unless there

City of Excelsior Estates  
Management Advisory Report - State Auditor's Findings

has been public notice to solicit proposals and competitive bidding, and provided the bid or offer accepted is the lowest received. Section 105.458, RSMo, prohibits the former M/CA from receiving such compensation without competitive bidding. In recorded interviews, board members expressed concerns about conflicts of interest; however, the Board failed to take action to address or provide independent and supervisory reviews over transactions involving the former M/CA and other Board members.

## Recommendations

The Board of Aldermen:

1.1-1.3 Work with law enforcement officials regarding criminal prosecution of the improper transfers and payments, unsupported and questionable payments, and missing money and take the necessary actions to obtain restitution.

1.4 Closely examine city transactions to identify conflicts of interest.

## Auditee's Response

*1.1-1.3 We will work with law enforcement in any way possible and seek restitution.*

*1.4 We agree and will look at future transactions for conflicts of interest.*

## 2. Improper Sewer Service Stipends

Board members

Board members received sewer service stipends<sup>9</sup> in violation of ordinance and state law.

Board members improperly received stipends for sewer services as compensation when either compensation was not allowed by statute or the Board was not active.

The city failed to submit its financial statement for the year ended December 31, 2021, until January 11, 2023, and failed to submit its financial statement for the year ended December 31, 2022, until October 7, 2023. Section 105.145.5, RSMo, prohibits payment of compensation to members of governing bodies that have not submitted their annual financial report to the SAO as required.<sup>10</sup> As a result, none of the board members should have received the \$360 in stipends they each received for services from July 2023 to September 2023 and from July 2022 to December 2022 (9 months at \$40 per month).

<sup>9</sup> Rather than issue monetary payments for the free sewer service, the former M/CA adjusted the accounts of the Board members and former City Clerk.

<sup>10</sup> State regulation (15 CSR 40-3.030) requires an annual financial report be submitted within 6 months after the end of a political subdivision's fiscal year.

---

City of Excelsior Estates  
Management Advisory Report - State Auditor's Findings

---

Additionally, Board members improperly received \$880 in free sewer service prior to passing the ordinance allowing the stipend, \$320 while the Board was inactive during the COVID-19 pandemic (May and June 2020), and various other occasions when members did not attend meetings as required to receive the stipend. The Board passed the ordinance authorizing free sewer services as a stipend for meeting attendance in June 2018. The city did not take or retain minutes for some meetings so we could not determine if a meeting was held and/or which board members attended. Additional improper stipends may have been paid for those months. Also, an alderman received stipends for May and June 2020 (\$80) although he was not sworn in until July 2020.

The Board was not aware attendance at monthly meetings was necessary to receive the sewer service stipend nor that an ordinance was necessary to allow the stipend. The Board was also unaware that members should not receive stipends if financial statements were not filed.

Former City Clerk

The former City Clerk improperly received free sewer services from May 2017 to December 2019 totaling \$1,392. City ordinance did not provide for city employees to receive sewer service stipends. In addition, city personnel adjusted Alderwoman-elect/City Clerk Snider's sewer account balance of \$162 to \$0 in the sewer system in May 2016, just days prior to her being sworn in as an alderwoman. No explanation or approval by the Board of the adjustment was documented.

Snider served as Alderwoman from May 2016 until she resigned in May 2017. She was then hired as the City Clerk. She served as City Clerk until she resigned in December 2020. However, Snider served as Mayor Pro-Tem from December 2019 through December 2020, and was entitled to the sewer stipend during that time period. The Board was not aware the former City Clerk received free sewer services while serving as the City Clerk.

## Recommendation

The Board of Aldermen ensure sewer stipends are only paid when allowed.

## Auditee's Response

*We agree. We currently ensure that there is a meeting each month and everyone is able to attend. If for some reason they are not able to attend, and accommodations could not be made, no stipend is received. The City Clerk does not receive a stipend.*

---

## 3. Oversight and Annual Audits

The Board did not provide adequate oversight or obtain annual audits as required by state law.

### 3.1 Oversight and segregation of duties

The former Board did not establish adequate segregation of duties or supervisory reviews over the various financial accounting functions performed by the former M/CA. Weaknesses identified throughout this report are significant and demonstrate a lack of segregation of duties and oversight

---

City of Excelsior Estates  
Management Advisory Report - State Auditor's Findings

---

by the former Board that led to the misappropriations, unsupported and questionable payments, and missing money noted in MAR finding number 1. As a result, city money was not handled and accounted for properly.

Proper segregation of duties helps ensure transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties is not possible, timely supervisory or independent reviews of work performed and investigation into unusual items and variances is necessary. Good management practices require extensive and detailed oversight by the Board. During recorded interviews, some Board members expressed concerns about city practices; however, they failed to take action to address the concerns or provide independent and supervisory reviews over transactions, including those involving the former M/CA.

### 3.2 Board review and approval process

The Board did not review a list of bills or bank statements and Board members signed checks without reviewing supporting documentation. Our review of disbursements showed the Board did not require invoices to be marked paid or indicate the receipt of goods or services, and the city made numerous payments with no supporting documentation. The M/CA and Board also failed to monitor the city's cash balances. As a result, the city incurred \$500 in overdraft and maintenance charges in the general bank account from July 2019 through April 2021. As of March 31, 2021, shortly before the former M/CA was terminated, the general bank account balance was only \$87.

Board members indicated in recorded interviews that they signed checks without reviewing supporting documentation. The only control over disbursements was a second signature on the checks, which was ineffective when the Board members signed without reviewing any documentation. Further, the former M/CA was able to solely sign and negotiate checks issued to himself and his 2 businesses. Signing checks without supporting documentation and allowing only 1 signature on checks are significant control weaknesses and allowed the improper and questionable disbursements to occur as noted in MAR finding number 1.

Had the Board reviewed the bank statements, the improper payments and the declining cash balances could have been questioned. By approving all disbursements and reviewing supporting documentation, bank information, and canceled checks; and requiring the receipt of goods and services prior to payment, the Board can help safeguard against possible loss or misuse of funds and prevent bank overdraft fees. Board approval of disbursements is typically documented by signing or initialing a monthly list of bills. Canceling invoices and other supporting documentation reduces the likelihood of duplicate payments. The former M/CA and the Board indicated they were previously unaware of the importance of preparing a list of bills and bank statements, documenting the Board's review and approval process, and properly canceling invoices.

City of Excelsior Estates  
Management Advisory Report - State Auditor's Findings

### 3.3 Annual audits

The city did not obtain an annual audit of its sewer system for 2018, 2019, 2021, or 2022, as required by state law. Section 250.150, RSMo, requires the city to obtain annual audits of the combined waterworks and sewerage system, and the cost of the audit is to be paid from revenues received from the system. Board members indicated they were unaware of the requirement to obtain annual audits.

A similar condition was noted in our prior audit report, No. 2006-03, *City of Excelsior Estates*, issued in January 2006.

## Recommendations

The Board of Aldermen:

- 3.1 Segregate accounting duties to the extent possible and implement appropriate reviews and monitoring procedures.
- 3.2 Ensure an accurate and complete monthly list of bills is prepared and compared to invoices and checks written. In addition, the Board should ensure invoices are marked paid and adequately reviewed, and require documentation of receipt of goods and/or services prior to payment of invoices. The Board should also document its review of monthly bank statements and properly monitor bank account balances to avoid bank charges.
- 3.3 Obtain annual audits of the sewer system as required by state law.

## Auditee's Response

- 3.1 *We agree. The Board now reviews city bills and bank reconciliations each month and documents its review and approval.*
- 3.2 *We agree. The Board now reviews invoices and receipt slips when checks are signed. Three people are signors on the bank accounts and blank checks are never signed.*
- 3.3 *The city is in the process of obtaining an audit.*

## 4. Contracted Workers

City controls and procedures related to contract workers need significant improvement.

The city classified the former City Administrator, former City Clerk, and former Billing Clerk as independent contractors. The city made the following payments to these individuals:

	2016	2017	2018	2019	2020	2021
Former City Administrator	\$ 0	0	0	0	3,300	1,200
Former City Clerk	0	1,600	2,400	2,400	2,200	0
Billing Clerk/City Clerk	1,375 (1)	1,495	1,510	1,554	705	725
Total	\$ 1,375	3,095	3,910	3,954	6,205	1,925

(1) The former M/CA made some of the payments owed to Billing Clerk/City Clerk Rivera to himself or to CAD Midwest, Inc. He indicated she owed him for bills he paid on her behalf or because she could not cash the check.

---

City of Excelsior Estates  
Management Advisory Report - State Auditor's Findings

---

#### 4.1 Employment classifications and tax reporting

The Board did not document the basis for classifying the former City Administrator, former city clerks, and former Billing Clerk/City Clerk as independent contractors rather than employees, and these employees were misclassified. The current City Clerk is also classified as an independent contractor, and the city does not have documentation to support this decision.

Proper classification of employees is necessary to ensure compliance with various state and federal laws and regulations. IRS Publication 15-A provides guidance on what to examine when determining whether an individual is an employee or independent contractor including, but not limited to: whether the individual sets his or her own schedule, provides his or her own tools, receives employee benefits, and whether the work is in the normal course of business for the city. Section 105.300, RSMo, defines an elected or appointed officer or employee of a political subdivision as an employee for Social Security and Medicare tax purposes.

The failure to withhold and properly report payroll and income taxes for city employees may subject the city to tax liabilities along with penalties and interest. For employees, the IRS requires employers to report compensation on W-2 forms and withhold and remit income and payroll taxes. Similarly, Chapter 143, RSMo, includes requirements for reporting wages and withholding state income taxes. The Board indicated it was not aware of these requirements.

#### 4.2 Timesheets

The former City Administrator, former City Clerk, and City Clerk/Billing Clerk did not submit timesheets or other documentation to support work performed. Without adequate timesheets or other documentation, the city cannot ensure hours worked are accurate and properly documented. In addition, Fair Labor Standards Act (FLSA) regulation 29 CFR Section 516.2(a) requires employers to maintain accurate records of actual time worked by employees. The Board indicated it was previously unaware of the importance of requiring documentation of work performed.

#### 4.3 Independent contractors contracts and reporting

As previously noted, the city misclassified the former City Administrator, former City Clerk, and City Clerk/Billing Clerk as independent contractors. However, even if this classification was appropriate, the Board did not enter into a written contract with these individuals and did not prepare and file 1099 forms for payments made during 2015 through 2021.

Section 432.070, RSMo, requires contracts of political subdivisions be in writing. Written contracts are necessary to ensure all parties are aware of their duties and responsibilities and to provide protection to both parties. Sections 6041 through 6050W of the Internal Revenue Code require non-wage payments of at least \$600 in one year for professional services or for services performed as a trade or business by non-employees (other than corporations,

---

City of Excelsior Estates  
Management Advisory Report - State Auditor's Findings

---

except for medical and legal services), be reported to the federal government on 1099 forms. The Board indicated it was not aware of these requirements.

#### 4.4 Pay advances

The former M/CA issued checks in advance of the end of the pay period to the part-time Billing Clerk. The former M/CA issued the part-time Billing Clerk an \$80 check on January 3, 2017, for "BCF<sup>[11]</sup> - Jan 2017 #1," and a \$45 check on January 3, 2017, for "BCF - Jan 2017 #2." Additionally, he issued another \$54 check to the part-time Billing Clerk on November 9, 2019, for "billing clerk fee Mandy R ADV-auto ins," in addition to her regular \$125 month check. It is unclear why the former M/CA paid individuals in advance.

Advance payments are loans of city funds. The city has no statutory authority to make loans and Article VI, Sections 23 and 25 of the Missouri Constitution specifically prohibits counties, cities, or other political subdivisions of the state from granting public money or things of value to any corporation, association, or individual. The Board's reliance on the former M/CA to solely handle the financial functions of the city without oversight allowed this to occur.

#### Recommendations

The Board of Aldermen:

- 4.1 Determine the proper classification for city workers to ensure compliance with state and federal laws and regulations.
- 4.2 Ensure timesheets or other records of work performed are prepared, retained, signed, and approved.
- 4.3 Execute and retain written contracts for services that specify the services to be rendered and the manner and amount of payments to be made. The Board and the current City Clerk should prepare the applicable tax forms for the former City Administrator and City Clerks/Billing Clerk for compensation provided as appropriate.
- 4.4 Discontinue the practice of providing pay advances.

#### Auditee's Response

- 4.1 *The Board will look into the classification of employees.*
- 4.2 *We agree with this recommendation.*
- 4.3 *We agree. The city currently does not have any outside contracts, but we will ensure future contracts are in writing. The Board will ensure that tax forms are prepared for the City Administrator and City Clerk.*

---

<sup>11</sup> BCF is short for Billing Clerk Fee.

4.4 *This is no longer occurring.*

## 5. Accounting Controls and Procedures

### 5.1 Receipting, recording, and depositing

Accounting controls and procedures need improvement. According to the city's financial statements, city receipts totaled approximately \$385,900 and disbursements totaled approximately \$297,900 from January 1, 2017, to December 31, 2021.

The city's procedures for receipting, recording, and depositing money are poor. As a result, money collected was not properly receipted, recorded, and deposited. We reviewed the 1,111 receipts for the period March 30, 2019, to April 30, 2021. Receipts tested totaled \$138,004.

- City personnel did not use official prenumbered receipt slips for all payments received, they used several different receipt books at the same time, and the former M/CA used the same receipt book to record city receipts and receipts for his personal businesses. In addition, city personnel did not account for the numerical sequence of the receipt slips issued.
- City personnel did not always record the method of payment (cash, check, or money order) on receipt slips or in the computerized accounting system.
- City personnel did not always record receipts in the computerized accounting system. For the period tested, we noted 34 unrecorded receipts totaling \$8,941.
- The former M/CA collected sewer receipts and stored them at his home until deposited.
- City personnel did not always deposit timely. Deposits of sewer receipts sometimes included checks written up to a month prior to the deposit. For example, we noted a check issued on August 31, 2019, was not deposited until September 27, 2019.

Failure to implement adequate receipting, recording, securing, and depositing procedures increases the risk that loss, theft, or misuse of money will go undetected and accounting records will contain errors. Board members were unaware of the importance of properly receipting, recording, and depositing money.

City of Excelsior Estates  
Management Advisory Report - State Auditor's Findings

## 5.2 Commingling of city funds

The former M/CA frequently commingled city funds with personal funds.<sup>12</sup>

The former M/CA reimbursed himself and his business for money he loaned to the Billing/City Clerk from her city pay as follows:

Check Date	Check Number	Check Amount	Check Payee	Purpose As Indicated on the Check Memo Lines
02/06/2018	3597	\$ 40	Former M/CA	xBCF#2 MANDAY RIVERA
03/01/2018	3616	45	Former M/CA	~ MANDYRIVERA BCF#2X1 (1)
04/03/2018	3642	85	Former M/CA	REF MANDY RIVERA-BCF (SEE CAD CHK TO STATE FARM)
04/03/2018	3643	40	Former M/CA	REF MANDY RIVERA-BCF#2

02/05/2021	3946	200	CAD Midwest, Inc.	REF MANDY R.-CITY CLERK INC. SWR BILLING

(1) Portions of the check memo line, indicated by ~ were not legible; therefore, the wording is not known.

In addition, shortly after the July 2019 improper transfers into the former M/CA's personal bank account (see MAR finding number 1), the former M/CA issued several personal checks to the city that indicated they were cash flow advances. In some instances the former M/CA subsequently reimbursed himself for the advances. Some examples follow.

- The former M/CA issued the city a \$500 check on September 18, 2019, then subsequently reimbursed himself \$500 from the city's bank account on October 1, 2019. He also issued the city a \$300 check on September 18, 2019, and a \$500 check on May 2, 2020.<sup>13</sup>

<sup>12</sup> This includes his own funds and the funds of his two businesses.

<sup>13</sup> The total amount of missing money was reduced \$1,150 due to the payments he made to the city. All such payments are listed in the first two bulleted examples in this section.

---

City of Excelsior Estates  
Management Advisory Report - State Auditor's Findings

---

- CAD Midwest, Inc. issued the city a \$150 check on November 15, 2019, and a \$200 check on April 20, 2020.
- The former M/CA made a \$250 payment to the city using his personal credit card on March 1, 2021, then subsequently reimbursed himself \$250 on March 4, 2021.

It is unclear whether the net \$1,150 payments to the city by the former M/CA and CAD Midwest, Inc. were an attempt to repay a portion of the improper transfers still due (\$4,995) as noted in MAR finding number 1. We reduced the total amount missing by the amounts paid by the former M/CA and his personal business to credit any possible repayment.

By commingling city money with personal and private business funds, it is unclear what funds are being used to fund the city, making it impossible for the Board to adequately monitor the city's financial condition. The Board relied on the former M/CA to control the finances of the city and was unaware of what was happening. That reliance on the former M/CA without oversight allowed this comingling of funds to occur.

### 5.3 Restricted funds

The former M/CA made excessive and unauthorized transfers of restricted funds between various bank accounts, which further allowed improper disbursements to occur and not be detected. The Board also did not establish adequate procedures to ensure restricted funds were credited to the appropriate account or used only for intended purposes. During the period of January 2020 through April 2021, the city received approximately \$41,400 in customer payments for water and sewer services, and approximately \$8,300 in state motor vehicle-related receipts that were deposited into the general bank account.

A review of the city's bank statements indicated the former M/CA made 46 transfers of restricted funds, totaling \$16,953, between bank accounts from January 2020 through May 2021. Of these, 43 were for amounts less than \$1,000. The Board did not approve any of these transfers. The M/CA also commingled restricted funds with unrestricted funds and did not properly account for the balances of restricted funds within the city bank accounts. As a result, city officials could not determine what portion of the city's funds were restricted for specific use or ensure restricted funds were used for required purposes.

Board approved and supported transfers from restricted funds are necessary to ensure city funding is used for the required purpose. In addition, Section 250.150.1, RSMo, restricts the use of water and sewer receipts for operating the systems, payment of bonds, establishment of a reserve, fulfillment of any agreements contained in ordinances, and payment of costs of improvements of such systems. Section 250.150.2, RSMo, prohibits the transfer of water and

## City of Excelsior Estates Management Advisory Report - State Auditor's Findings

sewer receipts except by action of the city governing body and only after all system operation and maintenance expenses and debt payments have been paid. Article IV, Sections 30(a) and 30(b) of the Missouri Constitution require motor vehicle-related receipts apportioned by the State of Missouri be disbursed for road purposes only. Separate accounting of restricted funds is necessary to ensure compliance with these limitations. The Board indicated it was unaware of these requirements for restricted funds.

### 5.4 Record storage and retention

The city did not properly store or retain numerous financial records. City officials could not locate manual receipt slips, bank statements, and supporting documentation for disbursements, including payments to the former M/CA and his two businesses. The city stored some city records in a trailer made from the bed of a pickup truck with a camper shell on it. The following pictures, taken during an October 2022 site visit, depict the disarray of the records in the camper shell. City officials stated that this was the only storage available when the former M/CA turned over records that were in his possession.

Proper storage and retention of records is necessary to ensure the validity of transactions and to provide an audit trail. Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides for the Local Records Board to issue directives for the destruction of records. Record retention schedules can be found on the Secretary of State's website.<sup>14</sup> The Board was not aware of the importance of properly retaining and storing records. The lack of records may have helped conceal the misappropriation noted in MAR finding number 1.

<sup>14</sup> <<https://www.sos.mo.gov/archives/localrecs/schedules>>, accessed March 27, 2024.

City of Excelsior Estates  
Management Advisory Report - State Auditor's Findings

## Recommendations

The Board of Aldermen:

- 5.1 Issue official prenumbered receipt slips for all payments received, indicate the method of payment on all receipt slips, reconcile the composition of receipts to the composition of deposits, properly secure all receipts prior to deposit, and deposit all payments received intact and timely.
- 5.2 Discontinue the practice of commingling city money with personal funds.
- 5.3 Monitor and reduce the number of transfers made between bank accounts, and ensure transfers are authorized and allowable. The Board should also determine the amount of restricted funds in the city's accounts and establish separate funds or a separate accounting of this money.
- 5.4 Retain all records in accordance with state law.

## Auditee's Response

- 5.1 *We now issue receipt slips for all payments that are either given to the customer in person or mailed with the next bill. All payments are now recorded in the computerized system.*
- 5.2 *This is no longer occurring.*
- 5.3 *Restricted funds are now maintained in separate bank accounts and funds are not transferred between accounts.*
- 5.4 *We now retain all records in city hall.*

## 6. Sewer System Controls and Procedures

Sewer system controls and procedures need improvement. The city provided sewer services to 66 customers during April 2024. According to the city's accounting system reports, the city received payments for sewer services totaling approximately \$187,500 from January 1, 2017, through December 31, 2021.

### 6.1 Adjustments

The M/CA made adjustments to customer sewer statements without obtaining independent approval or maintaining adequate documentation to support the reasons for the adjustments. In addition, city personnel did not prepare a list of adjustments to compare to account changes.

Review and approval of adjustments by an independent person is necessary to ensure adjustments made are valid and proper and to reduce the risk of theft or misuse going undetected. The former M/CA and Board were unaware of the importance of an independent review of adjustments made.

City of Excelsior Estates  
Management Advisory Report - State Auditor's Findings

## 6.2 Compliance with Missouri Clean Water Law

The city repeatedly violated the Missouri Clean Water Law and the former M/CA did not take sufficient corrective action to address the sewer treatment facility issues despite extensive billings from his company for sewer services. Missouri Department of Natural Resources personnel confirmed this noncompliance continued from 2014 through at least 2021, despite the former M/CA billing the city approximately \$269,000 from his sewer business (VSI).

In 2014, the city received a notice of violation from the Missouri Department of Natural Resources (DNR) stating the city had, "significant violations of Missouri State Operating Permit and the Missouri Clean Water Law." In 2015, the DNR sent a letter noting deficiencies in the Discharge Monitoring report submitted. The DNR sent similar letters in 2016, 2017, 2018, 2019, and 2021. Since the city terminated the former M/CA and discontinued use of his businesses, the city is now compliant with applicable laws.

On July 1, 2016, the DNR issued the city an operating permit in accordance with the Missouri Clean Water Law, Chapter 644, RSMo, and the Federal Water Pollution Control Act, 33 U.S.C. Section 1251, et. seq., detailing the compliance requirements of the city's effluent limitations and monitoring practices. The Board relied on the former M/CA to properly monitor the sewer system, which was not effective.

## Recommendations

The Board of Aldermen:

- 6.1 Prepare a list of adjustments and ensure all adjustments to sewer accounts are properly approved and compared to actual changes and documentation of all adjustments is retained.
- 6.2 Continue to ensure compliance with the operating permit and the Missouri Clean Water Law.

## Auditee's Response

- 6.1 *We do not regularly adjust customer accounts other than the stipends/discounts provided for Board members. We will look into preparing a report for meetings of all of the adjustments/discounts.*
- 6.2 *We agree and will continue to ensure compliance with applicable laws.*

## 7. Financial Reporting

The city did not file annual financial reports timely or publish semiannual financial statements in compliance with state law.

### 7.1 Financial statements

The Board failed to submit to the SAO the financial statement for the year ended December 31, 2021, until January 11, 2023, and the financial statement for the year ended December 31, 2022, until October 7, 2023.

## City of Excelsior Estates Management Advisory Report - State Auditor's Findings

Section 105.145, RSMo, requires each political subdivision to file an annual report of its financial transactions with the SAO. Under 15 CSR 40-3.030, each political subdivision must file its annual financial report within 6 months of the end of the subdivision's fiscal year. Section 105.145.5, RSMo, prohibits elected officials from continuing to receive compensation or processing disbursements after the deadline to submit the financial statement and until the financial statement is submitted to the SAO. Section 105.145.9, RSMo, provides that political subdivisions that fail to timely file the annual financial statement with the State Auditor shall be subject to a fine of \$500 per day.<sup>15</sup> The Board was not aware of the importance of these requirements.

### 7.2 Semiannual published financial statements

The city has not published semiannual financial statements for the years ended December 31, 2014, through 2023. As a result, information regarding the city's financial activity and condition is not available to citizens. Section 79.160, RSMo, requires the Board to prepare and publish semiannual financial statements that include a full and detailed account of the receipts, disbursements, and indebtedness of the city. The former M/CA and Board were not aware of this requirement.

### Recommendations

The Board of Aldermen:

- 7.1 Timely submit annual financial reports to the State Auditor's Office as required by state law.
- 7.2 Publish financial statements as required by state law.

### Auditee's Response

- 7.1 *The 2023 financial statement was submitted timely on February 26, 2024.*
- 7.2 *We are in the process of determining all of the information that needs published.*

## 8. Sunshine Law

The city did not always comply with requirements of the Sunshine Law. Based on meeting minutes and agendas located, the Board held 93 meetings from January 2014 through October 2022.

### 8.1 Meeting minutes

We noted the following issues with meeting minutes:

- Minutes for 24 meetings were either missing or in an unreadable format.

<sup>15</sup> The DOR indicated it did not assess a fine for the late 2021 report because it was evaluating the impact of recently passed legislation on potential fines, and did not assess a fine for the late 2022 report because the city filed its report within 30 days of the DOR notice of non-filing.

## City of Excelsior Estates Management Advisory Report - State Auditor's Findings

- The meeting minutes for 17 of the 69 minutes reviewed were not signed and did not indicate who prepared them.
- The minutes for an additional 36 of the 69 meetings reviewed, indicated they were prepared by the former M/CA, but not signed. These minutes included discussions and approval of payments to his two private businesses and himself.

Section 610.020.7, RSMo, states minutes of open and closed meetings shall be taken and retained by the public governmental body. Secretary of State retention guidelines<sup>16</sup> require meeting minutes be retained permanently and indicate special consideration be given to the storage conditions of the files. Meeting minutes prepared by someone independent of city business, signed by the preparer, and approved by the Board are necessary to provide an independent attestation that the minutes are a correct record of the matters discussed and actions taken during the meetings. The Board was unaware of the need to have an independent party prepare minutes and retain those minutes.

### 8.2 Public access policy

The Board has not adopted a written policy regarding public access to city records as required by state law. A written policy regarding public access to city records would establish guidelines for the city to make records available to the public. This policy should identify a person to contact, provide an address to mail such requests, and establish fees that may be assessed for providing copies of public records.

Section 610.023, RSMo, lists requirements for making records available to the public. Section 610.026, RSMo, allows the city to charge fees for providing access to and/or copies of public records and provides requirements related to fees. Section 610.028, RSMo, requires a written policy regarding release of information under the Sunshine Law. The Board indicated it was unaware of these requirements.

## Recommendations

The Board of Aldermen:

- 8.1 Maintain complete and accurate meeting minutes for all meetings and ensure meeting minutes are signed by the preparer and approved by the Board.
- 8.2 Develop a written public access policy.

<sup>16</sup> Missouri Secretary of State Records Services Division, Local Records Retention Schedules, August 2023, is available at <[www.sos.mo.gov/CMSImages/LocalRecords/Municipal.pdf](http://www.sos.mo.gov/CMSImages/LocalRecords/Municipal.pdf)>, accessed April 19, 2024.

City of Excelsior Estates  
Management Advisory Report - State Auditor's Findings

---

**Auditee's Response**

- 8.1 *The City Clerk now takes minutes for each meeting. They are reviewed and signed at the following meeting by the Board.*
- 8.2 *We agree and will develop a policy.*

---

# City of Excelsior Estates

## Organization and Statistical Information

---

### Mayor, Board of Aldermen, and City Officials

The City of Excelsior Estates is located in Clay and Ray Counties. The city was incorporated in 1986 and is currently a fourth-class city. The city employed 2 part-time workers on December 31, 2020. City operations include sewer and street maintenance. The city's population was 209 in 2020, according to the U.S. Census Bureau.

The city government consists of a mayor and a 4-member board of aldermen. The members are elected for 2-year terms. The mayor is elected for a 2-year term, presides over the board of aldermen, and votes only in the case of a tie. The Mayor and Board of Aldermen members receive free sewer service (\$40) for each board meeting attended as set by ordinance. The Mayor, Board of Aldermen, City Administrator, City Clerk, and Billing Clerk at December 31, 2020, as well as certain history of the positions, are identified below:<sup>17</sup>

Vacant, Mayor (1)  
Mary (Duncan) Long, Alderwoman (2)  
Gary Lutes, Alderman (3)  
Scott Mize, Alderman (4)  
Vacant, Alderperson (5)  
Gary Fesenmeyer, part-time City Administrator (6)  
Vacant, part-time City Clerk (7)  
Mandy Rivera, part-time Billing Clerk (8)

- (1) Gary Fesenmeyer served as Mayor from at least April 2004 to December 15, 2019, before being appointed as the City Administrator. Joyce Snider served as Mayor Pro-Tem from December 15, 2019, to December 3, 2020.
- (2) Mary (Duncan) Long has served as Alderwoman since January 2014.<sup>18</sup>
- (3) Gary Lutes served as Alderman from December 2014 to October 27, 2022.
- (4) Scott Mize served as Alderman from July 2020 to August 2021. Charles Graham served as Alderman from May 2017 to January 2020. Mary Wilson Parker served as Alderwoman from January 2014 to November 2015.
- (5) Robert Tabberer served as Alderman from January 2014 to February 2016. Joyce Snider served as Alderwoman from May 12, 2016, to May 4, 2017. Ralph Tabberer served as Alderman from May 2017 to November 2018.
- (6) Gary Fesenmeyer was appointed City Administrator on December 15, 2019, and served until approximately April 19, 2021. His duties as City Administrator were the same as when he served as Mayor.
- (7) Joyce Snider served as City Clerk from May 5, 2017, to December 3, 2020. Rita Wheeler served as City Clerk from December 2, 2014, to November 24, 2015.
- (8) Mandy Rivera served as the part-time Billing Clerk from February 2015 to January 2021, when she began serving as the Billing Clerk/City Clerk, which she served as until April 2021.

### Financial Activity

The financial statement summaries submitted to the State Auditor's Office (SAO) for the years ended December 31, 2017, through 2022, follow. The city did not include beginning balances in any of its financial statements

---

<sup>17</sup> Any gaps in time indicate the seat was vacant.

<sup>18</sup> As of April 2, 2024.

D	State Auditor Subpoena - Community Bank of Missouri
E	State Auditor Subpoena - North American Savings Bank
F	Documentation of Improper Transfers to Former Mayor/City Administrator
G	Documentation of Video Sewer Inspections Bid, Ordinance, and Work Orders
H	City Administrator Position Ordinance and Proposal
I	Payments to Business Owned by Former Mayor/City Administrator - Video Sewer Inspections, Inc.
J	Additional Detail for Duplicate Payments to Video Sewer Inspections, Inc. Shown in Appendix I
K	Reimbursements to Business Owned by Former Mayor/City Administrator - CAD Midwest, Inc.
L	Payments and Reimbursements to Former Mayor/City Administrator

Appendix A  
City of Excelsior Estates  
State Auditor Subpoena - Gary Fesenmeyer

Information of a personal, privileged, or sensitive nature, and/or information that is not directly related to the information requested in the subpoena has been redacted.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

**SUBPOENA**

**To: Gary Fesenmeyer**  
[Redacted]

YOU ARE COMMANDED AND REQUIRED to appear personally before the State Auditor or his representatives, Leslie Korte, General Counsel, Robert McArthur, Auditor in Charge, and Pam Allison, Audit Manager, at the Fletcher Daniels State Office Building, Room 306, 615 East 13th Street, Kansas City, MO 64106, at 10:00 a.m. on Monday, March 20, 2023, for purposes of providing testimony, and producing for examination, copying, and interrogation the following records and documents listed on Exhibit A attached to this Subpoena.

ISSUED this 13th day of February, 2023, pursuant to Section 29.235.4(1), RSMo.

Scott Fitzpatrick  
Missouri State Auditor

I served the foregoing subpoena by \_\_\_\_\_ on this \_\_ day of February, 2023.

This subpoena was served on February 14, 2023, by a representative of the State Auditor's Office.

Appendix A  
City of Excelsior Estates  
State Auditor Subpoena - Gary Fesenmeyer

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

**EXHIBIT A-Page 1 of 2**

You are to preserve for production and inspection, and then appear as instructed on the attached subpoena and produce for inspection and examination, the following items in your possession or under your control:

All documents or other records, in whatever form, whether hard copy or electronic, pertaining or belonging to the City of Excelsior Estates for the period of January, 2014 to April, 2021.

This request includes, but is not limited to, the following

1. Bids submitted to the City of Excelsior Estates by either Video Sewer Inspections (VSI) or CAD Midwest Inc. in response to an advertisement for bids.
2. All VSI invoices billed to the City of Excelsior Estates from January 2014 through April 2021.
3. All CAD Midwest Inc. invoices billed to the City of Excelsior Estates from January 2019 through April 2021.
4. All bank statements for all accounts maintained by the City of Excelsior Estates from January 2014 through April 2021.
5. Documentation related to any loans made by the City of Excelsior Estates to City officials (e.g. [REDACTED]) or employees (e.g. [REDACTED]).
6. Documentation of all cash advances made to the City of Excelsior Estates January 2014 through April 2021, and any subsequent payments made from the City to reimburse you for those advances.
7. Documentation related to the fraudulent transfers from the City of Excelsior Estates bank accounts on June 13, 2019, and transfer into your personal bank account.

Appendix A  
City of Excelsior Estates  
State Auditor Subpoena - Gary Fesenmeyer

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

8. Any other City of Excelsior Estates records still maintained by yourself for the period January 2014 through April 2021, in either hardcopy form or electronically on your personal computer, for example:
  - a. Manual receipt slips
  - b. Deposit slips
  - c. Check stubs or carbon copies
  - d. Invoices, including any supporting reimbursements to yourself
  - e. Quickbooks records
9. Proof of payment (cancelled checks, copies of money orders, receipt slips, payment stubs, etc.) of all utility services relating to Lot numbers L26, L36 and M16 for the period January 2014 through April 2021.
10. Minutes of all City of Excelsior Estates board meetings held from January 2014 through April 2021.

This request for records includes all materials that exist in paper ("hard copy") or electronic form (including but not limited to records and data maintained on computers, tablets, smart phones, external electronic storage drives, thumbnail drives, remote servers or back up tapes). All information requested in the items above are subject to inspection, review and copying by the state auditor. Section 29.235.4(1), RSMo.

**To: Gary Fesenmeyer**  
[REDACTED]  
[REDACTED]

**YOU ARE COMMANDED AND REQUIRED** to appear personally before the State Auditor or his representative, Robert McArthur, at the Truman State Office Building, 301 West High Street, Room 880, Jefferson City, MO 65101, at 10:00 a.m. on Monday, April 3, 2023, for purposes of providing testimony, and producing for examination, copying, and interrogation the following records and documents listed on Exhibit A attached to this Subpoena.

In lieu of appearance, you may ship the records responsive to this subpoena to the Missouri State Auditor to the attention of Robert McArthur at 301 W. High St., Room 880, Jefferson City, MO 65102, or email the records to Robert.McArthur@auditor.mo.gov to be received no later than April 3, 2023 at 10:00 a.m.

ISSUED this 20th day of March 2023, pursuant to Section 29.235.4(1), RSMo.

Scott Fitzpatrick  
Missouri State Auditor

I served the foregoing subpoena by hand delivery on this 20th day of March, 2023.

## **EXHIBIT A**

You are to preserve for production and inspection, and then appear as instructed on the attached subpoena and produce for inspection and examination, the following items in your possession or under your control:

All documents or other records, in whatever form, whether hard copy or electronic, pertaining or belonging to the Village of Excelsior Estates for the time period of January 1, 2014 to April 30, 2021.

This request includes, but is not limited to, the following:

1. All documentation (bids, invoices, timesheets, etc.) for services you or your businesses provided to the Village of Excelsior Estates;
2. Documentation related to any loans made by the City of Excelsior Estates to City officials (e.g. [REDACTED]) or employees (e.g. [REDACTED]).
3. Documentation of all cash advances made to the City of Excelsior Estates, and any subsequent payments made from the City to reimburse you for those advances.
4. All records related to Village of Excelsior Estates transfers (\$1,700 and \$4,500) made to your personal bank account on June 13, 2019, and the subsequent withdrawal.
5. Any other City of Excelsior Estates records still maintained by yourself, in either hardcopy form or electronically on your personal computer, for example:
  - a. Manual receipt slips
  - b. Deposit slips
  - c. Check stubs or carbon copies
  - d. Invoices, including any supporting reimbursements to yourself
  - e. Quickbooks records
  - f. Meeting minutes
6. Proof of payment (cancelled checks, copies of money orders, receipt slips, payment stubs, etc.) of all utility services relating to Lot numbers L26, L36 and M16.
7. Any and all other records related to your testimony.

This request for records includes all materials that exist in paper ("hard copy") or electronic form (including but not limited to records and data maintained on computers, tablets, smart phones, external electronic storage drives, thumbnail drives, remote servers or back up tapes). All information requested in the items above are subject to inspection, review and copying by the state auditor. Section 29.235.4(1), RSMo.

BANKLIBERTY  
Lawson Branch  
401 N. Pennsylvania  
Lawson, MO 64062

Attn: Raelyn Dutra – Branch Manager

I sincerely appreciate your help in resolving this current difficult situation in regards to the following recent occurrence:

Account	Date	Amount	
...3257	6/13/2019	\$<1700.00>	Unauthorized Transfer
...0852	6/13/2019	\$<4500.00>	Unauthorized Transfer

Attached is my personal and business financial information in addition to what I already gave you. Please advise anything you might need.

Note the payment made to [REDACTED] for cleaning my computer and installing additional security software.

The City has managed it's cash flow well the last 15 years or so and I believe we will move on from here. We usually had a cushion for cash flow in the past. However, recovery or replacement of the missing cash is essential for funding Sewer Treatment Plant improvements which the Missouri Dept of Natural Resources continues to demand.

Be assured that I will do whatever I can to alleviate the situation. It happened on my watch and I take appropriate responsibility.

Sincerely,  
  
Gary Fesenmeyer Sr – Mayor [REDACTED]  
City of Excelsior Estates, Mo.

TO: City of Excelsior Estates  
P.O. Box 518  
Lawson, Mo. 64062

Ref: Presumed Events Occurring in  
Spring of 2019 involving Alleged  
"MICROSOFT hack" of City Bank Accounts

A phone call was received in early spring ref online computer maintenance which was considered routine at the time. the cost was around \$350 (high but OK).

Later on (early June) a call was received from "MICROSOFT SECURITY"—a very professional and legitimate sounding call apparently concerned about online security. Apparently they wanted to check things out. Then they apparently came back problems to be fixed and a charge for \$350. (OK...it's "MICROSOFT")...

Apparently both calls were from the same person(s). They manipulated the \$6000.00 from the City accounts thru the attached savings account. At this point they had all the Bank Account Information.

Sincerely,

*Gary Fesenmeyer Sr*

BILL NO. 061518

ORDINANCE NO. 10-31-19

AN ORDINANCE TO AUTHORIZE THE POSITION OF "CITY ADMINISTRATOR" TO PROVIDE SERVICES FOR CONDUCTING THE CITY'S BUSINESS PER MO REVISED STATUTES Section 77.042 to 78.640.

WHEREAS, the scope and the complexities of the City's business has expanded to require multiple disciplines and expertise beyond the time available to the Mayor's office.

WHEREAS, attached Exhibit "A" provides an example of the requirements of the position; it is intended as a guide and may be revised/added to as required.

THEREFORE, be it ordained by the Board of Aldermen of the City of Excelsior Estates, Missouri:

**SECTION 1:** The City Council shall review persons deemed to have the qualifications for this position (minimum 5 years equivalent experience). There are no residence requirements for this position.

**SECTION 2:** The qualified person for this position shall agree to an annual contract as a subcontractor for a monthly fee acceptable to the City for the range of services provided. Included in the fee will be a sufficient amount for instructing a designated person or persons in the details of parts of the work so they may, over time, be able to assist in the work.

**SECTION 3:** The CITY ADMINISTRATOR shall endeavor to pass along to the City the expertise needed for the City to eventually perform all functions. Annually, the contract will be adjusted to reflect the work assumed by the City.

**SECTION 4:** This Ordinance shall take effect from and after its date of passage and approval.

PASSED AND APPROVED ON THIS 1st DAY OF NOVEMBER, 2019.

Total 2021					15,270.00	0.00	15,270.00	0.00
Total Payments					\$ 268,367.32	87,265.00	181,102.32	14,390.00

- (1) The bank could not provide check images; however, the details of the checks were obtained from the electronic accounting system.
- (2) The bank could not provide check images; therefore, we could not determine who signed these checks. However, the former Mayor/City Administrator indicated in a recorded interview that he typically signed city checks.
- (3) This payment also appears on Appendix J.
- (4) Check issued out of order.
- (5) Several checks were issued for the same invoice number. We applied the invoice amount to the first check issued for the invoice number listed.
- (6) Portions or all of the check memo line of the canceled check, notated by a ~ symbol, were not legible.
- (7) The invoice number noted in the memo line of the check (161208) did not match the invoice number (invoice number 170101) that was paid with this check.
- (8) The invoice number noted in the memo line of the check (170108) did not match the invoice number (invoice number 170106) that was paid with this check.
- (9) Invoice indicated the total was \$440; however, individual amounts listed on invoice totaled to only \$380. Therefore, the amount of the invoice was shown as \$380.
- (10) The invoice number noted in the memo line of the check (170808) did not match the invoice number (invoice number 170809) that was paid with this check. Additionally, there is a note on invoice 170809 stating it was paid with check number 1328 and 1330.
- (11) The invoice number noted in the memo line of the check (170708) did not match the invoice number (invoice number 170806) that was paid with this check. Check numbers 3506 and 3509 agree to the amount and purpose of invoice 170806 and check number 3514 appears to be a duplicate payment of check number 3509.
- (12) Invoice indicated the total was \$2,110; however, individual amounts listed on invoice totaled to only \$2,070. Therefore, the amount of the invoice was shown as \$2,070.
- (13) The invoice number noted in the memo line of the check (171004) did not match the invoice number (171005) that was paid with this check.
- (14) The invoice number noted in the memo line of the check (171001) did not match the invoice number (171010) that was paid with this check.
- (15) The invoice indicated half of the total amount of the invoice was paid by the city and another party shared (paid) half of the costs listed on the invoice. Therefore, we showed half of the tech hours listed on the invoice.
- (16) The invoice number noted in the memo line of the check (180106) did not match the invoice number (180105) that was paid with this check.
- (17) The invoice number noted in the memo line of the check (180606) did not match the invoice number (180605) that was paid with this check.
- (18) Check number 1378 did not list a check date, but cleared the bank on August 28, 2018. Therefore, we showed the check date as August 28, 2018.
- (19) Invoice indicated the total was \$985; however, individual amounts listed on the invoice totaled to only \$885. Therefore, the amount of the invoice was shown as \$885.
- (20) An X was placed over the individual amounts listed on this invoice; however, the total of the individual amounts (\$1,125) was not altered on the invoice. Four checks totaling \$3,115 were issued notating the payment was for this invoice number, which exceeded the amount notated on the invoice by \$1,990. Therefore, the tech fees listed on the invoice were included.
- (21) A payment was not located for invoice number 181212 dated December 31, 2018; therefore, we showed the invoice date as the check date.
- (22) Check number 3736 is shown twice. The former Mayor/City Administrator ordered 2 sets of checks with the same sequence causing check numbers to be reused.
- (23) The date of service of 9-31 notated in the check memo line is an error and should be 9-30.
- (24) Check number 3981 was dated March 22, 2016; however, the check cleared the bank in March 2021. Due to the numerical sequence of checks issued and the date the check cleared the bank, we showed the check date as March 22, 2021.

Legend:

Paving - Bank A is the city's paving bank account held at Midwest Bank.  
General - Bank A is the city's general bank account held at Midwest Bank.  
General - Bank B is the city's general bank account held at Lawson Bank.

Appendix J

City of Excelsior Estates

Additional Detail for Duplicate Payments to Video Sewer Inspections, Inc. Shown in Appendix I

January 1, 2014, through April 30, 2021

Check Date	Check Number	Purpose as Shown in Check Memo Line or in Accounting System, if Provided	Bank Account	Check Signers	Check Amount	Amount Shown on Invoice, if Applicable	Amount of Duplicate Payment (1)
04/07/2021	3989	#210405 (STPO&M) 0407	General - Bank A	Gary Fesenmeyer Sr. & Joyce Snider	495.00		
04/12/2021	3990	#210402-REV#3(STP O&M 0407	General - Bank A	Gary Fesenmeyer Sr. & Mary Duncan	235.00		235.00
Total					\$ 34,795.00	2,215.00	18,290.00

- (1) If the amounts of the applicable duplicate payments were not the same, to be conservative, we showed the smaller of the payment amounts as the duplicate payment unless the smaller amount was supported by an invoice and the larger was not.
- (2) The bank could not provide check images; however, the details of the checks were obtained from the electronic accounting system.
- (3) The bank could not provide check images; therefore, we could not determine who signed these checks. However, the former Mayor/City Administrator indicated in a recorded interview that he typically signed city checks.
- (4) The original check numbers 1004 and 1005 cleared the bank March 3, 2020, after these 2 replacement checks were issued.
- (5) The portion of the check memo line notated by a ~ symbol was not legible. Thus, the wording is not known.
- (6) The date of service of 9-31 notated in the check memo line is likely an error and should be 9-30.

Note: Lines were added to group the related duplicate payments.

Legend:

Paving - Bank A is the city's paving bank account held at Midwest Bank.

General - Bank A is the city's general bank account held at Midwest Bank.

General - Bank B is the city's general bank account held at Lawson Bank.

Total Payments						\$ 8,479.43	4,322.34	94.98	4,062.11

- (1) Insignificant overpayments (less than \$2) are not included.
- (2) The invoices contained \$20 cash back, and as a result, the \$20 should not have been reimbursed.
- (3) Invoice totaled \$21.34 with a \$5 coupon applied and only \$16.34 was paid; therefore, only \$16.34 should have been reimbursed.
- (4) This check was issued out of numerical sequence.
- (5) The portion of the check memo line, indicated by ~ was not legible; therefore, the wording is not known.
- (6) The invoice showed a donation that should not have been reimbursed.
- (7) The invoice showed all items purchased were returned; therefore, the \$65.98 should not have been reimbursed.
- (8) The invoice showed this was a purchase of a \$36.25 money order and there was no documentation showing the money order was used to pay shipping charges for a tool; therefore, amount of invoice was shown as \$0.00.

Legend:

Paving - Bank A is the city's paving bank account held at Midwest Bank.

General - Bank A is the city's general bank account held at Midwest Bank.

General - Bank B is the city's general bank account held at Lawson Bank.

Total Payments					\$ 28,998.36	12,619.23	215.75	16,163.38

- (1) Insignificant amounts (less than \$2) of overpayments were not shown.  
(2) The bank could not provide check images; however, the details of the checks were obtained from the electronic accounting system.  
(3) The bank could not provide check images; therefore, we could not determine who signed these checks. However, the former Mayor/City Administrator indicated in a recorded interview that he typically signed city checks.  
(4) The date listed on this check was 11/31/16 in error and date was likely 11/30/16 or 12/1/16.  
(5) One of the invoices reimbursed totaled \$41.91 with a \$5 coupon applied and another invoice totaled \$9.34 with a \$5 coupon applied. Only \$36.91 and \$4.34 were paid related to these purchases, resulting in an overpayment of \$10.  
(6) One of the invoices reimbursed totaled \$6.39, but included a \$1 check payment fee and showed a check payment of \$26.39, with \$20 cash back. The items purchased only cost \$5.39 on this invoice, resulting in an overpayment of \$21.  
(7) This payment appears to be a duplicate payment of check number 3338 issued on December 30, 2016, for \$100, and as a result, is an overpayment of \$100.  
(8) This check was issued out of numerical sequence.  
(9) Portions of the check memo line, indicated by ~ were not legible; therefore, the wording is not known.  
(10) The check was dated April 3, 2011, but cleared the bank on April 10, 2018, and was issued in numerical sequence; therefore, the check was likely issued on April 3, 2018.  
(11) This check number is shown twice. The former Mayor/City Administrator ordered 2 sets of checks with the same sequence causing check numbers to be reused.  
(12) One of the invoices reimbursed totaled \$33.11 with 2 coupons applied (one coupon for \$25 and another for \$5), and only \$3.11 was paid, resulting in an overpayment of \$30.  
(13) The invoice totaled \$93.46; however, personal items such as men's cologne, foot cream, and a coffee mug were purchased totaling \$49.90, and should not have been reimbursed.  
(14) One of the invoices submitted for reimbursement included grocery or snack items, and should not have been reimbursed.  
(15) An ordinance signed and approved by Joyce Snider and Gary Fesenmeyer Sr. on November 1, 2019, provided for the City Administrator to be paid a monthly fee for contracted services. The ordinance did not specify an amount. A proposal submitted by Gary Fesenmeyer Sr. dated December 14, 2019, indicated he would be compensated \$300 per month, payable at the end of each month; however it was not signed or approved by the Board.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

To the County Commission  
and  
Officeholders of Pulaski County, Missouri

The Office of the State Auditor contracted for an audit of Pulaski County's financial statements for the year ended December 31, 2022, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by Stopp & VanHoy CPAs and Business Advisors, is attached.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive, flowing style.

Scott Fitzpatrick  
State Auditor

July 2024  
Report No. 2024-049

### Recommendations in the audit of Pulaski County

2022-001	The county prepare budgets for all applicable funds and periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes. Additionally, the county should closely monitor fund balances on an ongoing basis.
2022-002	The county develop the required internal control documentation. In addition, study the Committee of Sponsoring Organizations of the Treadway Commission (COSO) internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.
2022-003	The Treasurer's office implement the necessary accounting procedures to perform reconciliation of all bank accounts and county funds accurately.
2022-004	The county implement internal controls to ensure that the schedule of expenditures of federal awards (SEFA) completely and accurately states the expenditures of federal awards of the county each year, such as performing a reconciliation between the SEFA and underlying accounting records. Federal reimbursement grants should be reported on the SEFA based on reimbursable expenditures made during the year.
2024-005	The county implement internal controls to ensure that the Project and Expenditure reports completely and accurately state the cumulative expenditures and current period expenditures of funds expended under the COVID-19 Coronavirus State and Local Fiscal Recovery Funds including performing a reconciliation between the reporting to be submitted and the underlying accounting records. Additionally, the county should include the omitted expenditures in the next Project and Expenditure Report submission using the procedures reflected in the U.S. Department of Treasury <i>Project and Expenditure Report Guide</i> , as applicable to the covered period being submitted.

*Independent Auditor's Report*

To the County Commission and  
Officeholders of Pulaski County, Missouri

**Report on the Audit of the Financial Statements*****Opinions***

We have audited the accompanying financial statements of Pulaski County, Missouri, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise Pulaski County, Missouri's basic financial statements as listed in the table of contents.

*Unmodified Opinion on Regulatory Basis of Accounting*

In our opinion, the accompanying financial statements present fairly, in all material respects, the cash balances of each fund of Pulaski County, Missouri as of December 31, 2022, and their respective cash receipts and disbursements, and budgetary results for the year then ended in accordance with the basis of accounting practices prescribed or permitted by Missouri law as described in Note 1.

*Adverse Opinion on U.S. Generally Accepted Accounting Principles*

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of Pulaski County, Missouri as of December 31, 2022, or the changes in financial position and cash flows thereof for the year then ended.

***Basis for Opinion***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Pulaski County, Missouri and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

*Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles*

As described in Note 1 of the financial statements, the financial statements are prepared by Pulaski County, Missouri on the basis of accounting practices prescribed or permitted by Missouri law to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting practices prescribed or permitted by Missouri law to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Pulaski County, Missouri's ability to continue as a going concern for the twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Pulaski County, Missouri's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Pulaski County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## **Other Matters**

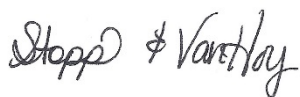

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Pulaski County, Missouri's basic financial statements. The Schedule of Expenditures of Federal Awards, as required by the audit requirements of Title 2 *U.S. Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated February 28, 2024 on our consideration of Pulaski County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Pulaski County, Missouri's internal control over financial reporting and compliance.

**Note 1 - Summary of Significant Accounting Policies**

Organized in 1833, the county of Pulaski was named after Revolutionary War General Casimir Pulaski. It is a third-class county, and the county seat is Waynesville. Pulaski County's government is composed of a three-member county commission and the following separately elected Constitutional Officers: County Clerk, Collector, Treasurer, Circuit Clerk and *ex officio* Recorder of Deeds, Sheriff, Assessor, Coroner, Public Administrator and Prosecuting Attorney.

As discussed further in Note 1, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of Pulaski County, Missouri, the Pulaski County Senior Citizens Service Board, and the Pulaski County Board for the Handicapped (Senate Bill 40 Board).

Pulaski County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Pulaski County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise Pulaski County's legal entity. The Pulaski County Senior Citizens Service Board and the Pulaski County Board for the Handicapped are controlled by separate boards and are also included under the control of Pulaski County.

Certain elected County officials, such as the County Collector, Treasurer, and Sheriff, collect and hold monies in a trustee capacity as an agent of an individual, taxing units, or other governments. These assets, which are held by these officeholders for the sole benefit of external parties, are included in the Statement of Assets and Liabilities Arising from Cash Transactions - Custodial Funds - Regulatory Basis.

Basis of Presentation

The accompanying financial statements present the receipts, disbursements, and changes in cash of all funds of Pulaski County, Missouri, and the comparisons of such information with the corresponding budgeted information for all funds of the County. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission or an elected county official. The General Revenue Fund is the County's general operation fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

Basis of Accounting

The financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. The effects of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

**The County of Pulaski  
Waynesville, Missouri  
Notes to the Financial Statements  
For the year ended December 31, 2022**

---

**Note 1 - Summary of Significant Accounting Policies (continued)**

Basis of Accounting

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation, bonds, and obligations under capital leases), and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If Pulaski County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

Budget and Budgetary Accounting

In accordance with Chapter 50 RSMo, Pulaski County adopts a budget for each governmental fund.

On or before January 15th, each elected official and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

Prior to February 1, the budget is legally enacted by a vote of the County Commission.

Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

Budgets are prepared and adopted on the cash basis of accounting.

During the audit, it was noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The following funds had expenditures which were in excess of budgeted expenditures: Civil Fees Fund, Recorder Technology Fund, and the Pulaski County Board for the Handicapped Fund. The following funds did not have a budget prepared: Local Assistance and Tribal Consistency Grant Fund and Community Development Block Grant Fund.

**Waynesville, Missouri**  
**Notes to the Financial Statements**  
**For the year ended December 31, 2022**

---

**Note 1 - Summary of Significant Accounting Policies (continued)**

Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuation of the tangible taxable property, included within Pulaski County's boundaries for the calendar year for the purposes of County taxation, was as follows:

Real Estate	\$ 437,279,199
Personal Property	127,938,913
Railroad and Utilities	25,301,671
	<u>\$ 590,519,783</u>

The tax levy per \$100 assessed valuation of tangible taxable property for the calendar year, for the purpose of County taxation, was as follows:

General Revenue	\$ -
Special Road and Bridge	0.1944
Senior Citizens Service Board	0.0441
Pulaski County Board for the Handicapped	0.0706

The amount classified as "property taxes" in the General Revenue Fund represents collections from private car companies and payments in lieu of taxes on federally owned land within the County. The amount classified as "property taxes" in the Highway H Maintenance Fund represents special assessments collected from property owners to be used for maintenance of roads located within the Highway H Maintenance District.

The County also receives sales tax collected by the State and remitted based on the County's sales tax rate to the total sales tax collected in the County.

Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and cash equivalent and investment balances are presented in Note 2.

**The County of Pulaski**  
**Waynesville, Missouri**  
**Notes to the Financial Statements**  
**For the year ended December 31, 2022**

---

**Note 1 - Summary of Significant Accounting Policies (continued)**

Interfund Transactions

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

**Note 2 - Deposits and Investments**

Pulaski County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed on the statement of receipts, disbursements, and changes in cash arising from cash transactions as "Cash and Equivalents." Cash held for others is displayed on the statement of assets and liabilities from cash transactions as "Cash and Equivalents."

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits.

The bank balances and carrying values of deposits and investments shown below are included in the financial statements at December 31, 2022, as follows:

	<u>Carrying Value</u>	<u>Bank Balances</u>
Deposits	\$ 25,944,326	\$ 25,810,315
Investments	<u>404,909</u>	<u>404,909</u>
Total Deposits and Investments as of December 31, 2022	<u>\$ 26,349,235</u>	<u>\$ 26,215,224</u>
Total Cash and Equivalents - Governmental Funds	\$ 14,606,497	
Total Cash and Equivalents - Custodial Funds	<u>11,742,738</u>	
	<u>\$ 26,349,235</u>	

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. At December 31, 2022, 100% of Pulaski County's deposits and investments were covered by the Federal Deposit Insurance Company (FDIC) or were collateralized.

Custodial Credit Risk - Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party that sold the security to Pulaski County or its agent but not in the government's name. Pulaski County does not have a policy for custodial credit risk relating to investments.

All investments, evidenced by individual securities, are registered in the name of Pulaski County or of a type that are not exposed to custodial credit risk.

**The County of Pulaski**  
**Waynesville, Missouri**  
**Notes to the Financial Statements**  
**For the year ended December 31, 2022**

---

**Note 2 - Deposits and Investments (continued)**

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Pulaski County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by Pulaski County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U. S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). Pulaski County has no policy in place to minimize the risk of loss resulting from over concentration of assets of a specific maturity, specific issuer or specific class of securities.

The following investments represent more than 5%, individually, of total investments:

Issuer	Investment Type	Balance	% of Portfolio
Security Bank of Pulaski Co.	Cert. of Deposit	\$ 300,000	74.20%
Bank of Missouri	Cert. of Deposit	104,309	25.80%
		<u>\$ 404,309</u>	

**Note 3 - Interfund Transfers**

Transfers between funds for the years ended December 31, 2022 are as follows:

<u>Fund</u>	<u>Transfers In</u>	<u>Transfers Out</u>
General Revenue	\$ 1,435,806	\$ -
Special Road and Bridge	-	50,000
American Rescue Plan Act	-	1,345,446
Law Enforcement Sales Tax	-	12,190
Collector's Tax Maintenance	-	10,000
County Law Enforcement Restitution	-	15,600
Highway H Maintenance	-	2,570
Total	<u>\$ 1,435,806</u>	<u>\$ 1,435,806</u>

**Note 4 - Long-Term Debt**

Certificates of Participation

In 2019, Pulaski County issued \$13,385,000 in Certificates of Participation to be used, together with other available funds of the County to (1) acquire, construct, furnish and equip a County jail and law enforcement center, including a Sheriff's office and (2) pay the costs related to the delivery of the Series 2019 Certificates. Principal payments are due annually on December 1; interest is payable semi-annually on June 1 and December 1 with annual variable interest rates at 3.375% - 4.000%.

2033-2036	3,865,000	331,412	4,196,412	850,000	43,000	893,000
	<u>\$ 11,100,000</u>	<u>\$ 3,590,450</u>	<u>\$ 14,690,450</u>	<u>\$ 2,715,000</u>	<u>\$ 424,400</u>	<u>\$ 3,139,400</u>

Lease-Purchase Agreements

In January 2021, the County entered into a lease purchase agreement to finance the purchase of two Mack GR64F Trucks at a cost of \$307,716. The agreement requires 24 monthly payments of \$3,821 and a final balloon payment of \$230,000, which includes interest payable at 2.920%.

In May 2021, the County entered into a lease purchase agreement to finance the purchase of a John Deere Excavator and NPK Breaker at a cost of \$142,500. The agreement requires seven annual payments of \$18,700, which includes interest payable at 2.331%.

In September 2021, the County entered into a lease purchase agreement to finance the purchase of two Ford F350 Trucks at a cost of \$116,532. The agreement requires 14 semi-annual payments of \$9,059, which includes interest payable at 2.290%.

In October 2021, the County entered into a lease purchase agreement to finance the purchase of an International Dump Truck at a cost of \$137,452. The agreement requires seven annual payments of \$21,005, which includes interest payable at 2.190%.

In October 2021, the County entered into a lease purchase agreement to finance the purchase of a second International Dump Truck at a cost of \$137,452. The agreement requires seven annual payments of \$21,028, which includes interest payable at 2.190%.

**Note 6 - County Employees' Retirement Fund (CERF)**

Plan Description

The County Employees' Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elected or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under RSMo. Sections 56.800 to 56.840, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under RSMo. Sections 57.949 to 57.997, and certain personnel not defined as an employee per RSMo. Section 50.1000(8). The Fund was created by an act of legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

Benefits Provided

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of \$10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, Missouri, 65101, by calling (573) 632-9203, or by visiting the CERF website at [www.mocerf.org](http://www.mocerf.org).

Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 6%. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 6% contribution on behalf of employees. The County collected and remitted CERF employee contributions of \$263,440 for the year ended December 31, 2022.

**The County of Pulaski  
Waynesville, Missouri  
Notes to the Financial Statements  
For the year ended December 31, 2022**

---

**Note 6 - County Employees' Retirement Fund (CERF)(continued)**

In addition to the above contributions required of employees, the following fees and penalties prescribed under Missouri law are required to be collected and remitted to CERF by counties covered by the plan:

- Late fees on filing of personal property tax declarations,
- Twenty dollars on each merchants and manufacturers license issued,
- Six dollars on each document recorded or filed with county recorders of deeds, with an additional one on each document recorded,
- Three sevenths of the fee on delinquent property taxes, and
- Interest earned on investment of the above collections prior to remittance to CERF.

The County collected and remitted CERF fees and penalties of \$273,505 for the year ended December 31, 2022.

Further information related to required contributions, pension benefits, other plan terms, and investments and related return and financial information can be found in the notes to the financial statements of CERF's Annual Financial Report.

**Note 7 - Prosecuting Attorney Retirement Fund**

In accordance with state statute Section 56.807 RSMo, Pulaski County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys' and Circuit Attorneys' Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. Pulaski County has contributed \$11,628 for the year ended December 31, 2022.

**Note 8 - Other Retirement Plans**

Pulaski County has voluntary 457 and 401(a) plans administered by Empower Retirement (formerly Great-West Retirement Services) which are paid by a deduction from employees' salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the year ended December 31, 2022 for the 457 plan were \$111,611. Employee contributions collected and remitted by the County for the year ended December 31, 2022 for the 401(a) plan were \$31,247.

Pulaski County Board for the Handicapped has a voluntary SIMPLE IRA plan, which is paid by a deduction from employees' salary with the Board matching 3% of employee contributions. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the Board for the year ended December 31, 2022 for the plan were \$6,466; the Board also remitted an additional matching contribution of \$4,569.

**Note 9 - Post-Employment Benefits**

Pulaski County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by Pulaski County.

**The County of Pulaski  
Waynesville, Missouri  
Notes to the Financial Statements  
For the year ended December 31, 2022**

---

**Note 10 - Claims, Commitments and Contingencies**

Litigation

The County is subject to various claims and legal proceeding covering a wide range of matters that arise in the ordinary course of its business activities. Management believes that any liability that may ultimately result from the resolution of these matters will not have a material adverse effect on the financial condition of the County.

Compensated Absences

The County provides full-time employees with up to 24 days (192 hours) of sick time, to accrue at one-half day per complete calendar month of employment. Upon termination, employees are not compensated for unused sick time. Vacation time is accrued for every full-time employee and accrues at the rate of one day per month. However, employees may only carry over five vacation days from one year to the next. Employees of the Sheriff's department who work more than 171 hours within a 28-day monthly work period are eligible for compensatory time or overtime pay. The Sheriff and the County Commission retain the right to determine how hours worked beyond the limit of 171 will be compensated (monetary compensation or compensatory time off). Employees can accrue a maximum of 20 hours of compensatory time. These have not been subjected to auditing procedures.

Federal and State Assisted Programs

The County receives proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned. Such audits could result in refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

**Note 11 - Risk Management**

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo.). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections which are intended to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is a member of the Missouri Association of Counties Self-Insurance Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this fund, a nonprofit corporation established to provide insurance coverage to Missouri counties. The fund is self-insured up to \$500,000 per occurrence and reinsured up to the statutory limit through excess insurance.

**The County of Pulaski  
Waynesville, Missouri  
Notes to the Financial Statements  
For the year ended December 31, 2022**

---

**Note 12 - Subsequent Events**

The County has evaluated events subsequent to December 31, 2022 to assess the need for potential recognition or disclosure in the financial statements. Such events have been evaluated through February 28, 2024, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that would require recognition or additional disclosure in the financial statements.

**Note 13 - Prior Period Adjustments**

Due to the improper inclusion of a certain fund and reporting errors in certain funds, beginning cash and equivalents has been restated. These restatements will have no impact to the County's operations.

Beginning Cash and Equivalents, as originally restated December 31, 2021	\$ 12,179,427

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON  
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL  
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING  
STANDARDS*

*Independent Auditor's Report*

To the County Commission and  
Officeholders of Pulaski County, Missouri

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the accompanying financial statements of Pulaski County, Missouri as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise Pulaski County, Missouri's basic financial statements, and have issued our report thereon dated February 28, 2024.

***Report on Internal Control over Financial Reporting***

In planning and performing our audit of the financial statements, we considered Pulaski County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Pulaski County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Pulaski County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We identified certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as items 2022-002 and 2022-003, that we consider to be significant deficiencies.

***Report on Compliance and Other Matters***

As part of obtaining reasonable assurance about whether Pulaski County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our

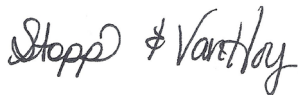

tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards*, and which is described in the schedule of findings and questioned costs as item 2022-001.

### **Pulaski County, Missouri's Responses to Findings**

*Government Auditing Standards* requires the auditor to perform limited procedures on Pulaski County, Missouri's responses to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. Pulaski County, Missouri's responses were not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in cursive script, appearing to read "Stopp & VanHoy".

Creve Coeur, Missouri  
February 28, 2024

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT  
ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH THE  
UNIFORM GUIDANCE

*Independent Auditor's Report*

To the County Commission and  
Officeholders of Pulaski County, Missouri

**Report on Compliance for Each Major Federal Program**

***Qualified Opinion***

We have audited Pulaski County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Pulaski County, Missouri's major federal programs for the year ended December 31, 2022. Pulaski County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

*Qualified Opinion on COVID-19 Coronavirus State and Local Fiscal Recovery Funds*

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion section of our report, Pulaski County, Missouri complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on COVID-19 Coronavirus State and Local Fiscal Recovery Funds for the year ended December 31, 2022.

***Basis for Qualified Opinion***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Pulaski County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Pulaski County, Missouri's compliance with the compliance requirements referred to above.

*Matter Giving Rise to Qualified Opinion on COVID-19 Coronavirus State and Local Fiscal Recovery Funds*

As described in the accompanying schedule of findings and questioned costs, Pulaski County, Missouri did not comply with requirements regarding Assistance Listing No. 21.027 COVID-19 Coronavirus State and Local Fiscal Recovery Funds as described in finding number 2022-005 for Reporting.

Compliance with such requirements is necessary, in our opinion, for Pulaski County, Missouri to comply with the requirements applicable to that program.

### ***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Pulaski County, Missouri's federal programs.

### ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Pulaski County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Pulaski County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Pulaski County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Pulaski County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Pulaski County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### ***Other Matters***

The results of our auditing procedures disclosed an instance of noncompliance which is required to be reported in accordance with the Uniform Guidance and which is described in the accompanying schedule of findings and questioned costs as item 2022-004. Our opinion on each major federal program is not modified with respect to these matters.

*Government Auditing Standards* requires the auditor to perform limited procedures on Pulaski County, Missouri's response to the noncompliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. Pulaski County, Missouri's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

### **Report on Internal Control Over Compliance**

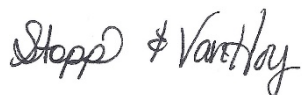

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be significant deficiencies.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2022-004 and 2022-005 to be significant deficiencies.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

*Government Auditing Standards* requires the auditor to perform limited procedures on Pulaski County, Missouri's response to the internal control over compliance findings identified in our audit described in the accompanying schedule of findings and questioned costs. Pulaski County, Missouri's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**Notes to Schedule of Expenditures of Federal Awards**  
**For the year ended December 31, 2022**

---

**Note 1 - Summary of Significant Accounting Policies**

Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). This Uniform Guidance requires a schedule that provides total federal awards expended for each federal program and the assistance listing number or other identifying number when the assistance listing number is not available.

This schedule includes all federal awards administered by Pulaski County, Missouri.

Basis of Presentation

The *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* includes these definitions, which govern the contents of the schedule:

*Federal financial assistance* means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals.

*Federal award* means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Because the Schedule presents only a selected portion of the operations of Pulaski County, Missouri, it is not intended to and does not present the financial position, changes in net assets, or cash flows of Pulaski County, Missouri.

Basis of Accounting

The accompanying Schedule of Expenditures of Federal Awards is presented on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowed or are limited as to reimbursement.

Federal expenditures are considered to have occurred when cash is disbursed for allowable expenditures.

Pulaski County, Missouri has not elected to use the 10% de minimis indirect cost rate.

**Note 2 - Donated Personal Protective Equipment**

Pulaski County received no donated personal protective equipment which had been purchased with federal funds. This footnote is unaudited.

**The County of Pulaski  
Waynesville, Missouri  
Schedule of Findings and Questioned Costs  
For the year ended December 31, 2022**

---

**Section 2 - Financial Statement Findings**

2022-001 **Criteria:** Missouri statutes requires Counties to prepare an annual budget as applicable to each fund. Expenditures are not to exceed the budget.

**Condition:** During the audit, it was noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The following funds had expenditures which were in excess of budgeted expenditures: Civil Fees Fund, Recorder Technology Fund, and the Pulaski County Board for the Handicapped Fund. The following funds did not have a budget prepared: Local Assistance and Tribal Consistency Grant Fund and Community Development Block Grant Fund.

**Cause:** Oversight

**Effect:** Due to exceeding budget in certain funds and due to the lack of prepared budgets in certain funds, the County is in violation of Missouri Revised Statutes.

**Recommendation:** We recommend that the County prepare budgets for all applicable funds and periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes. Additionally, the County should closely monitor fund balances on an ongoing basis.

**Management's Response:** Pulaski County will review the findings and work to make necessary corrections in the 2024 Budget and when preparing the 2025 Budget.

2022-002 **Criteria:** Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit*, which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification*, considers inadequate documentation of the components of internal control to be at least a significant deficiency.

**Condition:** Documentation of the County's internal controls has not been prepared.

**Effect:** Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

**Cause:** Management has not prepared documentation of internal controls.

**Recommendation:** We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

**Management's Response:** Pulaski County will review the findings and work to adjust internal controls to adhere more closely with the recommendations.

2022-003 **Criteria:** Per the County's internal control procedures, the Treasurer is responsible for reconciling all bank accounts and all funds to bank statements. Strong internal controls over financial statement reporting require that cash and fund balances be tracked for all funds.

**The County of Pulaski  
Waynesville, Missouri  
Schedule of Findings and Questioned Costs  
For the year ended December 31, 2022**

---

**Section 2 - Financial Statement Findings (continued)**

2022-003 (cont.) **Condition:** The Treasurer prepared an inaccurate bank reconciliation for the COVID-19 Relief Account, resulting in an overstatement of \$1,338,495 in ending fund balance in the American Rescue Plan Act Fund. These misstatements were due to inaccurate reversals of bank transfers out of \$1,345,446 and unrecorded account interest of \$6,950.

**Cause:** Oversight.

**Effect:** Because cash and fund balances are not adequately being tracked within the accounting system or by the Treasurer, it is possible that cash and fund balances could be materially misstated due to error or fraud.

**Recommendation:** We recommend that the Treasurer's office implement the necessary accounting procedures to perform reconciliation of all bank accounts and County funds accurately.

**Management's Response:** Pulaski County will review the findings and work to adjust internal controls to adhere more closely with the recommendations.

**Section 3 - Federal Award Findings (continued)**

2022-004	Federal Grantor:	All Programs
	Pass-through Grantor:	All Programs
	Federal Assistance Listing No.:	All Programs
	Program Title:	All Programs

**Criteria:** Title 2 *U.S. Code of Federal Regulations* Part 200.510(b) requires auditees to prepare a schedule of expenditures of federal awards which must report total federal awards expended during the audit period. At a minimum, the schedule must include: expenditures by individual program, program title and assistance listing number, programs required to be identified as part of a cluster, name of the pass-through entity and identifying number assigned by the pass-through entity for awards not received directly from the federal government, and the total amount provided to subrecipients from each federal program.

**Condition:** The schedule of expenditures of federal awards (SEFA) reported by the County in the annual budget documents contained errors in amounts of federal expenditures reported. Additionally, the schedule did not include the identification of programs required to be part of a cluster, names of pass-through entities, identifying numbers assigned by the pass-through entities, or total amounts provided to subrecipients for the applicable programs.

Discrepancies in amounts reported on the SEFA and amounts supported by underlying accounting records are summarized as follows:

**The County of Pulaski  
Waynesville, Missouri  
Schedule of Findings and Questioned Costs  
For the year ended December 31, 2022**

**Section 3 - Federal Award Findings (continued)**

2022-004 (cont.)	Federal Agency	Assistance Listing Number	Federal Program	Original SEFA	As Corrected	Difference
	Agriculture	10.665	Schools and Roads - Grants to States Community Development Block	\$ 200,942	\$ 61,661	\$ 139,281
	HUD	14.228	Grants	-	2,500	(2,500)
	Interior	15.226	Payments in Lieu of Taxes	-	86,218	(86,218)
	Interior	15.438	National Forest Acquired Lands	-	60,279	(60,279)
	Justice	16.575	Crime Victim Assistance Violence Against Women Formula	37,066	41,990	(4,924)
	Justice	16.588	Grants Highway Planning and	12,568	-	12,568
	Transportation	20.205	Construction	58,302	-	58,302
	Transportation	20.616	National Priority Safety Programs COVID-19 Coronavirus State and	249	166	83
	Treasury	21.027	Local Fiscal Recovery Funds	5,109,146	3,231,069	1,878,077
	Health and Human Serv.	93.563	Child Support Enforcement	36,795	34,112	2,683
	Homeland Security	97.036	Disaster Grants - Public Assistance Emergency Management	152,009	-	152,009
	Homeland Security	97.042	Performance Grants	-	9,020	(9,020)
				<u>\$ 5,607,077</u>	<u>\$ 3,527,015</u>	<u>\$ 2,080,062</u>

Furthermore, the SEFA prepared by the County does not indicate the amount of awards passed through to subrecipients.

The County reported total expenditures of \$200,942 under assistance listing number 10.665 - Schools and Roads - Grants to States. Of this total, \$86,218 of this amount was expended under assistance listing number 15.226 - Payments in Lieu of Taxes and \$61,035 was not expended at all during the fiscal year. The County also failed to report total funds remitted to local school districts. Additionally, the County failed to identify the Forest Service Schools and Roads Cluster on the SEFA. \$46,246 of funds expended under this program was disbursed to schools, however, these awards to subrecipients were not reported on the SEFA.

The County omitted funds of \$60,279 expended under assistance listing number 15.438 - National Forest Acquired Lands, including \$45,209 of funds remitted to local schools under the same program.

The County inaccurately reported expenditures of \$5,109,146 of assistance listing number 21.027 - COVID-19 Coronavirus State and Local Fiscal Recovery Funds. Underlying accounting records support actual expenditures of \$3,231,069.

The County inaccurately reported expenditures of \$152,009 of assistance listing number 97.036 - Disaster Grants - Public Assistance funds. This balance reported represents reimbursements received for funds expended in previous years. The County incurred no expenditures under this grant program in the current year.

**Cause:** The County has not implemented a proper system of internal control over SEFA preparation, such as a reconciliation to underlying accounting records or having a separate individual review the SEFA for clerical accuracy after it has been prepared. Reasons for discrepancies varied.

**Effect:** The SEFA presented for the audit did not accurately reflect the County's actual expenditures of federal awards for the year ended December 31, 2022.

**The County of Pulaski  
Waynesville, Missouri  
Schedule of Findings and Questioned Costs  
For the year ended December 31, 2022**

---

**Section 3 - Federal Award Findings (continued)**

2022-004 **Recommendation:** We recommend that the County implement internal controls to ensure that the SEFA completely and  
(cont.) accurately states the expenditures of federal awards of the County each year, such as performing a reconciliation between the SEFA and underlying accounting records. Federal reimbursement grants should be reported on the SEFA based on reimbursable expenditures made during the year.

**Management's Response:** Pulaski County will review the recommendations as presented and work to adjust internal controls to prepare SEFA information in accordance with the recommendations of the auditor.

2022-005	Federal Grantor:	U.S. Department of Treasury
	Pass-through Grantor:	n/a
	Federal Assistance Listing No.:	21.027
	Program Title:	COVID-19 Coronavirus State and Local Fiscal Recovery Funds
	Award Year:	2022
	Compliance Requirement:	Reporting
	Known Questioned Costs:	n/a

**Criteria:** Title 2 *U.S. Code of Federal Regulations* Part 200 requires recipients of Federal awards to comply with laws, regulations, and provisions of contract or grant agreements related to each of its Federal programs. Participants in the COVID-19 Coronavirus State and Local Fiscal Recovery Funds program were required to complete financial, performance, and compliance reporting as outlined in Part 2 of the SLFRF Compliance and Reporting Guide, issued by the U.S. Department of the Treasury. The County was required to appropriately maintain accounting records for compiling and reporting accurate, compliant financial data, in accordance with appropriate accounting standards and principles.

**Condition:** The County elected to obligate funds for the provision of government services in accordance with the \$10 million standard allowance exemption as outlined in the 2022 Final Rule guidance; the standard allowance provision allows a recipient to reimburse itself for eligible past expenditures incurred on or after March 3, 2021 through the date of the standard allowance election.

COVID-19 Coronavirus State and Local Fiscal Recovery Funds are considered obligated and expended on the date that the Commission authorizes the expenditures and cash is disbursed for the authorized use. Accordingly, the County elected to spend \$1,328,061 of salaries, wages, and payroll taxes as an incentive to those who remained employed by the County during the pandemic. This expenditure was not included in the total expenditures reported in the Project and Expenditure Report due for the 4th quarter of 2022.

**Cause:** Oversight.

**Effect:** The Project and Expenditure Report due by January 31, 2023, which covered the period of October 1, 2022 - December 31, 2022, was submitted with inaccurate expenditures. Total cumulative expenditures reported under the County's revenue replacement category for the covered period totaled \$1,951,638, however, the County's underlying accounting records supported total cumulative expenditures for the covered period of \$3,231,069.

**Recommendation:** We recommend that the County implement internal controls to ensure that the Project and Expenditure reports completely and accurately state the cumulative expenditures and current period expenditures of funds expended under the COVID-19 Coronavirus State and Local Fiscal Recovery Funds including performing a reconciliation between the reporting to be submitted and the underlying accounting records. Additionally, the County should include the omitted expenditures in the next Project and Expenditure Report submission using the procedures reflected in the U.S. Department of Treasury *Project and Expenditure Report Guide*, as applicable to the covered period being submitted.

Waynesville, Missouri  
Schedule of Findings and Questioned Costs  
For the year ended December 31, 2022**

---

**Section 3 - Federal Award Findings (continued)**

2022-005 **Management's Response:** Pulaski County will review the condition and work to adjust internal controls to insure proper  
(cont.) reporting is completed as defined in the recommendation.

**The County of Pulaski**  
**Waynesville, Missouri**  
**Summary Schedule of Prior Year Findings and Questioned Costs**  
**For the year ended December 31, 2022**

---

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Pulaski County, Missouri, on the applicable findings in the prior audit report issued for the year ended December 31, 2021.

**Prior Year Financial Statement Findings**

2021-001 **Criteria:** Missouri statutes requires Counties to prepare an annual budget as applicable to each fund. Expenditures are not to exceed the budget and funds are not to be budgeted at a deficit.

**Condition:** During our audit, it was noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The following funds had expenditures which exceeded the budgeted expenditures: CARES Act Fund, Sheriff Revolving Fund, LEPC Chemical Preparedness Fund, and Highway H Maintenance Fund.

**Effect:** The County is in violation of Missouri Revised Statutes due to exceeding budgets in certain funds.

**Cause:** Oversight

**Recommendation:** We recommend that the County periodically review its actual expenditures as compared to budgeted amounts. An amended budget should be prepared and approved as necessary to comply with statutes.

**Management's Response:** The County Clerk will perform a detailed review of budgetary statutes and actual expenditures in order to ensure budgetary compliance, and amendments to the budget will be prepared and approved by the County Commission, if necessary. The expected completion date is December 31, 2022. The phone number for the Clerk's office is (573) 774-4704.

**Auditor's Evaluation:** The response is appropriate to correct this concern.

**Status:** Management has not corrected this issue, therefore, this finding is repeated as 2022-001 in the current year.

**Prior Year Federal Award Findings and Questioned Costs**

2021-002 Federal Grantor: All Programs  
Pass-Through Grantor: All Programs  
Federal CFDA Number: All Programs  
Program Title: All Programs

**Criteria:** Title 2 U.S. *Code of Federal Regulations* Part 200 requires auditees to prepare an accurate Schedule of Expenditures of Federal Awards (SEFA) containing awards expended, CFDA title and number, award number, name of the Federal agency, and name of pass-through entity.

**Condition:** Management has not implemented internal controls related to the preparation of the Schedule of Expenditures of Federal Awards (SEFA). During our audit we noted the SEFA contained errors.

**Effect:** Federal expenditures reported in the SEFA were incorrect.

**Cause:** Management did not follow reporting requirements related to the Schedule of Expenditures of Federal Awards.

**The County of Pulaski  
Waynesville, Missouri  
Summary Schedule of Prior Year Findings and Questioned Costs  
For the year ended December 31, 2022**

---

**Prior Year Federal Award Findings and Questioned Costs (continued)**

2021-002 **Recommendation:** We recommend management develop internal controls over reporting to ensure an accurate SEFA is prepared.

**Management's Response:** Title 2 *U.S. Code of Federal Regulations* Part 200 is being reviewed and training sessions will be initiated by the County Clerk's office. The County Clerk is working towards capturing grant transactions in a manner sufficient to readily report the necessary information required on the SEFA by the next audit period. The expected completion date is December 31, 2022. The phone number for the Clerk's office is (573) 774-4704.

**Auditor's Evaluation:** The response is appropriate to correct this concern.

**Status:** Management has not corrected this issue, therefore, this finding is repeated as 2022-004 in the current year.

**Scott Fitzpatrick**  
Missouri State Auditor

# CITIZENS SUMMARY

## Findings in the audit of the Park Plaza Transportation Development District

### Background

The Park Plaza Transportation Development District (TDD) was formed in July 2009 for the purpose of relocating and improving Northwest Prairie View Road north of Missouri Route 45 Highway, previously adjacent to Interstate 29, to align with North Chatham Road (the first project phase). Additional improvements also included appropriate signalization modifications, an enclosed storm sewer conveyance system, extension and relocation of public utilities to supplement the roadway improvement, and all associated legal, engineering, land acquisition, and miscellaneous costs (the second project phase). The first and second project phases were completed in 2010 and 2019, respectively, and the City of Kansas City and the Missouri Highways and Transportation Commission (MHTC) subsequently accepted ownership of the project. Project costs for the Park Plaza TDD totaled \$3,337,676.

The project was funded by a 1/2-cent (0.50 percent) sales tax on all taxable transactions within the boundaries of the district. The sales tax was effective January 2010. In June 2013, the district increased the sales tax to 1 percent to fully fund project improvements. The increased sales tax was effective in October 2013.

In October 2009, the Park Plaza TDD issued revenue bonds to pay for project costs. In December 2017, the TDD issued a second set of revenue bonds, to refinance the first set, and obtain funding for the second project phase. The Park Plaza TDD satisfied this debt in its entirety in September 2023. The Board approved certain actions in connection with abolishment of the Park Plaza TDD, including repealing the District's sales tax in October 2023, effective January 1, 2024.

Based on the audit, the cash balance of the Park Plaza TDD as of December 31, 2023, was \$842,552. According to the district's legal counsel, as of April 2024, the district would incur additional estimated legal and administrative expenses totaling \$50,000 related to the dissolution of the district. After the district's final costs and professional fees are paid, the remaining balance will be transferred to the City of Kansas City and the MHTC in accordance with state law.

### Financial Status

The audit of the Park Plaza Transportation Development District indicates the financial condition of the district is such that it may be abolished.

Because of the nature of this audit, no rating is provided.

---

Management Advisory Report - State Auditor's Findings	Financial Status .....3
---	-------------------------

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Bob Johnson, Executive Director  
and  
Board of Directors  
Park Plaza Transportation Development District  
Kansas City, Missouri

The State Auditor is required under Section 238.275, RSMo, to audit a transportation development district prior to the question of abolishment being submitted to a vote. On October 24, 2023, the Board of Directors of the Park Plaza Transportation Development District approved a resolution of its intent to dissolve the district and request an audit as required by statute. The State Auditor was subsequently notified of this resolution.

The district engaged Deborah Loomis, CPA, LLC, to audit the district's financial statements for the year ended December 31, 2022. To minimize duplication of effort, we reviewed the CPA firm's report for the year ended December 31, 2022, since the December 31, 2023, audit had not yet been completed. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2023. The objectives of our audit were to evaluate the financial status of the district and determine whether it may be abolished pursuant to law.

Our methodology included reviewing minutes of meetings, financial records, and other pertinent documents; and interviewing various personnel of the district, as well as certain external parties. We obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The audit determined the Board of Directors may proceed with abolishment of the district in accordance with Section 238.275, RSMo.

The accompanying Management Advisory Report presents our findings arising from our audit of the Park Plaza Transportation Development District.

A handwritten signature in black ink that reads "Scott Fitzpatrick".

Scott Fitzpatrick  
State Auditor

# Park Plaza Transportation Development District Management Advisory Report - State Auditor's Findings

---

## Financial Status

Our audit of the Park Plaza Transportation Development District (TDD) indicates the financial condition of the district is such that it may be abolished.

The Park Plaza TDD is located in Platte County, in the City of Kansas City. The district was organized in July 2009 by petition of the property owner/developer within the proposed TDD. The district consists of 1 property owner. The members of the Board of Directors consist of 5 members: 4 representatives of the property owner/developer, and 1 vacancy. The district has a fiscal year end of December 31.

The Park Plaza TDD was formed for the purpose of relocating and improving Northwest Prairie View Road north of Missouri Route 45 Highway, previously adjacent to Interstate 29, to align with North Chatham Road (the first project phase). Additional improvements also included appropriate signalization modifications, an enclosed storm sewer conveyance system, extension and relocation of public utilities to supplement the roadway improvement, and all associated legal, engineering, land acquisition, and miscellaneous costs (the second project phase). The City of Kansas City is the public entity with jurisdiction over the local portion of the project and serves as the Local Transportation Authority. The Missouri Highways and Transportation Commission (MHTC) serves as the entity with jurisdiction over the state portion of the project. The first and second project phases were completed in 2010 and 2019, respectively, and the City of Kansas City and MHTC subsequently accepted ownership of the project. Project costs for the Park Plaza TDD totaled \$3,337,676.

In July 2009, the Board of Directors passed a resolution formally approving the submission of the proposed sales tax rate to the qualified voters of the district and establishing a sales tax rate of 1/2 of 1 percent (0.50 percent) on all taxable transactions within the boundaries of the district. The sales tax was effective in January 2010. In June 2013, the district increased the sales tax to 1 percent to fully fund project improvements. The increased sales tax was effective in October 2013.

In October 2009, the Park Plaza TDD issued revenue bonds to pay for project costs. In December 2017, the TDD issued a second set of revenue bonds, to refinance the first set, and obtain funding for the second project phase. The Park Plaza TDD satisfied this debt in its entirety in September 2023. The Board approved certain actions in connection with abolishment of the Park Plaza TDD, including repealing the District's sales tax in October 2023, effective January 1, 2024. See the table below for district financial activity for the fiscal year ended December 31, 2023.

In October 2023, the Park Plaza TDD Board of Directors formalized its intent to dissolve the district. The District subsequently advised the State Auditor's Office (SAO) in January 2024 of this resolution and requested the SAO proceed with all necessary actions as required pursuant to Section 238.275,

Park Plaza Transportation Development District  
Management Advisory Report - State Auditor's Findings

RSMo. That statute requires the State Auditor to audit the district to determine its financial status, and determine whether it may be abolished pursuant to law. It also states the board shall not propose the question to abolish the district while there are outstanding claims or causes of action pending against it; if its liabilities exceed its assets; or while the district is insolvent, in receivership, or under the jurisdiction of a bankruptcy court.

The following table presents the financial activity and cash balances for the year ended December 31, 2023.

	Year Ended December 31, 2023
RECEIPTS	
Sales Tax	\$ 590,211
Transfer from Bond Accounts*	602,645
Other Income	2,500
Total Receipts	1,195,356
DISBURSEMENTS	
Debt Service	366,748
Interest	3,809
County-Financed Project Costs	0
Administrative Costs	34,170
Total Disbursements	404,727
RECEIPTS OVER (UNDER) DISBURSEMENTS	790,629
BEGINNING CASH	51,923
ENDING CASH	\$ 842,552

\* Represents all of the remaining amounts held by the district's bond trustee after bond debt was paid in full.

Source: Compiled by the SAO using the district's bank statements, audited financial statements, and unaudited financial statements.

Based on our audit, the cash balance of the Park Plaza TDD as of December 31, 2023, was \$842,552. According to the district's legal counsel, as of April 2024, the district would incur additional estimated legal and administrative expenses totaling \$50,000 related to the dissolution of the district. There are no pending, threatened, or unasserted claims or assessments against the district, according to district legal counsel. District officials confirmed the district is not insolvent, in receivership, or under the jurisdiction of a bankruptcy court. Based on these representations, district assets are sufficient to pay any remaining costs and obligations. After the district's final costs and professional fees are paid, the remaining balance will be transferred to the City of Kansas City and the MHTC in accordance with Section 238.275.5(1), RSMo.

Based on our audit, the Board of Directors may proceed with the abolishment of the district in accordance with Section 238.275, RSMo.

Members of the Board of Aldermen  
City of Fairview, Missouri

We have conducted follow-up work on certain audit report findings contained in Report No. 2022-099, *City of Fairview* (rated as Poor), issued in November 2022, pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

1. Identify audit report findings for which follow up is considered necessary, and inform the city about the follow-up review on those findings.
2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:
  - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
  - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
  - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
  - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.

As part of the AFTER work conducted, we reviewed documentation provided by the City Clerk and held discussions with the Mayor and City Clerk to verify the status of implementation for the recommendations. Documentation provided by the city included Board meeting minutes, financial records, and other pertinent documents. This report is a summary of the results of this follow-up work, which was substantially completed from February through April 2024. While working with the city in conducting the follow-up work, we identified various new concerns related to the handling of customer utility payments. Additional work related to these concerns is planned and will be addressed in a subsequent letter to the Mayor and the Board of Aldermen.

Scott Fitzpatrick  
State Auditor

---

# City of Fairview

## Follow-Up Report on Audit Findings

### Status of Findings

---

1. Overpayments, Improper Use of City Funds, and Conflicts of Interest	The former City Clerk was overpaid \$3,351, the Board improperly spent \$120,252 of restricted funds from a city trust fund, and the city paid \$17,325 to a business that the former Mayor managed and owned in violation of city code related to conflicts of interest.
--	---

1.1 Overpayments to former City Clerk	The former City Clerk was overpaid \$3,351 from January 2020 through March 2021. The former City Clerk recorded more hours worked in the payroll system than she reported on her weekly timecards from January 2020 through March 2021. The former City Clerk did not sign most of her weekly timecards and her supervisor (the former Mayor) did not sign any of these timecards. The former City Clerk signed 30 of the 65 payroll checks issued to herself, including 24 of the 54 checks issued with overpayments. The former City Clerk paid herself on a weekly basis instead of a bi-monthly basis in violation of city code.
---------------------------------------	--

Recommendation	The Board of Aldermen work with law enforcement officials regarding possible criminal prosecution of the overpayments and take the necessary actions to obtain restitution.
----------------	---

Status	<b>In Progress</b>  The Board is currently working with the Newton County Sheriff's Office. Per the Newton County Sheriff's Office, their investigative report was submitted to the Prosecuting Attorney on April 23, 2024.
--------	---

1.2 Revocable Trust of John Q. Hammons	The Board improperly spent restricted funds from the Revocable Trust of John Q. Hammons, including building purchases, well pump repairs (subsequently repaid), and election costs. The Board also did not obtain appraisals for the building purchases and did not enter into adequately detailed rental agreements for the apartments located in the buildings.
--	---

Recommendation	The Board of Aldermen ensure trust funds are used in compliance with the terms of the trust, appraisals are performed for any property considered to be purchased in the future, and detailed written rental agreements are prepared and signed for all rental properties.
----------------	--

Status	<b>Implemented</b>  Invoices for all disbursements from the Trust were reviewed and determined to be reasonable and in accordance with the Trust requirements. Appraisals were not needed as no property was purchased during 2023. The city has a sufficiently detailed rental agreement with the United States Postal Service. The rental apartment in the post office building is now being used as the city's police department office and one of the 2 apartments in the grocery store
--------	---

City of Fairview  
Follow-up Report on Audit Findings  
Status of Findings

building was incorporated into the grocery store and is no longer a rental. The other apartment in the grocery store building is currently vacant.

### 1.3 Conflicts of interest

The city paid \$17,325 to a company owned and managed by the former Mayor in violation of city code related to conflicts of interest, and the Board did not adequately monitor city activities for conflicts of interest. In addition, some of these checks were issued prior to the date of the related invoice.

### Recommendation

The Board of Aldermen closely examine city transactions to identify conflicts of interest, and ensure disbursements are not made until after the invoices are received and properly approved.

### Status

#### **Partially Implemented**

We did not note any conflicts of interest. The city has not created any procedures for identifying conflicts of interest. The Board is not provided with a listing of city disbursements; therefore, the Board is unable to closely examine transactions to identify conflicts of interest. Disbursement documentation did not include any Board review or approval. We did not note any checks issued prior to the date of the invoice.

## 2. Payroll Controls and Procedures

Significant improvement over payroll controls and procedures was needed.

### 2.1 Timecards and leave records

Timecards were not always signed by the employee or supervisor to document approval and review of time worked, and leave records maintained did not always adequately track the hours of vacation leave earned and used, and any remaining balances.

### Recommendation

The Board of Aldermen ensure timecards are properly signed and approved, employee leave balances are properly tracked and monitored, and reviews of timecards are performed to ensure the propriety of payroll payments.

### Status

#### **Not Implemented**

From our review of the November 2023 timecards, we noted that none of the timecards were signed by the employee or approved by the supervisor. Additionally, timecards were not required for all city employees and the formats for the timecards were not consistent for all employees. The City Clerk indicated a leave balance report is not maintained. There is no indication the Board reviews the monthly payroll report.

### 2.2 City code

The former City Clerk did not always follow city code regarding vacation leave, compensation, and related employees. The Board also did not have

City of Fairview  
Follow-up Report on Audit Findings  
Status of Findings

	ordinances establishing the amount of compensation of any city officials and employees.
Recommendation	The Board of Aldermen follow city code and establish the compensation of all city officials and employees by ordinance as authorized by statute.
Status	<b>Not Implemented</b>  We could not determine if the city was following the city code regarding vacation leave as a leave balance report is not maintained. The Mayor and City Clerk both indicated they do not have ordinances establishing the amount of compensation for city officials and employees. Currently, there are no related employees working for the city.
2.3 Cost allocations	The city had no documentation to justify the allocation of the City Clerk's compensation to the various city funds.
Recommendation	The Board of Aldermen allocate disbursements to city funds based on specific criteria and retain documentation to support the allocation.
Status	<b>Not Implemented</b>  The city does not have an ordinance or specific criteria for allocating the City Clerk's salary. The Mayor and City Clerk both indicated the City Clerk's salary is now paid from the city's Water Fund.
3. Accounting Controls and Procedures	Accounting controls and procedures needed improvement.
3.1 Oversight and segregation of duties	The Board had not established adequate segregation of duties or supervisory reviews over the various financial accounting functions performed by the City Clerk.
Recommendation	The Board of Aldermen segregate accounting duties to the extent possible and implement appropriate reviews and monitoring procedures.
Status	<b>Not Implemented</b>  The City Clerk indicated accounting duties have not been segregated. The Board has not implemented appropriate reviews and monitoring procedures.
3.2 Depositing and receipting	The former City Clerk and former City Treasurer did not always deposit receipts intact and timely, and rental deposits for the John Q. Hammons Community Center were not always receipted or deposited.

City of Fairview  
Follow-up Report on Audit Findings  
Status of Findings

---

Recommendation	The Board of Aldermen ensure all money received is deposited intact and timely, and receipt slips are issued for all money received. In addition, determine the status of the rental deposits on hand and deposit or return them to the payer.
----------------	--

Status	<b>Not Implemented</b>  Deposits were not made intact or timely, and receipt slips were not issued for all money received, during November 2023. The City Clerk indicated the status of rental deposits is not monitored.
--------	---

3.3 Bank accounts      The city maintained an excessive number of bank accounts.

Recommendation      The Board of Aldermen evaluate and reduce the number of bank accounts.

Status      **In Progress**  
  
The city has reduced the number of checking accounts from 24 to 12.

---

4. Disbursements      Controls and procedures over disbursements needed improvement.

4.1 Procurement procedures and contracts      City officials did not always solicit bids or proposals as required by city code, and did not always enter into written contracts. The city did not file a 1099 form for asphalt work performed.

Recommendation      The Board of Aldermen follow formal bidding policies and procedures as required by city code, enter into written contracts prior to beginning work as required by state law, and ensure 1099 forms are issued in accordance with IRS regulations.

Status      **Not Implemented**  
  
The City Clerk provided documentation of Board meeting minutes in May 2023 where the Board opened, reviewed, and awarded bids for water and wastewater treatment services, maintenance services, and trash services. However, no documentation was retained by the city that bids were advertised as required by city code. The city did not have a written contract for water and wastewater treatment services. The city did not issue any 1099 forms for these services for 2023.

4.2 Credit cards      The city did not monitor credit card limits, adequate supporting documentation was not retained for some credit card purchases, and some disbursements made were not a necessary and prudent use of public funds.

City of Fairview  
Follow-up Report on Audit Findings  
Status of Findings

---

Recommendation	The Board of Aldermen review and adjust credit card limits, require adequate, detailed supporting documentation be retained for all disbursements, and ensure all disbursements are necessary and a prudent use of public funds.
----------------	--

Status	<p><b>Partially Implemented</b></p> <p>Supporting documentation was retained for the November 2023 credit card statement. The Mayor and City Clerk indicated there is not an approval process for the use of the credit card and the Board has not reviewed or adjusted credit card limits. The Board is not provided with a detailed listing of city disbursements or supporting documentation; therefore, the Board is unable to ensure all disbursements are a necessary and prudent use of public funds.</p>
--------	--

4.3 Dual signatures	The former City Clerk and former City Treasurer signed their own payroll checks, the former Mayor signed checks issued to a company he managed and owned, on numerous occasions, and the former City Clerk typically signed the payroll checks of the Meter Reader (her grandson).
---------------------	--

Recommendation	The Board of Aldermen require dual independent signatures on all checks.
----------------	--

Status	<p><b>Implemented</b></p> <p>We reviewed checks issued from the city's bank accounts for November 2023 and determined that there were two independent signatures on all checks.</p>
--------	---

---

5. Utility System Controls and Procedures	Significant weaknesses existed in the city's utility system controls and procedures. As a result, there was less assurance all utility payments had been properly recorded and transmitted.
---	---

5.1 Utility reconciliations	City personnel did not prepare proper reconciliations related to utility services. The former City Clerk did not perform monthly reconciliations of amounts billed, payments received, and amounts unpaid for utility services. Significant differences between the gallons of water pumped and gallons of water billed and used by the city were not investigated.
-----------------------------	---

Recommendation	The Board of Aldermen ensure monthly reconciliations are performed of amounts billed to amounts collected and delinquent accounts, and significant differences between gallons of water billed to gallons pumped should be investigated and resolved.
----------------	---

Status	<p><b>Not Implemented</b></p> <p>The City Clerk indicated their current utility billing software does not generate a reconciliation and a manual reconciliation is not performed for amounts billed, payments received, and amounts delinquent. In addition, the</p>
--------	--

City of Fairview  
Follow-up Report on Audit Findings  
Status of Findings

Mayor indicated that reconciliations between gallons of water pumped and gallons of water billed and used by the city are not performed and significant differences are not investigated.

## 5.2 Adjustments

The former City Clerk made adjustments to customer accounts, including writing off charges caused by water leaks or incorrect meter readings, without obtaining independent approval or maintaining adequate documentation to support the reason for the adjustment.

### Recommendation

The Board of Aldermen require the City Clerk to prepare a report of adjustments and ensure an independent and/or supervisory review and approval of all adjustments made in the utility system is performed.

### Status

#### **Not Implemented**

The City Clerk indicated that an adjustment report is not prepared and approvals made are not reviewed and approved.

## 5.3 Late penalties and shut off procedures

Late penalties were not always charged and utility services were not shut off in accordance with city ordinances.

### Recommendation

The Board of Aldermen ensure late penalties are charged and utility service is shut off in accordance with city ordinance, and maintain a record of shut offs, along with any relevant documentation.

### Status

#### **Partially Implemented**

The City Clerk indicated late fees are automatically applied to utility accounts on the 18th of every month by the utility accounting software. We reviewed the utility accounts and late fees were applied. The Mayor and City Clerk indicated that their current utility billing software does not retain reports prior to the current month; therefore, the City Clerk prints off a record of current water bills due and makes a list of the water customers that are two months delinquent. This list is given to the Mayor who then delivers shut off notices to these delinquent water customers giving them 24 hours to pay or service will be disconnected. We noted there is no documentation maintained that shut offs are actually performed and the city is still not following the city ordinance. City Ordinance 68.010(8) states, ". . . Failure to pay a bill by the thirtieth day following the close of the period for which service was rendered shall result in the disconnection of the service and such disconnection shall be made without the necessity of notice to the water user."

## 5.4 Utility deposits

The City Clerk did not reconcile the list of customer utility deposits held to the related money held in the Water/Sewer Fund bank account.

City of Fairview  
Follow-up Report on Audit Findings  
Status of Findings

Recommendation	The Board of Aldermen periodically reconcile customer utility deposits in the utility system to accounting records and cash balances, and promptly investigate any differences. In addition, any unidentified money should be disbursed in accordance with state law.
Status	<b>Not Implemented</b>  The City Clerk indicated that a reconciliation of customer utility deposits is not performed.
5.5 Partial payments	The city did not have an ordinance or written policies authorizing partial payments. Partial payments were not approved by someone independent of the utility's accounting functions and written payment agreements for partial payments did not exist.
Recommendation	The Board of Aldermen establish an ordinance for partial payments and create policies and procedures governing the process that should include at least (1) a written payment plan for each partial payer, and (2) approval of each plan by someone independent of the utility's accounting functions.
Status	<b>Partially Implemented</b>  The Board of Aldermen established an ordinance for partial payments that was approved on September 12, 2023. The city has a partial payment plan agreement form for partial payers, but approval of the plan is not conducted by someone independent of the utility's accounting functions.
6.1 Budgeting, Planning, and Financial Reporting - Budgets	City officials did not include all the statutorily required elements in the budgets prepared for the years ending December 31, 2021, and 2020. The Board did not adequately monitor budget-to-actual receipts and disbursements. Budget amendments were not prepared or approved by the Board before the budgets for these funds were overspent or before the fiscal year ended.
Recommendation	The Board of Aldermen prepare annual budgets that contain all information required by state law, ensure disbursements do not exceed budgeted amounts, and prepare any necessary budget amendments timely.
Status	<b>Not Implemented</b>  The City Clerk indicated the city did not prepare an annual budget for 2023.

City of Fairview  
Follow-up Report on Audit Findings  
Status of Findings

---

6.3 Budgeting, Planning,  
and Financial Reporting  
- Filing of financial  
reports

City officials did not file an accurate financial report with the SAO for the year ended December 31, 2020, as required by state law. The financial report submitted did not include accurate ending cash balances for 3 of the 12 funds (excluding the Municipal Court Fund) and did not include the Hammons Endowment Fund.

Recommendation

The Board of Aldermen submit accurate annual financial reports to the State Auditor's Office.

Status

**Not Implemented**

Financial reports were not filed with SAO for the year ended December 31, 2022, as required by state law. Instead, the city submitted bank statements for 9 of the 12 funds (excluding the Municipal Court Fund). Funds not included were the Replacement and Extension, Bond Reserve, and American Rescue Plan Funds.

---

6.4 Budgeting, Planning,  
and Financial Reporting  
- Published financial  
statements

City officials did not publish semiannual financial statements for the year ended December 31, 2020, as required by state law.

Recommendation

The Board of Aldermen publish semiannual financial statements as required by state law and city code.

Status

**Not Implemented**

The City Clerk indicated there is no documentation to support that semiannual financial statements were published for the first six months of 2023.

---

7. Sunshine Law

The city did not comply with the Sunshine Law for some closed and open Board meetings.

7.1 Closed meetings

The Board did not comply with the Sunshine Law for 7 out of 8 closed meetings held during the year ended December 31, 2020.

Recommendation

The Board of Aldermen ensure specific reasons for closing a meeting are documented in the open minutes and discussions are limited to the specific reasons cited for closing the meeting.

Status

**Not Implemented**

The city held a closed meeting on November 14, 2023, but failed to specify the reason for holding a closed meeting. The city also did not maintain

City of Fairview  
Follow-up Report on Audit Findings  
Status of Findings

---

meeting minutes for this closed meeting; therefore, it is not known if discussions were limited to the specific reason for holding a closed meeting.

## 7.2 Open meetings

The Board did not always comply with the Sunshine Law regarding open meetings.

## Recommendation

The Board of Aldermen ensure all Board meetings are held at a place and in a manner to accommodate and allow the public access to the meetings, proper notification and agendas for public meetings are given, and the reasons for holding emergency meetings are documented.

## Status

### **Implemented**

According to the City Clerk, Board meetings have been and are held at city hall. Notice of upcoming Board meetings are posted on the city's Facebook page and the marquee sign approximately one month prior to the meeting. The City Clerk also indicated that the agenda is posted on the city hall bulletin boards a few days before the meeting. The city has not held any emergency meetings.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions, other than cities, towns, and villages, required to file a financial report under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office shall notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Due to different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 9 political subdivisions required to file a financial report by May 31, 2024, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in May 2024, after their filing deadline. The filing status for these 11 entities is presented in summary on page 3 and by individual entity in Appendixes B to F.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is stylized, with the first letters of the first and last names being capitalized and prominent.

Scott Fitzpatrick  
State Auditor

# Monthly Report on Political Subdivision Filings

## May 2024

### Executive Summary

---

#### **Executive Summary**

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

This report includes the filing status for the 9 political subdivisions, other than cities, towns, and villages, with a fiscal year end of November 30, 2023. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 9 political subdivisions, 7 filed an annual financial report timely.

This report also includes the filing status for 11 political subdivisions, other than cities, towns, and villages, that filed their financial report in May 2024, after their filing deadline.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by May 31, 2024, under Section 105.145, RSMo, and 15 CSR 40-3.030 and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) shall notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO shall notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Due to different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 3 cities is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in May 2024, after their filing deadline. The filing status for these 10 cities and 2 villages is presented in summary on page 4 and by individual entity in Appendixes B to F.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive, flowing style.

Scott Fitzpatrick  
State Auditor

# Monthly Report on Municipal Court and Revenue Filings

May 2024

## Executive Summary

---

### Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedure to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. Rule 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires the SAO to notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359, RSMo, and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and a mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 3 cities with a fiscal year end of November 30, 2023, whose financial report was due by May 31, 2024. Of the 3 municipalities, 1 filed the financial report timely. Of the 3 municipalities required to file an addendum, none filed timely. Of the 2 municipalities required to file a certification, 1 filed timely.

Monthly Report on Municipal Court and Revenue Filings  
May 2024  
Executive Summary

---

This report includes the filing status for 10 cities and 2 villages that filed at least one of the items (financial report, addendum, or certification) in May 2024, after their filing deadline. Of these municipalities, 6 filed an annual financial report, 4 filed an addendum, and 5 filed a certification.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions, other than cities, towns, and villages, required to file a financial report under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office shall notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Due to different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 57 political subdivisions required to file a financial report by April 30, 2024, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in April 2024, after their filing deadline. The filing status for these 18 entities is presented in summary on page 3 and by individual entity in Appendixes B to F.

A handwritten signature in black ink, reading "S. Fitzpatrick". The signature is written in a cursive, flowing style.

# Monthly Report on Political Subdivision Filings

April 2024

## Executive Summary

---

### Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

This report includes the filing status for the 57 political subdivisions, other than cities, towns, and villages, with a fiscal year end of October 31, 2023. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 57 political subdivisions, 52 filed an annual financial report timely.

This report also includes the filing status for 18 political subdivisions, other than cities, towns, and villages, that filed their financial report in April 2024, after their filing deadline.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by April 30, 2024, under Section 105.145, RSMo, and 15 CSR 40-3.030 and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) shall notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO shall notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Due to different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 14 cities is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in April 2024, after their filing deadline. The filing status for these 24 cities and 5 villages is presented in summary on page 4 and by individual entity in Appendixes B to G.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive, flowing style.

## Executive Summary

---

### Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedure to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. Rule 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires the SAO to notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359, RSMo, and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and a mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 14 cities with a fiscal year end of October 31, 2023, whose financial report was due by April 30, 2024. Of the 14 municipalities, 10 filed the financial report timely. Of the 13 municipalities required to file an addendum, 8 filed timely. Of the 6 municipalities required to file a certification, 3 filed timely.

## Missouri State Auditor

### Office of Attorney General

Report No. 2024-042

June 2024

[auditor.mo.gov](https://auditor.mo.gov)

**Scott Fitzpatrick**  
Missouri State Auditor

# CITIZENS SUMMARY

## Findings in the audit of the Office of Attorney General

Financial Services Section Accounts Receivable	The Office of Attorney General (AGO) - Financial Services Section (FSS) has not established policies and procedures over accounts receivable collections. The FSS did not properly monitor accounts receivable cases, and as a result, cases needing additional collection efforts or closure were not identified timely. The State Auditor's Office systematically selected 40 cases to review and noted improvement in the accounts receivable case records since the prior audit. However, further improvements are necessary as 9 of the 40 cases (23 percent) had remaining balances totaling approximately \$559,000 for which collection efforts were not performed in recent years.
Merchandising Practices Restitution Liabilities	Accounting personnel did not prepare a monthly list of liabilities for the Merchandising Practices Restitution bank account, and consequently, liabilities were not agreed to the reconciled bank balance to support the balance in the account. Accounting personnel reconcile the bank account balance to the book balance monthly. However, a list of liabilities was not prepared and reconciled to the reconciled bank balance during the period September 2021 through March 2023.
Employee Equipment Assignments	The AGO - Information Technology Department (ITD) has not established policies over electronic equipment assigned to employees and ITD procedures do not require a complete record supporting the equipment (laptop computer, cell phone, etc.) assigned to, and returned from, terminated employees. A review of records for 40 of the 364 employees terminated during the period July 1, 2020, to January 3, 2023, noted the ITD lacked documentation of the equipment returned by 8 terminated employees.
Vehicle Usage Logs	The AGO did not maintain complete vehicle usage logs for 1 pool vehicle of the 6 reviewed by the State Auditor's Office. At January 3, 2023, the AGO maintained a fleet of 21 pool vehicles in Jefferson City and at satellite offices. A review of the usage logs for 6 vehicles during the period July 1, 2021, to June 30, 2022, found 1 vehicle, a 2012 Dodge Grand Caravan assigned to the Jefferson City office, lacked any information for the 9-month period from September 2021 to May 2022.

In the areas audited, the overall performance of this entity was **Good**.\*

\*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

## SCOTT FITZPATRICK MISSOURI STATE AUDITOR

Honorable Eric Schmitt  
and  
Honorable Andrew Bailey, Attorney General  
Jefferson City, Missouri

We have audited certain operations of the Office of Attorney General, in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the period July 1, 2020, to January 3, 2023. The objectives of our audit were to:

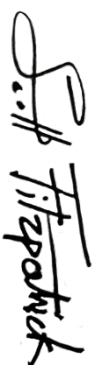

1. Evaluate the office's internal controls over significant management and financial functions.
2. Evaluate the office's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the office; and testing selected transactions. We reviewed billing and collection activity and the elected official's calendar; and performed sample testing of receipts, disbursements, open cases, vehicle usage, and equipment assignments using random, systematic, and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the office's management and was not subjected to the procedures applied in our audit of the office.

For the areas audited, we identified (1) deficiencies in internal controls, (2) no significant noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Office of Attorney General.

A handwritten signature in black ink, reading "S. Fitzpatrick". The signature is stylized with a large, looped "S" and a cursive "Fitzpatrick".

# Office of Attorney General

## Management Advisory Report

### State Auditor's Findings

---

#### **1. Financial Services Section Accounts Receivable**

The Office of Attorney General (AGO) - Financial Services Section (FSS) has not established policies and procedures over accounts receivable collections. The FSS did not properly monitor accounts receivable cases, and as a result, cases needing additional collection efforts or closure were not identified timely.

The FSS handles most AGO collection efforts to recoup money owed to the state, or its officers and agencies. The FSS maintains a database to track collections and monitor accounts receivable cases. Since the prior audit (issued in August 2020), the FSS implemented a new case tracking system and fully converted open accounts receivable cases to the new system as of October 2020. The attorney in charge of each case assigns collection tasks to FSS legal assistants through the system. These tasks include following up on amounts due, conducting searches for new addresses or assets, preparing garnishments, and/or preparing demand letters. AGO officials indicated the legal assistants are expected to review each open case and pursue collection at least once per year. They also indicated approximately 5 legal assistants are responsible for more than 6,000 open accounts receivable cases.

We systemically selected 40 cases to review that were open as of March 2023 and noted improvement in the accounts receivable case records since the prior audit, but further improvements to ensure adequate and timely collection activities and/or case closure are needed. We noted 9 of the 40 cases (23 percent) had remaining balances totaling approximately \$559,000 for which collection efforts were not performed in recent years. For these 9 cases, the FSS had not performed any documented monitoring or collection efforts, such as sending demand letters or contacting the obligor, for more than 1 year. For each of the 9 cases, which were referred to the AGO from 6 to 21 years prior to our review, judgments or other legal obligations to pay had been established but payments were delinquent. The most recent FSS collection efforts were performed over 1 year prior to our review for 4 cases; over 4 years for 2 cases; and over 5, 7, and 8 years for 3 cases. AGO personnel indicated staffing shortages and other disruptions caused by the public health emergency contributed to a delay in collection efforts on some cases. Additionally, we noted 1 of the 40 cases (3 percent) should have been closed in 2021 when full payment was received.

Policies and procedures over accounts receivable are necessary to help ensure collection efforts are adequate and records are accurate. Such policies should outline when and how collection efforts should be performed, provide for timely monitoring of amounts due and payments received, provide for timely closure of cases and provide for oversight to ensure the policies and procedures are followed.

A similar condition was noted in our prior audit report.

Office of Attorney General  
Management Advisory Report - State Auditor's Findings

---

## Recommendation

The AGO establish policies and procedures over accounts receivable to ensure adequate and timely monitoring and collection efforts are performed on all open cases and cases are closed timely.

## Auditee's Response

*Former Attorney General Schmitt's written response, provided by his representative, is included at Appendix A.*

*Current Attorney General Bailey's administration provided the following written response:*

*The FSS will continue to monitor collection efforts on open cases and will ensure that open cases are closed timely based on established practices, the volume of cases, and considerations and developments during litigation. Collections cases often require repeated attempts to locate and serve individuals and entities that have accounts receivable with the state, and the AGO regularly pursues those efforts until exhaustion, even over the course of several years if necessary. The AGO does not believe that any court has informed the FSS otherwise.*

---

## 2. Merchandising Practices Restitution Liabilities

Accounting personnel did not prepare a monthly list of liabilities for the Merchandising Practices Restitution bank account, and consequently, liabilities were not agreed to the reconciled bank balance to support the balance in the account.

The Merchandising Practices Restitution bank account is maintained outside the state treasury and is used to collect and disburse restitution to victims for Consumer Protection Section cases settled by the AGO without adjudication by the court. The account balance as of June 30, 2022, totaled approximately \$512,000.

Accounting personnel reconcile the bank account balance to the book balance monthly. However, a list of liabilities was not prepared and reconciled to the reconciled bank balance during the period September 2021 through March 2023. Accounting personnel indicated the monthly liabilities list and reconciliations were inadvertently discontinued upon the retirement of the former Fiscal Officer, and the new Fiscal Officer indicated she was not aware of the need for the list. Upon our request, Accounting personnel prepared a list of liabilities as of April 30, 2023, and reconciled the list to the reconciled bank balance, with no differences noted. Accounting personnel indicated they implemented this procedure monthly going forward.

Monthly lists of liabilities that are agreed to the reconciled bank balances are necessary to ensure records are in balance, errors are detected and corrected timely, and sufficient cash is available for the payment of all liabilities. Prompt follow up on discrepancies is necessary to resolve errors and ensure money is properly disbursed.

Office of Attorney General  
Management Advisory Report - State Auditor's Findings

---

## Recommendation

The AGO continue to prepare a monthly list of liabilities for the Merchandising Practices Restitution bank account and reconcile the list to the reconciled bank balance. Any differences should be promptly investigated and resolved.

## Auditee's Response

*Former Attorney General Schmitt's written response, provided by his representative, is included at Appendix A.*

*Current Attorney General Bailey's administration provided the following written response:*

*As has been the practice for many years, the AGO will continue to prepare a monthly list of liabilities for the Merchandising Practices Restitution bank account and reconcile the list to the reconciled bank balance. During the transition following the retirement of the AGO's former Fiscal Officer to our new Fiscal Officer, reconciliations were not completed on a monthly basis for a period of time. Once this was noticed, the AGO rectified it immediately, performed the reconciliations for that time period, and has been conducting monthly reconciliations since. During the AGO's reconciliations, no discrepancies between the Merchandising Practices Restitution bank account and the bank balance have been discovered. If discrepancies were noticed, the AGO would promptly resolve them.*

---

## 3. Employee Equipment Assignments

The AGO - Information Technology Department (ITD) has not established policies over electronic equipment assigned to employees and ITD procedures do not require a complete record supporting the equipment (laptop computer, cell phone, etc.) assigned to, and returned from, terminated employees. As of January 3, 2023, the AGO employed 292 employees.

The ITD tracks equipment assigned to employees on three types of records: (1) IT Onboarding Checklists prepared by ITD personnel at the time an employee is hired, listing equipment assigned to the employee and the corresponding asset identification number(s); (2) IT Offboarding Checklists prepared by ITD personnel at the time an employee is terminated; and (3) an ITD inventory spreadsheet of employee equipment assignments, maintained in real time and updated (overwritten) as equipment is assigned, returned, and reassigned to other employees. Due to various weaknesses and deficiencies noted below, these documents do not provide a complete record supporting the equipment returned by terminated employees.

The ITD has not established policies for the assignment, reassignment, and return of equipment. Our review of the above-mentioned records for 40 of the 364 employees terminated during the period July 1, 2020, to January 3, 2023, noted the ITD lacked documentation of the equipment returned by 8 terminated employees. Offboarding checklists were not on file for 3 terminated employees, the offboarding checklists on file for 5 of 37

---

Office of Attorney General  
Management Advisory Report - State Auditor's Findings

---

terminated employees did not include asset identification numbers for the items returned, and copies of the ITD inventory spreadsheets as of the employees' termination dates were not retained. ITD procedures do not require documentation of each equipment item returned and the corresponding asset identification number(s) on the offboarding checklist form. The checklist form only provides for ITD personnel to initial indicating they received the assigned items from the employee and that they updated the ITD inventory spreadsheet. However, the form does not require ITD personnel to document the reconciliation between the items returned and the current items assigned to the terminated employee per the ITD inventory spreadsheet. Therefore, each returned item and the corresponding asset identification number(s) is not always documented on the forms and ITD records do not always indicate whether all items were returned.

AGO officials indicated information regarding equipment returned can be found in the onboarding checklists and/or the ITD inventory spreadsheet maintained at the time each employee was terminated. However, onboarding checklists were not on file for 5 of the 8 terminated employees for whom ITD lacked documentation of returned equipment. In addition, onboarding checklists on file only showed equipment initially assigned, and consequently, would not reflect equipment subsequently replaced and/or new items assigned. Without documentation of the assignment of equipment items to these 8 terminated employees, we could not verify all assigned assets were returned upon termination.

Policies for employee equipment assignments and returns are needed to ensure accountability over ITD equipment. In addition, maintaining complete records of equipment assigned to employees, and proper recording of items returned by terminated employees is necessary to ensure all assigned equipment is properly returned, and can serve as a useful tool to ensure capital asset records are accurate.

A similar condition was noted in our prior audit report.

## Recommendation

The AGO establish written policies for employee equipment assignments and ensure adequate documentation supporting the return of all assigned equipment by terminated employees is maintained.

## Auditee's Response

*Former Attorney General Schmitt's written response, provided by his representative, is included at Appendix A.*

*Current Attorney General Bailey's administration provided the following written response:*

*The AGO diligently ensures all property assigned to employees is accounted for during their employment and is returned before they leave employment*

---

Office of Attorney General  
Management Advisory Report - State Auditor's Findings

---

*with the AGO. The AGO has not identified a single instance of equipment, which was documented as having been assigned to employees during their employment and who departed during the audit period, that has not been accounted for. The AGO has no reason to believe that any former employees have retained equipment subsequent to their departure.*

---

## 4. Vehicle Usage Logs

The AGO did not maintain complete vehicle usage logs for 1 pool vehicle of the 6 we reviewed.

At January 3, 2023, the AGO maintained a fleet of 21 pool vehicles in Jefferson City and at satellite offices.<sup>1</sup> Vehicle usage logs are to be maintained for each vehicle as required by State of Missouri Administrative Policy SP-4, Article III, Section A, Subsection 3. The logs include the following information for each trip: name of driver, date(s) used, beginning and ending odometer readings, destination, and purpose of use. Quarterly, the sections and offices email certain information for each vehicle, including odometer readings and fuel and repair costs, to the Fiscal Office to be entered into the state-wide fleet system.

We reviewed vehicle usage logs for 6 vehicles during the period July 1, 2021, to June 30, 2022. The vehicle usage log for 1 vehicle, a 2012 Dodge Grand Caravan assigned to the Jefferson City office, lacked any information for the 9-month period from September 2021 to May 2022. Odometer readings showed the vehicle was driven approximately 2,300 miles during this period. AGO officials could not locate, or provide an explanation for, the missing information.

Complete vehicle usage logs are necessary to document the appropriate use of vehicles, and to support fuel purchases and maintenance expenses. To ensure accuracy, the logs should be periodically reviewed for completeness and reasonableness.

A similar condition was noted in our prior audit report.

## Recommendation

The AGO ensure complete vehicle usage logs are maintained for all pool vehicles.

## Auditee's Response

*Former Attorney General Schmitt's written response, provided by his representative, is included at Appendix A.*

*Current Attorney General Bailey's administration provided the following written response:*

---

<sup>1</sup> Cape Girardeau (2), Jefferson City (5), Jefferson City - Medicaid Fraud Control Section (4), Kansas City (3), Springfield (4), and St. Louis (3).

Office of Attorney General  
Management Advisory Report - State Auditor's Findings

---

*The AGO has a process for ensuring appropriate use of all pool vehicles and the documentation of the use. First, the AGO requires that all employees complete a vehicle usage log when utilizing a pool vehicle that documents purpose of the use, odometer readings, dates of trip, locations of trip, and other information. Mileage from the vehicle usage log is checked and reported to the Fiscal Office on a quarterly basis. Finally, the AGO's employee handbook contains restrictions on pool vehicle use and consequences for inappropriate use of those vehicles. The AGO's internal review of the matter noted in the State Auditor's Office's review, concerning a former AGO employee, leads the AGO to believe that the pool vehicle was appropriately used for state business.*

---

# Office of Attorney General

## Organization and Statistical Information

---

The Office of Attorney General (AGO) is an elective office as provided in the Missouri Constitution. The AGO generally represents the state's legal position at every level of trial and appellate courts. The AGO generally prosecutes and defends cases civilly and criminally to which the state or any state agency or official is a party. The Attorney General also serves as legal advocate for the public interest of Missourians.

The AGO is located in Jefferson City. There are branch offices in Kansas City, St. Louis, Springfield, and Cape Girardeau. The AGO is organized into 9 sections: Cold Case, Consumer Protection, Criminal Appeals, Financial Services, Governmental Affairs, Labor, Litigation, Medicaid Fraud Control, and Public Safety. Each section is headed by a section leader who is responsible for the operations of the section. Additionally, the office includes the senior staff of the Attorney General, the Solicitor General, and administrative functions such as accounting, human resources, and information technology.

Cold Case Section: This section provides assistance and support to law enforcement agencies across the state in the investigation and prosecution of unsolved homicide and other violent crimes.

Consumer Protection Section: This section handles consumer fraud investigations and litigation. Attorneys in this section represent Missouri consumers as a group in cases of consumer fraud, securities fraud, and antitrust matters. Also, these attorneys are active in discovering businesses that commit merchandising practices fraud in connection with the sale and advertising of products or services. This section includes an investigative staff that assists attorneys in investigations involving violations of the state's Merchandising Practices Act. The No Call program, to reduce telemarketing calls, is also under this section. The section also works with other states on multistate efforts to combat unlawful business practices.

Criminal Appeals Section: This section defends felony criminal convictions obtained by the state's 114 county prosecuting attorneys and the circuit attorney for the City of St. Louis. The section represents the state in all felony appeals in Missouri appellate courts.

Financial Services Section: This section has 2 primary units: the Recovery Unit and the Child Support Unit. The Recovery Unit pursues recoveries of money due the AGO and other state agencies/departments, including amounts due on defaults of student loans and economic development loans, delinquent audit and lottery commission fees, penalties owed the Missouri Ethics Commission, estate recovery cases, money owed by inmates to reimburse the state for the costs of their care, and collections in bankruptcy court. The Child Support Unit provides legal assistance to the Department of Social Services by establishing, enforcing, and modifying child support obligations through

---

Office of Attorney General  
Organization and Statistical Information

---

the courts, and defending the department's role of providing federal IV-D child support services to families in Missouri.

Governmental Affairs Section: This section serves as litigation counsel to the state and its agencies, boards, and commissions, and provides outside general counsel and advisory services to many of those same bodies. Attorneys practice in both state and federal trial and appellate courts, and in state administrative tribunals. The section's work includes a wide variety of civil defense claims that do not contain a request for monetary damages against the state. The section also files enforcement actions on behalf of its state agency clients. The section's most common legal areas include defending Missouri statutes and agency decisions against constitutional claims; administrative law; professional licensure discipline; election law and ballot initiatives; Sunshine Law enforcement and education; environmental and natural resources law; government contracts; criminal records expungements; social services and mental health work, including guardianships and abuse and neglect issues; and animal welfare and cruelty issues against commercial animal breeders.

Labor Section: This section provides general counsel and litigation services in Missouri workers' compensation claims for the State Treasurer in his capacity as custodian of the Second Injury Fund and for the Department of Labor and Industrial Relations in its role administering the fund. This section similarly provides general counsel and litigation services for the Office of Administration, Central Accident Reporting Office, in defending workers' compensation claims filed against state agencies by their employees. The section also criminally prosecutes cases involving fraud and noncompliance with the Missouri Workers' Compensation Act.

Litigation Section: This section is responsible for representing all state agencies, officers, and employees in civil litigation matters in state and federal courts when the case involves claims for money damages, and some cases for which money damages might not be at issue. Cases include damage claims, contract cases, civil rights cases, personal injury lawsuits, employment discrimination, and some constitutional law issues. This section also defends the state in lawsuits brought by inmates of Missouri's correctional facilities.

Medicaid Fraud Control Section: This section's primary mission is to investigate and prosecute allegations of fraud committed by healthcare providers in Medicaid. Additionally, the section investigates and prosecutes allegations of abuse, neglect, and financial exploitation in Medicaid funded facilities. This section does not investigate allegations of fraud committed by Medicaid participants or fraud perpetrated against the Medicare program.

---

## Office of Attorney General Organization and Statistical Information

---

Public Safety Section: This section handles criminal prosecutions at the trial level and also habeas corpus and other actions after a conviction at either the trial or appellate level. The section has 4 units. The Special Prosecutions Unit is involved in a wide range of criminal prosecutions at the investigation and trial level throughout Missouri after being appointed in local conflict situations or to assist in serious or complex prosecutions at the request of a local prosecutor and by direction of the Governor. The Habeas Unit defends lawful convictions against habeas corpus actions filed by inmates in state prisons that challenge the fact or length of confinement or the imposition of the death penalty. The Sexually Violent Predator Unit seeks the civil commitment of sexual predators who suffer from a mental abnormality making them more likely than not to commit future acts of predatory violence unless confined in a secure facility, after those individuals have already been incarcerated and file a petition for release or violate their release conditions. The Victim Services and Legal Support Unit provides assistance to crime victims to help them understand their options, minimize their trauma, and stabilize their lives.

Governor Michael L. Parson appointed Eric Schmitt as the forty-third Attorney General, and he was sworn in on January 3, 2019. He was elected to a full term in November 2020, and served in this role until January 3, 2023, when he was sworn into the United States Senate. His term as Attorney General was to expire in January 2025. Governor Parson appointed Andrew Bailey as the forty-fourth Attorney General, and he was sworn in on January 3, 2023.

## Financial Activity

A summary of the office's operating financial activity is presented in Appendixes B through E.

Appendix A  
Office of Attorney General  
Former Attorney General Schmitt's Response to Audit Recommendations

The Office of Former Missouri Attorney General Eric Schmitt

John Lieser  
Audit Manager  
Missouri State Auditor's Office  
301 West High Street, Room 880  
Jefferson City, MO 65102

Dear Mr. Lieser:

It was an incredible honor for Senator Eric Schmitt to serve as Missouri's Attorney General and to represent over six million Missourians. When he was sworn into office, he promised to fight each and every day so that the next generation of Missourians have numerous opportunities in the greatest country on earth. His record as Missouri's Attorney General demonstrated achievement of important goals for Missourians, while also respect for the taxpayers' dollars. Some of those achievements include:

- Secured nearly \$500 million from opioid manufacturers settlements, bringing justice to the thousands of Missourians who were poisoned and tragically died from these drugs;
- Finished clearing the state's backlog of untested sexual assault kits by testing 85 percent of the backlog and providing funding to test the rest of the kits by 2025, ensuring that nearly 6,000 kits did not sit on shelves untested;
- Established the Safer Streets program to partner with the U.S. Attorneys in both the Eastern District and Western District of Missouri, which obtained more than 500 convictions of carjacking, felony possession of a firearm, witness tampering, and other violent crimes against the state's most violent offenders;
- Provided material support to local prosecuting attorneys across the state, often handling complex and complicated cases including a quadruple homicide case;
- Obtained approximately \$38 million in Medicaid fraud civil settlements and convictions, safeguarding our tax dollars and providing that dollars spent on these programs remain available for beneficiaries; and
- Defended the laws of the State of Missouri in every level of trial and appellate court, up to the United States Supreme Court.

The thorough audit conducted by Auditor Fitzpatrick and his staff is much appreciated. Each and every year while Senator Schmitt served as Missouri State Treasurer, his office received an Excellent rating from the State Auditor's Office. Once again, the Auditor's Office has found that Missourians' tax dollars were wisely managed. The audit uncovered no evidence of

---

Appendix A  
Office of Attorney General  
Former Attorney General Schmitt's Response to Audit Recommendations

---

mismanagement or fraud activity, and this audit demonstrates that the Attorney General's Office was legally compliant during his tenure.

If I can be of any assistance, please feel free to contact me.

Sincerely,

Andrew Dziedzic  
Representative for former Missouri Attorney  
General Eric Schmitt

**Scott Fitzpatrick**  
Missouri State Auditor

# CITIZENS SUMMARY

## Findings in the audit of the City of Waverly

Accounting Controls and Procedures	<p>The Board of Aldermen has not adequately segregated accounting duties or ensured a documented supervisory or independent review over various financial accounting functions is performed. Several city employees perform tasks related to multiple city functions, but the city has no documentation to justify the allocation of salaries and fringe benefit expenses to various funds, totaling approximately \$230,000, during the year ended June 30, 2022.</p>
Utility System Controls and Procedures	<p>Non-monetary adjustments posted to the utility system for inaccurate meter readings or to reduce a balance due to water leaks are not reviewed and approved by an independent person and documentation of reasons for adjustments is not always retained. During the year ended June 30, 2022, a total of 32 non-monetary adjustments, totaling approximately \$8,000, were posted to the utility system. The City Clerk does not perform monthly reconciliations of total billings, payments received, and amounts remaining unpaid for utility services. Late penalties are not always charged and utility services are not shut off in accordance with ordinances. A review of 25 accounts between July 2021 and June 2022 found late fees were not charged appropriately for 10 of the 15 accounts that made payments more than 20 days after the close of the billing period, and disconnections were not performed for 5 of the 5 accounts that made payments more than 30 days after the close of the billing period. Utility rates and fees charged to city employees were not consistent with city ordinances. City employees are not billed the base rate (first 1,000 gallons) for water or sewer usage (a combined value of \$49.54 per month for each employee), and several city employees were also not billed a trash fee, primacy fee, or franchise fee (combined value of \$9.92 per month for each applicable employee, but increased to \$16.09 in June 2022). The total amount employees were not charged during the year ended June 30, 2022, was \$3,059. The city does not maintain a listing of refundable customer water deposits or records of the deposit amounts being held in the Water Fund.</p>
Sunshine Law	<p>Open meeting minutes did not document the specific reasons or section of law allowing the meetings to be closed or document the Board's votes to go into closed meetings for any of the 17 closed meetings held from July 1, 2021, to August 8, 2023. Some topics discussed in closed meetings were not allowable under the Sunshine Law. Some topics discussed that were not allowed included which city fund should pay for the police department utility costs, personnel policies regarding employee leave, and the city's social media page.</p>
Budgeting Procedures	<p>The city's budgets for the years ended June 30, 2022, and 2023, did not include all statutorily-required information. The budgets did not include a budget message, budget summary, or actual and estimated amounts for the 2 preceding years. In addition, the amended budget for the year ended June 30, 2022, did not include the actual beginning and estimated ending cash balances. The Board does not adequately monitor budget-to-actual receipts and disbursements. Actual disbursements exceeded budgeted amounts for the General Fund by \$61,770 and the Street Fund by \$11,046 for the year ended June 30, 2022. Budget amendments were not prepared and approved until near or after the end of the fiscal year.</p>

Compensation Ordinance, Employee Handbook, and Bonuses	The Board does not have a compensation ordinance establishing the amount of compensation of city officials and employees. In addition, documentation was not provided to support the Board's approval of the pay raises given to employees on January 1, 2022. The Board did not follow the employee handbook regarding vacation leave usage and payout of unused vacation leave. In addition, the Board did not update the employee handbook to reflect changes in the city's procedures. The Board approved year-end bonus payments to all full-time employees in violation of the Missouri Constitution. The city paid a total of \$3,050 in year-end bonus payments to the 4 full-time and 2 part-time employees in November 2021, with employees receiving bonuses ranging from \$250 to \$750. The city paid \$15,650 in year-end bonus payments between December 2013 and November 2021.
Electronic Data Security	The city has not established adequate user identification and password controls to reduce the risk of unauthorized access to city computers and data. The city does not store data backup files at an off-site location. Instead, the city maintains backup files in city hall.
Electronic Communication Policy	The city has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

In the areas audited, the overall performance of this entity was **Fair**.\*

\*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

To the Honorable Mayor  
and  
Members of the Board of Aldermen  
City of Waverly, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit the City of Waverly. We have audited certain operations of the city in fulfillment of our duties. The city engaged Westbrook & Co., P.C., Certified Public Accountants (CPAs), to audit the city's financial statements for the year ended June 30, 2022. To minimize duplication of effort, we reviewed the CPA firm's audit report. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2022. The objectives of our audit were to:

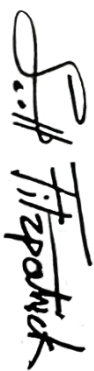

1. Evaluate the city's internal controls over significant management and financial functions.
2. Evaluate the city's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the city, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Waverly.

A handwritten signature in black ink, reading "Scott Fitzpatrick". The signature is written in a cursive, flowing style with a large initial "S" and "F".

## Management Advisory Report

### State Auditor's Findings

---

#### **1. Accounting Controls and Procedures**

Accounting controls and procedures need improvement. Accounting records indicate the city received approximately \$1.2 million in tax, utility, and other receipts during the year ended June 30, 2022.

##### **1.1 Segregation and oversight**

The Board has not adequately segregated accounting duties or ensured a documented supervisory or independent review over various financial accounting functions is performed.

The City Clerk and Assistant City Clerk are responsible for most financial duties of the city including receipting money, preparing deposits, posting transactions to the accounting system, preparing invoices for payment, making disbursements, preparing monthly bank reconciliations, transferring money between bank accounts, and preparing financial reports for Board meetings. The City Clerk is also responsible for preparing and adjusting utility bills, monitoring accounts receivable, and preparing payroll. The Mayor indicated the Board does review bank reconciliations, but this review is not documented. No independent review of receipt slips issued to amounts deposited is performed. The Mayor stated she thought the review procedures the Board had established were adequate, and they had not considered additional review procedures until we brought this to her attention.

Proper segregation of duties helps ensure all transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of accounting and bank records are needed.

##### **1.2 Cost allocations**

Several city employees perform tasks related to multiple city functions, but the city has no documentation to justify the allocation of salaries and fringe benefit expenses to various funds, totaling approximately \$230,000 during the year ended June 30, 2022.

Public works employees perform various tasks such as street repairs, water meter readings, sewer line maintenance, and park maintenance and mowing. The City Clerk and Assistant City Clerk perform various administrative functions that benefit each of the city funds. The city allocates the Public Works supervisor's salary equally between the General, Park,<sup>1</sup> Street, Water, and Sewer Funds, while the Assistant City Clerk has her salary split equally between the General, Water, and Sewer Funds. The full-time Public Works employee is paid solely from the Water Fund, while the 3 part-time Public Works employees are all solely paid from the Sewer Fund. The City Clerk is

---

<sup>1</sup> The financial activity related to parks is tracked within the Park Fund throughout the year, but is combined with the General Fund for financial reporting purposes.

City of Waverly  
Management Advisory Report - State Auditor's Findings

solely paid from the General Fund. No documentation is maintained to justify the allocation for any of these city employees.

The proper allocation of expenses is necessary to accurately determine the results of operations of specific activities, thus enabling the Board to establish the level of taxation and/or user charges necessary to meet all operating costs. To ensure restricted funds are used for intended purposes, the allocation of expenses to city funds should be based on specific criteria, such as the number of hours worked by each employee, if possible, or by determining another reasonable basis to allocate costs for employees. City officials indicated they were unaware of the importance of allocating these costs to the appropriate funds.

## Recommendations

The Board of Aldermen:

- 1.1 Segregate the accounting duties to the extent possible and implement appropriate reviews and monitoring procedures.
- 1.2 Allocate expenses to city funds based on specific criteria and retain documentation to support the allocations.

## Auditee's Response

- 1.1 *We agree and will develop review procedures to monitor accounting duties.*
- 1.2 *We have already had some employees begin tracking time to establish a base for allocations and will ensure an analysis is completed for all employees by the end of the next fiscal year.*

## 2. Utility System Controls and Procedures

### 2.1 Non-monetary adjustments

Utility system controls and procedures need improvement. According to the city's accounting records, the city collected approximately \$765,000 for water, sewer services, trash services, and utility deposits during the year ended June 30, 2022.

Controls over non-monetary adjustments posted to customer utility accounts need improvement. Non-monetary adjustments are any transactions for which no money is received; however, the account balance (amount due) in the utility system is changed. The City Clerk posts non-monetary adjustments in the utility system to adjust usage for inaccurate meter readings or to reduce a balance due to water leaks. During the year ended June 30, 2022, a total of 32 non-monetary adjustments, totaling approximately \$8,000, were posted to the utility system.

Non-monetary adjustments posted to the system are not reviewed and approved by an independent person and documentation of reasons for adjustments is not always retained. City code 715.020 related to non-monetary adjustments states Board approval is not required unless 2 prior

---

City of Waverly  
Management Advisory Report - State Auditor's Findings

---

adjustments have been made to the account by the City Clerk in a given year. Because the City Clerk is responsible for collecting utility payments and has the ability to alter or delete individual utility account information, there is an increased risk that unsupported or unauthorized changes could be made in the utility system.

In addition, a comparison of approved adjustments to adjustments actually made to the system is not performed by an independent person. The City Clerk indicated adjustments are often discussed with the Board, but documentation is not retained.

An independent review of all non-monetary adjustments, including comparing approved adjustments to actual changes posted to the computer system, would help ensure all such transactions are necessary and properly handled.

## 2.2 Utility reconciliation

The City Clerk does not perform monthly reconciliations of total billings, payments received, and amounts remaining unpaid for utility services. The City Clerk indicated she was unaware of a specific report in the system designed to perform this reconciliation or the need to do it.

Monthly reconciliations are necessary to ensure all accounting records balance, transactions have been properly recorded, and any errors or discrepancies are detected timely. A periodic review by the Board of a listing of all delinquent amounts would help ensure adequate follow-up procedures are performed.

## 2.3 Late penalties and shut off procedures

Late penalties are not always charged and utility services are not shut off in accordance with ordinances. The city bills approximately 345 utility customers monthly.

We judgmentally selected 25 accounts between July 2021 and June 2022 (2 to 3 accounts from each monthly billing cycle) and noted late fees were not charged appropriately for 10 of the 15 accounts that made payments more than 20 days after the close of the billing period, and disconnections were not performed for 5 of the 5 accounts that made payments more than 30 days after the close of the billing period. The City Clerk stated she was not aware of the city code requirements and was allowing 30 days before late fees were charged and 35 days before disconnections were performed.

City code 700.070 states, "Service bills not paid by the 20th shall be subject to a ten percent (10%) late charge. Failure of the owner to submit a service bill shall not excuse the water user from his/her obligation to pay for the water used when the bill is submitted. Failure to pay a bill by the 30th day following the close of the period for which service was rendered shall result in the

---

City of Waverly  
Management Advisory Report - State Auditor's Findings

---

disconnection of the service and such disconnection shall be made without the necessity of notice to the water user."

Allowing customers to receive service without paying reduces the incentive to make payments, reduces city receipts, and could impact the utility rates for other paying customers. To ensure all customers receive equitable treatment and city revenue is maximized, procedures need to be established to ensure penalty provisions in the ordinance are enforced and any variance from the ordinance is properly approved.

## 2.4 Utility rates and fees

Utility rates and fees charged to city employees were not consistent with city ordinances. City employees are not billed the base rate (first 1,000 gallons) for water or sewer usage (a combined value of \$49.54 per month for each employee), and several city employees were also not billed a trash fee, primacy fee, or franchise fee (combined value of \$9.92 per month for each applicable employee, but increased to \$16.09 in June 2022).

The City Clerk provided Board minutes from a January 17, 2015, closed meeting as justification for this change in rates, but those minutes indicate the Board only approved waiving the base rate for water and sewer usage, and did not waive any trash, primacy, or franchise fees for employees. The minutes also indicated this employee discount should be considered part of the employee's raise for the year. The city does not track the value of the employee discount and does not include those amounts as wages on the employee's W-2 forms. The utility rate ordinances have not been updated to reflect this discount for employees. In addition, the rate charged to employees for the water usage in excess of the base charge was not updated when the rate was increased in May 2019, resulting in an additional discount for employees. The water rate for usage in excess of 1,000 gallons was increased from \$10.75 to \$11.15 per 1,000 gallons used.

The total amount employees were not charged during the year ended June 30, 2022, was \$3,059. The City Clerk indicated it was an oversight that rates for employees were not updated in 2019 and she did not know a change to the ordinances was necessary for employee discounts to be valid.

Charging utility rates in accordance with city ordinance helps ensure utility customers are treated fairly and equitably. In addition, the failure to withhold and properly report payroll and income taxes for city employees receiving utility services at a reduced cost makes the city potentially subject to additional tax liabilities along with penalties and interest. For employees, IRS regulations require employers to report compensation on W-2 forms and withhold and remit income and payroll taxes. Similarly, Chapter 143, RSMo, includes requirements for reporting wages and withholding state income taxes.

City of Waverly  
Management Advisory Report - State Auditor's Findings

**2.5 Customer water deposits** The city does not maintain a listing of refundable customer water deposits or records of the deposit amounts being held in the Water Fund. As a result, a listing of deposits cannot be reconciled to deposits held.

City code 700.190 states the water meter deposits are \$50 for homeowners and \$150 for renters. Utility records indicate the city had 345 active utility accounts as of June 30, 2022. The City Clerk indicated she was not aware such a reconciliation was necessary.

Refundable customer water deposits are restricted funds held for customers. Maintaining an accurate list of deposits held by the city and reconciling monthly to the balance of deposits held in the Water Fund would help ensure all deposits received from customers are accounted for properly. It also provides assurance the restricted balance of water deposits held in the Water Fund is sufficient to cover customer deposit liabilities and ensure the deposits are not used for water operations.

## Recommendations

The Board of Aldermen:

- 2.1 Ensure all non-monetary adjustments are properly approved and compared to actual changes posted to the computer system, and documentation of reasons for all the adjustments is retained.
- 2.2 Ensure monthly reconciliations are performed of amounts billed to amounts collected and delinquent accounts and investigate any differences.
- 2.3 Ensure late penalties are charged and utility service is shut off in accordance with city ordinance.
- 2.4 Ensure utility rates are billed in accordance with city ordinance. If employee discounts are continued, the value of any such discounts should be included on the employees' W-2 forms as taxable wages.
- 2.5 Determine the amount of customer deposits held in the Water Fund bank account and develop procedures to track the balance of those funds. Ensure a list of customer deposits is prepared and reconciled to the balance of deposits held monthly and differences are promptly investigated.

## Auditee's Response

- 2.1-2.2 *We agree and have already implemented these recommendations.*
- 2.3 *We plan to update the ordinance to agree with the current practices regarding late penalties and shut off procedures.*

City of Waverly  
Management Advisory Report - State Auditor's Findings

- 2.4 *We agree and will ensure rates are charged in accordance with ordinance. We will review employee discounts and make a decision in the next few months and if continued, we will ensure they are reported on employees' W-2 forms.*
- 2.5 *We have already developed a process to track the balance of water deposits and are reconciling to the balance held in the Water Fund.*

### 3. Sunshine Law

The Board did not always comply with Sunshine Law requirements for closed meetings.

#### Reasons for closed meetings

Open meeting minutes did not document the specific reasons or section of law allowing the meetings to be closed or document the Board's votes to go into closed meetings for any of the 17 closed meetings held from July 1, 2021, to August 8, 2023. The Mayor indicated she was not aware this needed to be listed in the open minutes.

Section 610.022.1, RSMo, requires public bodies announce the specific reasons allowed by law for going into a closed meeting and to enter the vote and reason into the minutes.

#### Allowable topics

Some topics discussed in closed meetings were not allowable under the Sunshine Law. Some topics discussed that were not allowed included which city fund should pay for the police department utility costs, personnel policies regarding employee leave, and the city's social media page. The City Clerk indicated the Board believed discussions of these topics were allowed to be closed under the Sunshine Law, but could not provide us a specific statute section that allowed their closure.

Section 610.021, RSMo, provides that the discussion topics and actions in closed meetings should be limited to only those specifically allowed by law.

#### Recommendation

The Board of Aldermen ensure specific reasons for closing a meeting are documented in the open minutes, a vote is taken to go into a closed meeting, and only topics allowed by state law are discussed in the closed meetings.

#### Auditee's Response

*We agree and will implement this recommendation.*

### 4. Budgeting Procedures

The Board did not prepare complete budgets in compliance with state law or monitor budgets to avoid overspending.

#### 4.1 Budgets

The city's budgets for the years ended June 30, 2022, and 2023, did not include all statutorily-required information. The budgets did not include a budget message, budget summary, or actual and estimated amounts for the 2 preceding years. In addition, the amended budget for the year ended June 30,

---

City of Waverly  
Management Advisory Report - State Auditor's Findings

---

2022, did not include the actual beginning and estimated ending cash balances. The City Clerk indicated she was not aware of these requirements.

Section 67.010, RSMo, requires the budget to present a complete and accurate financial plan for the ensuing budget year and sets specific guidelines for the format. A complete and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific financial expectations for each area of city operations. It also assists in setting tax levies and informing the public about city operations and current finances.

## 4.2 Monitoring

The Board does not adequately monitor budget-to-actual receipts and disbursements. Actual disbursements exceeded budgeted amounts for the General Fund by \$61,770 and the Street Fund by \$11,046 for the year ended June 30, 2022. In addition, the City Clerk did not timely prepare, and the Board did not timely approve, budget amendments for the year. The City Clerk indicated budget amendments are typically done near the city's fiscal year end to adjust budgeted amounts to agree to actual disbursements.

Actual disbursements exceeded the original amounts budgeted for the General Fund and Street Fund by \$5,149 and \$41,665, respectively, as of June 30, 2022. After the fiscal year end, the City Clerk prepared an amended budget that was approved by the Board on July 11, 2022. Although the General Fund had already been overspent, budgeted disbursements were decreased by \$56,621, which increased the amount of overspending to \$61,770. Although the Street Fund amendment increased budgeted disbursements by \$30,619, disbursements still exceeded the budgeted amount by \$11,046. The budgets were not amended for the correct amounts due to numerous misstatements identified during the city's financial statement audit, including approximately \$46,000 spent using donation or grant money that had been improperly coded to receipt accounts, rather than disbursement accounts. There were also issues with the way transfers among city bank accounts were posted when multiple city funds shared the cost of an item. The City Clerk indicated the amendments were prepared based on the disbursement amounts shown in the accounting system as of the date of the amendments. She indicated the adjusting journal entries, suggested by the city's financial auditor, were necessary to correct the misstatements and coding errors. The journal entries caused the actual disbursement amounts to change for several city funds, including the General Fund and Street Fund. The amendments were prepared before these journal entries were posted.

Section 67.040, RSMo, requires political subdivisions to keep disbursements within amounts budgeted and allows for budget increases, after the governing body officially adopts a resolution setting forth the facts and reasons. In addition, Section 67.080, RSMo, provides that no disbursements of public money be made unless it is authorized in the budget. Proper monitoring and

## City of Waverly Management Advisory Report - State Auditor's Findings

amending prior to disbursing funds is necessary for the budget to be an effective management tool and to comply with state law.

### Recommendations

The Board of Aldermen:

- 4.1 Prepare annual budgets that contain all information required by state law.
- 4.2 Monitor disbursements to ensure they do not exceed budgeted amounts and prepare any necessary budget amendments timely.

### Auditee's Response

- 4.1 *We agree and will ensure the fiscal year 2025 budget is in compliance with state law.*
- 4.2 *We will develop procedures to monitor budget-to-actual disbursements monthly and will ensure amendments are completed timely in the future. We will seek guidance on timely entering adjusting journal entries that are necessary at the end of the fiscal year.*

## 5. Compensation Ordinance, Employee Handbook, and Bonuses

The Board does not have a compensation ordinance, did not always follow the employee handbook, and paid employees a year-end bonus.

### 5.1 Compensation ordinance

The Board does not have a compensation ordinance establishing the amount of compensation of city officials and employees. In addition, documentation was not provided to support the Board's approval of the pay raises given to employees on January 1, 2022. Salaried employees received a 3 percent increase and hourly employees received an increase of \$1 per hour.

City code 115.050 requires, and Section 79.270, RSMo, authorizes, the Board to fix the compensation of city officials and employees by ordinance. Ordinances documenting approved salary amounts help ensure equitable treatment and prevent misunderstandings. The Board indicated it was unaware of the importance of a city ordinance in establishing salaries.

### 5.2 Employee handbook

The Board did not follow the employee handbook regarding vacation leave usage and payout of unused vacation leave. In addition, the Board did not update the employee handbook to reflect changes in the city's procedures.

## City of Waverly Management Advisory Report - State Auditor's Findings

Several employees were allowed to carry over vacation leave from one year to the next, although the employee handbook includes a policy indicating vacation leave will be used the year it is earned or the employee will be paid for the vacation leave not taken. The City Clerk provided minutes from a Board meeting held in December 2018 in which the Board voted to approve employees carrying over unused vacation and compensatory time from one year to the next as the reason this was allowed. The Board also discussed this issue at a November 9, 2022, meeting and voted to allow employees to carry over 80 hours of unused vacation and compensatory time and any hours above 80 hours would be paid to the employee. The employee handbook has not been updated since January 1, 2014, and does not contain any provisions related to compensatory time.

A complete, consistent, and updated employee handbook documenting leave policies would help ensure equitable treatment and prevent misunderstandings. The Board indicated it was unaware of the importance of updating the employee handbook.

### 5.3 Bonuses

The Board approved year-end bonus payments to all full-time employees in violation of the Missouri Constitution. The city paid a total of \$3,050 in year-end bonus payments to the 4 full-time and 2 part-time employees in November 2021, with employees receiving bonuses ranging from \$250 to \$750. The city paid \$15,650 in year-end bonus payments between December 2013 and November 2021. These payments represent bonus compensation for services previously rendered. The Board indicated employees were required to come to a special meeting, which they believed was sufficient to justify the additional payment; however, this meeting consisted of a brief discussion of employee work ethics, and appeared to be an attempt to circumvent constitutional provisions prohibiting employee bonuses.

Payments for services previously rendered are in violation of Article III, Section 39(3), Missouri Constitution and contrary to Attorney General's Opinion 72-1955 (June 14, 1955), which states, "... a government agency which derives its power and authority from the Constitution and laws of this state would be prohibited from granting extra compensation in the form of bonuses to public officers or servants after the service has been rendered."

## Recommendations

The Board of Aldermen:

- 5.1 Establish the compensation of all city officials and employees by ordinance, and ensure documentation for employee pay increases is maintained.
- 5.2 Review and update policies in the employee handbook, as necessary, and ensure compliance with the policies.

City of Waverly  
Management Advisory Report - State Auditor's Findings

## Auditee's Response

5.3 Discontinue paying employee bonuses.

5.1 *We agree and will establish compensation ordinances and ensure documentation for employee pay increases is maintained.*

5.2 *We agree and have implemented this recommendation. We will ensure compliance with policies in the future.*

5.3 *We have discontinued paying employee bonuses.*

## 6. Electronic Data Security

Controls over the city computers are not sufficient. As a result, city records are not adequately protected and are susceptible to unauthorized access or loss of data.

### 6.1 User identification and passwords

The city has not established adequate user identification and password controls to reduce the risk of unauthorized access to city computers and data. The City Clerk and Assistant City Clerk share a user identification and password for the accounting system. As a result, there is no assurance that the user listed in the system as posting a transaction is the person who posted it. In addition, these employees are not required to change passwords periodically for the accounting system and the utility system. The City Clerk indicated she was not aware of the importance of unique user names and passwords or the need to periodically change them.

While a user identification and password are required to authenticate access, the security of these logon credentials is dependent upon keeping them confidential and requiring users to enter their unique user identification and password when switching users. Allowing certain users to share the accounting system without logging off and back on with their unique user identification and password, and not requiring passwords to be periodically changed, increases the risk of unauthorized access and/or changes to the system and records, and reduces assurance that access is limited to only those individuals who need access to perform their job responsibilities. User identifications should be unique and confidential and passwords should be changed periodically to reduce the risk of a compromised password and unauthorized access to and use of the accounting system and data.

### 6.2 Data backup

The city does not store data backup files at an off-site location. Instead, the city maintains backup files in city hall. The City Clerk indicated that city officials believed this procedure was sufficient. Off-site storage would provide reasonable assurance data could be recovered even if city hall files were lost.

City of Waverly  
Management Advisory Report - State Auditor's Findings

---

## Recommendations

The Board of Aldermen:

- 6.1 Require employees to have unique user identifications and passwords and change passwords periodically.
- 6.2 Ensure backup files are stored at a secure, off-site location.

## Auditee's Response

- 6.1 *We will develop a policy requiring specific user identification and passwords for each employee and will ensure passwords are changed periodically in the future.*
- 6.2 *We will determine an off-site location for storing backup files.*

---

## 7. Electronic Communication Policy

The city has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.<sup>2</sup>

Development of a written policy to address the use of electronic communications is necessary to ensure all documentation of official business of the city is retained as required by state law. The Board members indicated they were unaware of the record retention requirements and the electronic communications guidelines.

## Recommendation

The Board of Aldermen develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

## Auditee's Response

*We will research the necessary records that need to be maintained and will create a records management and retention policy to comply with guidelines.*

---

<sup>2</sup> Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <<https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>>, accessed March 14, 2024.

---

# City of Waverly

## Organization and Statistical Information

---

The City of Waverly is located in Lafayette County. The city was incorporated in 1882 and is currently a fourth-class city. The city employed 4 full-time employees and 1 part-time employee on June 30, 2022. The city's population was 784 in 2020, according to the U.S. Census Bureau.

City operations include utility services (water, sewer, and trash), police, maintenance of streets, and parks.

### Mayor and Board of Aldermen

The city government consists of a mayor and 4-member board of aldermen. The board members are elected for 2-year terms. The mayor is elected for a 2-year term, presides over the board of aldermen, and votes only in the case of a tie. The Mayor and Board of Aldermen at June 30, 2022, are identified below. The Mayor is paid \$100 for the first meeting and \$25 for each additional meeting during the month, and Board of Aldermen members are paid \$75 for the first meeting and \$25 for each additional meeting during the month.

Barbara Schreiman, Mayor (1)  
Jerry Gipe, Alderman (2)  
Jodi Miller, Alderwoman (3)  
Richard W. Dodson Jr., Alderman (4)  
Eddie Chiddix, Alderman (4)

- (1) Re-elected in April 2024 for a 2-year term.
- (2) Lindsey Jones was elected in April 2024 for a 2-year term, replacing Jerry Gipe.
- (3) Jodi Miller resigned from the Board in May 2023. Joe Frazier was appointed in July 2023 to complete the unexpired term and was elected to the Board in April 2024 for a 2-year term.
- (4) Re-elected in April 2023 for a 2-year term.

### Financial Activity

A summary of the city's financial activity obtained from the city's audited financial statements for the year ended June 30, 2022, follows:

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions, other than cities, towns, and villages, required to file a financial report under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office shall notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Due to different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 97 political subdivisions required to file a financial report by March 31, 2024, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in March 2024, after their filing deadline. The filing status for these 4 entities is presented in summary on page 3 and by individual entity in Appendixes B and C.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive, flowing style.

# Monthly Report on Political Subdivision Filings

March 2024

## Executive Summary

---

### Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

This report includes the filing status for the 97 political subdivisions, other than cities, towns, and villages, with a fiscal year end of September 30, 2023. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 97 political subdivisions, 79 filed an annual financial report timely.

This report also includes the filing status for 4 political subdivisions, other than cities, towns, and villages, that filed their financial report in March 2024, after their filing deadline.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by March 31, 2024, under Section 105.145, RSMo, and 15 CSR 40-3.030 and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) shall notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO shall notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Due to different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 63 cities and 2 villages is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in March 2024, after their filing deadline. The filing status for these 16 cities and 4 villages is presented in summary on page 4 and by individual entity in Appendixes B to F.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive, flowing style.

Scott Fitzpatrick  
State Auditor

March 2024

## Executive Summary

---

### Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedure to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. Rule 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires the SAO to notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359, RSMo, and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and a mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 63 cities and 2 villages with a fiscal year end of September 30, 2023, whose financial report was due by March 31, 2024. Of the 65 municipalities, 47 filed the financial report timely. Of the 62 municipalities required to file an addendum, 34 filed timely. Of the 37 municipalities required to file a certification, 20 filed timely.

Monthly Report on Municipal Court and Revenue Filings  
March 2024  
Executive Summary

---

This report includes the filing status for 16 cities and 4 villages that filed at least one of the items (financial report, addendum, or certification) in March 2024, after their filing deadline. Of these municipalities, 16 filed an annual financial report, 4 filed an addendum, and 3 filed a certification.

## Missouri State Auditor

### Wentzville Transportation Development District

Report No. 2024-038

May 2024

[auditor.mo.gov](https://auditor.mo.gov)

**Scott Fitzpatrick**  
Missouri State Auditor

# CITIZENS SUMMARY

## Findings in the audit of the Wentzville Transportation Development District

### Background

The Wentzville Transportation Development District (TDD) was formed in November 2001 for the purpose of improving the Pearce Boulevard/Wentzville Parkway interchange with new and widened lanes, enhancing the Pearce Boulevard overpass with aesthetic improvements, extending Pearce Boulevard to May Road, and implementing a local transit system. The project was substantially completed in March 2010. Prior to the district's termination, the district, City of Wentzville, and the Missouri Highways and Transportation Commission (MHTC) will enter into an agreement regarding ownership, ongoing maintenance, and allocation of excess revenues. Project costs for the Wentzville TDD totaled \$6,872,136.

The project was funded by a 1/4-cent (0.25 percent) sales tax on all taxable transactions within the boundaries of the district. The sales tax was effective December 1, 2001. In February 2002, the Wentzville TDD issued revenue bonds to pay for project costs. The TDD satisfied this debt in November 2022. The Board approved certain actions in connection with abolishment of the TDD, including repealing the District's sales tax in September 2023, effective after December 2023.

Based on the audit, the cash balance of the Wentzville TDD as of December 31, 2023, was \$876,255. According to the district's legal counsel, as of March 2024, the district would incur additional estimated legal and administrative expenses totaling \$75,000 related to the dissolution of the district. After the district's final costs and professional fees are paid, the remaining balance will be transferred to the City of Wentzville and/or the MHTC in accordance with state law.

### Financial Status

The audit of the Wentzville Transportation Development District indicates the financial condition of the district is such that it may be abolished.

Because of the nature of this audit, no rating is provided.

Management Advisory Report - State Auditor's Findings	Financial Status .....3
---	-------------------------

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Robert Green, Chairman  
and  
Board of Directors  
Wentzville Transportation Development District  
Wentzville, Missouri

The State Auditor is required under Section 238.275, RSMo, to audit a transportation development district prior to the question of abolishment being submitted to a vote. On December 15, 2022, the Board of Directors of the Wentzville Transportation Development District approved a resolution of its intent to dissolve the district and request an audit as required by statute. The State Auditor was subsequently notified of this resolution on October 9, 2023.

The district engaged Wade Stables P.C., Certified Public Accountants (CPAs), to audit the district's financial statements for the year ended December 31, 2022. To minimize duplication of effort, we reviewed the CPA firm's report for the year ended December 31, 2022, since the December 31, 2023, audit had not yet been completed. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2023. The objectives of our audit were to evaluate the financial status of the district and determine whether it may be abolished pursuant to law.

Our methodology included reviewing minutes of meetings, financial records, and other pertinent documents; and interviewing various personnel of the district, as well as certain external parties. We obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The audit determined the Board of Directors may proceed with abolishment of the district in accordance with Section 238.275, RSMo.

The accompanying Management Advisory Report presents our findings arising from our audit of the Wentzville Transportation Development District.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is stylized, with the first letters of the first and last names being capitalized and prominent.

Scott Fitzpatrick  
State Auditor

# Wentzville Transportation Development District Management Advisory Report - State Auditor's Findings

---

## **Financial Status**

Our audit of the Wentzville Transportation Development District (TDD) indicates the financial condition of the district is such that it may be abolished.

The Wentzville TDD is located in St. Charles County, in the City of Wentzville. The district was organized in November 2001 by petition of the property owners/developer within the proposed TDD. The district consists of 5 property owners. The members of the Board of Directors consist of 5 representatives of the property owners/developer. The district has a fiscal year end of December 31.

The Wentzville TDD was formed for the purpose of improving the Pearce Boulevard/Wentzville Parkway interchange with new and widened lanes, enhancing the Pearce Boulevard overpass with aesthetic improvements, extending Pearce Boulevard to May Road, and implementing a local transit system. These projects generally included signage, signalization, lighting, and other costs. The project was substantially completed in March 2010. The City of Wentzville is the public entity with jurisdiction over the local portion of the project and serves as the Local Transportation Authority. The Missouri Highways and Transportation Commission (MHTC) serves as the entity with jurisdiction over the state portion of the project. Prior to the district's termination, the district, City of Wentzville, and MHTC will enter into an agreement regarding ownership, ongoing maintenance, and allocation of excess revenues. Project costs for the Wentzville TDD totaled \$6,872,136.

In November 2001, the Board of Directors passed a resolution formally approving the submission of the proposed sales tax rate to the qualified voters of the district and establishing a sales tax rate of 1/4-cent (0.25 percent) on all taxable transactions within the boundaries of the district. The sales tax was effective December 1, 2001.

In February 2002, the Wentzville TDD issued revenue bonds to pay for project costs. The TDD satisfied this debt in November 2022. The Board approved certain actions in connection with abolishment of the TDD, including repealing the District's sales tax in September 2023, effective after December 2023. See the table below for district financial activity for the calendar year ended December 31, 2023.

In December 2022, the Wentzville TDD Board of Directors formalized its intent to dissolve the district. The District subsequently advised the State Auditor's Office (SAO) in October 2023 of this resolution and requested the SAO proceed with all necessary actions as required pursuant to Section 238.275, RSMo. That statute requires the State Auditor to audit the district to determine its financial status, and determine whether it may be abolished pursuant to law. It also states the board shall not propose the question to abolish the district while there are outstanding claims or causes of action

Wentzville Transportation Development District  
Management Advisory Report - State Auditor's Findings

pending against it; if its liabilities exceed its assets; or while the district is insolvent, in receivership, or under the jurisdiction of a bankruptcy court.

The following table presents the financial activity and cash balances the year ended December 31, 2023.

	Year Ended December 31, 2023
RECEIPTS	
Sales Tax	\$ 400,097
Interest	15,220
Total Receipts	415,317
DISBURSEMENTS	
Legal Fees	493
Bank Fees	28
Trustee Fees	3,600
Audit Fees	3,035
Administrative	5,320
Insurance	837
Miscellaneous	360
Total Disbursements	13,673
RECEIPTS OVER (UNDER) DISBURSEMENTS	401,644
BEGINNING CASH	474,611
ENDING CASH	\$ 876,255

Source: Compiled by the SAO using the district's bank statements and unaudited financial statement.

Based on our audit, the cash balance of the Wentzville TDD as of December 31, 2023, was \$876,255. According to the district's legal counsel, as of March 2024, the district would incur additional estimated legal and administrative expenses totaling \$75,000 related to the dissolution of the district. There are no pending, threatened, or unasserted claims or assessments against the district according to district legal counsel. District officials confirmed the district is not insolvent, in receivership, or under the jurisdiction of a bankruptcy court. Based on these representations, district assets are sufficient to pay any remaining costs and obligations. After the district's final costs and professional fees are paid, the remaining balance will be transferred to the City of Wentzville and/or the MHTC in accordance with Section 238.275.5(1), RSMo.

Based on our audit, the Board of Directors may proceed with the abolishment of the district in accordance with Section 238.275, RSMo.

# CITIZENS SUMMARY

## Findings in the audit of the Twenty-Fourth Judicial Circuit, City of Desloge Municipal Division

### Missing Money

The former Court Administrator failed to deposit at least \$3,886 that was receipted and/or recorded from July 1, 2020, to October 11, 2022, and the money is missing. The former Court Administrator did not deposit at least \$1,568 in cash recorded on manual receipt slips from June 2021 through October 2022. Additionally, she did not deposit fines and costs, totaling \$1,349.50 in cash, collected from 10 defendants, and failed to deposit \$508.50 in cash collected from 5 defendants whose transactions were entered into the court system as non-monetary judicial order transactions. The former Court Administrator improperly recorded and did not deposit \$413 in cash court payments placed in the city's after hours drop box, and altered the fines and costs due written on at least 4 defendant case records to conceal money received and not deposited, which resulted in an additional \$47 missing.

The former Court Administrator also made 38 unsupported adjustments resulting in reductions in fines and costs due totaling \$4,482. These transactions were for defendants that allegedly performed community service, but the court did not retain/maintain time records or other documentation to support the community service. Based on the methods used to conceal the other missing money, it is possible money was collected related to these unsupported adjustments and is also missing.

### Accounting Controls and Procedures

The municipal division has not adequately segregated accounting and recordkeeping duties, and neither the Municipal Judge nor other court personnel perform supervisory or independent reviews of municipal division accounting and court records. Neither the former nor the current Court Administrator account for the numerical sequence of manual or system receipt slip numbers to ensure money received has been properly recorded in the court system and deposited. The court does not issue a receipt slip or otherwise document the drop box receipts transmitted by city personnel. The current and former Court Administrators process(ed) non-monetary fee adjustments without an independent or supervisory review. During her time in the position, the former Court Administrator entered 54 judicial orders to waive approximately \$11,778 in fines and court costs. She also waived approximately \$20,614 in fines and court costs with community service orders. These orders were often not reviewed by the municipal judge.

In the areas audited, the overall performance of this entity was **Poor**.\*

\*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Presiding Judge  
Twenty-Fourth Judicial Circuit  
and  
Municipal Judge  
and  
Honorable Mayor  
and  
Members of the Board of Aldermen  
Desloge, Missouri

We have audited certain operations of the City of Desloge Municipal Division of the Twenty-Fourth Judicial Circuit in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the fiscal year ended June 30, 2023. The objectives of our audit were to:

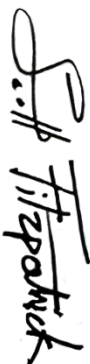

1. Evaluate the municipal division's internal controls over significant financial functions as it relates to any missing or misappropriated money.
2. Evaluate the municipal division's and city's compliance with certain legal provisions as it relates to any missing or misappropriated money.
3. Evaluate the municipal division's compliance with certain court rules as it relates to any missing or misappropriated money.
4. Determine the extent of money missing and/or misappropriated from the court, if any.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the municipal division, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe the evidence obtained provides such a basis.

The accompanying Organizational and Statistical Information is presented for informational purposes. This information was obtained from the municipal division's management and was not subjected to the procedures applied in our audit of the division.

For the areas audited, we identified (1) significant deficiencies in internal controls, (2) no significant noncompliance with legal provisions, (3) no significant noncompliance with court rules, and (4) missing money totaling at least \$3,886. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Desloge Municipal Division of the Twenty-Fourth Judicial Circuit.

A handwritten signature in black ink, reading "Scott Fitzpatrick". The signature is written in a cursive, flowing style with a large initial "S".

### Management Advisory Report - State Auditor's Finding

---

#### **1. Missing Money**

At least \$3,886 was receipted and/or recorded from July 1, 2020, to October 11, 2022, but not deposited and is missing. Additionally, the former Court Administrator made 38 unsupported adjustments resulting in reductions in fines and costs due totaling \$4,482. Based on the methods used to conceal the other missing money, it is possible money was collected related to these unsupported adjustments and is also missing. We also identified discrepancies between recorded judicial orders, community service records, and court system records.

The municipal court uses the State of Missouri online court system, Show-Me Courts (court system), to record charge information, judgments, fine and cost amounts, and payments, and to issue receipt slips. The court began implementing the system in 2019 and completed the transition in 2023. Prior to that time, the court used a legacy system. The court also maintained a manual receipt slip book to use when the court system was unavailable, which was rare. All manual receipt slips were to be entered into the court system as soon as it was available. It is unclear if court personnel issued manual receipt slips at other times. Personnel reconciled system receipt information to receipts on hand prior to making deposits and used system receipt information to determine the deposit amounts. If a receipt was not entered into the system, court personnel would not detect a missing cash/check receipt during the reconciliation process.

Heather Steinmetz served as the Court Administrator from July 16, 2020, until she was terminated on October 11, 2022. She was often the only court employee. In October 2022, city employees discovered a manual receipt slip book, and knowing it should only be used in rare instances, compared it to court system records. They identified receipt slips that were not recorded in the court system and notified the City of Desloge Police Department. On October 11, 2022, the State Auditor's Office (SAO) received a complaint through its Whistleblower Hotline alleging fraudulent activity by the former Court Administrator. The SAO conducted an initial review of these matters under Section 29.221, RSMo. After completion of a review of documentation and communications provided, the SAO determined further investigation was warranted and began an audit. Court Administrator Heather Steinmetz is referred to throughout the remainder of this report as the former Court Administrator. Jessica Talley began as a part-time court clerk in August 2022 and was hired as the full time Court Administrator in October 2022.

The scope of our audit included, but was not necessarily limited to, the fiscal year ended June 30, 2023. After identification of missing money during the fiscal years of 2020 through 2022, we applied limited procedures to receipts for the period July 1, 2020, through June 30, 2022, for the purpose of identifying and quantifying any additional missing money.

Twenty-Fourth Judicial Circuit  
City of Desloge Municipal Division  
Management Advisory Report - State Auditor's Findings

On November 27, 2023, the SAO issued a subpoena to Heather Steinmetz to compel her testimony related to the findings included in this report. However, her attorney indicated, if interviewed, she would plead her right to remain silent under the 5th Amendment to the United States Constitution,<sup>1</sup> so we did not interview her. A copy of her attorney's letter is at Appendix A.

#### Manual receipt slips

The former Court Administrator did not deposit at least \$1,568 in cash recorded on manual receipt slips from June 2021 through October 2022. During that period, the former Court Administrator issued 27 manual receipt slips. We compared these receipt slips to system reports and noted the former Court Administrator recorded 8 payments, totaling \$1,568, on manual receipt slips but did not record some or all of the receipted amounts in the court system. The manual receipts slips indicated 6 of the payments were cash and the other 2 receipt slips did not include the method of payment. Because the amounts were not recorded in the court system the receipts were not deposited.

The following table provides a summary of the amounts recorded on manual receipt slips that were not subsequently entered into the court system and were not deposited.

Date	Receipt Slip Number (1)	Manual Receipt Slip Amount	Amount Recorded In System	Undeposited Amount
6/15/2021	681296	\$ 100.00	\$ 0.00	\$ 100.00
6/15/2021	681299	100.00	0.00	100.00
4/12/2022	393601	100.00	0.00	100.00
4/12/2022	393602	100.00	0.00	100.00
4/12/2022	393604	383.50	183.50	200.00
4/26/2022	393609	50.00	0.00	50.00
6/12/2022	393617	100.00	50.00	50.00
No date	393621	868.00	0.00	868.00
Total		\$ 1,801.50	\$ 233.50	\$ 1,568.00

(1) The receipt slips were from different receipt slip books with different receipt number sequences.

#### Non-monetary transactions

The former Court Administrator did not deposit fines and costs, totaling \$1,349.50 in cash, collected from 10 defendants. Instead, the related cases showed non-monetary community service<sup>2</sup> orders in the system in lieu of these fines and costs. She also did not deposit \$508.50 in cash collected from

<sup>1</sup> Pleading the 5th amendment means that the person chooses not to answer a question(s) during testimony on the basis that the person might incriminate himself/herself.

<sup>2</sup> In some cases, the Municipal Judge allows defendants to serve community service in lieu of payment of fines and costs. The court required defendants to provide proof of the completion of their service before the fines and costs could be adjusted in the system.

---

Twenty-Fourth Judicial Circuit  
City of Desloge Municipal Division  
Management Advisory Report - State Auditor's Findings

---

5 defendants whose transactions were entered into the court system as non-monetary judicial order transactions. Non-monetary transactions, including judicial and community service orders, are transactions for which no money is received; however, a credit is applied to the account balance or the amount due is changed. These entries reduced the amount due from defendants in the system, and were not reflected in the amounts to be deposited.

The Municipal Judge indicated that he did not authorize any of the judicial orders and the current Court Administrator determined that the defendants paid the fines instead of performing the community service indicated in the system. We reviewed all 161 community service transactions and 54 judicial orders entered by the former Court Administrator during the period of July 1, 2020, through October 11, 2022, to determine if documentation to support the non-monetary transactions existed and if the municipal judge approved the transaction.

Five of the missing receipts labeled as community service were collected through the city after-hours drop box and the cash receipt amount was included on a payment log. Additionally, no judicial orders or support for community service performed were included in the defendant files. For example, one defendant's payment history showed she made a cash payment of approximately \$100 within the first week of every month from July 2020 through October 2021 for multiple cases. In November 2021, the defendant's name is recorded as making a \$100 payment on the drop box payment log. Instead of showing this payment in the system, on November 10, 2021, a community service order for a negative \$121 was recorded to reduce the defendant's outstanding balance by \$121.

Of the non-monetary transactions reviewed, we noted an additional 38 unsupported non-monetary community service transactions, totaling \$4,482, in the system that may represent additional missing money. These transactions were for defendants that allegedly performed community service, but the court did not retain/maintain time records or other documentation to support the community service. These transactions spanned the entire time the former Court Administrator was employed. We attempted to contact the defendants to determine if they performed community service, but none responded to our inquiries. Given that the former Court Administrator did not deposit other money collected and recorded as non-monetary community service transactions, it is possible some or all of the funds related to these 38 non-monetary transactions are also missing.

Appendix B shows judicial orders and community service orders with related missing money.

Twenty-Fourth Judicial Circuit  
City of Desloge Municipal Division  
Management Advisory Report - State Auditor's Findings

Undeposited drop box  
receipts

From May 2021 to October 2022, the former Court Administrator improperly recorded and did not deposit \$413 in cash court payments placed in the city's after hours drop box.

The city maintains a drop box where citizens can place water, court, and other city payments after hours. Each morning, 2 city employees log the payments, then transmit the court payments to the Court Administrator for processing. We compared the drop box payment log to the court system to determine if all drop box payments were properly recorded, and we identified 8 payments that were not credited, or only partially credited, to the defendants' cases. As noted previously, if payments are not recorded in the court system they are not included in the total amount to be deposited.

The following table provides a summary of the drop box cash payments that were not properly recorded into the court system or deposited.

Date	Receipt Number (1)	Amount on Drop Box Payment Log	Amount Received	Amount Not Recorded or Deposited
05/17/2021	382098	\$ 100.00	\$ 54.50	\$ 45.50
08/23/2021	None	20.00	0.00	20.00
11/17/2021	249Z3189	91.00	33.50	57.50
02/17/2022	None	100.00	0.00	100.00
07/08/2022	None	60.00	0.00	60.00
09/06/2022	None	20.00	0.00	20.00
09/06/2022	None	60.00	0.00	60.00
10/04/2022	None	50.00	0.00	50.00
		\$ 501.00	\$ 88.00	\$ 413.00

(1) Receipt number sequences differ because one receipt was for an older case processed through the legacy system and one was processed in the current court system. Payments without receipt numbers were not recorded in either system.

Altered records

The former Court Administrator altered the fines and costs due written on at least 4 defendant case records to conceal money received and not deposited. We compared a system receipt report to physical defendant case records completed by the municipal judge and noted alterations in the physical defendant files, resulting in an additional \$47 missing. The former Court Administrator entered the altered amounts as the amounts due and paid in the court system and only deposited these amounts, despite collecting the original amount due. The Municipal Judge confirmed he did not authorize anyone to change the amounts written on the case records.

Twenty-Fourth Judicial Circuit  
City of Desloge Municipal Division  
Management Advisory Report - State Auditor's Findings

In a December 2021 case, a defendant was fined \$191.50 plus court costs of \$33.50<sup>3</sup> for a total due of \$225. The judge wrote this amount on the defendant's case record in blue ink,<sup>4</sup> as shown below. The former Court Administrator used a red ink pen to write \$166.50 over the judge's writing. She recorded the fine due in the court system as \$166.50 plus court costs of \$33.50 for a total due of \$200.00. The former Court Administrator receipted \$200 in the court system and did not deposit the additional \$25 in cash likely collected.

In the second case, the judge wrote \$188.50 plus "cc" (\$33.50) on the defendant's case record. As shown below, the fine was changed to \$166.50. The file was marked paid in full with a payment of \$200.00 (\$166.50 plus \$33.50). The remaining \$22 in cash likely collected was not deposited.

<sup>3</sup> Standard court costs total \$33.50. See Organization and Statistical Information section for a detailed listing of the costs included in the total. The Judge often wrote "cc" or "costs" on the defendant files to represent the assessment of the \$33.50 in court costs.

<sup>4</sup> The Municipal Judge indicated he only uses blue ink and the color of ink on the original files reflect this despite the images appearing to be black ink.

Twenty-Fourth Judicial Circuit  
City of Desloge Municipal Division  
Management Advisory Report - State Auditor's Findings

JUL 17 2022

Defendant pleads guilty (in open court) (in writing). Allocation granted.

Judgment/Sentence: \$ 150.00 fine, plus \$ CC costs, plus fees, miscellaneous charges, surcharges including recoupment fee, jail board and/or restitution. Defendant placed on probation pursuant to payment agreement probation order. Defendant to pay \$ \_\_\_\_\_ per month, to be paid on the \_\_\_\_\_ of each month. Further ordered and adjudged:

( ) Defendant shall serve \_\_\_\_\_ days in jail (SES all jail time) (SES \_\_\_\_\_ days of jail sentence and Defendant shall serve \_\_\_\_\_ days of jail sentence) (on weekends).

( ) Defendant placed on probation for \_\_\_\_\_ years pursuant to probation order, with special conditions on probation order including: (MOP) (SATOP) (DIP) (Anger Management) (DAEP) ( ) program to be completed within (60) ( ) days hereof and defendant to attend and complete any other recommended treatment;

( ) No contact with the victim, witnesses or their families at any location;

( ) Pay restitution of \$ \_\_\_\_\_ per terms set forth on payment agreement probation order.

( ) Other: \_\_\_\_\_

Full payment of \$ 300.00 received. Receipt # 84922705.

Continuances: \_\_\_\_\_

Cause (dismissed) (nolle prosequi) by city attorney.

In another case, shown below, the fine listed on the case record is \$150.00 plus "cc" (\$33.50). This appears to be written by the former Court Administrator because the defendant signed a plea agreement, and the judge ordered a fine of \$350.00 plus court costs in the agreement. See the agreement on the next page. The former Court Administrator also issued a manual receipt slip for the full \$383.50 collected. The difference of \$200 is included in the missing money amount shown earlier in the manual receipt slips section.

MAR 2 2022

Defendant pleads guilty (in open court) (in writing). Allocation granted.

Defendant pleads not guilty. Cause set for trial 4-12-22.

APR 12 2022

Trial. City by city attorney. Defendant in person (pro se and knowingly, voluntarily and intelligently waives counsel in writing) (with counsel). Trial conducted in accordance with Rule 37. Defendant found (not guilty and discharged) (guilty, allocation granted and rights related to trial de novo fully explained).

Judgment/Sentence: \$ 150 fine, plus \$ CC costs, plus fees, miscellaneous charges, surcharges including recoupment fee, jail board and/or restitution. Defendant placed on probation pursuant to payment agreement probation order. Defendant to pay \$ \_\_\_\_\_ per month, to be paid on the \_\_\_\_\_ of each month. Further ordered and adjudged:

( ) Defendant shall serve \_\_\_\_\_ days in jail (SES all jail time) (SES \_\_\_\_\_ days of jail sentence and Defendant shall serve \_\_\_\_\_ days of jail sentence) (on weekends).

( ) Defendant placed on probation for \_\_\_\_\_ years pursuant to probation order, with special conditions on probation order including: (MOP) (SATOP) (DIP) (Anger Management) (DAEP) ( ) program to be completed within (60) ( ) days hereof and defendant to attend and complete any other recommended treatment;

( ) No contact with the victim, witnesses or their families at any location;

( ) Pay restitution of \$ \_\_\_\_\_ per terms set forth on payment agreement probation order.

( ) Other: \_\_\_\_\_

Full payment of \$ 153.50 received. Receipt # 3877.

Continuances: \_\_\_\_\_

Cause (dismissed) (nolle prosequi) by city attorney.

NOTE: ABOVE DOCKETT ENTRIES ARE OFFICIAL COURT ORDERS, HOWEVER IF SEPARATE DOCUMENTS ARE USED, ANY INCONSISTENCIES ARE CONTROLLED BY SAID SEPARATE DOCUMENTS (i.e. PLEA FORM, PROBATION ORDER OR PAYMENT PROBATION ORDER, ETC.)

Twenty-Fourth Judicial Circuit  
City of Desloge Municipal Division  
Management Advisory Report - State Auditor's Findings

	
IN THE 24TH JUDICIAL CIRCUIT, ST. FRANCOIS COUNTY, MISSOURI DESLOGE MUNICIPAL DIVISION	
Judge or Division: SETH A PEGRAM	Case Number: 170993592 Court ORI Number: MO094081J Offense Cycle No. (OCN): 77345571
DESLOGE vs.	
Defendant's Name/Address: [REDACTED]	
Charge Code/Description ORD570.0-032Y20212303.0 Shoplifting	Offense Date 13-FEB-2022
(Date File Stamp) \$350.00 fine + costs	
Plea of Guilty & Waiver of Counsel	

In the final case, shown below, it appears the former Court Administrator wrote over the judge's usual fine amount for traffic offenses, which was \$191.50. She changed the 1 to a dollar sign and also wrote over the first "2" in \$225 on the full payment line to make it \$125. The former Court Administrator receipted \$125 in cash in the court system. The other \$100 was written off with a judicial order and is included in the missing judicial order amount discussed earlier.

DEC 14 2021

Judgement/Sentence: \$91.50 fine, plus \$ CC costs, plus fees, miscellaneous charges, surcharges including recoupment fee, jail board and/or restitution. Defendant placed on probation pursuant to payment agreement probation order. Defendant to pay \$ 100 per month, to be paid on the 17 of each month. Further ordered and adjudged:

(X) Defendant shall serve days in jail (SES all jail time) (SES days of jail sentence and Defendant shall serve days of jail sentence) (on weekends).

( ) Defendant placed on probation for 2 years pursuant to probation order, with special conditions on probation order including: (MOP) (SATOP) (DIP) (Anger Management) (DAEP) ( ) program to be completed within (60) ( ) days hereof and defendant to attend and complete any other recommended treatment;

( ) No contact with the victim, witnesses or their families at any location;

( ) Pay restitution of \$ per terms set forth on payment agreement probation order.

( ) Other: .

AD Full payment of \$ 125.00 received. Receipt # 337

Cause (dismissed) (nolle prosequi) by city attorney.

NOTE: ABOVE DOCKETT ENTRIES ARE OFFICIAL COURT ORDERS, HOWEVER IF SEPARATE DOCUMENTS ARE USED, ANY INCONSISTENCIES ARE CONTROLLED BY SAID SEPARATE DOCUMENTS (i.e. PLEA FORM, PROBATION ORDER OR PAYMENT PROBATION ORDER, ETC.)

## Conclusion

The lack of segregation of duties and supervisory or independent oversight of the former Court Administrator's work, as well as poor receipting procedures, as noted in Management Advisory Report (MAR) finding number 2, contributed to an environment that allowed money to go missing and not be detected timely.

Twenty-Fourth Judicial Circuit  
City of Desloge Municipal Division  
Management Advisory Report - State Auditor's Findings

---

## Recommendation

The City of Desloge Municipal Division continue to work with law enforcement officials regarding prosecution of the missing money and take the necessary actions to seek restitution for amounts missing.

## Auditee's Response

*We will continue to work with law enforcement officials regarding prosecution and take necessary actions to seek restitution.*

---

## 2. Accounting Controls and Procedures

Accounting controls and procedures need significant improvement. During the fiscal year ended June 30, 2023, the municipal division collected approximately \$175,000 in fines, court costs, and bonds.

### 2.1 Segregation of duties

The municipal division has not adequately segregated accounting and recordkeeping duties, and neither the Municipal Judge nor other court personnel perform supervisory or independent reviews of municipal division accounting and court records.

The Court Administrator is solely responsible for collecting receipts, recording court receipts and case activity to the court system, preparing disbursements, and preparing monthly financial reports for court activities. Court personnel indicated duties were more segregated before the pandemic started in 2020; however, an employee quit during the pandemic and the Municipal Judge indicated it is difficult to hire new employees.

Proper segregation of duties and/or timely supervisory or independent reviews helps ensure transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving, recording, and depositing money. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting and court records are essential.

### 2.2 Numerical sequence of receipt slips

Neither the former nor the current Court Administrator account for the numerical sequence of manual or system receipt slip numbers to ensure money received has been properly recorded in the court system and deposited. This allowed manual receipt slips to be issued, but not entered into the court system. The Court Administrator indicated she was unaware of the need to account for the numerical sequence of receipt slips.

Failure to implement adequate receipting and depositing procedures increases the risk that loss, theft, or misuse of money could occur and go undetected.

### 2.3 Receipting, recording, and depositing

The court does not issue a receipt slip or otherwise document the drop box receipts transmitted by city personnel. As noted in MAR finding number 1, citizens can pay bills and fines through the city drop box after business hours and 2 city employees record the payments on a payment log. Court payments are forwarded to the Court Administrator each morning, but court personnel

Twenty-Fourth Judicial Circuit  
City of Desloge Municipal Division  
Management Advisory Report - State Auditor's Findings

do not issue receipt slips to city personnel or otherwise document the transmittals. As a result, there is nothing to show that all court drop box receipts were transmitted to the court. The municipal judge indicated the court used to have 2 clerks and both were required to be present when receiving monies from the drop box. However, when only 1 clerk was employed, no compensating controls were implemented to ensure the receipts stayed secure.

## 2.4 Fee adjustments

The current and former Court Administrators process(ed) non-monetary fee adjustments without an independent or supervisory review. Fee adjustments include the reduction or non-assessment of fines and court costs due to judicial order or community service time served by the defendant as discussed in MAR finding number 1.

During the time that the former Court Administrator was employed, she entered 54 judicial orders to waive approximately \$11,778 in fines and court costs. She also waived approximately \$20,614 in fines and court costs with community service orders. These orders were often not reviewed by the municipal judge.

Proper review would have helped ensure transactions were accounted for properly and assets were adequately safeguarded. An independent and/or supervisory review and approval of fee adjustments and court authorization is necessary to help ensure such transactions are appropriate and reduce the risk of loss, theft, or misuse of funds.

## Recommendations

The City of Desloge Municipal Division:

- 2.1 Segregate accounting duties or ensure documented independent or supervisory reviews of municipal division accounting and court records are periodically performed.
- 2.2 Account for the numerical sequence of receipt slip numbers.
- 2.3 Issue receipt slips for, or otherwise document, transmitted receipts from the city.
- 2.4 Require an independent and/or supervisory review and approval of all fee adjustments made in the court system.

## Auditee's Response

- 2.1 *We will follow the recommendation of the State Auditor's Office and will be requesting a supervisory review of detailed accounting and court records from a neighboring municipal court administrator periodically.*

---

Twenty-Fourth Judicial Circuit  
City of Desloge Municipal Division  
Management Advisory Report - State Auditor's Findings

---

- 2.2 *We will no longer be using manual receipt books for the municipal court. A receipt listing report is required daily with the deposit to ensure the numerical sequence of receipt slips.*
- 2.3 *The municipal court clerk signs off on the payment log on money received for court in the overnight depository and is required to supply the city an electronic receipt for each payment the court receives.*
- 2.4 *The City of Desloge has an agreement with the municipal judge to review all monthly fee adjustments.*

# Twenty-Fourth Judicial Circuit

## City of Desloge Municipal Division

### Organization and Statistical Information

---

The City of Desloge Municipal Division is in the Twenty-Fourth Judicial Circuit, which consists of Madison, Ste. Genevieve, St. Francois, and Washington counties. The Honorable Wendy Wexler Horn serves as Presiding Judge. The City of Desloge's population was 4,823 in 2020, according to the U.S. Census Bureau.

The municipal division is governed by Chapter 479, RSMo, and by Supreme Court Rule No. 37. Supreme Court Rule No. 37.49 provides that each municipal division may establish a violation bureau in which fines and court costs are collected at times other than during court and transmitted to the city treasury. The municipal division uses OSCA's statewide automated case management system known as Show-Me Courts.

#### Personnel

At June 30, 2023, the municipal division employees were as follows:

Title	Name
Municipal Judge	Seth Pegram
Court Administrator (1)	Jessica Talley

(1) Heather Steinmetz was the Court Administrator from July 16, 2020, through October 11, 2022. Jessica Talley was hired as a part-time Court Clerk in August 2022 and hired as full-time Court Administrator in October 2022.

#### Financial and Caseload Information

	Year Ended June 30, 2023
Receipts	\$ 175,332
Number of cases filed	693

#### Court Costs, Surcharges, and Fees

Type	Amount
Court Costs (Clerk Fee)	\$ 11.00
Crime Victims' Compensation	7.50
Law Enforcement Training	2.00
Peace Officer Standards and Training	1.00
Domestic Violence Shelter	2.00
Judicial Education	1.00
Court Automation	7.00
Inmate Security (Biometric Verification)	2.00

State Auditor Subpoena - Heather Steinmetz

**EXHIBIT A**

You are to preserve for production and inspection, and then appear as instructed on the attached subpoena and produce for inspection and examination, the following items in your possession or under your control:

1. Documentation for any expenditures related to the City of Desloge Circuit Court.
2. Any user guides, documented procedures, or policy guidelines related to the City of Desloge Circuit Court.
3. Any documentation related to any professional or other organization you worked with in your capacity as the City Administrator for the City of Desloge Circuit Court.

Pursuant to agreement with counsel for Ms. Heather Steinmetz, our office reserves the right to request production of all documents or other records, in whatever form, whether hard copy or electronic, pertaining or belonging to the City of Desloge Circuit Court for the time period of July 2020 through October 2022.

This request for records includes all materials that exist in paper ("hard copy") or electronic form (including but not limited to records and data maintained on computers, tablets, smart phones, external electronic storage drives, thumbnail drives, remote servers or back up tapes). All information requested in the items above are subject to inspection, review and copying by the state auditor. Section 29.235.4(1), RSMo.

Twenty-Fourth Judicial Circuit  
City of Desloge Municipal Division  
Non-Monetary Transactions

Judicial Orders

Judicial Order Date	Judicial Order Receipt Number	Total Assessed Fines & Court Costs	Monetary Amounts Collected	Amount Entered as Judicial Order and Missing
10/14/2021	249Z3017	\$ 225.00	\$ 100.00	\$ 125.00
10/27/2021	249Z3096	177.50 (1)	77.50	100.00
11/19/2021	249Z3206	83.50	0.00	83.50
12/16/2021	249Z3308	225.00	125.00	100.00
06/10/2022	249Z4160	533.50	300.00	100.00 (2)
Total		\$1,244.50	\$ 602.50	\$ 508.50

- (1) The \$177.50 is the amount of fines and costs recorded in the court system. The defendant's file indicates fines and costs were assessed at \$227.50 (a difference of \$50). It is unclear why the system amount differs from the file amount and this may represent additional missing money. This is not included in total missing because we could not determine which assessed amount was accurate.
- (2) Court records indicate there is a remaining balance of \$133.50 due on this case.

Community Service

Community Service Entry Date	Community Service Receipt Number	Total Assessed Fine & Court Costs	Monetary Amounts Collected	Amount Entered as Community Service and Missing
08/18/2021	249Z2790	\$ 536.50	\$ 476.00	\$ 60.50
11/10/2021	249Z3139	386.50	265.50	121.00 (1)
03/15/2022	249Z3736	250.00	0.00	250.00 (2)
05/18/2022	249Z4084	286.50	236.50	50.00 (1)
06/21/2022	249Z4198	333.50	233.50	100.00 (1)
07/11/2022	249Z4296	79.50	33.50	46.00
07/11/2022	249Z4297	529.50	47.50	482.00
08/19/2022	249Z4502	214.00	190.00	20.00 (3)
08/19/2022	249Z4503	386.50	362.50	20.00 (3)
08/19/2022	249Z4510	383.50	183.50	200.00
Total		\$ 3,386.00	\$ 2,028.50	\$ 1,349.50

- (1) The defendant made at least a portion of the payment through the city drop box.
- (2) The defendant's attorney indicated he did not believe his client served community service.
- (3) The drop box payment log shows the defendant paid \$20 in cash. However, the former Court Administrator entered the transactions as a \$24 non-monetary community service transaction to appear as 2 hours of service at \$12 per hour. Only the amount paid through the drop box is considered missing.

Missouri State Auditor

# CITIZENS SUMMARY

## Findings in the Annual Comprehensive Financial Report Report on Internal Control, Compliance, and Other Matters

Office of Administration Financial Reporting Controls - ACFR Preparation	<p>The Office of Administration (OA) - Division of Accounting (DOA) does not have adequate controls and procedures over preparation of the State of Missouri Annual Comprehensive Financial Report (ACFR). If various errors had not been corrected, the Notes to the Financial Statements (Notes) and the Required Supplementary Information (RSI) would have been materially misstated in the ACFR for the year ended June 30, 2023. The audit found the contributions to retirement systems were overstated by more than \$718 billion in the Notes and an amount included in the RSI - General Fund was understated by more than \$2.9 billion. The misstatements, which resulted from data entry and transposition errors as well as a failure to update amounts when revised source data was received, were not identified in the DOA's supervisory review of the draft ACFR.</p>
Department of Revenue Financial Reporting Controls	<p>As has been similarly noted in two previous audits, the Department of Revenue (DOR) does not have adequate controls and procedures over financial reporting of certain governmental and custodial fund activities. As a result, numerous balances submitted to the DOA for inclusion in the ACFR for the year ended June 30, 2023, were materially misstated. In addition, the financial reports were not submitted timely to the DOA.</p> <p>For withholding income tax and sales and use tax refund liability balances (accounts payable), the DOR reported actual individual income tax refund expenditures of approximately \$1.2 billion and corporate income tax refund expenditures of approximately \$215.1 million, when they should have reported withholding income tax and sales and use tax refund liability balances of approximately \$129.3 million and \$194.6 million, respectively.</p> <p>The DOR did not follow current methodology to determine net sales and use tax accounts receivable balances. If these errors had not been identified during the audit, Government Wide - Governmental Activities, General Fund, Public Education Fund, and Sales and Use Tax Non-State Fund (custodial fund) net accounts receivable balances would have been overstated by approximately \$265 million, \$191.7 million, \$73.3 million, and \$313.8 million, respectively, in the ACFR.</p> <p>Multiple data entry and calculation errors were identified in the custodial fund balances and financial activities for the Motor Fuel Tax and Bonds Non-State Fund, the Sales and Use Tax Non-State Fund, the Motor Vehicle Clearing Non-State Fund, and the Family Support Trust Non-State Fund. Errors included using prior year amounts or amounts that did not match supporting documentation, and inaccurate summary total and allocation calculations. If these errors had not been identified during the audit, certain Custodial Funds - Program assets and activity would have been understated in the ACFR by approximately \$240.3 million and \$2.05 billion, respectively.</p>
Department of Social Services Financial Reporting Controls	<p>The Department of Social Services - Division of Finance and Administrative Services does not have adequate controls and procedures over financial</p>

reporting of federal grant accounts receivable. As a result, the accounts receivable data submitted to the DOA for inclusion in the ACFR for the year ended June 30, 2023, was misstated. If the misstatements had not been identified during the audit, Government Wide - Governmental Activities and General Fund net accounts receivable would have been overstated by approximately \$7.2 million, deferred inflows of resources would have been overstated by approximately \$59.4 million, and revenues would have been understated by approximately \$52.2 million in the ACFR.

---

Office of Secretary of State  
Financial Reporting Controls

As similarly noted in our prior audit, the Office of Secretary of State did not have adequate controls and procedures over financial reporting of accounts receivable. As a result, civil penalty accounts receivable data submitted to the DOA for inclusion in the ACFR for the year ended June 30, 2023, was misstated. If the resulting misstatements had not been identified during the audit, Government Wide - Governmental Activities and Public Education Fund net accounts receivable and related liability balances would have been overstated by approximately \$11.2 million in the ACFR.

---

Office of Administration SAM  
II Transaction Approvals

As similarly noted in our previous audit, OA management has not fully corrected a weakness in the Statewide Advantage for Missouri (SAM II) Financial system security settings that allows users to create a transaction and then apply approval to the same transaction without review or additional approval from another party. Allowing users to approve their own transactions without another approval increases the risk that inappropriate or unauthorized transactions may be processed.

Because of the nature of this audit, no rating is provided.

# State of Missouri - Annual Comprehensive Financial Report

## Report on Internal Control, Compliance, and Other Matters

### Introduction

---

#### **Summary of Financial Statement Audit Results**

In fulfillment of our duties under Section 29.200.10, RSMo, we issued our audit report (Report No. 2024-023<sup>1</sup>) of the State of Missouri's Annual Comprehensive Financial Report (ACFR), as of and for the year ended June 30, 2023, on March 18, 2024. To avoid the appearance of a conflict of interest, the State Auditor recused himself from participation in the audit of the significant accounts at the State Treasurer's Office because he served as State Treasurer through January 9, 2023. For those significant accounts, the Audit Director oversaw procedures performed by the State Auditor's professional audit staff.

The State of Missouri's fiscal year 2023 financial statements covered approximately \$63 billion in total assets and approximately \$38 billion in total expenses for the primary government. Our report expressed qualified opinions on the governmental activities and the General Fund because we were not allowed access to tax returns and related source documents for income taxes. Our report expressed unmodified opinions on all remaining opinion units.

In connection with the audit, we tested internal controls and compliance with laws and regulations. The results of our tests are contained herein in our Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*. We reported 5 findings related to internal control deficiencies at 3 state agencies and 1 office. We consider 2 of these findings to be material weaknesses and 3 to be significant deficiencies. Of the 5 findings, 3 were repeated from prior audits. These findings have been reported in the 1 to 2 prior years.

The state agencies' and office's responses to the findings are included in this report. The agencies and office prepared a Corrective Action Plan (CAP) for each finding. The CAPs were submitted to the Office of Administration (OA) and will be included in the Corrective Action Plans section of the State of Missouri - Single Audit report, to be issued later.

The state agencies and office prepared and submitted to the OA the status of the prior audit findings. They will be presented in the Summary Schedule of Prior Audit Findings section of the State of Missouri - Single Audit report.

---

<sup>1</sup>The State of Missouri's Annual Comprehensive Financial Report (ACFR) is available online at: <<https://oa.mo.gov/accounting/reports/annual-reports/annual-comprehensive-financial-reports>>.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Missouri, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the State of Missouri's basic financial statements, and have issued our report thereon dated March 18, 2024. Our report expressed qualified opinions on the governmental activities and the General Fund, a major fund, because we were not allowed access to tax returns and related source documents for income taxes. Approximately 26 percent of governmental activities revenues and 29 percent of General Fund revenues are from this source. We were unable to satisfy ourselves by appropriate audit procedures as to the income tax revenue beyond the amounts recorded. Our report expressed unmodified opinions on all remaining opinion units.

Our report on the State of Missouri's financial statements includes a reference to other auditors who audited the financial statements of:

1. The Missouri Road Fund, a major fund; the Missouri Road Bond Fund; the Transportation Self-Insurance Plan; the Missouri State Employees' Insurance Plan; the Missouri Consolidated Health Care Plan; and the Missouri Department of Transportation and Missouri State Highway Patrol Medical and Life Insurance Plan, which represent 58 percent of the assets and 9 percent of the revenues of the governmental activities.
2. The State Lottery Fund, a major fund, and the Petroleum Storage Tank Insurance Fund which represent 13 percent of the assets and 80 percent of the revenues of the business-type activities.
3. The aggregate discretely presented component units.

4. The pension (and other employee benefit) trust funds and the Missouri Department of Transportation custodial funds which represent 91 percent of the assets and 21 percent of the additions of the fiduciary funds.

This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

The financial statements of the Missouri State Employees' Insurance Plan and the Missouri Consolidated Health Care Plan, internal service funds; the Missouri Development Finance Board, the Missouri Agricultural and Small Business Development Authority, and the State Environmental Improvement Energy Resources Authority, discretely presented component units; and the pension (and other employee benefit) trust funds were not audited in accordance with *Government Auditing Standards*. Accordingly, this report does not include reporting on internal control over financial reporting or compliance and other matters associated with these entities and funds.

### **Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the State of Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the State of Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of the State of Missouri's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying Schedule of Findings and Responses, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the State of Missouri's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies described in the accompanying Schedule of Findings and Responses as finding numbers FS2023-001 and FS2023-002 to be material weaknesses.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying Schedule of Findings and Responses as finding numbers FS2023-003 through FS2023-005 to be significant deficiencies.

### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the State of Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material

effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **State of Missouri's Responses to Findings**

*Government Auditing Standards* requires the auditor to perform limited procedures on the State of Missouri's responses to the findings identified in our audit and described in the accompanying Schedule of Findings and Responses. The State of Missouri's responses were not subjected to the audit procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

## **Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, pursuant to Section 29.200, RSMo, this report is a matter of public record and its distribution is not limited.

A handwritten signature in black ink, appearing to read "S. Fitzpatrick". The signature is stylized with a large "S" and a long horizontal line extending from the end.

Scott Fitzpatrick  
State Auditor

# State of Missouri - Annual Comprehensive Financial Report

## Report on Internal Control, Compliance, and Other Matters

### Schedule of Findings and Responses

#### FS2023-001.

#### Office of Administration Financial Reporting Controls - ACFR Preparation

The Office of Administration - Division of Accounting (DOA) does not have adequate controls and procedures over preparation of the State of Missouri Annual Comprehensive Financial Report (ACFR). If various errors had not been corrected, the Notes to the Financial Statements (Notes) and the Required Supplementary Information (RSI) would have been materially misstated in the ACFR for the year ended June 30, 2023.

The DOA prepares the ACFR by compiling information obtained from various sources, including the Statewide Advantage for Missouri (SAM II) Financial system, state agency surveys and reports, and component unit audited financial statements. The table below shows the misstatements identified in the Notes and RSI during the audit:

ACFR Section - page number	Overstatement	Understatement	Net
Note 7 - Retirement Systems, Contributions - p. 75	\$ 718,366,914,000 <sup>1</sup>	0	718,366,914,000
RSI - General Fund, Original Budgeted Revenues, Total Resources - p. 140	0	(2,929,815,000)	(2,929,815,000)
Note 3 - Deposits and Investments, Fiduciary Funds			
Total Investments Measured at Net Asset Value <sup>2</sup> - p. 56	392,147,000	(392,147,000)	0
Total Investments Measured at Fair Value - p. 56	0	(156,734,000)	(156,734,000)
Note 17 - Restatements, Breakdown by Type - p. 116			
Unemployment Compensation, Due To Other Funds	3,182,000	0	3,182,000
Unemployment Compensation, Due From Other Funds	0	(3,182,000)	(3,182,000)

<sup>1</sup>Combined overstatements for MSEP, Judicial Plan, MPERS, and MSEP-Component Units

<sup>2</sup>Combined overstatement of Private Real Estate Funds and understatement of Private Equity and Timber Funds

These misstatements, which resulted from data entry and transposition errors as well as a failure to update amounts when revised source data was received, were not identified in the DOA's supervisory review of the draft ACFR. After we brought the errors to the DOA's attention, DOA personnel made corrections to the Notes and the RSI prior to completing the ACFR.

It is essential the DOA strengthen controls and procedures for preparation of the ACFR. The *Standards for Internal Control in the Federal Government*, issued by the Comptroller General of the United States, states that management is responsible for the design, implementation, and operating effectiveness of the internal control system and that control activities should be designed to achieve objectives and respond to risks. Such controls would allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements.

#### Recommendation

The DOA strengthen controls and procedures to ensure proper disclosure of information in the Notes to the Financial Statements and the Required Supplementary Information in the ACFR.

State of Missouri - Annual Comprehensive Financial Report  
Report on Internal Control, Compliance, and Other Matters  
Schedule of Findings and Responses

## Auditee's Response

*The DOA acknowledges errors occurred during the preparation of the fiscal year 2023 ACFR. Our ACFR preparation processes are extremely manual and have risk of errors as a result, especially when revisions are submitted. It is expected our new accounting system will reduce the manual processes and increase accuracy. The DOA is also updating ACFR tie out procedures to make them more understandable and usable. This will reduce the time it takes to complete the review of the ACFR as well as allow for more reviews to be performed on each section of the ACFR. We are also investigating opportunities to leverage technology to reduce errors.*

### **FS2023-002. Department of Revenue Financial Reporting Controls**

As similarly noted in our 2 previous audits,<sup>2</sup> the Department of Revenue (DOR) does not have adequate controls and procedures over financial reporting of certain governmental and custodial fund financial activities. As a result, numerous balances submitted to the Office of Administration - Division of Accounting (DOA) for inclusion in the State of Missouri Annual Comprehensive Financial Report (ACFR) for the year ended June 30, 2023, were materially misstated. In addition, the financial reports were not submitted timely to the DOA.

To determine and submit financial activities of governmental and custodial funds to the DOA, the DOR - Administration Division first obtains reports generated from the DOR's various computerized systems. Information from these reports is then extracted into schedules, and various calculations are performed to determine the balances to be reported to the DOA. Our review of the governmental and custodial fund balances submitted to the DOA for inclusion in the ACFR identified numerous misstatements that were not identified by the DOR internal control system, including the following.

- Withholding income tax<sup>3</sup> and sales and use tax refund liability balances (accounts payable) were incorrectly reported. The DOR reported actual individual income tax refund expenditures of approximately \$1.2 billion and corporate income tax refund expenditures of approximately \$215.1 million, when they should have reported withholding income tax and sales and use tax refund liability balances of approximately \$129.3 million and \$194.6 million, respectively. These errors were identified during our audit after DOA and State Auditor's Office (SAO) personnel noted a large variance between the reported withholding income tax refund liability balance and the prior year balance. If these errors had not

<sup>2</sup>See State of Missouri Annual Comprehensive Financial Report - Report on Internal Control, Compliance, and Other Matters at <https://auditor.mo.gov/AuditReport/Reports?SearchLocalState=3>, finding numbers FS2022-001 and FS2021-001.

<sup>3</sup>For withholding income tax accounts payable, our audit work was limited to matching the amount reported to DOR summary reports. We were not allowed access to tax returns and related source documents for income taxes.

Report on Internal Control, Compliance, and Other Matters  
Schedule of Findings and Responses

been identified during the audit, Government Wide - Governmental Activities and General Fund accounts payable balances would have been overstated by approximately \$1.1 billion in the ACFR.

- The DOR did not follow current methodology to determine net sales and use tax accounts receivable balances. If these errors had not been identified during the audit, Government Wide - Governmental Activities, General Fund, Public Education Fund, and Sales and Use Tax Non-State Fund (custodial fund<sup>4</sup>) net accounts receivable balances would have been overstated by approximately \$265 million, \$191.7 million, \$73.3 million, and \$313.8 million, respectively, in the ACFR.
- Multiple data entry and calculation errors were identified in the custodial fund balances and financial activities for the Motor Fuel Tax and Bonds Non-State Fund, the Sales and Use Tax Non-State Fund, the Motor Vehicle Clearing Non-State Fund, and the Family Support Trust Non-State Fund. Errors included using prior year amounts or amounts that did not match supporting documentation, and inaccurate summary total and allocation calculations. If these errors had not been identified during the audit, certain Custodial Funds - Program balances would have been misstated in the ACFR as noted in the table below.

Account Type	Custodial Funds - Program		
	Overstatement	(Understatement)	Net
Assets	\$ 0	(240,345,000)	(240,345,000)
Additions	\$ 32,206,000	(1,136,204,000)	(1,103,998,000)
Deductions	\$ 0	(950,205,000)	(950,250,000)

- The DOR submitted the financial reports for the custodial fund financial activities to the DOA significantly past the DOA due date of August 15, 2023. The initial financial reports were submitted on October 26, 2023. Due to the errors identified, multiple revised financial reports were submitted in November and December 2023, and January 2024. The delayed submission of accurate financial reports negatively impacted the completion of both the ACFR and the ACFR audit.

After we identified the errors noted above and discussed them with DOR personnel, the Administration Division submitted revised reports to the DOA and the DOA made the corrections prior to completing the ACFR.

In response to our previous findings, the DOR established a two-step review process for all financial reports submitted to the DOA and the SAO. However,

<sup>4</sup>Custodial funds are included in the Aggregate Remaining Fund Information opinion unit.

State of Missouri - Annual Comprehensive Financial Report  
Report on Internal Control, Compliance, and Other Matters  
Schedule of Findings and Responses

DOR officials indicated the newly implemented review process did not detect the errors noted above due to continued significant turnover in Administration Division personnel.

It is essential the DOR strengthen controls and procedures to prepare and submit accurate and timely financial reports to the DOA. The *Standards for Internal Control in the Federal Government*, issued by the Comptroller General of the United States, states management is responsible for the design, implementation, and operating effectiveness of the internal control system and the control activities should be designed to achieve objectives and respond to risks. Such controls would allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements.

## Recommendation

The DOR strengthen controls and procedures to prepare and submit accurate and timely financial reports to the DOA.

## Auditee's Response

*The DOR understands the auditor's finding and is strengthening our two-step review process of financial reporting. The DOR wants to reassure our customers that the finding does not have any effect or added cost to them. Our Corrective Action Plan includes our planned actions to address the finding.*

### **FS2023-003. Department of Social Services Financial Reporting Controls**

The Department of Social Services (DSS) - Division of Finance and Administrative Services (DFAS) does not have adequate controls and procedures over financial reporting of federal grant accounts receivable. As a result, the accounts receivable data submitted to the Office of Administration - Division of Accounting (DOA) for inclusion in the State of Missouri Annual Comprehensive Financial Report (ACFR) for the year ended June 30, 2023, was misstated. If the misstatements had not been identified during the audit, Government Wide - Governmental Activities and General Fund net accounts receivable would have been overstated by approximately \$7.2 million, deferred inflows of resources would have been overstated by approximately \$59.4 million, and revenues would have been understated by approximately \$52.2 million in the ACFR.

To compile and submit accounts receivable data to the DOA, DFAS personnel extract and analyze drawdown information from federal cash drawdown reports. Of the net accounts receivable at June 30, the DFAS is to identify collections "expected in July and August" and collections "expected after August." The DOA reports collections "expected in July and August" as revenues and collections "expected after August" as deferred inflows of resources. The Governmental Accounting Standards Board (GASB) *Codification*, Section 1600.106, states revenues are recognized in the accounting period in which they become susceptible to accrual - that is, when they become both measurable and available to finance expenditures of the fiscal period. The *Governmental Accounting, Auditing, and Financial*

State of Missouri - Annual Comprehensive Financial Report  
Report on Internal Control, Compliance, and Other Matters  
Schedule of Findings and Responses

*Reporting*, Chapter 9, further states resources should be recognized as revenues when they are available, even if they were not actually collected during the availability period.

The DFAS has not established procedures to accurately report June 30 net accounts receivable amounts and to classify amounts as expected (available) in July and August (reported as revenues in the ACFR) versus after August (reported as deferred inflows in the ACFR). For the year ended June 30, 2023, the DFAS reported net accounts receivable totaling approximately \$59.4 million; however, federal cash drawdown reports supported net accounts receivable totaling approximately \$52.2 million, an overstatement of approximately \$7.2 million. In addition, the DFAS reported \$0 collections "expected in July and August," and approximately \$59.4 million collections "expected after August," although the entire balance was available at June 30, 2023. Supervisory reviews did not detect these errors. After our inquiries, DFAS personnel subsequently submitted corrected accounts receivable reports to the DOA.

DFAS personnel stated some errors occurred because the DFAS inadvertently sent an unapproved initial draft version of the accounts receivable report to the DOA. DFAS personnel stated other errors occurred due to a change in personnel responsible for the reporting and a misinterpretation of ACFR reporting instructions.

It is essential the DFAS establish controls and procedures to prepare and submit accurate accounts receivable reports to the DOA. The *Standards for Internal Control in the Federal Government*, issued by the Comptroller General of the United States, states that management is responsible for the design, implementation, and operating effectiveness of the internal control system and that control activities should be designed to achieve objectives and respond to risks. Such controls would allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements.

## Recommendation

The DSS through the DFAS strengthen controls and procedures to prepare and submit accurate federal grant accounts receivable reports to the DOA.

## Auditee's Response

*The department agrees with the State Auditor's Office's recommendation to strengthen controls and procedures regarding accounts receivable financial reporting. It is important to note that there are 26 surveys requested of the department each year as part of the financial reporting process. The Corrective Action Plan includes the department's planned action to address this finding.*

*DFAS staff are documenting the accounts receivable financial reporting processes in order to enhance current procedures for submitting accurate*

State of Missouri - Annual Comprehensive Financial Report  
Report on Internal Control, Compliance, and Other Matters  
Schedule of Findings and Responses

*accounts receivable reports to the DOA. Additionally, to strengthen controls, DFAS staff will document the overall process for submitting department financial reports to the DOA. DFAS staff plan to implement the written procedures during completion of the state fiscal year 2024 financial reports.*

**FS2023-004.**  
**Office of Secretary of State**  
**Financial Reporting**  
**Controls**

As similarly noted in our prior audit,<sup>5</sup> the Office of Secretary of State (SOS) did not have adequate controls and procedures over financial reporting of accounts receivable. As a result, civil penalty accounts receivable data submitted to the Office of Administration - Division of Accounting (DOA) for inclusion in the State of Missouri Annual Comprehensive Financial Report (ACFR) for the year ended June 30, 2023, was misstated. If the resulting misstatements had not been identified during the audit, Government Wide - Governmental Activities and Public Education Fund net accounts receivable and related liability balances would have been overstated by approximately \$11.2 million in the ACFR.

The SOS had not established procedures to analyze and estimate civil penalty uncollectible amounts for financial reporting purposes. Each year, the SOS reports \$0 uncollectible, although the SOS historically collects only a small portion of the balance. Paragraph 21 of the Governmental Accounting Standards Board (GASB) Statement No. 33, requires recognition of receivables and revenues net of estimated uncollectible amounts.

For the year ended June 30, 2023, the SOS initially reported civil penalty gross accounts receivable of \$19.5 million, \$0 uncollectible, and net accounts receivable of \$19.5 million. SOS personnel indicated they did not estimate and report uncollectible amounts to the DOA because they did not intend to write off any amounts due. However, this approach is not in accordance with accounting standards for financial reporting, does not consider the likelihood of collection, and overstates the value of accounts receivable and related liability balances in the ACFR. Furthermore, estimating uncollectible amounts for financial reporting purposes is independent of any actual write offs of amounts due.

Because uncollectible amounts were not estimated and reported, the net accounts receivable and related liability balances reported to the DOA were overstated by approximately \$11.2 million, for the year ended June 30, 2023. After we identified and discussed the issue with SOS personnel, the SOS established and implemented controls and procedures over accounts receivable. The SOS estimated a civil penalties uncollectible amount of \$11.2

<sup>5</sup> See State of Missouri Annual Comprehensive Financial Report - Report on Internal Control, Compliance, and Other Matters, Year Ended June 30, 2022 at <<https://auditor.mo.gov/AuditReport/ViewReport?report=2023022>>, finding number FS2022-006.

State of Missouri - Annual Comprehensive Financial Report  
Report on Internal Control, Compliance, and Other Matters  
Schedule of Findings and Responses

million, calculated corrected net accounts receivable and related liability balances of \$8.3 million, and submitted a revised accounts receivable financial report to the DOA.

Controls and procedures over accounts receivable are necessary to ensure accounts receivable reports submitted to the DOA are accurate. The *Standards for Internal Control in the Federal Government*, issued by the Comptroller General of the United States, states that management is responsible for the design, implementation, and operating effectiveness of the internal control system and that control activities should be designed to achieve objectives and respond to risks. Such controls would allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements.

## Recommendation

The SOS continue to implement newly established controls and procedures to prepare and submit accurate accounts receivable reports to the DOA.

## Auditee's Response

*The SOS has established and implemented a process with a methodology to present logical assumptions based on historical information and probability to provide estimated civil penalty uncollectible amounts for financial reporting purposes and for future reporting to the DOA and the State Auditor's Office (SAO). The SOS will re-evaluate annually and provide timely estimates to the OA and the SAO for future ACFR reports.*

### **FS2023-005. Office of Administration SAM II Transaction Approvals**

As similarly noted in our previous audit,<sup>6</sup> Office of Administration (OA) management has not fully corrected a weakness in the Statewide Advantage for Missouri (SAM II) Financial system security settings that allows users to create a transaction and then apply approval to the same transaction without review or additional approval from another party.

To request user rights in the SAM II Financial system, state agency SAM II Security Administrators complete and submit SAM II Financial Agency Security Request forms to the OA. The OA SAM II Security Administrator reviews the request forms and enables the rights in the SAM II Financial system. Each user account is assigned certain rights and privileges from a list of available options, including the authority to create and approve transactions. Rules can be assigned to transactions to specify approvals necessary based on the dollar value and transaction type. If a user is allowed rights to both create and approve a transaction, and those rights satisfy the rules established for the transaction, the user would be able to create and

<sup>6</sup> See State of Missouri Annual Comprehensive Financial Report - Report on Internal Control, Compliance, and Other Matters, Year Ended June 30, 2022, at <<https://auditor.mo.gov/AuditReport/ViewReport?report=2023022>>, finding number FS2022-009.

State of Missouri - Annual Comprehensive Financial Report  
Report on Internal Control, Compliance, and Other Matters  
Schedule of Findings and Responses

approve the same transaction without review or additional approval from an independent party. While OA management has taken steps to limit this risk, in our review of SAM II Financial system user account access as of May 31, 2023, for all agencies with accounts significant to the ACFR, we identified a Department of Health and Senior Services (DHSS) user had authority to enter and approve the same expenditure transaction.

The authority for the user to enter and approve expenditure transactions was established in November 2022 when the OA SAM II Security Administrator inadvertently gave the user both data entry and approval rights, although the DHSS had requested only approval rights. The user had these rights until July 2023, when the DHSS removed the user's access due to inactivity. We confirmed the user did not both enter and approve any transactions during her 8 month period with such authority.

Allowing users to approve their own transactions without another approval increases the risk that inappropriate or unauthorized transactions may be processed.

## Recommendation

The OA continue to eliminate the risk of users approving transactions they create and establish policies to ensure future users are not granted this ability.

## Auditee's Response

*As mentioned in the audit finding, "... OA management has taken steps to limit this risk ..." Only 1 SAM II Financial User from another agency was noted in the finding, and this individual did not both enter and approve any transactions during the period she had this authority. Periodic reviews will be performed, and OA will continue to provide oversight of user accounts. We are currently implementing MOVERS to replace the existing ERP system, which will reduce if not eliminate conflicts with security access.*

### Statewide Security Awareness Training

Report No. 2024-035

May 2024

[auditor.mo.gov](https://auditor.mo.gov)

**Scott Fitzpatrick**  
Missouri State Auditor

# CITIZENS SUMMARY

## Findings in the audit of Statewide Security Training Awareness

### Background

According to the Office of Administration Information Technology Services Division (ITSD), security awareness training is the basic understanding of the need for information security and user actions to maintain security and to respond to suspected security incidents. Security awareness training teaches employees how to protect information technology systems and agency data, and develops skills and knowledge, enabling employees to perform their jobs more securely. Security awareness training also improves the security posture of the enterprise [the state], and facilitates the implementation of appropriate security policies and procedures.

The ITSD was formed in January 2005 to consolidate information technology (IT) staff and funding. This consolidation primarily covered most executive branch agencies. The ITSD provides services, including security awareness training services, to its consolidated entities (CEs). Non-consolidated entities (NCEs), which are structurally independent of the ITSD, maintain their own internal IT departments that provide services, including security awareness training services, to their employees. Despite their structural independence, many NCEs remain in communication with, and sometimes enter into selective coordination with, the ITSD. The overall structure and distinct roles between the ITSD, CEs, and NCEs present general challenges to achieving statewide security awareness.

### Scope and Methodology

The scope of our audit included, but was not limited to, the year ended June 30, 2023.

To evaluate the state's policies and procedures related to security awareness training, we reviewed written ITSD policies and procedures available, and interviewed the management of each NCE to understand their security awareness training activities. We also interviewed ITSD management on behalf of the CEs. We obtained all 18 CEs' training records for the 6 months ending June 30, 2023. To analyze results, we compared the training records to personnel records from the state's SAM II Human Resources system to determine the number of monthly security trainings each employee had completed during the 6-month test period. We limited our analysis to approximately 30,000 individuals who were actively employed, and remained with their CE, for the full 6 months. We performed procedures to ensure the data was complete to support our audit objectives, but reviewing internal controls of these systems was not part of our objectives.

To evaluate the ITSD's monitoring controls over security awareness training we interviewed ITSD management on behalf of the CEs, and identified and evaluated related policies and procedures.

Consolidated Entity Training Not Being Consistently Completed, Oversight Improvements Are Needed	<p>CE employees did not consistently complete monthly security awareness training required by ITSD policy. A review of training results for the 6 months ending June 30, 2023, found approximately 20 percent of employees did not complete any of the 6 monthly trainings during that period, and 30 percent of employees received less than half of the required trainings in the test period.</p> <p>Additionally, the ITSD does not provide oversight of the CEs' administration of cyber security awareness training. On May 1, 2023, the ITSD issued an updated security training policy with an additional clarification that "audits and assessments will be performed" by "authorized organizations" to help ensure compliance with the policy. However, this policy was rescinded by ITSD in June 2023 and has not been reissued, but is currently being reevaluated and is in draft form.</p> <p>Based on our review of CE training records, most CEs have employees who were unofficially exempted, and thus, lacked the expected opportunities to receive and complete monthly security awareness training.</p>
Non-Consolidated Entity Training and Phishing Testing Weaknesses	<p>Four of 16 NCEs do not provide or obtain ongoing security awareness training for their employees. In addition, 9 of 16 NCEs do not perform or obtain phishing testing on their employees. Most of the remaining 7 NCEs contracted with vendors to perform phishing testing on their employees. The 4 NCEs that do not provide security awareness training to their employees are also included in the 9 entities that do not do phishing testing. As a result of these weaknesses, state resources such as data, systems, and/or monetary funds are at increased risk of loss or exposure.</p>

Because of the nature of this audit, no rating is provided.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Kenneth J. Zellers, Commissioner  
Office of Administration  
Jefferson City, Missouri

We have audited certain aspects of state security awareness training activities to determine if training is being provided to help users protect state resources such as data, systems and/or funds from loss or exposure. This audit was conducted in fulfillment of our duties under Chapter 29, RSMo. The objectives of our audit were to:

1. Evaluate the state's policies and procedures related to security awareness training.
2. Evaluate the Office of Administration Information Technology Services Division's (ITSD) monitoring controls over security awareness training.

Except as discussed in the following paragraph, we conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

Generally accepted government auditing standards require us to obtain and report the views of responsible officials of the audited entity concerning the findings, conclusions, and recommendations included in the audit report. The entities referenced in Management Advisory Report (MAR) finding number 2 are not supported by a central agency that could respond broadly on the entities' behalf. Accordingly, for these audited entities, we obtained the views of responsible officials for the recommendation outlined in MAR finding number 2, but did not include them in the report.

For the areas audited, we identified (1) weaknesses in policies and procedures related to security awareness training, and (2) the need for improvement in the ITSD's monitoring controls over security awareness training. The accompanying Management Advisory Report presents our findings arising from our audit of statewide security awareness training. Generally accepted government auditing standards allow for information sensitive in nature to be omitted from public disclosure in certain instances. To avoid compromising the confidentiality of the sensitive information presented in this report, the names of individual agencies and entities have been omitted. Confidential communication has been made to the ITSD regarding which audit findings apply to which consolidated entities, and separate confidential communications were made to individual non-consolidated entities regarding any audit findings that apply to their respective entities.

Scott Fitzpatrick  
State Auditor

# Statewide Security Awareness Training

## Introduction

### Background

According to the Office of Administration Information Technology Services Division (ITSD), security awareness training is the basic understanding of the need for information security and user actions to maintain security and to respond to suspected security incidents. Security awareness training teaches employees how to protect information technology systems and agency data, and develops skills and knowledge, enabling employees to perform their jobs more securely. Security awareness training also improves the security posture of the enterprise [the state], and facilitates the implementation of appropriate security policies and procedures.<sup>1</sup>

Security incidents can often be traced to a user error, such as clicking on a link in a malicious email, or sharing account credentials with bad actors. It is important for the state to establish a security culture that takes threats seriously and teaches employees how to protect state resources.

### Consolidation

The ITSD was formed in January 2005 to consolidate information technology (IT) staff and funding. This consolidation primarily covered most executive branch agencies. The ITSD provides services, including security awareness training services, to its consolidated entities (CEs).<sup>2</sup>

Non-consolidated entities (NCEs), which are structurally independent of the ITSD, maintain their own internal IT departments that provide services, including security awareness training services, to their employees. Despite their structural independence, many NCEs remain in communication with, and sometimes enter into selective coordination with, the ITSD.

The table below summarizes the count of CEs and NCEs, and the count of employees in each:

**Consolidated and Non-Consolidated Entities, June 30, 2023**

	Entity Count	Employee Count
Consolidated	18	37,020
Non-Consolidated*	17	14,699
Total	35	51,719

\* This count includes the State Auditor's Office. The State Auditor's Office was excluded from the analysis of NCEs later in this report to ensure we remained independent on this audit. See MAR finding number 2.

Source: Entity counts were provided by the ITSD. Employee counts are from the SAM II Human Resources system for most entities. Entity management provided the data for the remaining entities not maintained in SAM II.

<sup>1</sup> ITSD, Missouri Adaptive Enterprise Architecture, Security Awareness Training, May 2019, <<https://oa.mo.gov/sites/default/files/TA-Security-Awareness-Training.pdf>>, accessed July 20, 2023.

<sup>2</sup> For purposes of this report, an individual entity may be an agency, specific division(s) of an agency, or a quasi-governmental agency affiliated with the state of Missouri.

## Statewide Security Awareness Training Introduction

The overall structure and distinct roles between the ITSD, CEs, and NCEs present general challenges to achieving statewide security awareness.

According to the National Institute of Standards and Technology (NIST),<sup>3</sup> security controls are the safeguards or countermeasures employed within a system or an organization to protect the confidentiality, integrity, and availability of the system and its information, and to manage information security risk. Confidentiality refers to preserving authorized restrictions on information access and disclosure, including the means for protecting personal privacy and proprietary information; integrity relates to guarding against improper information modification or destruction; and availability ensures timely and reliable access to and use of information. Without proper safeguards and controls, information systems and confidential data are vulnerable to individuals with malicious intentions who can use access to obtain sensitive data or disrupt operations.

The NIST defines cybersecurity as the process of protecting information by preventing, detecting, and responding to attacks<sup>4</sup> while ISACA<sup>5</sup> states cybersecurity encompasses all that protects enterprises and individuals from intentional attacks, breaches, and incidents as well as the consequences.<sup>6</sup> Cybersecurity should be aligned with all other aspects of information security, including governance, management, and assurance. The state of being secure requires maintenance and continuous improvement to meet the needs of stakeholders and the demands of emerging cyber threats.

## Scope and Methodology

The scope of our audit included, but was not limited to, the year ended June 30, 2023.

To evaluate the state's policies and procedures related to security awareness training, we reviewed written ITSD policies and procedures available, and interviewed the management of each NCE<sup>7</sup> to understand their security awareness training activities. We also interviewed ITSD management on behalf of the CEs. We obtained all 18 CEs' training records for the 6 months

<sup>3</sup> NIST, Special Publication 800-53 Revision 5, *Security and Privacy Controls for Information Systems and Organizations*, p. 1, 396, 398, and 406, <<https://nvlpubs.nist.gov/nistpubs/SpecialPublications/NIST.SP.800-53r5.pdf>>, accessed October 2, 2023.

<sup>4</sup> NIST, *Framework for Improving Critical Infrastructure Cybersecurity*, Version 1.1, April 2018, p. 45, <<https://nvlpubs.nist.gov/nistpubs/CSWP/NIST.CSWP.04162018.pdf>>, accessed October 2, 2023.

<sup>5</sup> ISACA is an international professional association, formerly known as the Information Systems Audit and Control Association, that is focused on IT governance.

<sup>6</sup> ISACA, *Transforming Cybersecurity*, 2013, p. 11.

<sup>7</sup> The State Auditor's Office (SAO) is an NCE. However, to ensure we remained independent in all aspects of this audit, the SAO was excluded from consideration during the audit.

---

## Statewide Security Awareness Training Introduction

---

ending June 30, 2023. To analyze results, we compared the training records to personnel records from the state's SAM II Human Resources system (SAM II) to determine the number of monthly security trainings each employee had completed during the 6-month test period. We limited our analysis to approximately 30,000 individuals who were actively employed, and remained with their CE, for the full 6 months. We performed procedures to ensure the data was complete to support our audit objectives, but reviewing internal controls of these systems was not part of our objectives.

To evaluate the ITSD's monitoring controls over security awareness training we interviewed ITSD management on behalf of the CEs, and identified and evaluated related policies and procedures.

We based our evaluation on accepted state, federal, and international standards and best practices related to information technology security controls from the following sources:

- Missouri Adaptive Enterprise Architecture (MAEA)
- National Institute of Standards and Technology (NIST)
- ISACA

---

# Statewide Security Awareness Training

## Management Advisory Report

### State Auditor's Findings

---

#### **1. Consolidated Entity Training Not Being Consistently Completed, Oversight Improvements Are Needed**

Consolidated entity (CE) employees did not consistently complete monthly security awareness training required by Office of Administration Information Technology Services Division (ITSD) policy. Based on our review of training data, approximately 20 percent of employees did not complete any security awareness training during our test period. As a result, state resources such as data, systems and/or funds are at increased risk of exposure or loss. This condition had not been detected, in part, due to ITSD policy not requiring the ITSD or the CEs to monitor the completion of security awareness training.

The ITSD contracts with a vendor to obtain monthly security awareness training content in the form of interactive videos lasting approximately 5 to 10 minutes. Records of which CE employees completed these monthly trainings are uploaded to an electronic training administration system, and can be accessed by each CE's authorized personnel. The ITSD can directly access training records for most CEs, or in limited situations, can request them from the CEs.

Training not being consistently completed

We reviewed training results for the 6 months ending June 30, 2023, and found approximately 20 percent of employees did not complete any of the 6 monthly trainings during that period, and 30 percent of employees received less than half of the required trainings in the test period.

We obtained all 18 CEs' training records for the 6 months ending June 30, 2023, and compared them to personnel records from the state's Human Resources system (SAM II) to determine the percentage of employees completing assigned trainings. We limited our analysis to approximately 30,000 individuals who were actively employed, and remained with the same CE, for the full 6-month period.<sup>8</sup>

Table 1 on the following page shows the percentage of employees completing the monthly trainings during the 6 months ended June 30, 2023, for each anonymized CE. For example, 86 percent of Entity A employees completed all 6 of the monthly trainings, 7 percent completed 5 of the monthly trainings, and so on. The table also presents, for all employees in a given CE, the weighted average number of monthly trainings completed, with 6.0 (6 months) being the maximum possible value.

---

<sup>8</sup> We applied this limitation to reach fair and consistent results across all 18 CEs and within the 6-month period. For example, we removed individuals not employed for the entire 6-month period because certain factors and data limitations may unfairly and negatively skew results.

Statewide Security Awareness Training  
Management Advisory Report - State Auditor's Findings

**Table 1: Consolidated Entity Monthly Training Completion Results for the 6 Months Ended June 30, 2023**

Entity	Exempt and 0 Months <sup>1</sup>	0 Months Completed	1 Month Completed	2 Months Completed	3 Months Completed	4 Months Completed	5 Months Completed	6 Months Completed	Weighted Average Months Completed

Entity Q	78%	0%	0%	0%	4%	0%	9%	9%	1.1
Entity R <sup>2</sup>	0%	98%	1%	0%	0%	0%	0%	1%	0.0
<b>Average for all CEs<sup>3</sup></b>	<b>3%</b>	<b>21%</b>	<b>3%</b>	<b>3%</b>	<b>4%</b>	<b>6%</b>	<b>9%</b>	<b>51%</b>	<b>4.0</b>

<sup>1</sup> These individuals were exempted, meaning they were not entered in a training system, and have no available training data. Therefore, these individuals lacked the expected opportunities to receive and complete monthly security awareness training.

<sup>2</sup> According to the ITSD, a technical issue prevented most individuals at this entity from being able to access the training.

<sup>3</sup> This row's values were calculated using the count of individuals across all CEs. Thus, this row's values are not an average of the preceding numbers in each respective column.

Source: SAO analysis of consolidated entities' training data and the SAM II Human Resources system data.

## Lack of Oversight

The ITSD does not provide oversight of the CEs' administration of cyber security awareness training. Effective September 2007, the ITSD policy over security awareness training for CEs requires all CE users who use state-owned systems to complete monthly cyber security awareness training. In addition, this policy requires all cyber security awareness training be documented by the CE, but does not include any requirements for the CE or ITSD to monitor the implementation of the policy. On May 1, 2023, the ITSD issued an updated security training policy with an additional clarification that "audits and assessments will be performed" by "authorized organizations" to

## Statewide Security Awareness Training Management Advisory Report - State Auditor's Findings

help ensure compliance with the policy.<sup>9</sup> However, this policy was rescinded<sup>10</sup> by the ITSD in June 2023 and has not been reissued, but is currently being reevaluated and is in draft form. Based on discussions with ITSD personnel, the ITSD had not obtained or reviewed CE training records, such as those presented in Table 1, prior to our July 2023 request for such records.

Exempting some employees from cyber security training requirements is not allowed by policy

Based on our review of CE training records, most CEs have employees who were unofficially exempted, and thus, lacked the expected opportunities to receive and complete monthly security awareness training. This is especially significant for CEs Q (78 percent of employees), O (56 percent of employees), and H (21 percent of employees). However, current ITSD policy requires all CE users who use state-owned systems to complete monthly cyber security awareness training and does not address or discuss that any employees may be exempted from security awareness training.

### Recommendation

The ITSD update its security awareness training policy to require oversight procedures for CE security awareness training to ensure required trainings are being completed, and clarify whether CEs are allowed to exempt certain employees from training requirements.

### Auditee's Response

*The ITSD's written response indicates it agrees with this recommendation. The ITSD's full response is included as Appendix A.*

## 2. Non-Consolidated Entity Training and Phishing Testing Weaknesses

Four of 16 non-consolidated entities (NCEs)<sup>11</sup> do not provide or obtain ongoing security awareness training for their employees. In addition, 9 of 16 NCEs do not perform or obtain phishing testing on their employees. The 4 NCEs that do not provide security awareness training to their employees are also included in the 9 entities that do not do phishing testing. As a result of these weaknesses, state resources such as data, systems, and/or monetary funds are at increased risk of loss or exposure.

Training not provided

Four of 16 NCEs do not provide or obtain ongoing security awareness training for their employees. Reasons for not providing security training varied across these entities, including decisions made by previous administrations, technical difficulties accessing the ITSD's training system, and budget limitations. These reasons reflect a general lack of priority of such training.

<sup>9</sup> ITSD Office of Cyber Security, Policy OCS-001003, *Information Security Awareness, Training, and Education Policy*, May 2023

<sup>10</sup> According to ITSD officials, this policy was rescinded because it was issued without proper Office of Administration management approval.

<sup>11</sup> The State Auditor's Office was excluded from this analysis to ensure we remained independent on this audit, and therefore, is not included in the count of NCEs in the report.

## Statewide Security Awareness Training Management Advisory Report - State Auditor's Findings

The remaining 12 NCEs either created their own training content, or contracted for the training. Some leveraged the same vendor and contract used by the ITSD for its CEs. Others preferred different vendors for their own unique operational, technical, and/or budgetary considerations.

The 16 NCEs are individually responsible for all information technology-related decisions and tasks to support their operations and employees. Although the NCEs are structurally independent from the ITSD, many NCEs remain in communication with (and sometimes enter selective coordination with) the ITSD to obtain knowledge and enhance operations. The ITSD makes itself available to NCEs for consulting and direct support.

The NCEs are not required to follow ITSD policy or leverage its efforts. However, ITSD's existing cyber security training policy for CEs appears to be an appropriate starting point for NCEs when developing policies for their respective entities.

### Phishing testing not performed

Nine of 16 NCEs do not perform phishing<sup>12</sup> testing on their employees as recommended by the National Institute of Standards and Technology (NIST). According to the NIST, entities should employ techniques to increase the security awareness of users, which could include practical social engineering exercises like phishing testing to "collect information, gain unauthorized access, or simulate the adverse impact of opening malicious email attachments."<sup>13</sup> Phishing is a common cybercrime that can result in identity theft, financial loss, and/or data exposure. Employers, either directly or through vendors, can perform phishing testing on employees to securely simulate real phishing, improve the entity's resilience, and detect additional training needs.

Entities not performing phishing testing provided several flawed reasons for not performing such testing. One entity cited the use of preventive controls, such as email filtering, and believed such controls made phishing testing unnecessary. However, while such controls can support employee-involved security awareness efforts, they are not a replacement for them. Several entities also expressed an incorrect belief that the ITSD would not provide phishing testing to NCEs. However, based on discussions with ITSD

---

<sup>12</sup> Phishing is a cybercrime in which a target or targets are contacted by email, telephone, or text message by a phisher, who is someone posing as a legitimate contact or institution. The phisher lures targets, often by creating a sense of urgency, into providing sensitive data such as personally identifiable information, passwords, and/or financial details. The phisher then uses the information to access important accounts and/or perform other unauthorized actions that can circumvent the target's existing internal controls.

<sup>13</sup> NIST, Special Publication 800-53 Revision 5, *Security and Privacy Controls for Information Systems and Organizations*, p. 60-61, <<https://nvlpubs.nist.gov/nistpubs/SpecialPublications/NIST.SP.800-53r5.pdf>>, accessed December 4, 2023.

---

## Statewide Security Awareness Training Management Advisory Report - State Auditor's Findings

---

personnel, NCEs are welcome to leverage its phishing testing efforts. This may reflect a no cost option that resolves another entity's concern over budget limitations.

Most of the remaining 7 NCEs contracted with vendors to perform phishing testing on their employees.

### Recommendation

NCEs not performing security awareness training and phishing testing should consider the ITSD's security awareness training policy and phishing testing efforts and establish policies and procedures to ensure training and testing are completed regularly for their employees. NCEs not currently providing security training or phishing testing should consider using ITSD as a resource to implement such procedures.

### Auditee's Response

*Due to the nature of this finding, and to preserve the anonymity of the relevant NCEs, we will not present the views of responsible officials for this recommendation.*

*Although the ITSD is not the responsible official for this finding, we also discussed the finding with the ITSD. The ITSD expressed interest in assisting the NCEs, and reaffirmed the NCEs are welcome to leverage its security awareness training and phishing testing efforts. This general discussion did not specify terms, make guarantees, or change the degrees of authority between the ITSD and the NCEs.*

March 22, 2024

Honorable Scott Fitzpatrick  
Missouri State Auditor  
P.O. Box 869  
Jefferson City, MO 65102

Dear State Auditor Fitzpatrick,

We have reviewed the findings from your office's audit of Statewide Security Awareness Training.

ITSD agrees with the Recommendation on page 8: "The ITSD update its security awareness training policy to require oversight procedures for CE security awareness training to ensure required trainings are being completed and clarify whether CEs are allowed to exempt certain employees from training requirements." We will assess whether enhancements to existing policies or adding a new policy is appropriate. We will also address oversight and a variance process for cyber security awareness training.

A noteworthy addition to the ITSD security portfolio is the KnowBe4 platform. ITSD added this platform after commencement of the audit, and it is already in use. The platform's additional capabilities include more granular reporting within agencies to track and notify employees and members of management regarding security awareness training engagement. These features of the KnowBe4 platform align well with the findings and recommendations of this audit.

Best wishes,

John Laurent  
Acting CIO  
Office of Administration Information Technology Service Division

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions, other than cities, towns, and villages, required to file a financial report under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office shall notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Due to different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 19 political subdivisions required to file a financial report by February 29, 2024, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in February 2024, after their filing deadline. The filing status for these 48 entities is presented in summary on page 3 and by individual entity in Appendixes B to E.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is stylized, with the first letters of the first and last names being capitalized and prominent.

Scott Fitzpatrick  
State Auditor

# Monthly Report on Political Subdivision Filings

## February 2024

### Executive Summary

---

#### **Executive Summary**

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

This report includes the filing status for the 19 political subdivisions, other than cities, towns, and villages, with a fiscal year end of August 31, 2023. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 19 political subdivisions, 11 filed an annual financial report timely.

This report also includes the filing status for 48 political subdivisions, other than cities, towns, and villages, that filed their financial report in February 2024, after their filing deadline.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by February 29, 2024, under Section 105.145, RSMo, and 15 CSR 40-3.030 and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) shall notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO shall notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Due to different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 6 cities, 1 town, and 4 villages is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in February 2024, after their filing deadline. The filing status for these 20 cities and 8 villages is presented in summary on page 4 and by individual entity in Appendixes B to E.

Scott Fitzpatrick  
State Auditor

# Monthly Report on Municipal Court and Revenue Filings

February 2024

## Executive Summary

---

### Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedure to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. Rule 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires the SAO to notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359, RSMo, and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and a mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 6 cities, 1 town, and 4 villages with a fiscal year end of August 31, 2023, whose financial report was due by February 29, 2024. Of the 11 municipalities, 5 filed the financial report timely. Of the 9 municipalities required to file an addendum, 2 filed timely. Of the 2 municipalities required to file a certification, 1 filed timely.

Monthly Report on Municipal Court and Revenue Filings  
February 2024  
Executive Summary

---

This report includes the filing status for 20 cities and 8 villages that filed at least one of the items (financial report, addendum, or certification) in February 2024, after their filing deadline. Of these municipalities, 22 filed an annual financial report, 5 filed an addendum, and 6 filed a certification.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
Jefferson City, Missouri

Section 513.653.1, RSMo, requires law enforcement agencies involved in using the federal forfeiture system under federal law to file a copy of the federal form entitled "ACA Form - Equitable Sharing Agreement and Certification" regarding federal seizures and the proceeds thereof with the State Auditor's Office. Although Section 513.653.1, RSMo, only requires my office to receive these reports, we compiled the information the law enforcement agencies filed with us. We have not audited the forms submitted and, accordingly, do not express an opinion or any other form of assurance on them, including whether or not an agency is in compliance with the statute. The primary objectives of this compilation were to:

1. Identify the reporting status of law enforcement agencies.
2. Summarize the information reported.

Conclusions regarding compliance cannot be made for law enforcement agencies that did not submit a form.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is stylized, with the first letters of the first and last names being prominent.

Scott Fitzpatrick  
State Auditor

## Executive Summary

---

### Executive Summary

Section 513.653, RSMo, requires law enforcement agencies involved in using the federal forfeiture system under federal law to annually file a copy of the federal form entitled "ACA Form - Equitable Sharing Agreement and Certification" regarding federal seizures and the proceeds received therefrom with the State Auditor's Office (SAO) by February 15th for the previous calendar year. The law provides that any law enforcement agency that intentionally or knowingly fails to comply with the reporting requirement shall be ineligible to receive state or federal funds that would otherwise be paid to such agency for law enforcement, safety, or criminal justice purposes.

The U.S. Departments of Justice and Treasury publication, *Guide to Equitable Sharing for State, Local, and Tribal Law Enforcement Agencies*, states "the Department of Justice and Department of Treasury Asset Forfeiture Programs are, first and foremost, law enforcement programs. They remove the tools of crime from criminal organizations, deprive wrongdoers of the proceeds of their crimes, recover property that may be used to compensate victims, and deter crime." Any state or local law enforcement agency that directly participates in an investigation or prosecution resulting in a federal forfeiture may request an equitable share of the net proceeds of the forfeiture. Equitably shared funds must be used for law enforcement purposes, except as noted in the publication, and must increase or supplement the resources of the receiving law enforcement agency. In addition to reporting requirements under state law, there are also various program mandated accounting, reporting, and audit requirements.

To determine the law enforcement agencies to notify of the required filing with the SAO, we requested information from the Missouri Department of Public Safety (DPS). The DPS compiled a list of law enforcement agencies using information from the Peace Officer Standards and Training program and the Justice Assistance Grants distribution lists. The SAO notified the listed agencies of the requirement to submit a copy of the required form if the agencies participated in the federal forfeiture system. According to DPS personnel, the list does not represent a complete list of all agencies, but includes all agencies with commissioned officers or drug task forces receiving funding from the DPS.

The list we received from the DPS included 644 agencies. An additional agency, not included on the list provided by the DPS, filed a report with the SAO. Another agency, not included on the list provided by the DPS, did not file a report with the SAO but had an ending balance in the prior year. Officials from 14 political subdivisions associated with agencies on the list indicated those agencies were not in operation during 2023. Those agencies are identified on Appendix C. This report indicates agencies that filed copies of the form by February 29, 2024.

---

## Compilation of 2023 Criminal Activity Forfeiture Act Seizures Executive Summary

---

The following table summarizes these reports.

Reporting Status	Number	Percentage
Number of agencies reporting (Appendix A and B)	124	19.20
Number of agencies not reporting (Appendix C)	522	80.80
Total Possible Reports	646	100.00

A total of 124 agencies filed a copy of the federal form with the SAO. These agencies are identified on Appendixes A and B.

Of the 644 agencies included in the list provided by the DPS, 521 did not provide a copy of the form. Agencies were not required to provide a copy of the form if they did not participate in the federal forfeiture system. These agencies, plus the agency that that was not on the DPS list but had a prior year balance, are identified on Appendix C.

Conclusions regarding compliance cannot be made for non-reporting agencies. This compilation work is not an audit and, as such, no verification was performed as to whether these agencies did or did not participate in the federal forfeiture system.

A Officials from the political subdivision reported this law enforcement agency did not operate in 2023.

B The law enforcement agency reported an ending balance for 2022, but did not file a report for 2023.

C The law enforcement agency was not on the list provided by the DPS, but had an ending balance for 2022.

\* The law requires filing if an agency participates in the federal forfeiture system. If these agencies did not participate, the lack of filing a report does not constitute noncompliance.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

To the County Commission  
and  
Officeholders of Phelps County, Missouri

The Office of the State Auditor contracted for an audit of Phelps County's financial statements for the 2 years ended December 31, 2022, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by CliftonLarsonAllen, LLP, is attached.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive style with a large, stylized "S" and "F".

## INDEPENDENT AUDITORS' REPORT

County Commission  
Phelps County  
Rolla, Missouri

### ***Report on the Audit of the Financial Statements***

#### ***Opinion***

We have audited the accompanying financial statements of Phelps County, Missouri (the County), which comprise the Statement of Receipts, Disbursements, and Changes in Cash and Investment Balances – All Governmental Funds – Regulatory Basis and Statement of Assets and Liabilities Arising from Cash Transactions – Fiduciary Funds – Regulatory Basis as of December 31, 2022 and 2021, and the related Comparative Statements of Receipts, Disbursements, and Changes In Cash and Investment Balances – Budget and Actual – All Governmental Funds – Regulatory Basis for the years then ended and the related notes to the financial statements.

#### ***Unmodified Opinion on Regulatory Basis of Accounting***

In our opinion, the financial statements referred to above present fairly, in all material respects, the Statement of Receipts, Disbursements, and Changes in Cash and Investment Balances – All Governmental Funds – Regulatory Basis and Statement of Assets and Liabilities Arising from Cash Transactions – Fiduciary Funds – Regulatory Basis of the County as of December 31, 2022 and 2021, and the respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the financial reporting provisions of Missouri law described in Note 1.

#### ***Adverse Opinion on U.S. Generally Accepted Accounting Principles***

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2022 and 2021, or changes in financial position for the years then ended.

#### ***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the

County, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles***

As described in Note 1 of the financial statements, the financial statements are prepared by the County on the basis of the financial reporting provisions of Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of the State of Missouri. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Governmental Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Governmental Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of

expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

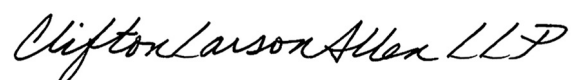

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### *Supplementary Information*

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the County's financial statements. The schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the financial statements. The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the financial statements as a whole on the basis of accounting described in Noted 1.

#### ***Other Reporting Required by Government Auditing Standards***

In accordance with Government Auditing Standards, we have also issued our report dated March 18, 2024, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the County's internal control over financial reporting and compliance.

**PHELPS COUNTY  
ROLLA, MISSOURI  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022 AND 2021**

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Phelps County, Missouri (County), is governed by a three-member board of commissioners. In addition to the three board members, there are 11 elected Constitutional Officers: Assessor, Circuit Clerk, Collector, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder, Sheriff, Surveyor and Treasurer.

As discussed further in Note 1, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

**A. Reporting Entity**

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include property tax assessments and collections, state/county courts administration, recording of instruments, public safety, emergency planning, road and bridge construction and maintenance, health and welfare services, and election services.

The financial statements referred to above include only the primary government of Phelps, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

**B. Basis of Presentation**

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a statement of receipts, disbursements and changes in cash and investment balances – all governmental funds, a comparative statement of receipts, disbursements and changes in cash and investment balances – budget and actual – all governmental funds, and a statement of assets and liabilities arising from cash transactions – fiduciary funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. Following are fund types used by the County.

**PHELPS COUNTY  
ROLLA, MISSOURI  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022 AND 2021**

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**B. Basis of Presentation (Continued)**

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

Fiduciary Fund Types

Custodial funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds, or other governmental units. Fiduciary funds are accounted for and reported similar to the governmental funds. These funds account for activities of collections for other taxing units by the Collector of Revenue and other fiduciary operations.

**C. Basis of Accounting**

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America.

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, bonds, and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financial statements would be presented on the accrual basis of accounting.

**PHELPS COUNTY  
ROLLA, MISSOURI  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022 AND 2021**

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**D. Budget and Budgetary Accounting**

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 of the Missouri Revised Statutes (RSMo), the County adopts a budget for each governmental fund.
2. On or before January 15, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their offices or departments for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.
4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.
5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.
7. Budgets are prepared and adopted on the regulatory basis of accounting. State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

See State Compliance Report for findings related to budgetary requirements.

**PHELPS COUNTY  
ROLLA, MISSOURI  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022 AND 2021**

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**E. Property Taxes**

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar years 2022 and 2021, for purposes of taxation was:

	2022	2021
Real Estate	\$ 527,782,150	\$ 524,368,460
Personal Property	167,198,231	132,341,376
Railroad and Utilities	33,632,724	30,023,423
Total	<u>\$ 728,613,105</u>	<u>\$ 686,733,259</u>

The approved tax levies per \$100 of assessed valuation of tangible taxable property, for the years ending December 31, 2022 and 2021 are as follows:

	2022	2021
General Revenue	\$ 0.0926	\$ 0.0978
Road and Bridge	0.0968	0.0994
Senate Bill 40 Board	0.0686	0.0685
Total	<u>\$ 0.2580</u>	<u>\$ 0.2657</u>

**F. Cash Deposits and Investments**

Deposits and investments are stated at cost. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of 90 days or less, if applicable. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in the notes to the financial statements.

**PHELPS COUNTY  
ROLLA, MISSOURI  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022 AND 2021**

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**G. Interfund Transactions**

Legally required transfers are reported as “transfers in” by the recipient fund and as “transfers out” by the disbursing fund.

**NOTE 2 DEPOSITS AND INVESTMENTS**

The County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. County investments are nonnegotiable certificates of deposit. Each fund type's portion of this pool is displayed as "Cash and Investments" under each fund's caption.

**Deposits**

Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. The total bank balance as of December 31, 2022 and 2021 was insured through the Federal Deposit Insurance Corporation and pledged collateral.

**Summary of Carrying Values**

The carrying values of cash and investments in governmental and custodial funds are included in the financial statements at December 31 as follows:

	<u>2022</u>	<u>2021</u>
<b>Cash and Investments for Governmental Funds:</b>		
Cash	\$ 11,895,371	\$ 15,376,950
Investments	9,705,000	4,705,000
Total Governmental Cash and Investments	<u>\$ 21,600,371</u>	<u>\$ 20,081,950</u>
 <b>Cash and Investments for Fiduciary Funds:</b>		
Cash	<u>\$ 21,889,317</u>	<u>\$ 22,204,502</u>
Investments	-	-
Total Fiduciary Cash and Investments	<u>\$ 21,889,317</u>	<u>\$ 22,204,502</u>

**Investment Interest Rate Risk**

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

**PHELPS COUNTY  
ROLLA, MISSOURI  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022 AND 2021**

**NOTE 3 LONG-TERM LIABILITIES**

Drawdown Loan

In August 2022 the County entered into an agreement for the purchase of land and construction of a new County law enforcement Center. The loan agreement is delivered as a "drawdown loan." Therefore, as construction costs are incurred the County will draw down loan proceeds to finance land acquisition, construction, and other project costs. The aggregate purchase price is not to exceed \$9,000,000, with \$6,600,000 allocated to the tax-exempt financing and \$2,400,000 allocated to taxable financing. Each draw on the lease will be split ratably between the tax-exempt and the taxable Portions (73.33% to the tax-exempt and 26.67% to the taxable portion). The interest rate on the tax exempt and taxable borrowings is 4.00% and 5.00%, respectively. Total annual debt service payments on the tax exempt and taxable portions are \$887,653 and \$337,656, respectively. Debt service payments on the lease purchase agreement is scheduled to commence in February 2024 and the loan matures in August 2032.

At December 31, 2022, the County had drawn down a total of \$69,070. A schedule of future lease payments for the Drawdown Loan is omitted because the total proceeds drawn down to finance land and construction has not been determined.

Finance Purchases

In August and December 2018, the County entered into four non-cancelable lease agreements for four motor graders, under which the County could purchase the motor graders at the end of the lease agreements. Each agreement calls for seven annual payments of \$25,676 ending in 2024.

The following represents long-term liability balances and activity of the County for the years ending December 31, 2022 and 2021:

	Balance 2021	Additions	Retirement	Balance 2022
Construction Loan	\$ -	\$ 69,070	\$ -	\$ 69,070
Lease Grader	308,112	-	(102,704)	205,408
Total	<u>\$ 308,112</u>	<u>\$ 69,070</u>	<u>\$ (102,704)</u>	<u>\$ 274,478</u>

	Balance 2020	Additions	Retirement	Balance 2021

Total	<u>\$ 4,227,579</u>	<u>\$ (4,227,579)</u>	<u>\$ 2,409,814</u>	<u>\$ (2,409,814)</u>

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them, to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

**PHELPS COUNTY  
ROLLA, MISSOURI  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022 AND 2021**

**NOTE 5    LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS)**

**Plan Description**

The County's defined benefit pension plan provides certain retirement, disability, and death benefits to plan members and beneficiaries. The County participates in the Missouri Local Government Employees Retirement System (LAGERS). LAGERS is an agent multiple-employer, statewide public employee pension plan established in 1967 and administered in accordance with Sections 70.600-70.755 RSMo. As such, it is LAGERS responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and is tax exempt. The responsibility for the operations and administration of LAGERS is vested in the LAGERS' board of trustees consisting of seven persons. LAGERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by accessing the LAGERS website at [www.molagers.org](http://www.molagers.org).

**Benefits Provided**

LAGERS provides retirement, death, and disability benefits to employees of participating political subdivisions. All benefits vest after five years of credited service. Employees who retire on or after age 60 (55 for police and fire) with five or more years of service are entitled to an allowance for life based upon the benefit program then in effect for their political subdivision. Employees may retire with an early retirement benefit with a minimum of five years of credited service and after attaining age 55 (50 for police and fire) and receive a reduced allowance.

Benefit terms provide for annual post-retirement adjustments to each member's retirement allowance subsequent to the member's retirement date. The annual adjustment is based on the increase in the Consumer Price Index and is limited to 4% per year.

**Contributions**

The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by LAGERS. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance an unfunded accrued liability. Full-time employees of the employer contribute 4% of their gross pay to the pension plan. Employer contribution rates are 6.4% (General) and 8.5% (Police) of annual covered payroll.

For the years ended December 31, 2022 and 2021, the County paid \$495,148 and \$446,515 to LAGERS, respectively.

**PHELPS COUNTY  
ROLLA, MISSOURI  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022 AND 2021**

**NOTE 6 COUNTY EMPLOYEES' RETIREMENT FUND (CERF)**

**Plan Description**

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 RSMo. The board of directors consists of 11 members, 9 of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the governor of Missouri. The board of directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multi-employer retirement system for each county in the state of Missouri, except counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the LAGERS; and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system. CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after eight years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of eight years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55.

Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

CERF issues audited financial statements. Copies of these statements may be obtained from the board of directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

**PHELPS COUNTY  
ROLLA, MISSOURI  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022 AND 2021**

**NOTE 6 COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (CONTINUED)**

**Contributions**

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining eight years of creditable service, accumulated employee contributions are refunded to the employee.

The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. The County remitted to CERF \$353,890 and \$365,002, respectively, for the years ended December 31, 2022 and 2021.

In addition, the following fees and penalties prescribed under Missouri law are required to be collected and remitted to CERF by counties covered by the plan:

- Late fees on filing of real estate and personal property tax declarations.
- Twenty dollars on each merchant and manufacturer's license issued.
- Six dollars on each document recorded or filed with county recorders of deeds, with an additional one dollar on each document recorded.
- Five-ninths of the fee on delinquent property taxes.
- Interest earned on investment of the above collections prior to remittance to CERF.

**PHELPS COUNTY  
ROLLA, MISSOURI  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022 AND 2021**

**NOTE 7 PROSECUTING ATTORNEY RETIREMENT FUND**

In accordance with Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the state of Missouri is responsible for administration of this plan. The County has contributed \$11,628 and \$11,638, respectively, for the years ended December 31, 2022 and 2021.

**NOTE 8 CLAIMS, COMMITMENTS, AND CONTINGENCIES**

**Litigation**

The County is subject to various claims and legal proceedings covering a wide range of matters in the ordinary course of its activities. Management believes that any liability that may ultimately result from the resolution of these matters will not have a material adverse effect on financial condition of the County.

**Compensated Absences**

The County provides employees four hours of sick leave per biweekly pay period with no limit on the amount that can be accrued. Upon termination, employees will not be compensated for any unused sick time. Vacation time will accrue at a rate between 10 and 20 days per year depending on length of employment. Beginning in 2010, the vacation carryover into the following years was limited to one year's accrual based on an employee's length of service. However, employees with balances in excess of one year's accrual at the time of adoption in 2010 were allowed to retain those balances. Upon termination, employees will be paid for any unused vacation.

**Federal and State Assisted Programs**

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

**NOTE 9 RISK MANAGEMENT**

The County is exposed to various risks of losses related to torts; theft of damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

**PHELPS COUNTY  
ROLLA, MISSOURI  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022 AND 2021**

**NOTE 9 RISK MANAGEMENT (CONTINUED)**

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo.). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this fund, a nonprofit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

**PHELPS COUNTY  
ROLLA, MISSOURI  
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
DECEMBER 31, 2022 AND 2021**

**NOTE 1 BASIS OF PRESENTATION**

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of Phelps County MO (the County) under programs of the federal government for the years ended December 31, 2022 and 2021. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the County, it is not intended to and does not present the financial position or changes in net position of the County.

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles in the Uniform Guidance, with the exception of ALN 21.019, which follows criteria determined by the Department of Treasury for allowability of costs. Under these principals, certain types of expenditures are not allowable or are limited as to reimbursement.

**NOTE 3 INDIRECT COST RATE**

The County has not elected to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL  
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

County Commission  
Phelps County  
Rolla, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of Phelps County, as of and for the years ended December 31, 2022 and 2021, and the related notes to the financial statements, which collectively comprise Phelps County's basic financial statements, and have issued our report thereon dated March 18, 2024. We expressed an adverse opinion on the financial statements because the financial statements are prepared on the basis of financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America. However, the financial statements were found to be fairly stated on the regulatory basis of accounting, in accordance with regulatory reporting requirements established by the state of Missouri.

***Report on Internal Control Over Financial Reporting***

In planning and performing our audit of the financial statements, we considered Phelps County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Phelps County's internal control. Accordingly, we do not express an opinion on the effectiveness of Phelps County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We identified a certain deficiency in internal controls, described in the accompanying schedule of findings and questioned costs as item 2022-001 that we consider to be a significant deficiency.

### ***Report on Compliance and Other Matters***

As part of obtaining reasonable assurance about whether Phelps County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances on noncompliance or other matters that are required to be reported under Government Auditing Standards.

### ***Phelps County's Response to Findings***

*Government Auditing Standards* requires the auditor to perform limited procedures on Phelps County's response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. Phelps County's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

### ***Purpose of This Report***

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in cursive script that reads "CliftonLarsonAllen LLP".

**CliftonLarsonAllen LLP**

St. Louis, Missouri  
March 18, 2024

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR  
FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE  
REQUIRED BY THE UNIFORM GUIDANCE**

County Commission  
Phelps County  
Rolla, Missouri

**Report on Compliance for Each Major Federal Program**

***Opinion on Each Major Federal Program***

We have audited Phelps County's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Phelps County's major federal programs for the years ended December 31, 2022 and 2021. Phelps County's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, Phelps County complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2022 and 2021.

***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Phelps County and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Phelps County's compliance with the compliance requirements referred to above.

***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Phelps County's federal programs.

### ***Auditors' Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Phelps County's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Phelps County's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Phelps County's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of Phelps County's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Phelps County's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### ***Other Matters***

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as item 2022-002. Our opinion on each major federal program is not modified with respect to these matters.

*Government Auditing Standards* requires the auditor to perform limited procedures on Phelps County's response to the noncompliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. Phelps County's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

## Report on Internal Control Over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we did identify a certain deficiency in internal control over compliance that we consider to be a material weakness.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2022-002 to be a material weakness.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

*Government Auditing Standards* requires the auditor to perform limited procedures on Phelps County's response to the internal control over compliance findings identified in our audit described in the accompanying schedule of findings and questioned costs. Phelps County's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

***Section II – Financial Statement Findings***

---

**2022-001      SEFA Accuracy**

**Type of Finding:** Significant Deficiency in Internal Control over Compliance

**Criteria:** Title 2 U.S. *Code of Federal Regulations* Part 200, requires auditees to prepare an accurate SEFA containing awards expended, program title and assistance listing number, award number, name of the Federal agency, and name of the pass-through entity.

**Condition:** When performing a reconciliation of the draft Schedule of Expenditures of Federal Awards (SEFA) provided by the County to the actual expenditures, it was noted that the draft schedule of federal expenditures was incorrect and did not reflect actual expenditures but instead was based upon budgeted expenditures.

**Effect:** Federal Expenditures on the SEFA were incorrect.

**Cause:** The County does not have a process to reconcile the SEFA to actual expenditures incurred.

**Repeat Finding:** This is a repeat finding per finding 2020-001.

**Recommendation:** Annually, County management should perform a reconciliation of the SEFA to final expenditures.

**Views of Responsible Officials:** There is no disagreement with the audit finding.

***Section III – Federal Award Findings***

---

<b>2022-002</b>	<b>Suspension and Debarment</b>
<b>Federal Agency</b>	U.S. Department of Treasury
<b>Federal Program Name</b>	COVID-19 Coronavirus State and Local Fiscal Recovery Effort
<b>Assistance Listing Number</b>	21.027
<b>Federal Award Identification Number and Year:</b>	N/A
<b>Award Period</b>	2022
<b>Pass-through Entity</b>	n/a
<b>Questioned Costs</b>	None
<b>Type of Finding</b>	Material Weakness in Internal Control over Compliance, Other Matters
<b>Criteria or Specific Requirement</b>	2 CFR 200.303, requires that non-federal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal statutes, regulations, and the terms and conditions of the federal award. Effective internal controls should include procedures in place to ensure the required certifications for covered contracts and subawards are received, documented, and contracts are not made with a debarred or suspended party.
<b>Condition</b>	During our testing of five covered transactions, we noted all vendors tested did not have proper supporting documentation for suspension and debarment procedures for vendors.
<b>Context</b>	Procurement was direct and material to the Coronavirus State and Local Fiscal Recovery Effort. As a result, a total of five contractors were subject to the suspension and debarment requirements. The County did not perform the suspension and debarment procedures for any of the contracts subject to the suspension and debarment requirements.
<b>Cause</b>	The County has not designed and implemented internal controls to ensure compliance with suspension and debarment requirements outlined.
<b>Effect</b>	Federal funding could be spent on organizations that are suspended or disbarred.

**PHELPS COUNTY  
ROLLA, MISSOURI  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
YEARS ENDED DECEMBER 31, 2022 AND 2021**

<b>Recommendation</b>	We recommend the County implement internal control to ensure that suspension and debarment assessment are performed during the procurement and contracting phase. In addition, sufficient documentation should be retained to evidence suspension and debarment is performed.
<b>Repeat Finding</b>	No
<b>Views of Responsible Officials</b>	There is no disagreement with the audit finding.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions, other than cities, towns, and villages, required to file a financial report under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office shall notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Due to different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 31 political subdivisions required to file a financial report by January 31, 2024, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in January 2024, after their filing deadline. The filing status for these 35 entities is presented in summary on page 3 and by individual entity in Appendixes B to F.

A handwritten signature in black ink, reading "Scott Fitzpatrick". The signature is written in a cursive, flowing style.

Scott Fitzpatrick  
State Auditor

## January 2024

### Executive Summary

---

#### **Executive Summary**

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

This report includes the filing status for the 31 political subdivisions, other than cities, towns, and villages, with a fiscal year end of July 31, 2023. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 31 political subdivisions, 25 filed an annual financial report timely.

This report also includes the filing status for 35 political subdivisions, other than cities, towns, and villages, that filed their financial report in January 2024, after their filing deadline.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by January 31, 2024, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180. No cities, towns, or villages had a fiscal year end of July 31, 2023; therefore, no financial reports, addendums, or certifications were due by January 31, 2024.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) shall notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO shall notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Due to different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in January 2024, after their filing deadline. The filing status for these 55 cities, 1 town, and 10 villages is presented in summary on page 4 and by individual entity in Appendixes A to D.

Scott Fitzpatrick  
State Auditor

# Monthly Report on Municipal Court and Revenue Filings

January 2024

## Executive Summary

---

### Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedure to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. Rule 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires the SAO to notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359, RSMo, and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and a mandatory ballot measure to dissolve the political subdivision.

No cities, towns, or villages had a fiscal year end of July 31, 2023; therefore no financial reports, addendums, or certifications were due by January 31, 2024.

Monthly Report on Municipal Court and Revenue Filings  
January 2024  
Executive Summary

---

This report includes the filing status for 55 cities, 1 town, and 10 villages that filed at least one of the items (financial report, addendum, or certification) in January 2024, after their filing deadline. Of these municipalities, 52 filed an annual financial report, 22 filed an addendum, and 7 filed a certification.

## Missouri State Auditor

### Iron County

Report No. 2024-028

April 2024

[auditor.mo.gov](https://auditor.mo.gov)

# CITIZENS SUMMARY

## Findings in the audit of Iron County

### County Collector's Controls and Procedures

The County Collector incorrectly withheld 2 percent on all real and personal property taxes collected rather than withholding the allowed 1 percent. As a result, the various political subdivisions did not receive approximately \$84,000 that was owed to them. The County Collector did not prepare and file annual settlements for the years ended February 28 (29), 2019, through 2023, in violation of state law. The County Clerk did not use the County Collector's tax book amounts to prepare the delinquent tax, land and personal tax, or railroad and utility tax aggregate abstracts for 2019 through 2023. The County Collector did not prepare formal bank reconciliations for any of the office's 7 bank accounts during the years ended February 28 (29), 2020, through 2023. In addition, the County Collector did not prepare a monthly list of liabilities for the bank accounts.

### County Commission

The County Commission has not adopted a written policy regarding public access to county records, as required, or developed a log to track Sunshine Law requests. The County Commission did not vote in the open meeting to go into a closed meeting for 3 of the 21 closed meetings held from January 1, 2022, through October 31, 2023. In addition, the County Commission did not make specific reference to the section of law allowing the closure of County Commission meetings when voting to go into a closed meeting for an additional 12 out of the 21 closed meetings held. The county has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. The county spent approximately \$1,800 on gift card and food purchases that may not have been prudent, reasonable, or necessary uses of county funds. In addition, the county does not have written policies on employer-provided food and gifts.

### Sheriff's Compensation

The County Commission authorized mid-term salary increases totaling \$7,954 to the Sheriff, in violation of constitutional provisions.

### Electronic Data Security

The County Assessor, Recorder of Deeds, and Prosecuting Attorney have not established adequate password controls to reduce the risk of unauthorized access to computers and data. The Prosecuting Attorney does not perform periodic testing of backup data. In addition, the County Collector and County Assessor indicated they do testing quarterly; however, as of August 2023, the last test they performed was in October 2022.

### Additional Comments

Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Fair**.\*

\*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical	12
Information	

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

County Commission  
and  
Officeholders of Iron County

We have audited certain operations of Iron County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2022. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

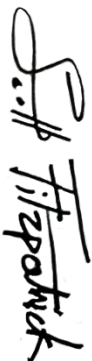

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Iron County.

An audit of the Iron County Sheriff, fulfilling our obligations under Section 29.230, RSMo, is in progress, and any additional findings and recommendations will be included in the subsequent report.

A handwritten signature in black ink, appearing to read "S. Fitzpatrick". The signature is stylized with a large initial "S" and a long horizontal line extending from the end.

## Management Advisory Report

### State Auditor's Findings

---

#### **1. County Collector's Controls and Procedures**

Controls and procedures in the County Collector's office need improvement. The office collected approximately \$10 million in property taxes and other receipts during the year ended February 28, 2023.

##### **1.1 Commissions**

The County Collector incorrectly withheld 2 percent on all real and personal property taxes collected rather than withholding the allowed 1 percent. As a result, the various political subdivisions did not receive the full amount owed to them. The county deposited the commissions in the General Revenue Fund. From December 2022 through January 2023, the County Collector incorrectly withheld approximately \$84,000 from real and personal property taxes that should have been disbursed to the political subdivisions. The County Collector reviewed the 2021 tax year commissions and changed the rate to 2 percent to follow Section 54.280, RSMo. However, this is the statute for township-organized counties and the County Collector indicated she did not realize the county was not a township-organized county and this rate did not apply. The County Clerk and Commission agreed with the Collector's decision, resulting in the County Collector continuing to use the incorrect rate.

Section 52.260(3), RSMo, allows the collector of non-township counties that have levied taxes in excess of \$3 million in a year to collect a fee of 1 percent on all state, county, bridge, road, school, back and delinquent, and all other local taxes collected.

##### **1.2 Annual settlements**

The County Collector did not prepare and file annual settlements for the years ended February 28 (29), 2019, through 2023, in violation of state law. Because the County Collector did not file annual settlements, the County Commission could not verify the County Collector's accounts. The County Collector indicated she was unaware of the statutory requirement to file annual settlements. The County Commissioners indicated they were aware and had inquired about the annual settlements, but the settlements remained unfiled.

To help ensure the validity of tax book charges, collections, and credits, and for the County Clerk and County Commission to properly verify these accounts, the County Collector must file annual settlements. Section 139.160, RSMo, requires the County Collector to annually settle with the County Commission the accounts of all money received from taxes and other sources. In addition, Section 139.190, RSMo, requires the County Commission to carefully and fully examine the annual settlement of the County Collector and the County Clerk to certify the amounts to the state. Such procedures are intended to establish checks and balances related to the collection of property taxes.

## Iron County Management Advisory Report - State Auditor's Findings

### 1.3 Aggregate abstracts

The County Clerk did not use the County Collector's tax book amounts to prepare the delinquent tax, land and personal tax, or railroad and utility tax aggregate abstracts for 2019 through 2023. The County Clerk indicated she did not have access to the County Collector's tax book information and totals due to lack of response from the County Collector's office and used her records to prepare the abstract reports instead. This resulted in inaccurate report entries.

Section 137.295, RSMo, requires the County Clerk to prepare these reports using the County Collector's information and forward them to the Department of Revenue and State Tax Commission upon completion of current and delinquent tax books.

### 1.4 Bank reconciliations and open items

The County Collector did not prepare formal bank reconciliations for any of the office's 7 bank accounts during the years ended February 28 (29), 2020, through 2023. In addition, the County Collector did not prepare a monthly list of liabilities for the bank accounts. The following table lists the bank account balances at February 28, 2023.

Account	Bank Balance
General account	\$ 466,034
Tax maintenance account	12,528
Credit card account	48,432
Protested account no. 1 <sup>1</sup>	1,545,368
Protested account no. 2 <sup>1</sup>	1,581,585
Protested account no. 3 <sup>1</sup>	1,563,922
Protested account no. 4 <sup>1</sup>	1,549,936
Total	\$ 6,767,805

<sup>1</sup>The County Collector maintains each protested tax payment in a separate bank account.

The County Collector stated she performed bank reconciliations; however, they were not documented or retained. In addition, the County Collector indicated she reviewed account balances and outstanding checks but did not prepare open items listings. The County Collector indicated she did not understand all the elements required to complete proper reconciliations of the office's accounts.

Preparing monthly bank reconciliations and lists of liabilities helps ensure receipts and disbursements have been properly handled and recorded, and increases the likelihood errors will be identified and corrected timely.

## Recommendations

- 1.1 The County Collector recalculate tax commissions withheld from real and personal property taxes and correct distributions to the various political subdivisions and the General Revenue Fund. The County Collector should also ensure future commission calculations are accurate.

Iron County  
Management Advisory Report - State Auditor's Findings

- 1.2 The County Collector prepare and file annual settlements in accordance with state law. In addition, the County Commission should ensure the annual settlements are filed and carefully and fully examine the annual settlements to ensure tax book charges and credits are accurately reported.
- 1.3 The County Clerk develop procedures to ensure all aggregate abstract totals are reconciled by both offices before submission to the Department of Revenue and State Tax Commission.
- 1.4 The County Collector prepare monthly bank reconciliations and lists of liabilities and reconcile the lists of liabilities to the reconciled bank balances. Any differences should be promptly investigated and resolved.

## Auditee's Response

1.1 *The County Collector indicated the commissions withheld have already been corrected and she distributed the incorrect withholdings in November 2023. She ensured the correct percent was withheld for the 2023 tax year.*

1.2 *The County Collector agreed she did not prepare or file an annual settlement. She will prepare and file the annual settlement for the year ended February 29, 2024, when the year ends. After that settlement is filed, she will work to complete the reports for the prior years.*

*The County Commission will issue a letter informing the County Collector that the Annual Settlement must be filed on an annual basis using Missouri Department of Revenue Form 205.*

1.3 *The County Collector indicated she has provided what has been asked for.*

*The County Clerk will continue to try to work with the County Collector by documenting any communication and continuing to follow up with her to try and ensure that all aggregate abstracts are reconciled and submitted.*

1.4 *The County Collector indicated she will correct the reconciliation process and ensure any remaining balance is accounted for.*

---

## 2. County Commission

County Commission controls and procedures need improvement.

### 2.1 Sunshine Law public access policy

The County Commission has not adopted a written policy regarding public access to county records, as required, or developed a log to track Sunshine Law requests. A public access policy can identify a person to contact, provide an address to mail such requests, establish fees that may be assessed for providing copies of public records, and require the county to document Sunshine Law requests in a log. The County Clerk and County Commission indicated they were not aware of the requirement for a written public access policy or need for a request log.

Section 610.028, RSMo, requires a written policy regarding release of information under the Sunshine Law. Section 610.023, RSMo, lists requirements for making records available to the public. To ensure compliance with this section, the county should document adequate information in a log to determine if requests are completed timely and all requests are adequately filled. The log information should include the date of the request, a brief description of it, the date it is completed, and any associated costs to fulfill.

### 2.2 Closed meetings

The County Commission did not vote in the open meeting to go into a closed meeting for 3 of the 21 closed meetings held from January 1, 2022, through October 31, 2023. In addition, the County Commission did not make specific reference to the section of law allowing the closure of County Commission meetings when voting to go into a closed meeting for an additional 12 out of the 21 closed meetings held. The County Commission and the County Clerk indicated they were not aware of this requirement as closed meetings rarely occurred in the past.

Section 610.022, RSMo, provides that a meeting or vote may be closed only after the vote of each member on the question of closing the meeting and requires public bodies announce the specific reasons allowed by law for going into a closed session and to enter the reason into the minutes. This section also limits discussion topics and actions in closed meetings to only those specifically announced prior to closure.

### 2.3 Electronic communications policy

The county has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

## Iron County Management Advisory Report - State Auditor's Findings

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.<sup>1</sup>

Development of a written policy to address the use of electronic communications is necessary to ensure all documentation of official business of the county is retained as required by state law. The County Clerk indicated the county had not considered the importance of an electronic communications policy.

### 2.4 Food and gift purchases

The county spent approximately \$1,800 on gift card and food purchases that may not have been prudent, reasonable, or necessary uses of county funds. In addition, the county does not have written policies on employer-provided food and gifts.

During our review of County Commission minutes, we noted approvals of gift card and food purchases. The gift card purchases were approved by the County Commission in October 2022, for up to \$35 each and provided to the full-time employees at a December 7, 2022, Christmas luncheon. The County Clerk indicated the total paid once the gift cards were redeemed was \$1,015. In addition, the luncheon was held at a local restaurant for all county employees, and totaled approximately \$800. The County Clerk explained that, during the luncheon, the County Commission met with all county employees to discuss the year and benefits changes for the upcoming year. While the County Commission provided food may be a prudent use of public funds, the purpose of the luncheon indicating the meeting was for a necessary business purpose was not documented.

The County has not established any guidance or policies about food and gift purchases. Such guidance or policies can have various provisions. For example, the State of Missouri's agency provided food policy only allows for food at official business functions and light refreshments at other agency sponsored activities (e.g., employee retirement and appreciation), but banquets for such activities are not allowed. In addition, the policy requires documentation to support food purchases including (1) purpose, (2) list of participants or estimated number of invitees, and (3) cost of food provided. The State of Missouri also has an agency gift and award policy that allows retirement, service, and other recognition award gifts that are reasonable and

---

<sup>1</sup> Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <<https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>>, accessed December 21, 2023.

## Iron County Management Advisory Report - State Auditor's Findings

primarily represent a token of recognition and not a reward with a cash equivalent, such as a gift card, or a reward of substantial monetary value.

County residents have placed a fiduciary trust in their public officials to spend county revenues in a prudent and necessary manner. Established policies on county provided food and gifts would provide employees necessary guidance and better transparency for citizens about the use of public funds. Additionally, Article VI, Sections 23 and 25 of the Missouri Constitution prevent local governments from granting public money to any private individual, except as otherwise provided by law.

## Recommendations

The County Commission:

- 2.1 Develop a written public access policy, and maintain a public request log or other documentation to help ensure compliance with state law.
- 2.2 Ensure a vote is taken to approve going into a closed meeting and the specific section of law allowing the meeting to be closed is announced publicly and recorded in the meeting minutes.
- 2.3 Work with other county officials to develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.
- 2.4 Ensure all disbursements are a necessary and prudent use of public funds. In addition, the County Commission should establish policies regarding food and gift purchases, if such purchases are considered necessary.

## Auditee's Response

- 2.1 *The County Commission will develop a written public access policy regarding public sunshine law requests. The written policy will be incorporated in the Internal Control Policy Document for all elected officials to follow.*
- 2.2 *The County Commission will ensure that the roll call vote and the specific section of law allowing the meeting to be closed is recorded in the minutes.*
- 2.3 *The County Commission will develop a policy for written records management and retention for county officials to follow. The policy will address electronic communication management and retention to comply with Missouri guidelines.*

## Iron County Management Advisory Report - State Auditor's Findings

2.4 *The County Commission has eliminated the annual meeting of employees and the paid luncheon. Also, the Presiding Commissioner has voluntarily reimbursed the county for all gift cards and meals related to the annual employees' meeting.*

### 3. Sheriff's Compensation

The County Commission authorized mid-term salary increases totaling \$7,954 to the Sheriff in violation of constitutional provisions. The Sheriff took office in 2021 at the salary level approved by the Iron County Salary Commission.

Section 57.317.1(2), RSMo, enacted in 2021, states the sheriff shall receive an annual salary computed based on a percentage of the compensation of an associate circuit judge of the county, with the percentage determined by a statutory schedule using the county's current assessed valuation level. The law indicates if the increase to the Sheriff's salary is less than \$10,000, the increase shall take effect January 1, 2022, but if the salary increase is more than \$10,000, the increase shall be paid equally over a 5-year period. However, Article VII, Section 13 of the Missouri Constitution prohibits an increase in compensation for state, county, and municipal officers during the term of office. Court cases have concluded that to receive additional compensation during a term of office there must be: 1) no existing compensation for the office; 2) new or additional duties extrinsic or not germane to the office; or 3) the mid-term increase must result from the application of a statutory formula for calculating compensation that was in place prior to the individual being elected or taking office. None of those circumstances exist; therefore, the increase to the Sheriff's salary should be effective only for any Sheriff elected and sworn into office after the new salary schedule was authorized.

The County Commission stated it believed it was required to increase the Sheriff's salary due to the change in state law. The County Commission authorized a salary increase for the Sheriff in June 2022, after pending court cases related to the authorizing Senate bill were resolved. The County Commission indicated the county's attorney advised the raise was allowable, but their attorney did not provide the county a written legal opinion to support why this would be the case. The County Commission also authorized an additional salary increase for the Sheriff in January 2023. The Sheriff received salary increases totaling \$7,954 during his term.<sup>2</sup>

### Recommendation

The County Commission discontinue the mid-term salary increases and consider various methods for possible recoupment of money already paid.

<sup>2</sup> Sheriff Burkett resigned effective January 31, 2024. The county discontinued the mid-term salary increase as of December 31, 2023.

Iron County  
Management Advisory Report - State Auditor's Findings

## Auditee's Response

*The County Commission discontinued the mid-term salary increases. The County Commission will notify the former Sheriff of the overpayment in writing with the amount of overpayment and request reimbursement.*

## 4. Electronic Data Security

### 4.1 Passwords

Controls over county computers are not sufficient. As a result, county records are not adequately protected and are susceptible to unauthorized access or loss of data.

The County Assessor, Recorder of Deeds, and Prosecuting Attorney have not established adequate password controls to reduce the risk of unauthorized access to computers and data. Employees in these offices are not required to change passwords periodically. In addition, employee passwords in these offices are not kept confidential. The officeholders indicated they did not recognize the importance of establishing and enforcing password controls in their offices until it was brought to their attention.

Passwords are necessary to authenticate access to computers. The security of computer passwords is dependent upon keeping them confidential. However, since passwords in certain offices are not required to be kept confidential and periodically changed, there is less assurance they are effectively limiting access to computers and data files to only those individuals who need access to perform their job responsibilities.

A similar condition was noted in our prior audit report.

### 4.2 Data backups

The Prosecuting Attorney does not perform periodic testing of backup data. In addition, the County Collector and County Assessor indicated they do testing quarterly; however, as of August 2023, the last test they performed was in October 2022. The officeholders did not realize the ramifications of not testing backups at scheduled intervals or the potential security weakness. Such testing is necessary to ensure the backup process is functioning properly and to ensure all essential data can be recovered.

## Recommendations

The County Commission work with other county officials to:

- 4.1 Require confidential passwords for each employee that contain a minimum number of characters and are periodically changed to prevent unauthorized access to county computers and data.
- 4.2 Ensure backup computer data is tested on a regular, predefined basis.

## Auditee's Response

- 4.1 *The County Commission will issue a letter to all elected officials requiring all confidential passwords for all employees to be periodically changed to prevent unauthorized access to county data.*
- 4.2 *The County Commission will notify elected officials that all backup computer data should be tested on a quarterly basis.*

---

# Iron County

## Organization and Statistical Information

---

Iron County is a county-organized, third-class county. The county seat is Ironton. The county's population was 9,537 in 2020, according to the U.S. Census Bureau.

Iron County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 33 full-time employees and 6 part-time employees on December 31, 2022.

County operations also include the Senate Bill 40 Board.

### Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2023	2022
Jim Scaggs, Presiding Commissioner	\$	34,575
Ben Young, Associate Commissioner		32,368

## Missouri State Auditor

### City of Dixon

Report No. 2024-027

April 2024

[auditor.mo.gov](https://auditor.mo.gov)

# CITIZENS SUMMARY

## Findings in the audit of the City of Dixon

Financial Condition	<p>The financial condition of the city's General Fund has declined, and the Board of Aldermen is not adequately monitoring the city's financial condition, is not always receiving detailed information showing financial data for each fund, and has poor budgeting procedures. During the years ended September 30, 2021, and 2022, disbursements exceeded receipts for the General Fund, and the fund balance has decreased during the 2-year period from \$94,714 on October 1, 2020, to negative \$20,701 on September 30, 2022. For the year ended September 30, 2023, the city projected the General Fund balance to decrease further based on the budgeted receipts and disbursements. In addition, the Board approved a transfer of \$100,000 from the Water Fund to the General Fund that was originally intended as a temporary loan to help maintain the cash balance of the General Fund, although the bond covenants for the city's water and sewer system bonds do not allow earnings from the operation of the system to be diverted to the general governmental functions of the city.</p>
Budgeting and Planning	<p>City officials did not include all the statutorily required elements in the city budgets prepared for the years ending September 30, 2023, and 2022. The Board budgeted deficit fund balances for the General Fund for the years ending September 30, 2023, and 2022. When considering the beginning fund balance and the budgeted receipts and disbursements, the city projected ending fund balances for the General Fund of negative \$116,776 and negative \$61,843 for the years ending September 30, 2023, and 2022, respectively. The Board does not adequately monitor budget-to-actual receipts and disbursements, and actual disbursements exceeded budgeted disbursements for 5 of the 8 city funds during the year ended September 30, 2022. Additionally, city officials have not developed a formal annual maintenance plan for city streets.</p>
Water and Sewer Services	<p>City personnel do not perform monthly reconciliations of total gallons of water billed to gallons of water pumped. A comparison of water usage to water pumped for March 2022, and September 2022, noted an unidentified difference of approximately 39 and 45 percent, respectively, with more water pumped than used (billed). The city has not obtained timely annual audits of its waterworks and sewerage systems as required by state law.</p>
Disbursements	<p>The city has not established policies for the selection of vendors providing professional services, and does not have a formal bidding policy. The city did not always solicit bids or proposals for goods or services received, and did not always obtain written contracts for services received. The city purchased a house and small lot for \$21,000 without obtaining an appraisal to ensure the city paid a reasonable and approximate fair market value for the property.</p>
Payroll and Related Matters	<p>The city's personnel policy does not address how overtime hours are to be calculated and does not specify which employees are entitled to payment for city holidays. The city's payroll processing procedures were insufficient to ensure employees were compensated for overtime in compliance with the Fair Labor Standards Act and to ensure employees were compensated for holidays consistently. Also, the city does not have ordinances establishing the amount for compensation of city officials and employees.</p>

Meeting Minutes, Vacancies of Aldermen, and Personal Financial Disclosures	The Board did not document in the open meeting minutes the specific sections of law allowing the meeting to be closed, discussed some issues in closed meetings that were not allowable under the Sunshine Law, and did not prepare minutes for some closed meetings. The city has not filled the vacant Ward One Alderman position, and Board members did not always file personal financial disclosure statements with the city and the Missouri Ethics Commission as required by state law.
Electronic Data Security	The city does not periodically back up the financial and utility systems data, and did not disable user accounts of terminated city employees.
Capital Assets	The city does not maintain records of its capital assets including buildings, utility system infrastructure, equipment, and other property, and has not developed procedures to identify capital asset purchases and dispositions throughout the year. In addition, city officials do not tag, number, or otherwise identify assets as property of the city, or perform an annual physical inventory of city property.
Electronic Communication Policy	The city has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.
City Library	The city library is governed by the Board of Aldermen because the city does not have a functioning Library Board. Additionally, annual reports have not been filed by the library as required by state law.

In the areas audited, the overall performance of this entity was **Poor**.\*

\*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

---	----

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

To the Honorable Mayor  
and  
Members of the Board of Aldermen  
City of Dixon, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit the City of Dixon. We have audited certain operations of the city in fulfillment of our duties. The scope of our audit included, but was not necessarily limited to, the year ended September 30, 2022. The objectives of our audit were to:

1. Evaluate the city's internal controls over significant management and financial functions.
2. Evaluate the city's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the city, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Dixon.

An additional report, Report No. 2022-134, *City of Dixon*, was issued in December 2022. That audit was performed at the request of the city's Board of Aldermen and was limited to concerns regarding misappropriated money.

A handwritten signature in black ink, reading "S. Fitzpatrick". The signature is stylized, with a large "S" and a cursive "Fitzpatrick".

## Management Advisory Report

### State Auditor's Findings

---

#### **1. Financial Condition**

The financial condition of the city's General Fund has declined, and the Board of Aldermen is not adequately monitoring the city's financial condition, is not always receiving detailed information showing financial data for each fund, and has poor budgeting procedures. In addition, the Board recently used a loan from the Water Fund<sup>1</sup> to help subsidize the General Fund, which is used for general city operations, law enforcement services, municipal court services, trash collection services, and parks.

During the years ended September 30, 2021, and 2022, disbursements exceeded receipts for the General Fund, and the fund balance has decreased during the 2-year period from \$94,714 on October 1, 2020, to negative \$20,701 on September 30, 2022.<sup>2</sup> For the year ended September 30, 2023, the city projected the General Fund balance to decrease further based on the budgeted receipts and disbursements (see Management Advisory Report (MAR) finding number 2.1).

In December 2022, the Board approved a transfer of \$100,000 from the Water Fund to the General Fund originally intended as a temporary loan to help maintain the cash balance of the General Fund. The city has not determined when this loan will be repaid. The bond covenants for the city's water and sewer system bonds do not allow earnings from the operation of the system to be diverted to the general governmental functions of the city. Noncompliance with bond covenants could expose the city to lawsuit.

Financial reports showing fund balances for each fund are not routinely prepared and provided to Board members at Board meetings. Without adequate financial data, the Board cannot properly monitor the balances of the various city funds. In addition, the city's poor budgeting practices and inadequate monitoring procedures, as noted in MAR finding number 2.1, have contributed to the poor financial condition.

It is essential the Board address the financial condition of the General Fund in both the immediate and long-term future. To ensure restricted water and sewer funds are used for their intended purposes, these funds should not be used to subsidize the General Fund. Further, to ensure efficient use of resources, the Board should reduce spending where possible, and monitor detailed financial data that includes cash balances for each fund.

In July 2023, the Board decided to have its municipal ordinance violations heard by an associate circuit judge in Pulaski County, effective in January

---

<sup>1</sup> The Water Fund and Sewer Fund are separate funds but are combined in the city's financial reports as shown in the Organization and Statistical Information section.

<sup>2</sup> This balance combines the September 30, 2022, balances of the General Fund (negative \$11,208) and the CARES Fund (negative \$9,493) because the CARES Fund was closed and its balance transferred to the General Fund.

City of Dixon  
Management Advisory Report - State Auditor's Findings

2024. According to the City Clerk, the city expects approximately \$30,000 in savings annually to the General Fund based on this decision. However, further steps will likely be needed to sufficiently address the financial condition of the General Fund.

## Recommendation

The Board of Aldermen closely monitor the balances of the city's funds, perform immediate and long-term planning, ensure detailed financial data is received monthly, and take necessary steps to improve the financial condition of the General Fund. In addition, the Board of Aldermen should discontinue subsidizing the General Fund with utility money, and make plans to repay the loan from the Water Fund.

## Auditee's Response

*The overall financial condition of the city has improved. City monies are separated into multiple funds based on the purpose and manner in which they are received; these include the General Fund, Water Fund, Sewer Fund, Street Fund, Library Fund, and Debt Services Fund. The Board did not always receive a detailed financial breakdown for each separate fund and sufficiently monitor individual fund balances. While the city's overall financial condition has improved, the balance in the General Fund has declined. The Board will more closely monitor the balances of the city's funds and consider steps to improve the financial condition of the General Fund.*

*The city has in reserve 100 percent of the total amount due on the waterworks/sewerage bonds at this time for the required annual principal and interest payments. Also, Section 250.150, RSMo, states that use of water profits can be transferred to other funds. Consequently, the city does not currently intend to repay the transfer from the Water Fund.*

## Auditor's Comment

In its response, the city indicates the transfer of water profits to other funds is allowed by state law. However, the bond covenants represent a legally binding obligation of the city to the owners of the outstanding bonds and state law specifies such bonds constitute a first lien on the waterworks plant and the income arising therefrom. The city should abide by the terms of the bonds and return the transferred amounts to the Water Fund and make no such future transfer of utility earnings as long as the bonds remain outstanding.

---

## 2. Budgeting and Planning

The city's budgeting and planning procedures need improvement.

### 2.1 Budgets

The Board does not have adequate procedures to prepare or monitor budgets.

#### Preparation

City officials did not include all the statutorily required elements in the city budgets prepared for the years ending September 30, 2023, and 2022. The budgets did not include a budget message, actual or budgeted amounts for the 2 preceding years, the actual beginning and estimated ending cash balances,

## City of Dixon Management Advisory Report - State Auditor's Findings

a budget summary, or balances of the city's indebtedness. City officials indicated they were unaware of these requirements.

Section 67.010, RSMo, and City Code Section 130.020 require an annual budget to be prepared that presents a complete financial plan for the ensuing budget year, and sets specific guidelines for the information to be included in the budget. A complete and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific financial expectations for each area of city operations. It also assists in setting tax levies and utility rates, and informs the public about city operations and current finances.

### Budget deficits

The Board budgeted deficit fund balances for the General Fund for the years ending September 30, 2023, and 2022. When considering the beginning fund balance and the budgeted receipts and disbursements, the city projected ending fund balances for the General Fund of negative \$116,776 and negative \$61,843 for the years ending September 30, 2023, and 2022, respectively. In April 2023 the Board amended the 2023 General Fund budget, and while the budget amendment did not include a projected ending fund balance, the ending balance calculated from the beginning balance and budgeted receipts and disbursements (as amended) was negative \$82,126.

Missouri Constitution, Article VI, Section 26(a), and Section 67.010.2, RSMo, require political subdivisions to ensure that expenditures do not exceed revenue plus any unencumbered fund balance.

### Monitoring

The Board does not adequately monitor budget-to-actual receipts and disbursements, and actual disbursements exceeded budgeted disbursements for 5 of the 8 city funds during the year ended September 30, 2022, as follows:

Fund	Budget	Actual	Actual over Budget
General	\$ 653,336	716,488	63,152
Water	225,404	269,977	44,573
Sewer	245,731	420,603	174,872
Street	86,132	162,706	76,574
Debt Services	79,970	80,420	450

Source: City's report of budgeted and actual disbursements and annual financial statement.

Budget amendments were not prepared for these funds. According to the City Clerk, reports comparing budgeted and actual receipts and disbursements are provided to the Board at each Board meeting, but city officials and the Board did not consider making amendments to the budget.

## City of Dixon Management Advisory Report - State Auditor's Findings

Section 67.040, RSMo, and City Code Section 130.050 require the city keep disbursements within amounts budgeted, but allow for budget increases if the governing body officially adopts a resolution setting forth the facts and reasons. In addition, Section 67.080, RSMo, provides that no disbursements of public money be made unless it is authorized in the budget. Proper monitoring and amending prior to disbursing funds is necessary for the budget to be an effective management tool and to comply with state law.

A similar condition was noted in a prior report, *City of Dixon*, Report No. 2015-007, issued in February 2015. In addition, Report No. 2015-089, *Follow-Up Report On Audit Findings - City of Dixon*, issued in September 2015, reported the status, at that time, as not implemented.

### 2.2 Street maintenance plan

City officials have not developed a formal annual maintenance plan for city streets. During the year ending September 30, 2022, Street Fund disbursements totaled approximately \$163,000.

A formal maintenance plan should be prepared in conjunction with the annual budget and include a description of the streets needing maintenance, the type of work to be performed, an estimate of the quantity and cost of materials needed, the dates such work could begin, the amount of labor required to perform the work, and other relevant information. The plan should be included in the budget message and approved by the Board. In addition, a public hearing should be held to obtain input from city residents.

A formal maintenance plan would serve as a useful management tool and provide greater input into the overall budgeting process. A plan provides a means to continually and more effectively monitor and evaluate the progress made in the repair and maintenance of streets throughout the year. City officials indicated street repairs are performed as needed, and the city was unaware of the importance of developing a formal maintenance plan for its streets.

### Recommendations

The Board of Aldermen:

- 2.1 Prepare annual budgets that contain all information required by state law and city code, discontinue deficit budgeting, and ensure the budgets are adequately monitored and properly amended.
- 2.2 Establish a formal annual street maintenance plan.

### Auditee's Response

- 2.1 *While actual disbursements exceeded budgeted disbursements for 5 funds for the year ended September 30, 2022, as noted above, actual revenues also exceeded the budgeted revenue amounts for those funds during that year as follows:*

City of Dixon  
Management Advisory Report - State Auditor's Findings

<i>Fund</i>	<i>Budget</i>	<i>Actual</i>	<i>Actual over Budget</i>
<i>General</i>	\$ 572,610	686,397	113,787
<i>Water</i>	345,995	403,808	57,813
<i>Sewer</i>	318,000	479,779	161,779
<i>Street</i>	162,000	172,465	10,465
<i>Debt Services</i>	113,943	120,589	6,646

*Also, the Board has begun monitoring the budgets and approved amendments when needed for the years ending September 30, 2023, and 2024.*

*Our budgeting process has improved for the year ending September 30, 2024, and that budget includes information for the prior 2 years along with the current budget. We will ensure future budgets include the required elements and reflect positive projected ending fund balances.*

- 2.2 *The limited income stream available for street repairs allows only for repairs as needed until the street bonds are retired. We will include this information in the budget message for future budgets and consider developing more formal plans when the bonds are retired.*

### 3. Water and Sewer Services

The city did not perform monthly reconciliations of water billed and pumped, and the city has not obtained annual audits as required by state law. The city collected approximately \$730,000 in water and sewer billings during the year ended September 30, 2022.

#### 3.1 Water reconciliations

City personnel do not perform monthly reconciliations of total gallons of water billed to gallons of water pumped. We compared the reports of water usage to water pumped for March 2022 and September 2022 and noted an unidentified difference of approximately 39 and 45 percent, respectively, more water pumped than used (billed). City officials indicated reconciliations were not performed because significant amounts of water were often used by the sewer plant and fire district, neither of which are metered to know how much water they use.

According to the United States Environmental Protection Agency, most states have regulatory policies that set acceptable losses from public water systems at a maximum of between 10 to 15 percent or less.<sup>3</sup> The standard for Missouri established by the Department of Natural Resources is 10 percent.

<sup>3</sup> United States Environmental Protection Agency, *Control and Mitigation of Drinking Water Losses in Distribution Systems*, Appendix A, Table A-2, Selected State Standards for Unaccounted-for Water, page A-3, <https://www.awwa.org/Portals/0/AWWA/Government/WaterLossControl508.pdf>, accessed October 18, 2023.

## City of Dixon Management Advisory Report - State Auditor's Findings

Metering all properties as appropriate and performing monthly reconciliations of gallons of water billed to gallons of water pumped are necessary to help detect significant water loss or other problems and ensure all water usage is properly billed.

### 3.2 Annual audits

The city has not obtained timely annual audits of its waterworks and sewerage systems as required by state law. The annual audit for the year ended September 30, 2021, was completed in July 2023. However, prior to that audit the city had not had an audit of the waterworks and sewerage system since 2014. A city official indicated the city had trouble locating an available auditing firm in previous years, but the city has engaged an auditing firm for the audit of the year ended September 30, 2022.

Section 250.150, RSMo, requires the city to obtain annual audits of the combined waterworks and sewerage system, and the cost of the audit be paid from revenues received from the system. The city is also required to obtain annual audits as a condition of its bond covenants.

### Similar conditions Previously reported

Similar conditions to sections 3.1 and 3.2 were noted in a prior report, *City of Dixon*, Report No. 2015-007, issued in February 2015. In addition, a similar condition to section 3.1 was noted in Report No. 2015-089, *Follow-Up Report On Audit Findings - City of Dixon*, issued in September 2015, and reported the status, at that time, as in progress.

### Recommendations

The Board of Aldermen:

- 3.1 Ensure all properties are metered and monthly reconciliations are performed of gallons of water billed to gallons of water pumped and significant differences are investigated and resolved.
- 3.2 Obtain timely annual audits of the waterworks and sewerage system as required by state law.

### Auditee's Response

- 3.1 *We have implemented the recommendation. The water department is now reporting to the City Collector the water pumped each month. This information is entered into a worksheet that also has the water billed. The percentage of water loss is now calculated. The worksheet has data starting with October 2022. The city meters are now read each month and the city has begun using meters for the sewer plant and fire department.*
- 3.2 *We have engaged a CPA firm to perform audits of the City of Dixon and audits are underway for the years ending September 30, 2023, and 2022.*

City of Dixon  
Management Advisory Report - State Auditor's Findings

## 4. Disbursements

The city has not established policies for the competitive procurement of goods and services, did not always execute contracts for services, and purchased a property without obtaining an appraisal of the property. During the year ended September 30, 2022, the city made non-payroll disbursements totaling approximately \$1.1 million.

### 4.1 Procurement procedures and contracts

The city has not established policies for the selection of vendors providing professional services, and does not have a formal bidding policy. We judgmentally selected and tested 17 expenditures totaling \$226,349 and noted the city did not solicit bids or proposals for 2 vehicles (\$48,825), sewer maintenance (\$8,760), office remodeling services (\$6,630), police equipment (\$4,014), street improvement services (\$3,000), and legal services (\$2,078). Additionally, the city did not obtain written contracts for sewer maintenance, office remodeling, street improvement, and legal services expenditures reviewed. A city official indicated it is often difficult to locate vendors willing and able to provide bids for the city, and the city was unaware that contracts were needed for these services.

Formal bidding procedures for major purchases or services provide a framework for economic management of city resources and help ensure the city receives fair value by contracting with the lowest and/or best bidders. Competitive bidding also helps ensure all parties are given an equal opportunity to participate in city business. Formal bidding procedures should be sufficiently detailed and include requirements for documenting the process of awarding a bid. Soliciting proposals for professional services is a good business practice, helps provide a range of possible choices, and allows the city to make better informed decisions to ensure necessary services are obtained from the best qualified provider after taking expertise, experience, and cost into consideration. In addition, written contracts are necessary to ensure all parties are aware of their duties and responsibilities, prevent misunderstandings, and ensure city money is used appropriately and effectively. Section 432.070, RSMo, requires contracts for political subdivisions to be in writing.

A similar condition was noted in a prior report, *City of Dixon*, Report No. 2015-007, issued in February 2015. In addition, Report, No. 2015-089, *Follow-Up Report On Audit Findings - City of Dixon*, issued in September 2015, reported the status, at that time, as implemented (bidding) and in progress (procurement of services).

### 4.2 Property appraisals

The city purchased a house and small lot without obtaining an appraisal to ensure the city paid a reasonable and approximate fair market value for the property. The property was purchased in May 2023 for \$21,000 with intentions to use the property for commuter parking. City officials indicated they believed the selling price was reasonable and an appraisal was not needed.

City of Dixon  
Management Advisory Report - State Auditor's Findings

Good business practice requires real estate transactions be formally and independently appraised to ensure the price paid is reasonable and approximates fair market value.

## Recommendations

The Board of Aldermen:

- 4.1 Establish formal bidding policies and procedures, periodically solicit proposals for professional services, and ensure the solicitation for bids and proposals and the evaluation and selection of vendors is documented. In addition, enter into written contracts defining services provided and benefits received.
- 4.2 Ensure appraisals are performed for any property considered for purchase.

## Auditee's Response

- 4.1 *The city is currently developing policies and procedures and we will implement the recommendation.*
- 4.2 *This real estate purchase was a one-time purchase and time was of the essence to the seller. There was another party bidding on the property and we matched the party's bid. The Board, which consists of at least one real estate agent, believed the city paid under market value. The Board will consider obtaining appraisals for any future property purchases.*

## 5. Payroll and Related Matters

The city's personnel policies and payroll procedures need improvement and the city did not set the compensation of officials and employees by ordinance as required. The city disbursed approximately \$567,000 in salaries and wages to 36 employees during the year ended September 30, 2022, including \$19,740 in overtime payments to 20 employees.

### 5.1 Personnel policies and payroll procedures

The city's personnel policy does not address how overtime hours are to be calculated and does not specify which employees are entitled to payment for city holidays. The city's payroll processing procedures were insufficient to ensure employees were compensated for overtime in compliance with the Fair Labor Standards Act (FLSA) and to ensure employees were compensated for holidays consistently.

The city pays employees on a bi-weekly basis and requires employees to record their time on timesheets for the number of daily work hours, overtime hours, holiday hours, and leave hours. We reviewed the timesheets and payroll payments for 14 of the city's 26 payroll cycles during the year ended September 30, 2022, and noted 12 instances in which overtime and holidays were handled inconsistently and/or were non-compliant with the FLSA.

## City of Dixon Management Advisory Report - State Auditor's Findings

According to city officials, errors were sometimes made in processing the timesheets and preparing payroll, and overtime calculations were sometimes erroneously determined over the 2-week pay period rather than on a daily or weekly basis.

The FLSA requires any time worked over 40 hours in a week (for non-emergency personnel) to be paid at time and a half. The FLSA provides the city the option of computing overtime for law enforcement employees based on a work period of 7 to 28 days, and requires overtime pay when the number of hours worked exceeds 171 hours in a 28-day period, or similar proportion for shorter work periods (e.g., 86 hours in a 14-day period or 43 hours in a 7-day period).

Written personnel policies, strict compliance with those policies, and effective procedures to detect and correct errors, are necessary to ensure equitable treatment of employees, prevent misunderstandings, and ensure employees are properly compensated. Inconsistent practices could increase the risk of unfair and inequitable treatment of employees and potential litigation based on existing city policies.

### 5.2 Compensation

The city does not have ordinances establishing the amount of compensation for city officials and employees.

In January 2023 the Board approved a schedule of starting salary ranges for each of the city's positions (officials and employees). This schedule indicates that cost of living adjustments and performance-based increases may be granted by the Mayor. However, the Board did not pass an ordinance approving the salary schedule because the Board believed approval of the schedule to be sufficient.

Ordinances passed by the Board to govern the city and its residents have the force and effect of law, and ordinances documenting approved salary amounts help ensure equitable treatment and prevent misunderstandings. Section 79.270, RSMo, and City Code Section 115.060 authorize the Board to fix the compensation of all city officials and employees by ordinance.

### Similar conditions previously reported

Similar conditions were noted in our prior report, *City of Dixon*, Report No. 2022-134, issued in December 2022, and a similar condition to section 5.2 was noted in another prior report, *City of Dixon*, Report No. 2015-007, issued in February 2015.

### Recommendations

The Board of Aldermen:

- 5.1 Adopt detailed personnel policies for overtime and holiday pay and develop procedures to ensure payroll payments are consistent with those policies and compliant with the requirements of the FLSA.

City of Dixon  
Management Advisory Report - State Auditor's Findings

## Auditee's Response

5.2 Establish the compensation of all city officials and employees by ordinance.

5.1 *The City of Dixon is challenged with finding employees. Calculating overtime over the two-week pay period for non-law enforcement personnel rather than following the FLSA policy on overtime allows employees to flex hours over the two-week period and is beneficial to the city and employees. In checking with the cities of Rolla and St. Robert, they pay holiday and overtime in the same manner as the City of Dixon.*

*Employees were paid fairly. After the auditors questioned certain payroll payments, city personnel performed a complete review of the timesheets and payments for the year ending September 30, 2022, and payments were made to correct for any discrepancies or inconsistencies.*

*We will consider making clarifications to the personnel policies and ensure payroll payments are proper.*

5.2 *The Board has approved a schedule of compensation by job classification and will work on a compensation ordinance.*

## Auditor's Comment

5.1. In its response, the city indicates it may be more beneficial to the city and its employees in certain instances to not strictly follow the overtime requirements of the FLSA. However, compliance with the FLSA is not optional and noncompliance, regardless of intent, may expose the city to potential lawsuits.

## 6. Meeting Minutes, Vacancies of Aldermen, and Personal Financial Disclosures

The Board of Aldermen did not always follow Sunshine Law requirements relating to closed meetings as required by Chapter 610, RSMo. The city has not filled a vacant alderman position, and Board members did not always submit personal financial disclosure statements as required by state law.

### 6.1 Closed meetings

The Board did not document in the open meeting minutes the specific sections of law allowing the meeting to be closed for any of the 24 closed meetings held during the period from October 4, 2021, through July 10, 2023. In addition, some issues discussed in closed meetings were not allowable under the Sunshine Law. For example, closed meeting minutes indicated the Board discussed the personnel policy and compensatory time, city elections, the library bank account and hours, closing the municipal court, cash transfers

## City of Dixon Management Advisory Report - State Auditor's Findings

between funds, and extension of the Mayor's term. Closed meeting minutes were not prepared for 8 closed meetings.

Section 610.022.1, RSMo, requires public bodies announce the specific reasons allowed by law for going into a closed meeting and to enter the vote and reason into the minutes. Section 610.021, RSMo, provides that the discussion topics and actions in closed meetings should be limited to only those specifically allowed by law. Section 610.020.7, RSMo, requires minutes of open and closed meetings be maintained as a record of business conducted and to provide an official record of actions and decisions. The City Clerk indicated she was unaware of these requirements.

A similar condition was noted in a prior report, *City of Dixon*, Report No. 2015-007, issued in February 2015. In addition, Report, No. 2015-089, *Follow-Up Report On Audit Findings - City of Dixon*, issued in September 2015, reported the status, at that time, as partially implemented.

### 6.2 Alderman vacancy

The city has not filled the vacant Ward One Alderman position since the former Alderwoman resigned in February 2023. City officials indicated they have not yet located a suitable and willing candidate for the position.

Upon a vacancy, City Code Section 115.070 requires the Mayor appoint a successor, with the consent of the Board of Aldermen, until the next regular municipal election.

### 6.3 Personal financial disclosures

Board members did not always file personal financial disclosure statements with the city and the Missouri Ethics Commission (MEC) as required by state law.

Aldermen Campbell, Warnol, and Wilfong did not file a personal financial disclosure statement for 2022, and Alderman Wilfong and Alderwoman Yoakum did not file for 2021.

City ordinance number 591, effective July 2021, requires financial disclosure statements be filed with the city and MEC by Board members in accordance with state law. Personal financial disclosure statements (forms) filings with the MEC are required by Section 105.483, RSMo. City officials were not monitoring compliance with the city ordinance, and Board members indicated they did not always remember to file their disclosure statements as required.

## Recommendations

The Board of Aldermen:

- 6.1 Ensure specific reasons for closing a meeting are documented in the open minutes, and only topics allowed by state law are discussed in closed meetings. In addition, the Board should ensure meeting minutes are prepared for all closed meetings.

City of Dixon  
Management Advisory Report - State Auditor's Findings

- 6.2 Fill the vacant alderman position as required by city code.
- 6.3 Ensure personal financial disclosure statements are filed annually by all Board members.

## Auditee's Response

- 6.1 *We will ensure this recommendation is implemented.*
- 6.2 *The Mayor and Board members have reached out to citizens in the community asking them to serve. The vacancy has also been mentioned at several Board meetings. No one has stepped forward to serve. We will continue efforts to fill the vacancy.*
- 6.3 *City personnel will remind the Board at the April Board meeting to file the statements.*

## 7. Electronic Data Security

Processes are not in place for recovering systems and data, and user accounts for former employees were not disabled. As a result, the risk of not being able to resume normal business operations timely is increased, and the city records are not adequately protected and are susceptible to unauthorized access.

The city does not periodically back up the financial and utility systems data. According to a representative from the vendor supplying the software to the city, the city has a subscription to the backup service offered by the vendor but the city has not backed up the city's data since 2020. In addition, the city did not disable user accounts of terminated city employees.

Preparation of backup data, preferably on a daily or at least weekly basis, provides reasonable assurance data could be recovered if necessary. To help prevent loss of information and ensure essential information and computer systems can be recovered, computer data should be backed up, tested periodically to ensure data can be recovered, and stored at a secure off-site location. User accounts should promptly be deleted or disabled when accounts are no longer required, when users terminate employment, or when information needs or information system usage changes. Disabling user accounts for employees that no longer work for the city provides security for the city data from unauthorized access. City officials indicated they were not aware the city's data was not being backed up or that there were active user accounts that belonged to former employees.

## Recommendation

The Board of Aldermen require data to be backed up regularly, tested periodically, and stored in a secure off-site location; and ensure user accounts are disabled timely for employees who no longer work for the city.

## Auditee's Response

*A nightly back up process is now in place for all files on the drives that contain the software program files and City of Dixon files. A process to retrieve the data has been reviewed with the software vendor. All former*

City of Dixon  
Management Advisory Report - State Auditor's Findings

*employee user accounts have now been deleted. We will ensure this recommendation is implemented.*

## 8. Capital Assets

The city does not maintain records of its capital assets including buildings, utility system infrastructure, equipment, and other property, and has not developed procedures to identify capital asset purchases and dispositions throughout the year. In addition, city officials do not tag, number, or otherwise identify assets as property of the city, or perform an annual physical inventory of city property. As a result, assets are more susceptible to theft or misuse.

After we inquired about the city's records in March 2023, city officials inventoried the city's assets and prepared a capital assets listing including a description of each asset, a general indication of its location or assigned area, and an identifying number for some assets such as a serial number or vehicle identification number. City officials indicated staffing shortages prevent the city from maintaining complete and updated capital asset records.

Adequate capital asset records and procedures, including annual inventories, are necessary to provide controls over city property; safeguard city assets that are susceptible to loss, theft, or misuse; and provide a basis for proper financial reporting and insurance coverage.

A similar condition was noted in a prior report, *City of Dixon*, Report No. 2015-007, issued in February 2015.

## Recommendation

The Board of Aldermen ensure complete and detailed capital asset records are maintained that include all pertinent information for each asset such as tag number, description, cost, acquisition date, location, and subsequent disposition. The Board should also ensure city personnel properly tag, number, or otherwise identify all applicable city property and conduct and document an annual physical inventory, and compare this inventory to detailed records.

## Auditee's Response

*We have created a listing of the city's capital assets. We will consider developing a tagging system and an annual inventory procedure.*

## 9. Electronic Communication Policy

The city has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not

---

City of Dixon  
Management Advisory Report - State Auditor's Findings

---

to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.<sup>4</sup>

Development of a written policy to address the use of electronic communications is necessary to ensure all documentation of official business of the city is retained as required by state law. A city official indicated the city is aware of the Secretary of State's guidelines, but has not yet taken steps to develop a policy.

## Recommendation

The Board of Aldermen develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

## Auditee's Response

*We are currently working on a policy.*

---

## 10. City Library

The city library is governed by the Board of Aldermen because the city does not have a functioning Library Board. Additionally, annual reports have not been filed by the library as required by state law. Receipts and disbursements for the Library Fund totaled approximately \$29,000 for the year ended September 30, 2022.

Section 182.170, RSMo, and City Code Section 140.020 require the library be governed by 9 trustees appointed by the mayor and approved by the board of aldermen, and no member of the city government can be a trustee. Also, Section 182.180, RSMo, and City Code Section 140.030 require the mayor to appoint 3 members to the Library Board annually. Section 182.200, RSMo, provides all money received by the city for a city library shall be disbursed to the Library Board Treasurer at least monthly. Current city officials could not explain why a library board has not been appointed.

In addition, Section 182.210, RSMo, and City Code Section 140.060 require the librarian to file an annual report with the city and the State Library about the condition of the library and its services on the last day of the fiscal year, the various sums of money received from the library fund and from other sources, and how the money has been expended and for what purposes. A city official indicated the Librarian discusses the library at each Board meeting, but a formal report has not been filed with the city or State Library as required.

---

<sup>4</sup> Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <<https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>>, accessed October 5, 2023.

City of Dixon  
Management Advisory Report - State Auditor's Findings

---

**Recommendation**

The Board of Aldermen ensure a Library Board is appointed to govern the library and an annual report is filed with the city and State Library as required by state law.

**Auditee's Response**

*We will consider implementing this recommendation; however, the city has trouble filling vacancies on its six-member Board of Aldermen, and finding 9 people to serve on a Library Board will be difficult.*

---

# City of Dixon

## Organization and Statistical Information

---

The City of Dixon is located in Pulaski County. The city was incorporated in 1889 and is currently a fourth-class city. The city employed 11 full-time employees and 10 part-time employees on September 30, 2022. The city's population was 1,232 in 2020, according to the U.S. Census Bureau.

City operations include law enforcement services, utilities (water, sewer and trash), street maintenance, library services, and recreational facilities.

### Mayor and Board of Aldermen

The city government consists of a mayor and 6-member board of aldermen. The members are elected for 2-year terms. The mayor is elected for a 2-year term, presides over the board of aldermen, and votes only in the case of a tie. The Mayor and Board of Aldermen at September 30, 2022, are identified below. As of September 30, 2022, the Mayor was paid \$200 per month and Board of Aldermen members were paid \$100 per month.<sup>5</sup> The compensation of these officials is established by ordinance.

Mike Null, Mayor  
Barbara Thomas, Alderwoman (1)  
Mary Wiles, Alderwoman  
Trevor Warnol, Alderman  
Anthony Campbell, Alderman  
Stacey Yoakum, Alderwoman  
Wesley Wilfong, Alderman (2)

- (1) Barbara Thomas resigned in February 2023 and the position remains vacant as of October 2023.
- (2) Michael Gunther was elected in April 2023, replacing Wesley Wilfong.

### Financial Activity

A summary of the city's financial activity for the year ended September 30, 2022, obtained from the city's annual financial report follows.

---

<sup>5</sup> In March 2022, the Board decided to increase the compensation amounts to \$500 per month for the Mayor (Ordinance No. 605) and \$200 per month for Board of Aldermen members (Ordinance No. 606), effective in May 2023.

## Missouri State Auditor

### Pierce Township - Texas County

Report No. 2024-026

April 2024

[auditor.mo.gov](https://auditor.mo.gov)

**Scott Fitzpatrick**  
Missouri State Auditor

# CITIZENS SUMMARY

## Findings in the audit of Pierce Township - Texas County

Accounting Controls and Procedures	The Board of Directors does not review and approve disbursements before payments are made and supporting documentation was not available for all disbursements made. The former Township Treasurer outsourced payroll services to a bookkeeper without Board approval and the bookkeeper does not have a written contract with the Board. The Township Treasurer does not perform monthly bank reconciliations for the township's 2 bank accounts, which led to a failure to identify errors in the general ledger that amounted to more than \$18,000 in unrecorded disbursements and deposits. The Treasurer's reports presented to the Board each month did not reflect all financial activity of the township and cash balances reported were inaccurate.
Budgets and Financial Statements	The township's budgets for the years ended December 31, 2022, and 2023, did not include all statutorily required information and were not approved by the Board. In the 2022 budget, the only revenue budgeted was interest and neither the 2022 nor 2023 budgets included estimated ending cash balances. In 2022, budgeted disbursements, totaling \$81,277, exceeded budgeted revenues, totaling \$53, by \$81,224. The estimated beginning cash balance on January 1, 2022, was only \$69,053, which resulted in a deficit budget balance of \$12,171. The published financial statements were not complete and/or accurate.
Disbursement Controls and Procedures	The Board did not solicit competitive bids for major purchases in accordance with state law. A used road grader was purchased in August 2020 for \$44,000 and a tractor and brush cutter were purchased in July 2021 for \$25,400 without soliciting competitive bids. The Board approved year-end bonus payments of \$100 to both township employees in violation of the Missouri Constitution. The Board did not document the reasons for classifying the township officials (Board members and clerk) as independent contractors rather than employees for income tax purposes. The Board violated the Missouri Constitution by paying \$800 of bereavement pay to an employee upon the death of his spouse in March 2022.
Electronic Communication Policy	The township has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.
Road Maintenance Plan	The Board has not developed a formal annual maintenance plan for township roads.

---

## Record Retention

The Board did not document the passing of official township records to successor officers when elected or appointed to office as required by state law.

In the areas audited, the overall performance of this entity was **Fair**.\*

\*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

To the Board of Directors  
Pierce Township  
Texas County, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit Pierce Township - Texas County. We have audited certain operations of the township in fulfillment of our duties. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2022. The objectives of our audit were to:

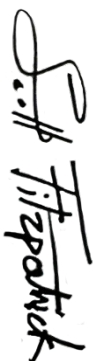

1. Evaluate the township's internal controls over significant management and financial functions.
2. Evaluate the township's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the township, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the township's management and was not subjected to the procedures applied in our audit of the township.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Pierce Township - Texas County.

A handwritten signature in black ink, appearing to read "S. Fitzpatrick". The signature is stylized with a large initial "S" and a long horizontal line extending from the end.

Scott Fitzpatrick  
State Auditor

# Pierce Township - Texas County

## Management Advisory Report

### State Auditor's Findings

---

#### **1. Accounting Controls and Procedures**

Accounting controls and procedures need improvement. The township collected approximately \$81,000 from property taxes, County Aid Road Trust (CART) money, a Federal Emergency Management Assistance (FEMA) grant, and interest income during the year ended December 31, 2022. Additionally, disbursements totaling approximately \$100,000 and \$64,000 were made during the 2 years ended December 31, 2021, and 2022, respectively.

##### **1.1 Board review and approval process**

The Board does not review and approve disbursements before payments are made and supporting documentation was not available for all disbursements made. The Township Treasurer prepared and signed most checks and provided a Treasurer's report at each Board meeting during 2022, but the report only shows deposits, disbursements, and beginning and ending cash balances from the previous month. The current month's disbursements are not discussed and the minutes do not indicate any Board approval of disbursements. The disbursements listed in the Treasurer's report varied in detail. While the date paid and amount were shown for each disbursement, the payee and/or check number were not always included. Payroll checks typically did not include the check number.

The Board indicated it did not know all disbursements had to be officially approved before making the disbursements. In addition, we reviewed 20 disbursements made during 2021 and 2022, totaling \$7,893, and supporting documentation was not available for 3 of those disbursements, totaling \$588. The Board President indicated these were oversights and he generally reviews all invoices either before or after payment is made.

The Board does not have a written contract with the vendor serving as the bookkeeper, who was hired in 2021. In 2022, the former Township Treasurer outsourced payroll services to the bookkeeper without Board approval. In February 2022, the former Township Treasurer requested Board approval to transfer payroll preparation responsibilities from himself to the bookkeeper at a cost of \$60 per month, which was in addition to the \$300 per year he indicated was already being paid. This action was denied by the Board, but subsequently, the Board was informed at the June 2022 Board meeting, payroll services were transferred anyway beginning in January 2022. The former Township Treasurer indicated the bookkeeper had agreed to provide the payroll services, in addition to other bookkeeping services already provided, at no additional cost. Due to the lack of a contract, it is unclear what the bookkeeper's compensation was supposed to be, but based on invoices submitted in 2021 and 2022, the bookkeeper was paid a total of \$845 for services provided in 2021, which did not include payroll services. A total of \$720 was paid for accounting services, including payroll services, provided in 2022.

## Pierce Township - Texas County Management Advisory Report - State Auditor's Findings

Section 65.490, RSMo, specifies, "the township trustee and ex officio treasurer shall not pay out any moneys belonging to the township for any purpose whatever, except upon the order of the township board of directors, signed by the chairman of said board and attested by the township clerk. . ." To reduce the risk of loss, theft, or misuse of funds, and ensure all transactions are accounted for properly and assets are adequately safeguarded, adequate controls, including Board review and approval of disbursements, are necessary. Failure to properly review all invoices and supporting documentation, and to document Board authorizations before hiring vendors, increases the possibility that inappropriate disbursements will occur. In addition, clear and detailed written contracts are necessary to ensure all parties are aware of their duties and responsibilities, prevent misunderstandings, and ensure township money is used appropriately and effectively. Section 432.070, RSMo, requires contracts for political subdivisions to be in writing.

### 1.2 Bank reconciliations

The Township Treasurer does not perform monthly bank reconciliations for the township's 2 bank accounts. As a result, township officials failed to identify errors in the general ledger. The general ledger cash balances at December 31, 2022, totaled \$91,635, while the bank balances totaled \$81,585, resulting in a difference of \$10,050. We identified 5 checks, totaling \$8,391, issued in September and November 2022 and a deposit from September 2022 for \$4,139 that were not recorded in the general ledger. After adjusting for these items, there was still a difference of \$5,798. The Board President indicated he was unaware bank reconciliations were not being performed. After being notified of the issues, the Board President contacted the bookkeeper and updates were made to the general ledger to correct the errors we identified. The bookkeeper was able to identify the other errors, including a program error related to some payroll checks, totaling \$5,818, and a \$20 interest deposit not posted to the general ledger.

Monthly bank reconciliations help ensure receipts and disbursements have been properly handled and recorded, and increases the likelihood errors will be identified and corrected timely. Thorough independent and/or supervisory review of bank reconciliations help ensure all assets are adequately safeguarded.

### 1.3 Monitoring

The Board is not provided accurate financial information to effectively monitor the cash balance of the township. The Treasurer's reports presented to the Board monthly did not reflect all financial activity of the township and cash balances reported were inaccurate. We selected 22 disbursements, totaling \$8,080, judgmentally from the canceled checks listed on bank statements during 2021 or 2022, and 2 of those disbursements, totaling \$162, were not included on the Treasurer's report. Another disbursement for \$469 was recorded on the Treasurer's report as \$487. In addition, the December 2022 Treasurer's report had the cash balance at December 31, 2022, as

Pierce Township - Texas County  
Management Advisory Report - State Auditor's Findings

\$28,095. The Township Treasurer indicated the report did not include the balance from the savings account established during 2022. Had this balance, totaling \$45,019, as of December 31, 2022, been included, the total cash balance would have been \$73,114. This total cash balance is \$18,521 less than the general ledger balance at that date and we could not determine the cause of this discrepancy. The Board President indicated these were oversights.

The preparation of complete and accurate monthly financial reports for the Board's review helps ensure transactions have been properly recorded and any errors or discrepancies are detected on a timely basis. In addition, without accurate financial information, the Board cannot make informed decisions about township operations.

## Recommendations

The Board of Directors:

- 1.1 Review and document approval of all disbursements before payment is made and ensure supporting documentation is retained to support each disbursement made. In addition, Board authorization should be documented before hiring vendors, and written contracts should be obtained and approved.
- 1.2 Ensure bank reconciliations are performed monthly.
- 1.3 Monitor the township's finances by requiring accurate financial reports be prepared and presented to the Board.

## Auditee's Response

- 1.1 *We agree and have moved the meeting date to the second Tuesday of each month to allow for new bills to be reconciled and a listing of disbursements for the month to be prepared before payment is made. Supporting documentation is now retained and reviewed by all Board members for all disbursements. Board authority for any future transactions will be properly documented. In addition, we will work with the bookkeeper to establish a contract within the next 2 months.*
- 1.2 *We agree. The current Township Treasurer will work with the bookkeeper to ensure reconciliations are performed monthly.*
- 1.3 *We agree. Monthly financial reports will be reviewed closely to ensure accurate information is being presented.*

## 2. Budgets and Financial Statements

The Board did not prepare complete and accurate budgets or financial statements.

---

Pierce Township - Texas County  
Management Advisory Report - State Auditor's Findings

---

## 2.1 Budgets

The township's budgets for the years ended December 31, 2022, and 2023, did not include all statutorily required information and were not approved by the Board. The budgets did not include a budget summary or actual and estimated amounts for the 2 preceding years. In the 2022 budget, the only revenue budgeted was interest and neither the 2022 nor 2023 budgets included estimated ending cash balances. In 2022, budgeted disbursements, totaling \$81,277, exceeded budgeted revenues, totaling \$53, by \$81,224. The estimated beginning cash balance on January 1, 2022, was only \$69,053, which resulted in a deficit budget balance of \$12,171. The Township Treasurer indicated he was unsure how to complete the budget forms and if he was unsure of what to include for a certain line item, he left it blank.

In addition, while the budgets indicate who prepared them (Board President and/or Township Treasurer) the prepared budgets for 2022 and 2023 were not presented at a Board meeting or approved by the Board. The Board President indicated they were unaware the Board needed to formally approve the budget.

Section 67.010, RSMo, requires the budget to present a complete financial plan for the ensuing budget year and outlines the information to be included in the budget. In addition, Section 67.010.2, RSMo, prohibits deficit budgeting. Section 67.030, RSMo, requires the budget to be approved by the Board prior to the beginning of the fiscal year. A complete budget should include the beginning available resources and a reasonable estimate of the ending available resources. A complete and well-planned budget, in addition to meeting statutory requirements, serves as a useful management tool by establishing specific financial expectations for each area of township operations. It also assists in providing information to the public about township operations and current finances and in setting the tax levy.

## 2.2 Financial statements

The published financial statements were not complete and/or accurate. As shown in the following table, the 2021 financial statement did not include actual receipts, disbursements, or ending cash balance; and the beginning cash balance reported was significantly less than the actual cash balance on January 1, 2021. The 2022 financial statement included inaccurate receipt, disbursement, and cash balance amounts as indicated in the table. The Township Treasurer indicated he was unsure where to get the correct amounts to report on the financial statements.

Pierce Township - Texas County  
Management Advisory Report - State Auditor's Findings

	2021 Reported Amount	2021 Actual Amount	2021 Difference	2022 Reported Amount	2022 Actual Amount	2022 Difference
Beginning Cash Balance	\$ 69,053	100,625	(31,572)	64,213	64,280	(67)
Receipts	0 <sup>1</sup>	63,181	63,181	81,585	80,990	595
Disbursements	0 <sup>1</sup>	(99,526)	99,526	(59,430)	(63,685)	4,255
Ending Cash Balance	\$ 0	64,280	(64,280)	86,368	81,585	4,783

<sup>1</sup> Amount was left blank on the township financial statement.

Section 231.280, RSMo, requires the township to publish annual financial statements in a newspaper published in the county within 30 days after the end of the fiscal year. To be of maximum assistance to the Board and to adequately inform the public, the township's financial statements should accurately report financial activity and account balances.

## Recommendations

The Board of Directors:

- 2.1 Prepare and approve complete and accurate annual budgets that contain all information required by state law and discontinue deficit budgeting.
- 2.2 Ensure complete and accurate financial statements are published in accordance with state law.

## Auditee's Response

- 2.1 *We agree and will ensure the next budget prepared is complete, accurate, contains all elements required by state law, and is approved by the Board. No deficit budgeting was done in the current budget in place for 2024.*
- 2.2 *We agree and will ensure this is done in the future.*

## 3. Disbursement Controls and Procedures

### 3.1 Bidding

Disbursement controls and procedures need improvement. The township disbursed approximately \$100,000 and \$64,000 during the 2 years ended December 31, 2021, and 2022, respectively.

The Board did not solicit competitive bids for major purchases in accordance with state law. A used road grader was purchased in August 2020 for \$44,000 and a tractor and brush cutter were purchased in July 2021 for \$25,400 without soliciting competitive bids. The Board President indicated calls were made to other vendors when purchasing the road grader, but no documentation of this was retained. He also indicated the Board was unaware of the specific requirements of the law.

## Pierce Township - Texas County Management Advisory Report - State Auditor's Findings

Section 50.660, RSMo, requires solicitation of competitive bids for all purchases of \$12,000 or more. Routine use of a competitive procurement process for major purchases ensures the county and townships within the county have made every effort to receive the best and lowest price and all interested parties are given an equal opportunity to participate in county business. Documentation of the various proposals received, the selection process, and criteria should be retained to demonstrate compliance with applicable laws or regulations and support decisions made.

### 3.2 Bonuses

The Board approved year-end bonus payments to both township employees in violation of the Missouri Constitution. The December 2022 Board meeting minutes indicated each employee received \$100. These payments represent bonus compensation for services previously rendered. The Board President indicated the Board was unaware of the law prohibiting bonus payments.

Payments for services previously rendered are in violation of Article III, Section 39(3), Missouri Constitution and contrary to Attorney General's Opinion 72-1955 (June 14, 1955), which states, ". . . a government agency which derives its power and authority from the Constitution and laws of this state would be prohibited from granting extra compensation in the form of bonuses to public officers or servants after the service has been rendered."

### 3.3 Contract labor and employee classifications

The Board did not document the reasons for classifying the township officials (Board members and clerk) as independent contractors rather than employees for income tax purposes. The township did not withhold payroll and income taxes from payments made to the township officials during the year ended December 31, 2022, and also did not file a 1099 form for one of the Board members or the Township Clerk, each of whom received over \$600 in 2022.

Section 105.300, RSMo, defines an elected or appointed officer or employee of a political subdivision as an employee for Social Security and Medicare tax purposes. For employees, the IRS requires employers to report compensation on W-2 forms and withhold and remit income and payroll taxes. Similarly, Chapter 143, RSMo, includes requirements for reporting wages and withholding state income taxes. Sections 6041 to 6050Y of the Internal Revenue Code require non-wage payments of at least \$600 in one year to an individual be reported to the federal government on a 1099 form. The Board President indicated he was not aware of these requirements, Board members had been classified this way for years, and they believed payments to Board members were being handled correctly until we brought it to their attention.

### 3.4 Bereavement Pay

The Board paid \$800 of bereavement pay to an employee upon the death of his spouse in March 2022. The Board minutes indicate this was done to help the employee with funeral expenses and was approved unanimously. The

Pierce Township - Texas County  
Management Advisory Report - State Auditor's Findings

Board President indicated the Board did not know this type of payment was inappropriate.

Such payments violate Article VI, Section 23 of the Missouri Constitution, which prohibits any political subdivision of the state from granting or lending money to an individual, and is not a prudent use of township resources.

## Recommendations

The Board of Directors:

- 3.1 Solicit competitive bids for all applicable purchases in accordance with state law. Documentation of bids solicited and justification for bid awards should be maintained by the Township Clerk.
- 3.2 Discontinue paying employee bonuses.
- 3.3 Determine the proper classification for township officials to ensure compliance with state and federal laws and regulations.
- 3.4 Ensure all disbursements are a prudent use of public funds and discontinue bereavement pay.

## Auditee's Response

- 3.1 *We agree and we make an effort to ensure the best prices are obtained when purchasing goods and services for the township. We will ensure that documentation of bidding for future transactions is maintained.*
- 3.2 *We agree and are no longer paying employee bonuses.*
- 3.3 *We will discuss this recommendation with our accounting professional and determine the appropriate classification for township officials.*
- 3.4 *We agree with the recommendation and will discontinue bereavement pay in the future. However, we want to make it clear that this decision was made after Board discussion and was unanimous. The citizens of the township were made aware of the decision to make this payment and were in support of it. This was an unusual situation and is not expected to reoccur.*

## 4. Electronic Communication Policy

The township has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Pierce Township - Texas County  
Management Advisory Report - State Auditor's Findings

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.<sup>1</sup>

Development of a written policy to address the use of electronic communications is necessary to ensure all documentation of official business of the township is retained as required by state law. The Board President indicated the Board was unaware of the electronic communications guidelines.

## Recommendation

The Board of Directors develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

## Auditee's Response

*We agree and will work to develop a policy to address this sometime this year.*

## 5. Road Maintenance Plan

The Board has not developed a formal annual maintenance plan for township roads. Formal, approved, road maintenance plans, prepared along with the budget and with citizen input, serve as a useful management tool and provide greater input into the overall budgeting process. Such plans should include a description of roads needing maintenance, the type of work to be performed, an estimate of the quantity and cost of materials needed, the dates such work could begin, the amount of labor required to perform the work, and other relevant information. The Board President indicated he monitors employees' work but had not considered the importance of a documented plan.

A plan provides a means to more effectively monitor and evaluate the progress made in the repair and maintenance of roads throughout the year.

## Recommendation

The Board of Directors establish a formal annual road maintenance plan.

## Auditee's Response

*We agree. The current Board has already begun to establish a formal road maintenance plan and will work towards finalizing it in conjunction with the 2025 budget.*

<sup>1</sup> Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <<https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>>, accessed January 30, 2024.

Pierce Township - Texas County  
Management Advisory Report - State Auditor's Findings

## 6. Record Retention

The Board did not document the passing of official township records to successor officers when elected or appointed to office as required by state law.

After taking office in May 2021, the Township Clerk requested the Board provide her the official records of the township. In a June 2021 Board meeting, discussion was held over which official should be the custodian of records for the township and the Board determined the Township Clerk would be the custodian of records. Some township records were transferred from the prior Township Clerk (now serving as Board President) to the successor Township Clerk in June 2021, but no documentation of what records were transferred was provided.

On July 26, 2021, the Township Clerk filed a missing records report with the Texas County Sheriff's department indicating some township records were missing. Statements filed with this complaint allege some township records were transferred to the Township Clerk from her predecessor in June 2021, but after inspecting the records provided, she determined there were no records provided for 2019 through 2021. In November 2022, the Board President contacted the Sheriff's department to report that the missing records had been located in a container in the township building. It is unclear where the records were located prior to November 2022 and no further action was taken by the Sheriff's department. The Board indicated it was unaware of the requirement for documenting the transfer of records.

Section 65.510, RSMo, requires records to be transferred by any outgoing officer to his or her successor when the term of office ends, and documentation of the transfer of the records be prepared and a copy be filed with the Township Clerk.

## Recommendation

The Board of Directors ensure all official records are transferred to successor officials timely during each transition of officials and documentation of the records transferred is prepared and filed with the Township Clerk.

## Auditee's Response

*We agree. Documentation is now kept of the transfer of any records from one official to the next. All township records have been properly accounted for to the extent possible.*

---

# Pierce Township - Texas County

## Organization and Statistical Information

---

Pierce Township is one of 17 townships in Texas County and is located in the southeast region of that county. The township was created in 1852. According to the Census Reporter, the township covers approximately 54 square miles and has a population of 364. The township employed 2 part-time employees to perform road maintenance as of December 31, 2022.

There are 4 elected officials in Pierce Township, including 3 members of the Board of Directors, and 1 township clerk. The township's elected Board of Directors consists of the township trustee (who serves as a board member/ex officio treasurer) and 2 additional board members. One of these 2 board members is elected as president. All officers are elected biennially and take office in April following the election. All elected officials receive \$50 per regular meeting attended, and \$20 for each special meeting attended. The elected officials at December 31, 2022, are identified below.

### Elected Officials

Name and Title	Compensation for the Year Ended December 31, 2022
Jeff Malam, President	\$ 510
Daryl Bradford, Board Member (1)	630
Michael Zeller, Treasurer (2)	510
Linda Bradford, Clerk (3)	630

- (1) Hank Hustus was elected to this position in April 2023. Larry Curnutt was appointed in August 2023 to replace Hank Hustus.
- (2) Bradley Belt was elected to this position in April 2023.
- (3) Brittany Clinton was elected to this position in April 2023 and resigned in June 2023. Amber Wake was appointed in July 2023.

### Financial Activity

A summary of the township's financial activity prepared using the township's bank statements for the year ended December 31, 2022, follows.

Pierce Township - Texas County  
Organization and Statistical Information

Pierce Township - Texas County  
Schedule of Receipts, Disbursements, and Changes in Cash  
Year Ended December 31, 2022

CASH, DECEMBER 31, 2022	<u>\$ 81,585</u>

(1) Receipts and disbursements do not include transfers between accounts.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
and  
Wayne Wallingford, Director  
Department of Revenue  
and  
Jan M. Zimmerman, Chairman  
Missouri Gaming Commission  
and  
Dr. Margie Vandeven, Commissioner  
Department of Elementary and Secondary Education  
Jefferson City, Missouri

To address our responsibilities of Section 313.822(3), RSMo, we have audited the revenues of and the transfers from the Gaming Proceeds for Education Fund to the Classroom Trust Fund and the expenditures from that fund, as part of our audit of the State of Missouri's Annual Comprehensive Financial Report (ACFR), as of and for the year ended June 30, 2023, and have issued our report (Report No. 2024-023), dated March 14, 2024.

Gaming Proceeds for Education Fund revenues consist of taxes collected from Missouri casinos. No expenditures occur from the Gaming Proceeds for Education Fund. Revenue from that fund is transferred to the Classroom Trust Fund (over 99 percent) and the School District Bond Fund (less than 1 percent). The State of Missouri's ACFR is comprised of the financial statements of the governmental activities (including the Gaming Proceeds for Education Fund and the Classroom Trust Fund), the business-type activities, the aggregate discretely presented component units, each major fund (including the Public Education Fund, which includes the Gaming Proceeds for Education Fund and the Classroom Trust Fund), and the aggregate remaining fund information of the State of Missouri, and the related notes to the financial statements.

Our report expressed qualified opinions on the governmental activities and the General Fund because we were not allowed access to tax returns and related source documents for income taxes. Our report expressed unmodified opinions on all remaining opinion units.

Our audit determined the appropriation and expenditures from the Classroom Trust Fund decreased less than 1 percent from fiscal year 2022 to fiscal year 2023, and the appropriation was used for educational purposes. Because Gaming Proceeds for Education Fund revenues increased in recent years and transfer appropriations remained the same, the balance grew to approximately \$67 million as of June 30, 2023. Accordingly, this amount will remain in the fund until appropriations are increased to allow the balance to

be transferred in accordance with statute. No findings resulted from our audit procedures related to the Gaming Proceeds for Education Fund and the Classroom Trust Fund.

## Missouri State Auditor

Ste. Genevieve County  
Public Administrator

Report No. 2024-022

March 2024

[auditor.mo.gov](https://auditor.mo.gov)

**Scott Fitzpatrick**  
Missouri State Auditor

# CITIZENS SUMMARY

## Findings in the audit of the Ste. Genevieve County Public Administrator

Annual Settlements	The former Public Administrator did not file annual settlements timely. Of the 55 annual settlements filed for each ward or estate for the period of January 1, 2021, through March 17, 2022, the former Public Administrator did not file any by the required due date. The former Public Administrator filed 45 of the settlements between 30 and 182 days late. She filed the other 10 annual settlements less than 30 days after the due date. The Probate Division issued late filing citations for 12 of the annual settlements.
Disbursements	The former Public Administrator did not retain adequate supporting documentation for disbursements, totaling \$2,724, from 7 of 29 ward bank accounts reviewed. She did not maintain supporting documentation for 20 questionable and unsupported disbursements including 13 disbursements, totaling \$1,898, made to Walmart and 7 disbursements, totaling \$270, to other retail and online stores. She did not maintain supporting documentation for 6 payments identified as reimbursements, including 3, totaling \$263, to the former Public Administrator and 3, totaling \$293, to the mother of the ward.
Bank Reconciliations	The former Public Administrator did not prepare or maintain accurate bank reconciliations for ward accounts. For the 29 filings reviewed, the former Public Administrator should have completed 134 monthly bank reconciliations for the period reviewed. Of those 134 reconciliations due, 63 (47 percent) were inaccurate or were missing.
Electronic Data Security	Controls over the Public Administrator's computers are not sufficient. As a result, the Public Administrator's computers and data are not adequately protected and are susceptible to unauthorized access or loss.

In the areas audited, the overall performance of this entity was **Poor**.\*

\*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

## SCOTT FITZPATRICK MISSOURI STATE AUDITOR

County Commission  
and  
Public Administrator of Ste. Genevieve County

We have audited certain operations of the Ste. Genevieve County Public Administrator in fulfillment of our duties under Section 29.230, RSMo. Due to a complaint received through our Whistleblower Hotline alleging fiscal mismanagement, the State Auditor's Office initiated the audit. The scope of our audit included, but was not necessarily limited to, the period from January 1, 2021, through March 31, 2022. The objectives of our audit were to:

1. Evaluate the Public Administrator's internal controls over significant management and financial functions.
2. Evaluate the Public Administrator's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of the Public Administrator's management practices and procedures, including certain financial transactions.
4. Determine if improper use of public resources occurred and, if so, quantify the amount to the extent possible.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe the evidence obtained provides such a basis.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) the need for improvement in management practices and procedures, and (4) improper use of public resources. The accompanying Management Advisory Report presents our findings arising from our audit of the Ste. Genevieve County Public Administrator.

A handwritten signature in black ink, appearing to read "S. Fitzpatrick". The signature is stylized with a large initial "S" and a long horizontal stroke extending from the end.

Scott Fitzpatrick  
State Auditor

---

# Ste. Genevieve County Public Administrator

## Introduction

---

### Background

The Public Administrator serves as the court appointed personal representative for decedent estates and as guardian and/or conservator for individuals who are unable to care for themselves or their property when there is no one else to serve in that capacity. The Public Administrator was responsible for the financial activity of approximately 44 wards with assets totaling approximately \$514,000 as of January 1, 2021, and approximately 52 wards with assets totaling approximately \$778,000 as of January 1, 2022. The Public Administrator is required to file annual settlements with the Circuit Court, Probate Division, for each appointed ward or estate reflecting the financial activity for the year.

Robin Naeger was elected Ste. Genevieve County Public Administrator in November 2020 and began her term on January 1, 2021. During the year ended December 31, 2021, the Public Administrator received salary compensation of \$55,329. The Public Administrator supervises the daily operations of the Public Administrator's office. The Public Administrator's office employed 1 part-time employee for nearly all of Robin Naeger's time in office.

Robin Naeger resigned and Amanda Kuehn was appointed as Interim Public Administrator by the Ste. Genevieve County Commission on March 17, 2022. Robin Naeger is referred to as the former Public Administrator throughout this report. Amanda Kuehn was appointed temporary guardian/conservator on March 18, 2022, by the Twenty-Fourth Judicial Circuit Court, and on April 20, 2022, Governor Michael Parson appointed Amanda Kuehn as the Ste. Genevieve County Public Administrator.

In March 2022, the State Auditor's Office (SAO) received complaints through its Whistleblower Hotline alleging fiscal mismanagement within the Ste. Genevieve County Public Administrator's office. The SAO conducted an initial review of these matters under Section 29.221, RSMo. After completion of a review of documentation and communications provided, the SAO determined further investigation was warranted under Section 29.221, RSMo. In February 2023, SAO personnel informed the Ste. Genevieve County Commission that our office had received credible complaints and that under Section 29.230, RSMo, the SAO would conduct an audit of the Ste. Genevieve County Public Administrator.

---

# Ste. Genevieve County Public Administrator Management Advisory Report State Auditor's Findings

---

## 1. Annual Settlements

The former Public Administrator did not file annual settlements timely.

For each ward or estate, the Public Administrator is required to file an annual settlement with the Circuit Court, Probate Division, on the case anniversary date, detailing assets held, as well as financial activity for the previous year. We reviewed all 55 annual settlements filed for the period of January 1, 2021, through March 17, 2022, and noted the former Public Administrator did not file any by the due date. The former Public Administrator filed 45 of the settlements between 30 and 182 days late. She filed the other 10 annual settlements less than 30 days after the due date. The Probate Division issued late filing citations for 12 of the annual settlements. Probate Division personnel indicated they did not always issue citations because the Probate Clerk's workload did not allow her to focus exclusively on the Public Administrator's cases. They indicated both the clerk and judge verbally reminded the former Public Administrator of the need to file timely. The former Public Administrator indicated, during a recorded interview, that she was unable to complete annual settlements timely due to her numerous responsibilities.

Section 475.270, RSMo, requires the Public Administrator to file annual settlements at a time fixed by the court. Timely filing of annual settlements is necessary for the court to properly oversee the administration of cases and reduce the possibility that errors, loss, theft, or misuse of funds will go undetected.

## Recommendation

The Public Administrator ensure annual settlements are filed timely.

## Auditee's Response

*The current Public Administrator provided the following response:*

*I am in agreement with this recommendation and continue to submit annual settlements prior to the due date.*

*The former Public Administrator provided the following response:*

*Nearly every time a settlement was late, it was because I was waiting for information/documentation from a facility or caseworker. It was COVID. For most of the first year, I was not allowed in many facilities due to their right to restrict access when they had outbreaks. They were nearly all short-staffed and unable to respond to my requests for documentation and receipt slips in a timely manner. No one is at fault here, that was life with the pandemic. Chaos. Nothing working as it should. There were things beyond my control, which did not affect my ability or dedication. Several settlements came due at the same time and were in various states of readiness when I was shoved out the door. They would have been on time and correct or I would have had time to make them so, had I been allowed the two weeks I offered in my resignation.*

## 2. Disbursements

The former Public Administrator did not retain adequate supporting documentation for disbursements, totaling \$2,724, from 7 of 29 ward bank accounts reviewed.

We reviewed the 25 filings (20 annual settlements and 5 Decedent Estates/Order of Discharge) made for wards with assets during the period of January 1, 2021, through September 1, 2021. We reviewed this time period because, during this time, the Probate Clerk indicated she had little to no time to review annual settlements before they were presented to the judge. As a result, there was less oversight of Public Administrator activity. We also reviewed 4 annual settlements (approximately 10 percent of the settlements filed) submitted for wards with assets during the period of September 1, 2021, to March 31, 2022, because the Judge requested additional documentation for these settlements.<sup>1</sup> The former Public Administrator did not retain adequate supporting documentation for 7 of 29 filings reviewed (24 percent). Without adequate documentation, there was nothing to indicate what was purchased and to demonstrate the purchases were necessary for the wards. We noted the following unsupported disbursements in the 7 filings.

- The former Public Administrator did not maintain supporting documentation for 20 questionable and unsupported disbursements (12 debit card purchases, 1 electronic payment, and 7 checks) from 6 ward bank accounts totaling \$2,168. The former Public Administrator made 13 of the disbursements, totaling \$1,898, to Walmart and the remaining 7 disbursements, totaling \$270, to other retail and online stores.
- For another ward, the former Public Administrator did not maintain supporting documentation for 6 payments identified as reimbursements, including 3, totaling \$263, to the former Public Administrator and 3, totaling \$293, to the mother of the ward.

During a recorded interview, the former Public Administrator discussed that all of the supporting documentation should have been in the wards' files or could have been obtained from her online account with Walmart. We were unable to access the Walmart account because it required an email confirmation from a deactivated email account. The former Public Administrator indicated, in response to questions about the printing and retaining physical copies of supporting documentation for online purchases, that "I'm pretty sure I always did, because I needed something to go by." However, we could not locate such documents in the wards' files or elsewhere in the Public Administrator's office.

<sup>1</sup> There were 67 total filings, 55 annual settlements and 12 other filings, during the audit period. The 29 reviewed were selected from this population.

Ste. Genevieve County Public Administrator  
Management Advisory Report - State Auditor's Findings  
Subpoena - Robin Naeger

To ensure payments are valid and proper and to reduce the risk of loss, theft, or misuse of funds, the Public Administrator should maintain adequate supporting documentation for all disbursements.

## Recommendation

The Public Administrator ensure disbursements are supported by adequate documentation to demonstrate the payments are necessary and appropriate disbursements of ward funds.

## Auditee's Response

*The current Public Administrator provided the following response:*

*I am in agreement and continue to maintain all supporting documentation of disbursements of ward assets.*

*The former Public Administrator provided the following response:*

*When I was in office I was able to provide any documentation requested and did. I cannot account for items missing or discovered to be in error after my resignation. Had any errors or omissions been brought to my attention while I had the power and access to address them, I could have.*

## 3. Bank Reconciliations

The former Public Administrator did not prepare or maintain accurate bank reconciliations for ward accounts. During a recorded interview, the former Public Administrator indicated she did not prepare bank reconciliations timely "because there were so many other demands of the job, so sometimes I was doing it 2 or 3 months after the fact."

For the 29 filings reviewed,<sup>2</sup> the former Public Administrator should have completed 134 monthly bank reconciliations. Of those 134 reconciliations due, 63 (47 percent) were inaccurate or were missing. The former Public Administrator did not have any explanation as to why the reconciliations contained errors and also stated, in a recorded interview, that she did not think it was necessary to provide all bank reconciliations to the court with the annual settlements because the annual settlements were her reconciliations over the whole period. We could not retrieve the missing bank reconciliations from the case system.

Performing and maintaining accurate, monthly bank reconciliations helps ensure receipts and disbursements have been properly handled and recorded. The lack of bank reconciliations or inaccurate reconciliations may allow for errors or misstatements to go undetected.

## Recommendation

The Public Administrator complete and maintain accurate monthly bank reconciliations for all ward bank accounts.

<sup>2</sup> The filings reviewed were the same as those reviewed for annual settlement timeliness.

## Auditee's Response

*The current Public Administrator provided the following response:*

*I am in agreement and continue to maintain complete and accurate monthly bank reconciliations for all ward bank accounts.*

*The former Public Administrator provided the following response:*

*The accounting software I purchased needed an accurate beginning balance to set up each ward's account. To get that took time and research in some accounts where there were errors going years back. Because this job was 24 hours a day, 365 days a year for 4 years and for most of it I had only me to do it, streamlining the work was necessary. The paper check registers I felt were an outdated method which the EMS system could vastly improve upon for our purposes. I used them in tandem in the interim and did have some errors of my own to account for, but I could always account and answer for them when they arose in the process.*

*In any given moment I had to choose which fire to put out. I could easily log on and see a balance and know what was about to come or go from an account, so filling out a paper register was often the smaller fire in the big scheme of things. Many of the wards never have more than the few regular deposits and charges. It was the few who had constant demands beginning with the first stimulus drop, which caused chaos in the smooth workings of my office accounting.*

## 4. Electronic Data Security

Controls over the Public Administrator's computers are not sufficient. As a result, the Public Administrator's computers and data are not adequately protected and are susceptible to unauthorized access or loss.

### 4.1 User identification and passwords

Controls over user identifications and passwords need improvements.

- User identifications and passwords for accessing computers and the EMS system are shared by the Public Administrator and her staff. The Public Administrator's office only has one computer that can be assigned to the EMS system without additional charge; therefore, if staff need to work when the Public Administrator is out of the office, passwords are shared to gain access into the EMS system and the computer by the staff. The EMS system is used to do certain tasks such as backing up documents and maintaining bank reconciliations. The Public Administrator indicated she did not realize the importance of keeping passwords and user identifications confidential.
- The Public Administrator is not required to change her password periodically to help ensure it remains known only to her and is not required to have a minimum number of characters for her EMS system

password. The Public Administrator indicated she did not realize the importance of having password controls in place.

Unique user accounts and passwords are necessary to authenticate access to computers. The security of computer passwords and user accounts is dependent upon keeping them confidential. However, since passwords do not have to be periodically changed or contain a minimum number of characters and are allowed to be shared, there is less assurance the office is effectively limiting access to computers and data files. User identifications should not be shared since individual accountability for system activity could be lost and unauthorized system activity could occur. Passwords should be unique, confidential, contain a minimum number of characters, and be changed periodically to reduce the risk of a compromised password and unauthorized access to and use of computers and data.

## 4.2 Security controls

The Public Administrator does not have security controls in place to lock the EMS system after a specified number of incorrect login attempts. The former Public Administrator was not aware of and/or did not remember if any security controls were in place on her computer or the EMS system. The current Public Administrator indicated she was not aware of the importance of having security controls in place.

Logon attempt controls lock the capability to access a computer after a specified number of consecutive invalid logon attempts and are necessary to prevent unauthorized individuals from continually attempting to logon to a computer by guessing passwords. If such controls are not available, it is critical passwords are unique, confidential, contain a minimum number of characters, and are changed periodically to reduce the risk they can be guessed. Without effective security controls, there is an increased risk of unauthorized access to computers and the unauthorized use, modification, or destruction of data.

## Recommendations

The Public Administrator:

- 4.1 Ensure employees do not share user identifications and passwords, and require confidential passwords that contain a minimum number of characters and are periodically changed to prevent unauthorized access to computers and data.
- 4.2 Require computers to have security controls in place to lock after a specified number of incorrect logon attempts.

## Auditee's Response

*The current Public Administrator provided the following response:*

- 4.1 *I am continuing to work with the EMS system and the county IT department to limit the use of shared usernames and passwords as*

---

Ste. Genevieve County Public Administrator  
Management Advisory Report - State Auditor's Findings  
Subpoena - Robin Naeger

---

*much as possible. In addition, I have set a reminder on my computer to change my passwords every 90 days.*

- 4.2 *EMS system personnel indicated that these types of security controls are not available for this system.*

*The former Public Administrator provided the following response:*

*My office was always locked when I was even down the hall. My passwords were securely stowed away. I trusted only my assistants with access to the things they were assigned to manage and am aware of no breach. From the first week, I made repeated requests from the powers that be for assurances my data was securely and separately stored from the other offices, but never felt that was the case. The information was mine to protect and I did so.*

State Auditor Subpoena - Robin Naeger

MISSOURI STATE AUDITOR

## SUBPOENA

To: **Robin Naeger**

YOU ARE COMMANDED AND REQUIRED to appear personally before the State Auditor or his representative(s), at the Wainwright State Office Building 111 North 7th Street, Room 334 St. Louis, MO 63101 at 10:30am on Thursday, September 14, 2023, for purposes of providing testimony, and producing for examination, copying, and interrogation the following records and documents listed on Exhibit A attached to this Subpoena.

*In lieu of appearance, physical access to the records described in Exhibit A may be granted for State Auditor staff on or before the appearance date listed above. Alternatively, records may be shipped to the Missouri State Auditor to the attention of Ethan Evans at 301 W. High St., Room 880, Jefferson City, MO 65102, to be received no later than the appearance date listed above.*

ISSUED this 24th day of August 2023, pursuant to Section 29.235.4(1), of the Revised Statutes of Missouri.

Scott Fitzpatrick  
Missouri State Auditor

I served the foregoing subpoena by hand delivery on this 31st day of August, 2023.

Appendix A  
Ste. Genevieve County Public Administrator  
State Auditor Subpoena - Robin Naeger

**EXHIBIT A**

You are to preserve for production and inspection, and then appear as instructed on the attached subpoena and produce for inspection and examination, the following items in your possession or under your control:

All documents or other records, in whatever form, whether hard copy or electronic, pertaining or belonging to the Ste. Genevieve County Public Administrator's Office for the time period of January 2020 to March 2022.

This request includes, but is not limited to, the following:

1. **E.g.** - All documentation (invoices, receipts, bank statements, bank reconciliations, etc.) for services provided to/by the Ste. Genevieve County Public Administrator's Office for the period of January 2020 through March 2022;
2. **E.g.** - All records related to account [REDACTED] Ste. Genevieve County Public Administrator for [REDACTED]
3. **E.g.** - All records related to account [REDACTED] Ste. Genevieve County Public Administrator for [REDACTED]
4. **E.g.** - All records related to account [REDACTED] Ste. Genevieve County Public Administrator for [REDACTED]
5. **E.g.** - All records related to account [REDACTED] Ste. Genevieve County Public Administrator for [REDACTED]
6. **E.g.** - All records related to account [REDACTED] Ste. Genevieve County Public Administrator for [REDACTED]
7. **E.g.** - All records related to account [REDACTED] Ste. Genevieve County Public Administrator for [REDACTED]
8. **E.g.** - All records related to account [REDACTED] Ste. Genevieve County Public Administrator for [REDACTED]
9. **E.g.** - All records related to account [REDACTED] Ste. Genevieve Public Administrator for [REDACTED]

This request for records includes all materials that exist in paper ("hard copy") or electronic form (including but not limited to records and data maintained on computers, tablets, smart phones, external electronic storage drives, thumbnail drives, remote servers or back up tapes). All information requested in the items above are subject to inspection, review and copying by the state auditor. Section 29.235.4(1), RSMo.

### Carroll County

Report No. 2024-021

February 2024

[auditor.mo.gov](https://auditor.mo.gov)

# CITIZENS SUMMARY

## Findings in the audit of Carroll County

Sheriff's Controls and Procedures	The Sheriff has not segregated accounting duties or performed adequate supervisory reviews of detailed accounting records. The Sheriff does not review the work of the Office Administrator and there are no other staff in the Sheriff's office to segregate the duties or review the work. The Office Administrator does not prepare bank reconciliations or monthly lists of liabilities for the Sheriff's general account, and does not maintain a cumulative book balance in the accounting records. Because there is no cumulative book balance in the accounting records or a list of liabilities, the Office Administrator cannot ensure money is available to satisfy all liabilities. Sheriff's office personnel do not always retain copies of voided receipt slips and do not always deposit receipts timely. Sheriff's office personnel do not maintain a complete and accurate seized property inventory listing and do not conduct periodic physical inventories of seized property.
Sheriff's Compensation	The County Commission authorized a mid-term salary increase of \$2,000 to the Sheriff in January 2023, in violation of constitutional provisions.
Electronic Communication Policy	The county has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Good**.\*

\*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Information	

## SCOTT FITZPATRICK MISSOURI STATE AUDITOR

County Commission  
and  
Officeholders of Carroll County

We have audited certain operations of Carroll County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2022. The objectives of our audit were to:

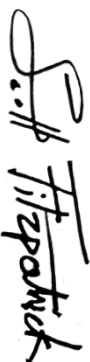

1. Evaluate the county's internal controls over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal control, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Carroll County.

A handwritten signature in black ink, appearing to read "S. Fitzpatrick". The signature is stylized with a large initial "S" and a cursive "Fitzpatrick".

## Management Advisory Report

### State Auditor's Findings

---

#### **1. Sheriff's Controls and Procedures**

Controls and procedures in the Sheriff's office need improvement. The office collected money for civil paper service, concealed carry weapon permits, bonds, and other miscellaneous receipts totaling approximately \$30,000 during the year ended December 31, 2022.

##### **1.1 Segregation of duties**

The Sheriff has not segregated accounting duties or performed adequate supervisory reviews of detailed accounting records. The Office Administrator is primarily responsible for receipting, recording, and depositing receipts; making disbursements; billing for paper service and board bills; and reviewing and transmitting paper service and board bill payments collected. There are no other staff in the Sheriff's office to segregate the duties or review the work, and the Sheriff does not review the Office Administrator's work. The Sheriff indicated he trusts the Office Administrator to perform the above duties and does not believe it necessary to review her work.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating duties of receiving, recording, and depositing receipts; making disbursements; reconciling bank accounts; billing; and receiving and transmitting payments collected. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting and bank records are essential and should include comparing daily receipts to deposits.

##### **1.2 Bank reconciliations**

The Office Administrator does not prepare bank reconciliations or monthly lists of liabilities for the Sheriff's general account, and does not maintain a cumulative book balance in the accounting records. The December 31, 2022, bank balance was \$1,952. Liabilities consisting of December collections of undisbursed fees totaled \$800, resulting in \$1,152 in unidentified money in the account.

Because there is no cumulative book balance in the accounting records or a list of liabilities, the Office Administrator cannot ensure money is available to satisfy all liabilities. The Office Administrator indicated she has not performed bank reconciliations, identified liabilities, or identified the remaining balance in the account because she was not aware she needed to perform these duties.

Preparing a cumulative book balance, adequate monthly bank reconciliations, and monthly lists of liabilities helps ensure receipts and disbursements have been properly handled and recorded, and increases the likelihood errors will be identified and corrected timely. Regular identification of liabilities and a comparison of liabilities to the reconciled bank balance is necessary to ensure accounting records are in balance, all amounts received are disbursed, and money is available to satisfy all liabilities. Differences should be adequately investigated and resolved.

Carroll County  
Management Advisory Report - State Auditor's Findings

### 1.3 Voided receipt slips

Sheriff's office personnel do not always retain copies of voided receipt slips. When a receipt slip needs to be voided during the collection process, the informal procedure is to mutilate the receipt slip and retain it for documentation purposes. However, Sheriff's deputies indicated, on several occurrences, they tore receipt slips out of the receipt book and disposed of them instead of marking the slip void. It is unclear why the deputies did not follow the office policy of retaining the voided receipt slips. Without retaining a copy of the voided receipt slips, it is not possible to ensure all money collected was deposited.

### 1.4 Depositing timely

Sheriff's office personnel do not always deposit receipts timely. We reviewed receipt and deposit documentation for \$7,383 of the approximately \$30,000 collected during the year ended December 31, 2022. We noted 6 deposits in which office personnel held receipts for at least 2 weeks before deposit. For example, between August 12, 2022, and August 25, 2022, \$1,530 received was not deposited until August 26, 2022. The Office Administrator indicated she does not have a set timeframe for making deposits and she is not able to make deposits more timely due to staffing shortages.

Failure to implement adequate depositing procedures increases the risk that loss, theft, or misuse of money received will occur and go undetected.

### 1.5 Seized property controls

Sheriff's office personnel do not maintain a complete and accurate seized property inventory listing and do not conduct periodic physical inventories of seized property.

The Sheriff's office has 2 seized property logs with approximately 360 items listed. One is handwritten and is for items received in 2016 and prior, and the other is a computerized log they have used since 2016. The seized property officer indicated they have not merged the 2 logs or performed an inventory of seized property because they did not see a need. However, we noted some items were listed on both logs. We haphazardly selected 5 items from the logs to determine if the information was accurate and identified 2 items that could not be located: a baseball bat and a 2.5 ton floor jack. The computerized log indicated the floor jack was located in a garage with multiple other items. However, we found no seized property in the garage. Other seized property records indicated these items were on a list to return to the owner, but there is no confirmation this was done and the seized property listing was not updated. It is unclear why the baseball bat was missing from the evidence room. Additionally, we selected 5 items from the room to ensure they were listed on one of the logs and noted no problems.

Considering the often sensitive nature of seized property, adequate internal controls are essential and would significantly reduce the risk of loss, theft, or misuse of the property. Maintaining complete and accurate inventory control records and performing periodic physical inventories with the results

Carroll County  
Management Advisory Report - State Auditor's Findings

compared to inventory records is necessary to ensure seized property is accounted for properly.

## Recommendations

The Sheriff:

- 1.1 Segregate accounting duties or ensure adequate independent or supervisory reviews of detailed accounting and bank records are performed and documented.
- 1.2 Ensure a cumulative book balance, adequate monthly bank reconciliations, and lists of liabilities are prepared and reconciled timely. Any differences between accounting records and reconciliations should be promptly investigated and resolved.
- 1.3 Mutilate and retain all voided receipt slips.
- 1.4 Ensure deposits are made timely.
- 1.5 Maintain a complete and accurate seized property log, ensure a periodic inventory is conducted and reconciled to the seized property log, and investigate any differences.

## Auditee's Response

- 1.1 *Limited funding prevents us from hiring extra administrative staff to segregate accounting duties. However, in keeping with the Auditor's recommendations, we will work to implement supervisory reviews of accounting and bank records.*
- 1.2 *We agree with your finding and are working on this issue.*
- 1.3 *We agree with your finding and have implemented a policy to accomplish this.*
- 1.4 *We agree with your finding and have implemented a policy to accomplish this.*
- 1.5 *We agree with your findings and are working on creating and implementing a policy to ensure accurate records are maintained and annual inventories are completed on a timely basis.*

## 2. Sheriff's Compensation

The County Commission authorized a mid-term salary increase of \$2,000 to the Sheriff in January 2023, in violation of constitutional provisions. The Sheriff was re-elected in 2021 at the salary level approved by the Carroll County Salary Commission.

Section 57.317.1(2), RSMo, enacted in 2021, states the sheriff shall receive an annual salary computed based on a percentage of the compensation of an

## Carroll County Management Advisory Report - State Auditor's Findings

associate circuit judge of the county, with the percentage determined by a statutory schedule using the county's current assessed valuation level. The law indicates if the increase to the Sheriff's salary is less than \$10,000, the increase shall take effect January 1, 2022, but if the salary increase is more than \$10,000, the increase shall be paid equally over a 5-year period. However, Article VII, Section 13, of the Missouri Constitution, prohibits an increase in compensation for state, county, and municipal officers during the term of office. Court cases have concluded that to receive additional compensation during a term of office there must be: 1) no existing compensation for the office; 2) new or additional duties extrinsic or not germane to the office; or 3) the mid-term increase must result from the application of a statutory formula for calculating compensation that was in place prior to the individual being elected or taking office. None of those circumstances exist; therefore, the increase to the Sheriff's salary should be effective only for any Sheriff elected and sworn into office after the new salary schedule was authorized.

The County Commission did not seek a written legal opinion on these matters. If the raise was allowable, the total increase should have been \$12,553, and the annual payment one-fifth of that. However, the County Commission misinterpreted the law and elected to increase the Sheriff's salary \$2,000 per year over a 5-year period, for a total of \$10,000. The County Commission indicated it did not implement the raise on January 1, 2022, because it was awaiting the conclusion of litigation regarding the authorizing senate bill. Upon conclusion of that litigation, the County Commission determined it was appropriate to provide the salary increase to the Sheriff and it believed it was required to do this because of the change in state law.

### Recommendation

The County Commission discontinue the mid-term salary increase and consider various methods for possible recoupment of money already paid.

### Auditee's Response

*We have discontinued the annual raises for the Sheriff stipulated by Section 57.317.1(2), RSMo. We will seek legal advice regarding the proper procedures going forward in an attempt to stay in full compliance of all Missouri statutes regarding the Sheriff's proper annual salary.*

## 3. Electronic Communication Policy

The county has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo,

---

Carroll County  
Management Advisory Report - State Auditor's Findings

---

provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.<sup>1</sup>

Development of a written policy to address the use of electronic communications is necessary to ensure all documentation of official business of the county is retained as required by state law. The Commission indicated it was unaware of the record retention requirements and the electronic communications guidelines.

## Recommendation

The County Commission work with other county officials to develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

## Auditee's Response

*We agree with this recommendation and are in the process of preparing a written records management and retention policy.*

---

<sup>1</sup> Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <<https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>>, accessed December 21, 2023.

---

# Carroll County

## Organization and Statistical Information

---

Carroll County is a township-organized, third-class county. The county seat is Carrollton. The county's population was 8,497 in 2020, according to the U.S. Census Bureau.

Carroll County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 34 full-time employees and 1 part-time employee on December 31, 2022. The townships maintain county roads.

County operations also include a Senate Bill 40 Board.

### Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2023	2022
Stan Falke, Presiding Commissioner	\$	38,524
Everett Shields, Associate Commissioner		36,524
David Martin, Associate Commissioner		36,524
Janet Horine, Circuit Clerk and Ex Officio Recorder of Deeds (1)		
Norma L. Sparks, County Clerk		52,309
Cassandra Brown, Prosecuting Attorney		57,254

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

To the Honorable Mayor  
and  
Members of the Board of Aldermen  
City of Purcell, Missouri

We have conducted follow-up work on certain audit report findings contained in Report No. 2022-033, *City of Purcell* (rated as Poor), issued in June 2022, pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

1. Identify audit report findings for which follow up is considered necessary, and inform the city about the follow-up review on those findings.
2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:
  - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
  - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
  - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
  - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.

As part of the AFTER work conducted, we reviewed documentation provided by the City Treasurer and held discussions with the City Clerk and City Treasurer to verify the status of implementation for the recommendations. Documentation provided by the city included Board meeting minutes, financial records, and other pertinent documents. This report is a summary of the results of this follow-up work, which was substantially completed during January 2024.

A handwritten signature in black ink that reads "S. Fitzpatrick".

## Follow-Up Report on Audit Findings

### Status of Findings

---

#### 1. Misappropriated and Undeposited Money

From February 1, 2021, to April 12, 2021, at least \$3,233 was misappropriated or was missing from the city. In March 2021, the former Mayor Pro Tem improperly issued 4 checks, totaling \$1,988 with each payee line indicating a payee name and "or Nancy Wilson" as a joint payee. Former Mayor Pro Tem Wilson subsequently deposited these checks into her personal bank account.

The former Mayor Pro Tem also improperly withdrew \$400 cash in April 2021, from the city's General account, and improperly issued a \$200 check in April 2021, to a routine city vendor and then negotiated the check. Also in April 2021, the former Mayor Pro Tem issued a \$500 check to an individual for "Mowing and Cleaning City Hall." The payee of this check indicated the former Mayor Pro Tem took her to the bank to cash the check and the former Mayor Pro Tem gave her \$250 cash and kept the remaining \$250 cash.

Adjustments totaling \$160 (\$80 each month) were improperly applied to the former Mayor Pro Tem's electronic utility account in January and February 2021. The former Mayor Pro Tem did not pay for utility and trash services estimated at \$70 that were due in March 2021.

Utility receipts totaling \$165 received by the Mayor Pro Tem in March 2021 were not deposited and were missing. Additionally, 5 utility customers contacted city officials and indicated they made utility payments, totaling \$670, during the time period the former Mayor Pro Tem was handling utility receipts, but the receipts were not deposited.

#### Recommendation

The Board of Aldermen continue to work with law enforcement officials, as necessary, regarding the improper disbursements, improperly recorded utility adjustments, utility services not paid, and missing money, and obtain additional restitution, if possible.

#### Status

##### **Implemented**

On May 27, 2021, the Jasper County Sheriff's office questioned and then arrested the former Mayor Pro Tem. She was charged with a class D felony of stealing in the amount of \$2,588. In January 2022, the former Mayor Pro Tem pleaded guilty in circuit court to an amended charge of a class A misdemeanor of stealing and was sentenced to one year in jail, with a suspended execution of the sentence, and 2 years unsupervised probation. The former Mayor Pro Tem was also ordered to pay court costs of \$147 and restitution in the amount of \$2,588. The defendant's \$2,600 cash bond was applied to restitution and court costs. The remaining money owed by the former Mayor Pro Tem was written off by the city.

#### 2. Oversight, Annual Audits, and Bonding

The Board did not provide adequate oversight, obtain annual audits as required by state law, or bond city officials with access to city money.

City of Purcell  
Follow-up Report on Audit Findings  
Status of Findings

## 2.1 Oversight and segregation of duties

The former Board did not establish adequate oversight or segregation of duties over the various financial accounting functions. The former Board did not always adequately monitor the city's financial activity; review or compare checks written to supporting documents, such as invoices or bank statements; or require dual signatures on city checks.

### Recommendation

The Board of Aldermen segregate accounting duties to the extent possible and implement appropriate reviews and monitoring procedures. In addition, the Board should require dual signatures on all checks.

### Status

#### **Not Implemented**

The City Treasurer indicated no formal procedures have been implemented to segregate accounting duties. The Board receives and reviews a balance sheet and a profit/loss report generated from the city's accounting system and a fund balance report prepared by the City Treasurer each month. However, the Board does not review bank statements for the city's two bank accounts. Our review of the November 30, 2023, balance sheet for the General bank account showed a balance of \$316,919, the fund balance report prepared by the City Treasurer showed a balance of \$316,030, and the bank reconciliation showed a reconciled bank balance of \$316,868. City officials did not document their review of these records, the differences noted, or an explanation of the differences.

Our review of the November 2023 canceled checks noted 2 signatures on all of the checks; however, several of the checks were signed only by city employees (City Clerk and City Treasurer), with no subsequent documented Board review or approval. We also noted some checks from May 2023 were issued with only 1 signature, and some checks issued to the Mayor and City Treasurer were signed by themselves.

## 2.2 Annual audit

The city did not obtain an annual audit of its sewer system for the year ended December 31, 2020, as required by state law.

### Recommendation

The Board of Aldermen obtain annual audits of the water and sewer system as required by state law.

### Status

#### **Not Implemented**

The Board has not obtained an annual audit of the water and sewer system for the years ended December 31, 2020, 2021 and 2022. The city's water and sewer system was sold in October 2022. The City Treasurer indicated she has contacted an accounting firm to conduct an audit, and this firm is scheduled to attend the next Board meeting.

City of Purcell  
Follow-up Report on Audit Findings  
Status of Findings

---

## 2.3 Bonding

The Mayor and board members, who signed checks and had access to money held in bank accounts, were not covered by a bond.

### Recommendation

The Board of Aldermen maintain bond coverage for all personnel with access to city money.

### Status

#### **Partially Implemented**

The Board obtained bond coverage of \$25,000 for city employees in April 2023. However, the bond does not cover the Mayor, who also signs checks. The City Treasurer indicated the Board will discuss this at its next meeting.

---

## 3. Financial Condition

The city was in poor financial condition. For the year ended December 31, 2020, the city's General account reconciled bank balance was \$15,460, which was only slightly greater than the city's average monthly expenditures of \$14,778. Further, the Board was not adequately monitoring the city's financial condition, because it did not receive budget-to-actual information by fund or timely financial reports.

### Recommendation

The Board of Aldermen ensure it receives detailed financial data monthly, perform immediate and long-term planning, and closely monitor and take necessary steps to improve the city's financial condition.

### Status

#### **Partially Implemented**

The November 30, 2023, balance sheet reported a balance of \$316,919 in the city's General account and a balance of \$13,649 in its COVID Relief account. This was after the city sold its water and sewer system in October 2022, which resulted in a reduction in revenues and expenditures for the city. The Board receives and reviews a balance sheet and a profit/loss report generated from the city's accounting system and a fund balance report prepared by the City Treasurer each month. However, officials do not provide the Board budget-to-actual reports each month.

---

## 4. Accounting Controls and Procedures

Accounting controls and procedures needed improvement.

### 4.1 Receipting, recording, and depositing

Official prenumbered receipt slips were not issued for all payments received, the numerical sequence of the manual receipt slips issued was not accounted for, and manual receipt books were not always retained. Utility receipts were not always recorded or timely recorded in the computerized utility system. Deposits were not always made timely.

### Recommendation

The Board of Aldermen require the issuance of official prenumbered carbon copy receipt slips for all city receipts, ensure receipt slips are retained, and

City of Purcell  
Follow-up Report on Audit Findings  
Status of Findings

account for the numerical sequence of receipt slips. In addition, the Board of Aldermen should ensure utility and trash receipts are timely recorded in the computerized system and deposited timely and intact.

Status

**Not Implemented**

Our review of the November 14, 2023, deposit, totaling \$2,195, showed an official prenumbered carbon copy receipt slip was issued for only 1 of the 5 receipts deposited and the deposit was not timely. The City Clerk indicated they did not realize they were using more than 1 receipt book until we questioned the receipt numbers issued, which indicates they were not accounting for the numerical sequence of receipt slips. The City Clerk indicated they are now using 1 receipt book. The City Treasurer indicated she posts receipts to the accounting system at the time of deposit (approximately once a month). The receipts included in the \$2,195 deposit were received from October 12 to November 1, 2023.

4.2 Allocations and  
restricted funds

The city had no documentation to justify the allocations of salaries of the City Clerk, City Collector, and City Treasurer and wages of water/sewer and maintenance employees to the city's General, Road, Water, and Sewer Funds. The Board did not budget 2020 sales tax revenues for use in its Road Fund as required. City voters approved a sales tax for which 50 percent of revenues were to be used for roads and 50 percent for capital improvements. The Board instead budgeted 50 percent in the Capital Improvement Fund and 50 percent in the Water Improvement Fund. Also, the city received statewide sales tax and motor-vehicle related revenue in 2020 and 2019, which was restricted for the use on roads, but only a small portion was used for road improvements, and it is unclear if the remaining restricted revenues were used for street related purposes as required.

Recommendation

The Board of Aldermen ensure salaries and wages are allocated based on specific criteria and retain documentation to support the allocations to city funds. In addition, the Board of Aldermen should ensure city financial reports and budgets accurately reflect the use of the restricted revenues and monitor the use of those revenues for their required purpose.

Status

**Partially Implemented**

According to the 2023 annual city budget-to-actual report, the salaries of the Mayor, City Clerk, and City Treasurer were allocated solely to the General Fund. City officials did not provide documentation to support the choice to allocate all of these salaries to the General Fund when some may be allowable for the restricted funds if the city properly documented that decision.

City accounting reports also show 50 percent of sales taxes were recorded in the Road Fund and 50 percent in the Capital Improvement Fund, as required.

City of Purcell  
Follow-up Report on Audit Findings  
Status of Findings

These reports also indicate the statewide sales and motor vehicle related taxes restricted for road use were recorded in the Road Fund. The City Treasurer indicated the Board monitors the use of restricted funds at monthly meetings when it reviews the financial reports.

#### 4.3 Record retention

Many city financial records were not properly retained. A manual receipt book, individual receipt slips, manual utility billing reports, and supporting documentation for disbursements (including payroll) covering 2 months in 2021 could not be located by the city.

#### Recommendation

The Board of Aldermen retain all records in accordance with state law.

#### Status

##### **Partially Implemented**

No policies regarding record retention have been established. However, all records requested for our review were retained by the city and provided to us.

#### 5.1 Disbursements - Procurement procedures and contracts

The city did not solicit bids or proposals for sewer system repairs provided by 2 different vendors, sludge removal, audit services, road paving, or excavation/water line repair. In addition, the city did not have written contracts with 5 of these vendors. Also, the city's trash service contract expired in January 2020, and the Board did not enter into a new contract until December 2020 with the existing vendor. From February 2020 through November 2020, the same vendor continued to provide trash services to the city until the new contract was signed.

#### Recommendation

The Board of Aldermen ensure bids or proposals are obtained when applicable and enter into timely written contracts defining services provided and benefits received.

#### Status

##### **Implemented**

The city obtained and retained bids for road paving and park improvements, which were the 2 significant city purchases that required bids in 2023. The bids served as the written contract with the 2 selected vendors. The city no longer contracts for trash services.

#### 5.2 Disbursements - Supporting documentation and review

City officials could not provide supporting documentation for some disbursements or their approval of those disbursements.

City of Purcell  
Follow-up Report on Audit Findings  
Status of Findings

Recommendation	The Board of Aldermen maintain adequate supporting documentation for all disbursements and ensure invoices are adequately reviewed and approved prior to payment of invoices.
Status	<b>Partially Implemented</b>  Documentation was maintained for all November 2023 disbursements reviewed; however, there was no documentation to indicate the invoices were reviewed and approved prior to payment.
5.3 Disbursements - Credit card receipt and payment	The city did not retain credit card receipt slips for some credit card purchases and made duplicate payments to its credit card vendor.
Recommendation	The Board of Aldermen retain receipt slips for all credit card purchases and ensure invoices are marked paid to prevent duplicate payments.
Status	<b>Partially Implemented</b>  The City Treasurer indicated the city no longer has credit cards; however, the October meeting minutes indicated the Board approved the City Clerk to obtain a debit card for the city's General bank account. The Board has not adopted any policies or procedures related to reviewing debit card purchases.
7. Payroll	City officials did not maintain documentation to support all payroll transactions. City officials did not have sufficient documentation (e.g., timesheet or ordinance) to support a payment made to the City Clerk/Treasurer, with the memo line of the check indicating "Bonus-extra duties." City officials also could not provide timesheets to support a hourly maintenance employee's final payroll check. Finally, city officials could not provide payroll reports to support a payment to the Internal Revenue Service for federal payroll taxes.
Recommendation	The Board of Aldermen ensure adequate documentation is retained to support all payroll transactions.
Status	<b>Partially Implemented</b>  The City Clerk and City Treasurer still do not prepare timesheets. A monthly payroll report is generated to support payments made to the Internal Revenue Service for federal payroll taxes. Monthly payroll reports for the third quarter of 2023 agreed to related payments of payroll taxes.

City of Purcell  
Follow-up Report on Audit Findings  
Status of Findings

8. Budgets, Financial Reporting, and Maintenance Planning

The city did not prepare complete annual budgets or monitor budgets, file annual financial reports timely, publish semiannual financial statements in compliance with state law, or maintain a street maintenance plan.

8.1 Budgets

The city did not prepare a budget for the year ended December 31, 2021. There was no evidence in Board meeting agendas or minutes indicating a budget was adopted and approved for that year. The Board did not adequately monitor budget-to-actual receipts and disbursements because year-to-date budget-to-actual reports of financial activity were not presented to the Board during most of 2020 and a final budget-to-actual report was not prepared for the year ended December 31, 2020.

Recommendation

The Board of Aldermen prepare annual budgets that contain all information required by state law and ensure budgets are adequately monitored.

Status

**Partially Implemented**

A budget for the year ended on December 31, 2023, was prepared and approved by the Board; however, it did not contain all statutorily-required elements. The budget did not include the actual or budgeted amounts for the 2 preceding years, the actual beginning and estimated ending cash balance for any funds, or a budget message. In addition, the Board does not adequately monitor budget-to-actual receipts and disbursements throughout the year because monthly budget-to-actual reports are not presented to the Board. A year-end budget-to-actual report was prepared for and reviewed by the Board at the end of 2023.

8.2 Financial reporting

The city did not file a financial report with the SAO for the year ended December 31, 2020, until November 23, 2021, resulting in a fine of \$39,544.

Recommendation

The Board of Aldermen submit annual financial reports to the State Auditor's Office as required by state law.

Status

**Implemented**

The city submitted annual financial reports for the years ended December 31, 2021, and 2022, to the SAO as required by state law. The Missouri Department of Revenue is reducing the city's sales and use tax distributions each month until the fine related to the 2020 financial statement is paid in full.

8.3 Published financial statements

The city did not publish semiannual financial statements as required by state law for the year ended December 31, 2020, or the first 6 months of 2021.

Recommendation

The Board of Aldermen publish semiannual financial statements as required by state law.

City of Purcell  
Follow-up Report on Audit Findings  
Status of Findings

Status	<b>Implemented</b>  The city published semiannual financial statements for the first 6 months of 2023 as required by state law.
8.4 Street maintenance plan	City officials had not developed a formal annual maintenance plan for city streets.
Recommendation	The Board of Aldermen establish a formal annual street maintenance plan.
Status	<b>Not Implemented</b>  The city has not established a formal annual street maintenance plan; however, the City Treasurer indicated the Board discusses street maintenance at monthly meetings. The City Treasurer indicated that the Board plans to establish a formal annual street maintenance plan.
9.1 Board Qualifications, Ordinances, and Sunshine Law - Board qualifications	Former Alderwoman Nancy Wilson was elected as a write-in candidate and took the oath of office in June 2020 while owing delinquent personal property taxes. She did not pay her 2018 and 2019 personal property taxes until July 31, 2020, and still owed 2020 delinquent personal property taxes as of April 12, 2021, when the Board voted to remove her from office.
Recommendation	The Board of Aldermen establish procedures to ensure aldermen possess the qualifications required for holding office.
Status	<b>Partially Implemented</b>  The city has not developed formal procedures to address this. The City Treasurer indicated she checked the county's property tax website prior to the last election to ensure all individuals running for a board position had paid their property taxes.
9.2 Board Qualifications, Ordinances, and Sunshine Law - Ordinances	The city does not maintain an up-to-date official ordinance book. Various ordinances were approved by the Board for the year ended December 31, 2020, but not codified. The most recent ordinance codified was approved in August 2018.
Recommendation	The Board of Aldermen ensure the city's official ordinance book is complete and updated timely.
Status	<b>Not Implemented</b>  The ordinance book has not been codified. The City Treasurer indicated that the Board has begun updating ordinances, but these updates are not being

City of Purcell  
Follow-up Report on Audit Findings  
Status of Findings

added to the ordinance book. The City Treasurer indicated the city has explored using software for the updates.

**9.3 Board Qualifications,  
Ordinances, and  
Sunshine Law -  
Sunshine Law**

City officials could not locate minutes for all open meetings held, and closed meeting minutes were not prepared for 5 closed sessions referenced in open meeting minutes. The Board failed to specify the reasons for closing a meeting in the open meeting minutes for 4 of the 5 closed meetings held, and the agendas for 2 of these 4 closed meetings also did not cite the specific reasons for closure. In addition, the preparer did not sign the meeting minutes, and the date the Board approved the meeting minutes was not included for 15 open meetings.

**Recommendation**

The Board of Aldermen maintain complete and accurate meeting minutes for all meetings and ensure meeting minutes are signed by the preparer and approved by the Board. In addition, the Board of Aldermen should ensure specific reasons for closing a meeting are documented in the agendas and open meeting minutes.

**Status**

**Partially Implemented**

The city maintained meeting minutes for the monthly meetings held in October and November 2023, that were signed by the City Clerk, as preparer, and the Mayor and included the date of the Board's subsequent approval. The city held 2 closed meetings in March 2023 and both meeting agendas indicated the Board was closing the meetings to discuss issues relating to legal actions or real estate (Sections 610.021(1) and (2), RSMo). However, the closed meeting minutes did not document any discussions concerning real estate.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

To the County Commission  
and  
Officeholders of Dunklin County, Missouri

The Office of the State Auditor contracted for an audit of Dunklin County's financial statements for the 2 years ended December 31, 2022, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by CliftonLarsonAllen, LLP, is attached.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive style with a large, stylized "S" and "F".

Missouri State Auditor

## RECOMMENDATION SUMMARY

### Recommendations in the audit of Dunklin County

2022-001

The county ensure the proper general ledger accounts are created to allow an individual to post transfers to the correct accounts. In addition, we recommend management train other staff members on how to properly record interfund transfers. A review process should also monitor for error in recording transfers.

## INDEPENDENT AUDITORS' REPORT

County Commission  
Dunklin County  
Kennett, Missouri

### ***Report on the Audit of the Financial Statements***

We have audited the accompanying financial statements of Dunklin County MO, Missouri (the County), which comprise cash and investments for each fund as of December 31, 2022 and 2021, and the related statements of receipts, disbursements, and changes in cash and investment balances – budget and actual for the years then ended and the related notes to the financial statements.

### ***Unmodified Opinion on Regulatory Basis of Accounting***

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and investments of each fund of the County as of December 31, 2022 and 2021, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note 1.

### ***Adverse Opinion on U.S. Generally Accepted Accounting Principles***

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2022 and 2021, or changes in financial position for the years then ended.

### ***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles***

As described in Note 1 of the financial statements, the financial statements are prepared by the County on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of the State of Missouri. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Governmental Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Governmental Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

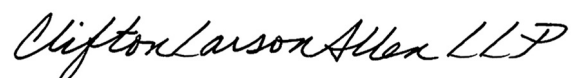

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### *Supplementary Information*

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the County's financial statements. The schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the financial statements. The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the financial statements as a whole on the basis of accounting described in Noted 1.

#### ***Other Reporting Required by Government Auditing Standards***

In accordance with Government Auditing Standards, we have also issued our report dated December 26, 2023, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the County's internal control over financial reporting and compliance.

**DUNKLIN COUNTY  
KENNETT, MISSOURI  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022 AND 2021**

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Dunklin County, Missouri (County), is governed by a three-member board of commissioners and was established in 1836 by an Act of the Missouri Territory. There are nine elected Constitutional Officers: County Clerk, Collector/Treasurer, Recorder of Deeds, Sheriff, Assessor, Coroner, Circuit Clerk, Public Administrator and Prosecuting Attorney.

As discussed further in Note 1, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

**A. Reporting Entity**

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include property tax assessments and collections, state/county courts administration, recording of instruments, public safety, emergency planning, road and bridge construction and maintenance, health and welfare services, and election services.

The financial statements referred to above include only the primary government of Dunklin, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

**B. Basis of Presentation**

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a statement of receipts, disbursements and changes in cash and investment balances – all governmental funds, a comparative statement of receipts, disbursements and changes in cash and investment balances – budget and actual – all governmental funds, and a statement of assets and liabilities arising from cash transactions – fiduciary funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. Following are fund types used by the County.

**DUNKLIN COUNTY  
KENNETT, MISSOURI  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022 AND 2021**

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**B. Basis of Presentation (Continued)**

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

Fiduciary Fund Types

Custodial funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds, or other governmental units. Fiduciary funds are accounted for and reported similar to the governmental funds. These funds account for activities of collections for other taxing units by the Collector of Revenue and other fiduciary operations.

**C. Basis of Accounting**

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America.

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, bonds, and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financial statements would be presented on the accrual basis of accounting.

**DUNKLIN COUNTY  
KENNETT, MISSOURI  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022 AND 2021**

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**D. Budget and Budgetary Accounting**

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 of the Missouri Revised Statutes (RSMo), the County adopts a budget for each governmental fund.
2. On or before January 15, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their offices or departments for the budget year.
3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.
4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.
5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.
6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.
7. Budgets are prepared and adopted on the cash basis of accounting. State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

See State Compliance Report for findings related to budgetary requirements.

**DUNKLIN COUNTY  
KENNETT, MISSOURI  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022 AND 2021**

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**E. Property Taxes**

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar years 2022 and 2021, for purposes of taxation was:

	2022	2021
Real Estate	\$ 218,711,060	\$ 205,101,090
Personal Property	113,212,650	94,511,734
Railroad and Utilities	17,006,459	16,059,571
Total	<u>\$ 348,930,169</u>	<u>\$ 315,672,395</u>

During 2022 and 2021, the Senate Bill 40 board approved a \$.10 and \$.10 tax levy, respectively, per \$100 of assessed valuation of tangible taxable property, for purpose of County taxation, as follows:

	2022	2021
Senate Bill 40 Board	\$ 0.1000	\$ 0.1000

**F. Cash Deposits and Investments**

Deposits and investments are stated at cost. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of 90 days or less, if applicable. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, or any instrumentality thereof, certain municipal bonds authorized by Missouri statute, or time certificates of deposit. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and cash equivalent balances are presented in the notes to the financial statements.

**DUNKLIN COUNTY  
KENNETT, MISSOURI  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022 AND 2021**

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**G. Interfund Transactions**

Legally required transfers are reported as “transfers in” by the recipient fund and as “transfers out” by the disbursing fund.

**NOTE 2 DEPOSITS AND INVESTMENTS**

The County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. County investments are nonnegotiable certificates of deposit. Each fund type's portion of this pool is displayed as "Cash and Investments" under each fund's caption.

**Deposits**

Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. The total bank balance as of December 31, 2022 and 2021 was insured through the Federal Deposit Insurance Corporation and pledged collateral.

**Summary of Carrying Values**

The carrying values of cash and investments in governmental and custodial funds are included in the financial statements at December 31 as follows:

	2022	2021
<b>Cash and Investments for Governmental Funds:</b>		
Cash	\$ 12,967,883	\$ 12,483,966
Investments	3,000,000	-
Total Governmental Cash and Investments	<u>\$ 15,967,883</u>	<u>\$ 12,483,966</u>
<b>Cash and Investments for Custodial Funds:</b>		
Cash	\$ 9,388,581	\$ 9,879,740
Investments	-	-
Total Custodial Cash and Investments	<u>\$ 9,388,581</u>	<u>\$ 9,879,740</u>

**Investment Interest Rate Risk**

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

**DUNKLIN COUNTY  
KENNETT, MISSOURI  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022 AND 2021**

**NOTE 3 CERTIFICATES OF PARTICIPATION**

In 2004, Certificates of Participation were issued in the original principal amount of \$9,260,000 for expanding, improving, furnishing, and equipping the County's Justice Center. On August 30, 2012, the County refunded the Series 2004 Certificates of Participation (Series 2012). In 2021, the County refunded the remaining Series 2012 principal balance of \$5,235,000 at an interest rate of 3.00% maturing on December 1, 2028 (Series 2021).

The following is a schedule of changes in certificates of participation and interest paid for the years ending December 31, 2022 and 2021:

	Balance 2021	Additions	Retirement	Balance 2022	Interest Paid
Series 2021	\$ 4,560,000	\$ -	\$ (690,000)	\$ 3,870,000	\$ 136,474
Total	<u>\$ 4,560,000</u>	<u>\$ -</u>	<u>\$ (690,000)</u>	<u>\$ 3,870,000</u>	<u>\$ 136,474</u>

	Balance 2020	Additions	Retirement	Balance 2021	Interest Paid
Series 2021	\$ -	\$ 5,235,000	\$ (675,000)	\$ 4,560,000	\$ -
Series 2012	6,405,000	-	(6,405,000)	-	144,456
Total	<u>\$ 6,405,000</u>	<u>\$ 5,235,000</u>	<u>\$ (7,080,000)</u>	<u>\$ 4,560,000</u>	<u>\$ 144,456</u>

The following is a schedule of future maturities for the years ending December 31:

<u>Year Ending December 31,</u>	Principal Maturities	Interest Maturities	Total
2023	\$ 710,000	\$ 116,100	\$ 826,100
2024	730,000	103,380	833,380
2025	750,000	77,081	827,081
2026	775,000	50,709	825,709

Total	<u>\$ 3,870,000</u>	<u>\$ 377,570</u>	<u>\$ 4,247,570</u>

**DUNKLIN COUNTY  
KENNETT, MISSOURI  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022 AND 2021**

**NOTE 4 DIRECT BORROWING**

In 2021, the County obtained equipment financing of \$850,120 for the purchase of a computer-aided dispatch system for the Emergency 911 Fund ("911 Equipment"). The loan matures in March 2026 with quarterly debt services payments at an interest rate of 2.35%. Title to the financed equipment passes to the County after satisfactory payment. In the event of default, the equipment lessor will have the right to demand all outstanding payments are due immediately or repossession of the financed equipment.

The following is a schedule of changes in equipment finance purchases and interest paid for the years ending December 31, 2022 and 2021:

	Balance 2021	Additions	Retirement	Balance 2022	Interest Paid
911 Equipment	769,270	-	(164,177)	605,093	16,149
Total	<u>\$ 769,270</u>	<u>\$ -</u>	<u>\$ (164,177)</u>	<u>\$ 605,093</u>	<u>\$ 16,149</u>

	Balance 2020	Additions	Retirement	Balance 2021	Interest Paid
911 Equipment	-	850,120	(80,850)	769,270	18,078
Total	<u>\$ -</u>	<u>\$ 850,120</u>	<u>\$ (80,850)</u>	<u>\$ 769,270</u>	<u>\$ 18,078</u>

The following is a schedule of future maturities for the years ending December 31:

Year Ending December 31,	Principal Maturities	Interest Maturities	Total
2023	\$ 210,281	\$ 16,321	\$ 226,602
2024	172,701	8,580	181,281
2025	177,100	4,181	181,281
2026	45,011	309	45,320
Total	<u>\$ 605,093</u>	<u>\$ 29,391</u>	<u>\$ 634,484</u>

**DUNKLIN COUNTY  
KENNETT, MISSOURI  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022 AND 2021**

**NOTE 5 INTERFUND TRANSFERS**

Transfers between funds for the years ended December 31 are as follows:

Fund Name	2022		2021	
	Transfer In	Transfer Out	Transfer In	Transfer Out
Assessment Fund	\$ 15,000	\$ -	\$ 15,000	\$ -
General Revenue Fund	632,830	(26,496)	530,000	(15,000)
Inmate Security Fund	-	(250,000)	-	(150,000)
Law Enforcement Sales Tax Fund	-	(350,000)	-	(350,000)
Law Enforcement Training Fund	5,836	-	-	-
Prosecuting Attorney Bad Check Fund	2,830	-	-	-
Sheriff Civil Fees Fund	-	-	26,500	-
Special Road and Bridge Fund	-	(30,000)	-	(30,000)
Sheriff Concealed Weapons Fund	-	-	-	(26,500)
Total	<u>\$ 656,496</u>	<u>\$ (656,496)</u>	<u>\$ 571,500</u>	<u>\$ (571,500)</u>

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them, to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

**NOTE 6 LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS)**

**Plan Description**

The County's defined benefit pension plan provides certain retirement, disability, and death benefits to plan members and beneficiaries. The County participates in the Missouri Local Government Employees Retirement System (LAGERS). LAGERS is an agent multiple-employer, statewide public employee pension plan established in 1967 and administered in accordance with Sections 70.600-70.755, RSMo. As such, it is LAGERS responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and is tax exempt. The responsibility for the operations and administration of LAGERS is vested in the LAGERS' board of trustees consisting of seven persons. LAGERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by accessing the LAGERS website at [www.molagers.org](http://www.molagers.org).

**Benefits Provided**

LAGERS provides retirement, death, and disability benefits to employees of participating political subdivisions. All benefits vest after five years of credited service. Employees who retire on or after age 60 (55 for police and fire) with five or more years of service are entitled to an allowance for life based upon the benefit program then in effect for their political subdivision. Employees may retire with an early retirement benefit with a minimum of five years of credited service and after attaining age 55 (50 for police and fire) and receive a reduced allowance.

**DUNKLIN COUNTY  
KENNETT, MISSOURI  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022 AND 2021**

**NOTE 6    LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (CONTINUED)**

Benefit terms provide for annual post-retirement adjustments to each member's retirement allowance subsequent to the member's retirement date. The annual adjustment is based on the increase in the Consumer Price Index and is limited to 4% per year.

**Contributions**

The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by LAGERS. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance an unfunded accrued liability. Full-time employees of the employer contribute 4% of their gross pay to the pension plan. Employer contribution rates are 6.9% (General) and 6.1% (Police) of annual covered payroll.

For the years ended December 31, 2022 and 2021, the County paid \$137,051 and \$126,864 to LAGERS, respectively.

**NOTE 7    COUNTY EMPLOYEES' RETIREMENT FUND (CERF)**

**Plan Description**

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300, RSMo. The board of directors consists of 11 members, 9 of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the governor of Missouri. The board of directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multi-employer retirement system for each county in the state of Missouri, except counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the LAGERS; and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system. CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after eight years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of eight years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55.

**DUNKLIN COUNTY  
KENNETT, MISSOURI  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022 AND 2021**

**NOTE 7 COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (CONTINUED)**

**Plan Description (Continued)**

Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

CERF issues audited financial statements. Copies of these statements may be obtained from the board of directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

**Contributions**

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining eight years of creditable service, accumulated employee contributions are refunded to the employee.

The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. During 2022 and 2021, the County collected and remitted to CERF, employee contributions of \$63,478 and \$61,653, respectively, for the years then ended.

In addition, the following fees and penalties prescribed under Missouri law are required to be collected and remitted to CERF by counties covered by the plan:

- Late fees on filing of real estate and personal property tax declarations.
- Twenty dollars on each merchant and manufacturer's license issued.
- Six dollars on each document recorded or filed with county recorders of deeds, with an additional one dollar on each document recorded.
- Five-ninths of the fee on delinquent property taxes.
- Interest earned on investment of the above collections prior to remittance to CERF.

The County remitted to CERF \$300,343 and \$332,195, respectively, for the years ended December 31, 2022 and 2021.

**DUNKLIN COUNTY  
KENNETT, MISSOURI  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022 AND 2021**

**NOTE 8 PROSECUTING ATTORNEY RETIREMENT FUND**

In accordance with Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the state of Missouri is responsible for administration of this plan. The County has contributed \$11,628 and \$11,900, respectively, for the years ended December 31, 2022 and 2021.

**NOTE 9 CLAIMS, COMMITMENTS, AND CONTINGENCIES**

**Litigation**

The County is subject to various claims and legal proceedings covering a wide range of matters in the ordinary course of its activities. Management believes that any liability that may ultimately result from the resolution of these matters will not have a material adverse effect on financial condition of the County.

**Compensated Absences**

The County provides regular full-time employees with vacation time after they have completed a year of service. Vacation time accrues at the rate of one week per completed year of employment annually, for the first two years. After six years, vacation time will accrue at one additional day per completed year with a maximum of three weeks of vacation after ten years of employment. Vacation time must be used in the calendar year earned and may not be accumulated. An employee terminating from County service shall be allowed any earned and unused vacation time, either in time off after notice of termination, or salary. Each full-time employee earns one day of sick leave per month, up to a maximum of thirty days. Employees are not compensated for unused sick leave at termination.

**Federal and State Assisted Programs**

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial.

**NOTE 10 RISK MANAGEMENT**

The County is exposed to various risks of losses related to torts; theft of damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

**DUNKLIN COUNTY  
KENNETT, MISSOURI  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2022 AND 2021**

**NOTE 9    RISK MANAGEMENT (CONTINUED)**

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo.). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this fund, a nonprofit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to \$2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

**DUNKLIN COUNTY  
KENNETT, MISSOURI  
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
DECEMBER 31, 2022 AND 2021**

**NOTE 1 BASIS OF PRESENTATION**

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of Dunklin County MO (the County) under programs of the federal government for the years ended December 31, 2022 and 2021. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the County, it is not intended to and does not present the financial position or changes in net position of the County.

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles in the Uniform Guidance, with the exception of ALN 21.019, which follows criteria determined by the Department of Treasury for allowability of costs. Under these principals, certain types of expenditures are not allowable or are limited as to reimbursement.

**NOTE 3 INDIRECT COST RATE**

The County has not elected to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL  
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

County Commission  
Dunklin County  
Kennett, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of Dunklin County, as of and for the years ended December 31, 2022 and 2021, and the related notes to the financial statements, which collectively comprise Dunklin County's basic financial statements, and have issued our report thereon dated December 26, 2023. We expressed an adverse opinion on the financial statements because the financial statements are prepared on the basis of financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America. However, the financial statements were found to be fairly stated on the regulatory basis of accounting, in accordance with regulatory reporting requirements established by the state of Missouri.

***Report on Internal Control Over Financial Reporting***

In planning and performing our audit of the financial statements, we considered Dunklin County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Dunklin County's internal control. Accordingly, we do not express an opinion on the effectiveness of Dunklin County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified a deficiency in internal controls, described in the accompanying schedule of findings and questioned costs as item 2022-001 that we consider to be a material weakness.

### ***Report on Compliance and Other Matters***

As part of obtaining reasonable assurance about whether Dunklin County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### ***Dunklin County's Response to Findings***

*Government Auditing Standards* requires the auditor to perform limited procedures on Dunklin County's response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. Dunklin County's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

### ***Purpose of This Report***

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR  
FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE  
REQUIRED BY THE UNIFORM GUIDANCE**

County Commission  
Dunklin County  
Kennett, Missouri

**Report on Compliance for Each Major Federal Program**

***Opinion on Each Major Federal Program***

We have audited Dunklin County's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Dunklin County's major federal programs for the years ended December 31, 2022 and 2021. Dunklin County's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, Dunklin County complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2022 and 2021.

***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Dunklin County and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Dunklin County's compliance with the compliance requirements referred to above.

***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Dunklin County's federal programs.

### ***Auditors' Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Dunklin County's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Dunklin County's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Dunklin County's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of Dunklin County's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Dunklin County's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### **Report on Internal Control Over Compliance**

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

YEARS ENDED DECEMBER 31, 2022 AND 2021**

---

***Section II – Financial Statement Findings***

---

**2022-001      Interfund Transfers**

**Type of Finding:** Material Weakness in Internal Control over Compliance

**Criteria:** GASB and the regulatory basis of accounting require interfund transfers to be separately presented in the County's financial statements and properly disclosed in the financial statements.

**Condition:** Interfund transfers were not properly recorded. Under the regulatory basis of accounting, described in Note 1 to the financial statements, interfund transfers are accounted for as current period receipts and disbursements. The County recorded the transfer of cash between funds but did not record the offsetting interfund transfer in and out.

**Effect:** Inaccurate and material errors in internal and external financial statements could potentially mislead users.

**Cause:** The County's internal controls over recording of interfund transfers are not properly designed.

**Repeat Finding:** This is not a repeat finding.

**Recommendation:** We recommend that the County ensure the proper general ledger accounts are created to allow an individual to post transfers to the correct accounts. In addition, we recommend management train other staff members on how to properly record interfund transfers. A review process should also monitor for error in recording transfers.

**Views of Responsible Officials:** There is no disagreement with the audit finding.

I.    2023 CAFA Seizures Disposition Reported.....	4
II.   2023 CAFA Seizures Information Reported .....	7

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
Jefferson City, Missouri

As required by Section 513.607, RSMo, we have compiled the 2023 Criminal Activity Forfeiture Act (CAFA) seizure reports submitted to the State Auditor by prosecuting attorneys and the Attorney General. The compilation is limited to information submitted to the State Auditor's Office. We have not audited the reports submitted and, accordingly, do not express an opinion or any other form of assurance on them. The primary objectives of this compilation were to:

1. Compile the 2023 CAFA seizure information reported.
2. Identify officials who submitted 2023 CAFA seizure reports to the State Auditor.

Section 513.607, RSMo, requires prosecuting attorneys and the Attorney General to report CAFA seizures for the previous calendar year by January 31, to both the Director of the Department of Public Safety and the State Auditor. Of the 116 potential reporting officials, we received reports from each official.

Compliance with Section 513.653, RSMo, which requires law enforcement agencies involved in using the federal forfeiture system to submit reports regarding federal seizures and the proceeds therefrom to the State Auditor's Office, will be separately reported.

State Auditor

# Compilation of 2023 Criminal Activity Forfeiture Act Seizures

## Executive Summary

### CAFA Seizure Reports Submitted

The State Auditor received 116 of the total possible 116 Criminal Activity Forfeiture Act (CAFA) seizure reports from prosecuting attorneys and the Attorney General for property seized during calendar year 2023.

Section 513.607.10, RSMo, states intentional or knowing failure to comply with any reporting requirement shall be a class A misdemeanor punishable by a fine of up to \$1,000.

### Disposition of the Seizures Reported

We compiled the disposition of seizures as reported by prosecuting attorneys and the Attorney General for property seized during calendar year 2023. The following table lists the overall dollar value of the dispositions by category as reported to the State Auditor for 2023, 2022, and 2021.

Reported Disposition	2023		2022		2021	
Pending	\$ 1,271,765	52.3 %	\$ 2,815,936	58.2 %	\$ 2,539,831	47.4 %
Returned	76,245	3.1	280,183	5.8	259,985	4.9
Transferred to Federal Agency	979,560	40.3	1,524,486	31.5	1,815,915	33.9
Transferred to State	30,411	1.2	67,501	1.4	101,322	1.9
Other	16,139	0.7	18,564	0.4	631,050	11.8
Disposition Not Reported	57,614	2.4	128,499	2.7	5,171	0.1
Total	\$ 2,431,734	100.0 %	\$ 4,835,169	100.0 %	\$ 5,353,274	100.0 %

See Appendix I for the 2023 CAFA seizures disposition as reported by each prosecuting attorney and the Attorney General.

### Reporting of Seizures Information

Section 513.607.8, RSMo, states prosecuting attorneys and the Attorney General shall report the date, time, and place of the seizure; property seized; estimated value of the property seized; person(s) from whom the property was seized; criminal charges filed; and disposition of the seizure, forfeiture, and criminal actions. See Appendix II for the number of 2023 CAFA seizures reported with this information.

## Missouri State Auditor

### Pemiscot County

Report No. 2024-017

February 2024

[auditor.mo.gov](https://auditor.mo.gov)

# CITIZENS SUMMARY

## Findings in the audit of Pemiscot County

County Collector and Property Tax System	The County Collector and her deputies do not always use the actual date of receipt when recording payments and do not retain documentation for mailed payments. As a result, the County Collector did not always properly assess some taxpayers penalties, commissions, and fees for late payments. The County Clerk's account book amounts for charges, collections, additions, and abatements were not accurate and did not agree to the year ended February 28, 2023, annual settlement amounts. The County Clerk's and Commission's review procedures are not adequate to verify the accuracy and completeness of the County Collector's annual settlements. The County Collector and her deputies have access rights in the property tax system allowing them to make changes to individual tax records and there is no independent review of changes made, including assessed valuation and tax changes in the system.
Sheriff's Controls and Procedures	Sheriff's office personnel do not always correctly record the method of payment on receipt slips issued for the general account, and do not always deposit receipts timely. Procedures for preparing bank reconciliations and liabilities listings are not adequate. The Sheriff does not ensure county jail personnel appropriately and timely disburse net proceeds from the inmate commissary account to the County Treasurer for deposit into the Inmate Prisoner Detainee Security Fund as required by state law. The Sheriff does not have adequate policies or procedures to ensure an inmate's remaining account balance is refunded upon release, including formally establishing a threshold for when balances will not be refunded due to insignificance. Sheriff's office personnel have not performed a physical inventory of all seized property.
Prosecuting Attorney's Controls and Procedures	The Prosecuting Attorney's office did not timely transmit court-ordered restitution payments to victims or the related fees to the County Treasurer, and fees are not always transmitted intact. Office personnel did not timely transmit \$27,353 in victim restitution and \$37,440 in related fees collected from January to December 2022. The Prosecuting Attorney has not established procedures to restrictively endorse checks and money orders upon receipt.
County Disbursements	The County Commission has not established guidelines for the use of county credit cards including the appropriate use, oversight, and required documentation to support credit card purchases. A review of credit card statements for the 30 days ended December 10, 2022, found the Sheriff did not submit supporting documentation for 6 transactions totaling \$714 to the County Clerk. The county spent approximately \$1,000 on food and gift card purchases that may not have been prudent, reasonable, or necessary uses of county funds, and the county does not have written policies on employer-provided food and gifts.
Sheriff's Compensation	The County Commission authorized mid-term salary increases totaling \$17,732 to the Sheriff in violation of constitutional provisions.

County Clerk's Controls and Procedures	The County Clerk does not reconcile receipts to transmittals to ensure all receipts are transmitted to the County Treasurer. A review of receipts and transmittal records for June 2022, totaling \$8,454, and records related to 4 of 11 liquor license fees collected during July and August 2022, found a \$303 check issued August 11, 2022, was not transmitted to the County Treasurer and was missing.
County Treasurer's Controls and Procedures	The County Treasurer has not established procedures to routinely follow up on outstanding checks in the County Treasurer's general bank account. As of April 30, 2023, 28 checks totaling \$22,862 had been outstanding for over a year, with the oldest check dating back to 2020.
County Budgets	The County Clerk did not timely submit a certified copy of the 2022 and 2021 county budgets to the State Auditor's Office in accordance with state law.
Electronic Data Security	Controls over county computers are not sufficient. As a result, county records are not adequately protected and are susceptible to unauthorized access or loss of data.
Electronic Communication Policy	The county has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.
Subsequent Event	In August 2023, subsequent to our fieldwork, county personnel detected fraudulent activity committed by a third party in the county's primary bank account. County personnel took immediate action to investigate the issue. They contacted the Sheriff's office and bank officials, and are working with federal authorities as the investigation continues. The County Treasurer continues to actively monitor bank activity on a daily basis. In November 2023, the county implemented a positive pay system with the bank to help detect any fraudulent transactions and prevent them from processing. The bank has reimbursed the county for all fraudulent transactions identified as of December 31, 2023.

In the areas audited, the overall performance of this entity was **Fair**.\*

\*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

## SCOTT FITZPATRICK MISSOURI STATE AUDITOR

County Commission  
and  
Officeholders of Pemiscot County

We have audited certain operations of Pemiscot County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2022. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.
2. Evaluate the county's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Pemiscot County.

A handwritten signature in black ink, appearing to read "S. Fitzpatrick". The signature is stylized with a large, looped "S" and a cursive "Fitzpatrick".

## Management Advisory Report

### State Auditor's Findings

---

#### **1. County Collector and Property Tax System**

Controls and procedures over the property tax system need improvement. The County Collector processed property tax collections totaling approximately \$14.1 million during the year ended February 28, 2023.

##### **1.1 Receipt dates and documentation**

The County Collector and her deputies do not always use the actual date of receipt when recording payments and do not retain documentation for mailed payments. As a result, the County Collector did not properly assess some taxpayers penalties, commissions, and late payment fees.

The property tax system sequentially assigns a receipt number, but allows users to backdate payments recorded in the property tax system. Our review of receipt and deposit records for the 2-week period ending December 4, 2022, and the 2-week period ending January 22, 2023, noted the following:

- On January 3, 2023, the County Collector and her deputies recorded 327 receipt transactions totaling \$305,742, and backdated these receipts to December 3, 2022. The County Collector and deputies also backdated 44 receipt transactions totaling \$164,828 recorded on January 4, 2023, to December 4, 2022. Included in these receipts was a \$500 check dated January 3, 2023. Because the County Collector did not record the receipt as received after the December 31 due date, the taxpayer was not assessed penalties, commissions, and fees totaling \$195. The County Collector indicated the taxpayer mailed a check timely, but when she was processing it on January 3, 2023, it was exactly \$500 short of the total due. She promptly called the taxpayer and received an additional \$500 check that same day.

She backdated the other payments because they were mailed payments postmarked with dates in December 2022. She further indicated she recorded them a month prior to the receipt date on Saturday and Sunday dates instead of the postmark dates because she had already closed out the December 31, 2022, cash drawers and these dates did not have any transactions processed. The County Collector indicated that by backdating these receipts to dates with no activity, it was easier for her to reconcile the batch report to the collection by date summary report.

- The County Collector does not retain postmarked envelopes or record the postmarked dates in the property tax system to support the timeliness of mailed payments received after the delinquent date. The County Collector indicated she did not know she needed to keep postmarked envelopes to demonstrate that these payments were made timely.

Section 139.100.1, RSMo, requires the County Collector to collect a penalty on delinquent taxes owed by a taxpayer as provided for in Section 140.100, RSMo. Section 140.100, RSMo, requires an 18 percent penalty be charged

---

Pemiscot County  
Management Advisory Report - State Auditor's Findings

---

for each year's delinquent tax, in addition to the amount of the delinquent tax. Section 139.100.4, RSMo, allows payments mailed to the County Collector to be deemed paid as of the postmark date stamped on the envelope. In the absence of a postmark, or if the postmark is illegible, the collector may use judgment regarding the timeliness of the payment and shall document such decision. Maintaining documentation and recording the postmarked date for mailed payments is necessary to demonstrate the timeliness of payments and compliance with state laws.

## 1.2 Review of activity

The County Clerk's account book amounts for charges, collections, additions, and abatements were not accurate and did not agree to the year ended February 28, 2023, annual settlement amounts. In addition, the County Clerk's and Commission's review procedures are not adequate to verify the accuracy and completeness of the County Collector's annual settlements. As a result, there is an increased risk of loss, theft, and misuse of property tax receipts going undetected, and less assurance the annual settlements are complete and accurate. The County Clerk indicated she thought everything in the account book matched the annual settlement. However, if they reviewed as indicated, the County Clerk and/or County Commission should have identified the differences between the account book and the annual settlement.

Section 51.150.1(2), RSMo, requires the County Clerk to maintain accounts with all persons "chargeable with money payable into the county treasury." An account book or other record that summarizes all taxes charged to the County Collector, monthly collections, delinquent credits, addition and abatements, and protested amounts should be maintained by the County Clerk. Such records would help the County Clerk ensure taxes charged and credited to the County Collector are complete and accurate and could also be used by the County Clerk and County Commission to verify the County Collector's annual settlements. In addition, Section 139.190, RSMo, requires the County Commission to "carefully and fully examine" the annual settlement of the County Collector. Such procedures are intended to establish checks and balances related to the collection of property taxes.

## 1.3 Computer access

The county has not adequately restricted property tax system access. Sections 137.260 and 137.270, RSMo, assign responsibility to the County Clerk for making changes to the tax books with the approval of the County Commission. Yet the County Collector and her deputies have access rights in the property tax system allowing them to make changes to individual tax records. In addition, there is no independent review of changes made, including assessed valuation and tax changes in the system. The County Collector indicated she does not know how to restrict access within the property tax system. Because the County Collector is responsible for collecting tax receipts, the ability of personnel within this office to alter tax

## Pemiscot County Management Advisory Report - State Auditor's Findings

records prevents the necessary and required segregation of duties and represents a significant weakness in internal controls.

### Similar conditions previously reported

A similar condition to Section 1.2 was noted in our prior 3 county audit reports and the prior audit report of the County Collector and Property Tax System. In addition, Report No. 2016-038, *Follow-Up Report on Audit Findings - Pemiscot County*, issued in June 2016, reported the status, at that time, as not implemented. A similar condition to Section 1.3 was noted in our prior audit report.

### Recommendations

- 1.1 The County Collector implement procedures to record the actual payment date, as evidenced by the postmark, in the property tax system; retain documentation to support payment date recorded; and collect penalties, commissions, and fees on delinquent taxes as required by law.
- 1.2 The County Clerk maintain a complete and accurate account book with the County Collector. In addition, the County Clerk and the County Commission should use the account book to review the accuracy and completeness of the County Collector's annual settlements.
- 1.3 The County Commission and the County Clerk develop procedures to ensure all property tax changes are properly approved and monitored. In addition, the County Commission should work with the County Collector to ensure property tax system access is limited to only what is needed for the users to perform their job duties and responsibilities.

### Auditee's Response

*The County Collector provided the following responses:*

- 1.1 *The payments were verified as having been postmarked in December. It was not my intention to make these payments appear to be backdated. I used these dates so my batch total would match the collection by date summary totals. These accounts will be posted December 31 in the future to avoid any confusion.*

*It was my judgement to allow the taxpayer to bring a check for the balance because the taxpayer has always made on time payments and only added incorrectly.*

*I will keep the envelopes for audit purposes in the future.*

- 1.3 *The software company made a change in May 2023 to the system when the auditors were here. I can view and print corrections but am unable to make changes. This should solve any issues or concerns.*

Pemiscot County  
Management Advisory Report - State Auditor's Findings

*The County Clerk and County Commission provided the following responses:*

- 1.2 *The County Clerk and Collector have been working together to establish a better procedure for keeping a complete and accurate account book. The County Clerk is maintaining weekly totals of approved abatements. The County Collector brings monthly reports to the County Clerk which she will balance her totals with. The County Clerk and County Commission will use this account book to review the County Collector's annual settlement.*
- 1.3 *The County Commission worked with the County Collector to resolve the property tax changes. The County Collector talked to the software company and changes were made to the program to properly restrict access.*

## **2. Sheriff's Controls and Procedures**

Controls and procedures in the Sheriff's office need improvement. The office processed receipts for civil process fees, concealed carry weapon (CCW) permits, bonds, prisoner boarding, inmate money, and other miscellaneous receipts totaling approximately \$1,389,000 for the year ended December 31, 2022.

### **2.1 Receipting, recording, and depositing**

Sheriff's office personnel do not always correctly record the method of payment on receipt slips issued for the general account, and do not always deposit receipts timely. We reviewed receipt and deposit records for the 2-week period ending July 24, 2022, and the 2-week period ending December 18, 2022, and noted the following:

- For the 89 manual receipt slips reviewed, totaling \$28,948, office personnel did not record the method of payment on 8 and incorrectly recorded the method on another. As a result, the Office Manager could not reconcile the composition of receipts to the composition of deposits for the general account. The Office Manager indicated the method of payment was not always filled out by the deputies. It is unclear why the deputies did not always do this.
- The Office Manager did not deposit \$3,477 in CCW permit fees, civil process fees, school resource officer fees, and medical reimbursements collected on July 22, 2022, until August 5, 2022. In addition, the Jail Sergeant did not deposit \$3,174 (\$3,129 cash and a \$45 check) in inmate money collected from November 12, 2022, through December 11, 2022, until December 16, 2022. The Office Manager indicated she typically prepares a weekly deposit unless she is on vacation or out of the office. The Sheriff indicated he did not know that commissary deposits were not being made timely until we brought it to his attention.

Pemiscot County  
Management Advisory Report - State Auditor's Findings

Failure to implement adequate receipting, recording, and depositing procedures, including independent reviews to ensure procedures are being followed, increases the risk that loss, theft, or misuse of money received will go undetected.

## 2.2 Bank reconciliations and liabilities

Procedures for preparing bank reconciliations and liabilities listings are not adequate. The Sheriff indicated he reviews the bank statements and reconciliations; however, his reviews are not always sufficient to detect or correct errors.

- The Office Manager does not compare the reconciled bank balance to the book balance of the general account because a cumulative book balance is not maintained. As of January 9, 2023, the reconciled bank balance and identified liabilities were \$89,774. The Office Manager indicated she did not keep a cumulative book balance because the former Office Manager did not keep a cumulative book balance.
- The Sheriff has not established procedures to investigate deposits in transit for the inmate commissary account. The bank reconciliation for January 9, 2023, listed 17 deposits in transit dated from October 27, 2020, through June 30, 2021, totaling \$18,011. Sheriff's office personnel did not know why these deposits were still in transit. After our inquiries, the commissary system vendor determined these were erroneous duplicate deposit entries caused by software glitches during the overnight synchronization process and erroneous manual entries made by Sheriff's office personnel. The software vendor subsequently removed these erroneous deposit entries. Because Sheriff's office personnel did not understand the commissary system and the reconciliation process, they did not realize these errors occurred until after our inquiries.
- Sheriff's office personnel do not generate a monthly list of liabilities for the inmate commissary account, and consequently, liabilities are not agreed to the reconciled bank balance. After removal of the erroneous deposits, we determined the reconciled bank balance was \$20,221 as of January 9, 2023. At our request, the Jail Sergeant generated a report of liabilities, totaling \$30,924, as of January 9, 2023, resulting in an account shortage of \$10,703. We determined the account shortage is due largely to issuing disbursements to the County Treasurer in excess of subsidiary ledger balances for commissary profits (see section 2.3) and phone commissions.

Maintaining a cumulative book balance and performing adequate monthly reconciliations helps ensure receipts and disbursements have been properly handled and recorded, and increases the likelihood errors will be identified and corrected timely. Without regular identification and comparison of liabilities to the reconciled bank balance, including investigating and

## Pemiscot County Management Advisory Report - State Auditor's Findings

correcting reconciling items like old deposits in transit, there is less likelihood errors will be identified and the ability to both identify liabilities and resolve errors is diminished.

### 2.3 Commissary disbursements

The Sheriff does not ensure county jail personnel appropriately and timely disburse net proceeds from the inmate commissary account to the County Treasurer for deposit into the Inmate Prisoner Detainee Security Fund as required by state law. The Jail Sergeant issued a net proceeds check for \$70,260 in April 2022 to the County Treasurer, but did not retain any supporting documentation and could not explain how this amount was calculated. In addition, there is no documentation of an independent review or approval of this disbursement prior to payment.

Our review of the inmate commissary account noted that while the overall account balance was \$97,652 on April 8, 2022, only \$59,373 was commissary profit and the remainder was mostly inmate money. The April 2022 disbursement resulted in a negative commissary profit balance of \$10,887 within the account. Because this excess disbursement was not detected and corrected, subsequent disbursements of net proceeds in May, June, August, October, and November 2022, and January and March 2023 continued to result in a negative commissary profit balance within the account. As a result, the Sheriff's office was borrowing from inmate balances to provide necessary funds for commissary operations.

We also noted, prior to the April 2022 payment, jail personnel had not disbursed commissary profits since June 30, 2021, approximately 9 months prior. The Jail Sergeant indicated he did not receive any training and was unaware profits needed to be disbursed monthly. He further indicated he was unaware of the excess commissary profit disbursements until our inquiry and was not sure how the system allowed him to disburse more profits than were available. The inmate account balances prevented the bank account from being overdrawn.

To ensure commissary profit transactions are appropriate, all disbursements need to be supported by detailed documentation with payment information clearly indicated. Section 50.370, RSMo, requires county officials to turn over all fees to the County Treasurer monthly. Section 221.102, RSMo, requires each county jail to keep revenues from its commissary in a separate account and pay for goods and other expenses from that account, allows retention of a minimum amount of money in the account for cash flow purposes and current expenses, and requires deposit of the remaining funds (net proceeds) into the county Inmate Prisoner Detainee Security Fund held by the County Treasurer. Failure to perform a documented review and approval of disbursements increases the risk that inappropriate disbursements will occur and go undetected.

Pemiscot County  
Management Advisory Report - State Auditor's Findings

## 2.4 Inactive inmate account balances

The Sheriff does not have adequate policies or procedures to ensure an inmate's remaining account balance is refunded upon release, including formally establishing a threshold for when balances will not be refunded due to insignificance. As of January 9, 2023, the Sheriff's office was holding \$7,645 for 850 former inmates in the commissary bank account.

Jailers generally provide inmates a debit card credited with their remaining account balances upon release unless the inmate is transferred to another county or the Missouri Department of Corrections (DOC). In those instances, a check is mailed to the other county or the DOC. However, the Jail Sergeant indicated they do not disburse any balance under \$2 and the jail continues to hold this money in the inmates' accounts. However, the Sheriff has not established a formal policy for this procedure. The Jail Sergeant indicated he believed the \$7,645 was not disbursed because jailers forgot to issue debit cards upon release or the inmate's account balance was less than \$2. We determined there were 263 former inmate accounts totaling \$7,201 with balances greater than \$2.

Follow up on inactive accounts is necessary to ensure money is appropriately disbursed to the former inmates or as otherwise provided by state law. Section 447.532, RSMo, provides that any funds held by a political subdivision that remain unclaimed for more than 3 years should be turned over to the Missouri State Treasurer's Unclaimed Property Division. In addition, establishing formal policies and procedures to refund an inmate's remaining balance upon release and the threshold for issuing debit cards would allow the Sheriff to more adequately safeguard any money being held and reduce the risk of its loss, theft, or misuse.

## 2.5 Seized property

Sheriff's office personnel have not performed a physical inventory of all seized property. The Sheriff indicated the inventory was not performed due to personnel issues. He stated he has had significant employee turnover in his office and it has been a challenge to hire and retain personnel. Considering the often sensitive nature of seized property, adequate internal controls, including physical inventories, are essential to ensure seized property is accounted for properly and to reduce the risk of loss, theft, or misuse of the property.

## Similar conditions previously reported

A similar condition to Section 2.1 was noted in our prior audit report and a similar condition to Section 2.2 was noted in our prior 2 audit reports.

## Recommendations

The Sheriff:

- 2.1 Implement procedures to ensure the method of payment is indicated on all receipt slips, the composition of receipts is reconciled to the composition of deposits, and money received is deposited timely.

Pemiscot County  
Management Advisory Report - State Auditor's Findings

- 2.2 Ensure adequate monthly bank reconciliations are prepared and maintain a cumulative book balance. In addition, the Sheriff should generate a monthly list of liabilities and reconcile the list to the available cash balance. Any differences, including any old deposits in transit, should be promptly investigated and resolved.
- 2.3 Implement procedures to ensure commissary net proceeds not necessary to meet cash flow needs or current operating expenses are disbursed appropriately and timely to the County Treasurer for deposit into the Inmate Prisoner Detainee Security Fund. Also, the Sheriff should ensure adequate supporting documentation is maintained, and disbursements are independently reviewed and approved prior to payment. The Sheriff should work with the County Treasurer to resolve the excess disbursements.
- 2.4 Establish formal policies and procedures to ensure inmates receive their remaining balances upon release or when insignificant amounts may be retained. In addition, the Sheriff should attempt to return unclaimed balances to the former inmates. If the payee cannot be located, the amount should be disbursed in accordance with state law.
- 2.5 Ensure a periodic inventory of seized property is conducted and reconciled to the seized property evidence log, and investigate any differences.

## Auditee's Response

*The Sheriff provided the following response:*

*I plan to implement the recommendations made by the audit, to best of our ability, on each of the findings.*

## 3. Prosecuting Attorney's Controls and Procedures

### 3.1 Transmitting

Controls and procedures in the Prosecuting Attorney's office need improvement. The office collected approximately \$64,700 in court-ordered restitution and fees during the year ended December 31, 2022.

The Prosecuting Attorney's office did not timely transmit court-ordered restitution payments to victims or the related fees to the County Treasurer. In addition, fees are not always transmitted intact. The office typically transmits restitution to victims and fees to the County Treasurer on the same date. Our review of receipt and transmittal records noted the following:

- Office personnel did not transmit \$5,030 in victim restitution and \$19,025 in related fees collected from January through June 2022 until January 2023. The January 2023 transmittal to the County Treasurer also included a September 2021 receipt. Other September 2021 fees collected were

Pemiscot County  
Management Advisory Report - State Auditor's Findings

transmitted 8 months prior, in April 2022. It is unclear why the September 2021 receipt was not included in the April 2022 transmittal.

- Office personnel did not transmit \$5,715 in victim restitution and \$7,520 in related fees collected from July and August 2022 until February 13, 2023.
- Office personnel did not transmit \$16,608 in victim restitution and \$10,895 in related fees collected from September through December 2022 until February 17, 2023.

The Prosecuting Attorney indicated when he became the interim Prosecuting Attorney in July 2022, the caseload was very large and behind schedule so that was his main focus. He also indicated the staffing was low and he was not aware transmittals were not timely until he began preparing for our audit in February 2023.

Timely and intact transmittal of restitution payments and fees is necessary to ensure victims are compensated, receipts are properly accounted for, and to reduce the risk of loss, theft, or misuse of funds. Additionally, Section 50.370, RSMo, requires all county officials who receive fees or any other remuneration for official services to pay this money monthly to the County Treasurer, and Section 50.380, RSMo, provides that any county officer that fails to pay fees or other remuneration to the County Treasurer timely may be subject to penalties for such failure.

### 3.2 Restrictive endorsement

The Prosecuting Attorney has not established procedures to restrictively endorse checks and money orders upon receipt. During our February 2023 cash counts, we noted checks and money orders on hand, payable to county funds, totaling \$7,750, had not been restrictively endorsed. The County Treasurer applies the endorsement when she receives the transmittal. The Prosecuting Attorney indicated his office was not restrictively endorsing checks and money orders because they were made payable to the county Law Enforcement Restitution Fund instead of the Prosecuting Attorney, and he was instructed it was not appropriate for him to endorse checks payable to another party. However, a restrictive endorsement would not need to be specific to the payee and his office personnel could have applied such endorsement.

Failure to implement adequate endorsement procedures increases the risk that loss, theft, or misuse of money will occur and go undetected.

### Similar conditions previously reported

Similar conditions to Sections 3.1 and 3.2 were noted in our prior audit report.

Pemiscot County  
Management Advisory Report - State Auditor's Findings

---

## Recommendations

The Prosecuting Attorney:

- 3.1 Transmit all receipts timely, intact, and in accordance with state law.
- 3.2 Ensure checks and money orders are restrictively endorsed immediately upon receipt.

## Auditee's Response

- 3.1 *After this problem was brought to my attention by the audit, I implemented a new policy that transmittal to the Treasurer will be done on a monthly basis as near to the first of the month as possible, and will continue this way in perpetuity. I do not understand why it was not being done properly before my tenure, but this problem has been rectified.*
- 3.2 *The County Treasurer is communicating with the bank to obtain a restrictive endorsement stamp that I will be able to use when payment is received rather than having to wait until transmittal to be endorsed. This will be our procedure going forward. The policy will be immediately implemented upon receipt of said stamp.*

---

## 4. County Disbursements

Controls and procedures over county credit card and other disbursements need improvement. Credit card purchases totaled approximately \$13,800 during the year ended December 31, 2022.

### 4.1 Credit cards

The County Commission has not established guidelines for the use of county credit cards including the appropriate use, oversight, and required documentation to support credit card purchases. The County Clerk and Sheriff's office each have a county credit card and receive separate billing statements.

We reviewed both credit card statements for the 30 days ended December 10, 2022. Charges included on the two statements totaled \$2,185. The Sheriff did not submit supporting documentation for 6 transactions totaling \$714 to the County Clerk. Instead the Sheriff typically only submits a signed letter authorizing payment of the monthly statement. The County Clerk stated she only received this signed letter along with 1 receipt slip from the Sheriff's office for the December 2022 credit card purchases and Sheriff's office personnel indicated they do not maintain receipt slips for credit card purchases or invoices from online purchases.

Credit card purchases are inherently more risky than other purchases because credit card purchases are, or can be, made prior to proper approval. That risk and the potential for inappropriate purchases or other misuse increases even more when internal controls and proper procedures are lacking. Without formal policies and procedures, employees are not aware of what purchases are allowable, the limits of what could be purchased without prior County

Pemiscot County  
Management Advisory Report - State Auditor's Findings

Commission approval, or the documentation required to support purchases; and there is less assurance these purchases are appropriate.

## 4.2 Food and gift purchases

The county spent approximately \$1,000 on food and gift card purchases that may not have been prudent, reasonable, or necessary uses of county funds. In addition, the county does not have written policies on employer-provided food and gifts.

The food and gift card purchases were for the employee appreciation dinner/holiday party in December 2022. The County Clerk indicated the 25 gift cards totaling \$625 in varying amounts were given as door prizes to employees attending the holiday party. The County Clerk charged these purchases to her county credit card. County personnel did not maintain a list of participants and gift card recipients for this event.

The County has not established any guidance or policies about food and gift purchases. Such guidance or policies can have various provisions. For example, the State of Missouri's agency provided food policy only allows for food at official business functions and light refreshments at other agency sponsored activities (employee retirement, employee appreciation, etc.), but banquets for such activities are not allowed. In addition, the policy requires documentation to support food purchases including (1) purpose, (2) list of participants or estimated number of invitees, and (3) cost of food provided. The State of Missouri also has an agency gift and award policy that allows retirement, service, and other recognition award gifts that are reasonable and primarily represent a token of recognition and not a reward with a cash equivalent, such as a gift card, or a reward of substantial monetary value.

County residents have placed a fiduciary trust in their public officials to spend county revenues in a prudent and necessary manner. Established policies on county provided food and gifts would provide employees necessary guidance and better transparency for citizens about the use of public funds. Additionally, Article VI, Sections 23 and 25, Missouri Constitution prevent local governments from granting public money to any private individual, except as otherwise provided by law.

## Recommendations

The County Commission:

- 4.1 Establish written guidelines regarding use of the county credit cards, including provisions for allowable uses, required documentation, and the approval process for credit card purchases.
- 4.2 Ensure all disbursements are a necessary and prudent use of public funds. In addition, the County Commission should establish policies regarding food and gift purchases, if such purchases are considered necessary.

Pemiscot County  
Management Advisory Report - State Auditor's Findings

---

## Auditee's Response

- 4.1 *The County Commission added a section in the Internal Control Policy that establishes guidelines for the county credit cards as recommended. This was approved in the Commission meeting on December 29, 2023.*
- 4.2 *The County Commission added a section in the Internal Control Policy regarding food and gift purchases for county employees similar to the State of Missouri. This was approved in the Commission meeting on December 29, 2023.*

---

## 5. Sheriff's Compensation

The County Commission authorized mid-term salary increases totaling \$17,732 to the Sheriff in violation of constitutional provisions. The Sheriff took office in 2021 at the salary level approved by the Pemiscot County Salary Commission.

Section 57.317.1(2), RSMo, enacted in 2021, states the Sheriff shall receive an annual salary computed based on a percentage of the compensation of an associate circuit judge of the county, with the percentage determined by a statutory schedule using the county's current assessed valuation level. The law indicates if the increase to the Sheriff's salary is less than \$10,000, the increase shall take effect January 1, 2022, but if the salary increase is more than \$10,000, the increase shall be paid equally over a 5-year period. However, Article VII, Section 13, of the Missouri Constitution prohibits an increase in compensation for state, county, and municipal officers during the term of office. Court cases have concluded that to receive additional compensation during a term of office there must be: 1) no existing compensation for the office; 2) new or additional duties extrinsic or not germane to the office; or 3) the mid-term increase must result from the application of a statutory formula for calculating compensation that was in place prior to the individual being elected or taking office. None of those circumstances exist; therefore, the increase to the Sheriff's salary should be effective only for any Sheriff elected and sworn into office after the new salary schedule was authorized.

The County Commission did not seek a written legal opinion on these matters and authorized the full salary increase for the Sheriff, but did not document this authorization in the meeting minutes. Additionally, in January 2022, the County Commission increased the Sheriff's salary by \$13,031 instead of spreading the increase out over 5 years as required by statute. The Commission also authorized salary increases for the Sheriff based on salary increases given to associate circuit judges during 2022 and 2023. As of July 2023, the Sheriff received salary increases totaling \$17,732 during his term.

The County Clerk indicated the County Commissioners discussed this matter with a State Senator and a State Representative, and both told them the county could give the Sheriff the total increase. The County Clerk and County

Pemiscot County  
Management Advisory Report - State Auditor's Findings

Commission further indicated that they only did as they were told and believe this complies with the new statute.

## Recommendation

The County Commission discontinue the mid-term salary increase and consider various methods for possible recoupment of money already paid.

## Auditee's Response

*The County Commission's written response indicates they disagree with the recommendation. The County Commission's full response, as it was presented, is included at Appendix A.*

## Auditor's Comment

"The compensation of state, county and municipal officers shall not be increased during the term of office" per Article VII, Section 13, Missouri Constitution. The County Commission has not offered any authority to conclude the constitutional barrier to mid-term compensation increases contained in Article VII, Section 13 of the Missouri Constitution is inapplicable to county sheriffs. In multiple cases, the Supreme Court of Missouri has addressed the constitutional prohibition on mid-term increases. See e.g., *Mooney v. County of St. Louis*, 286 S.W.2d 763 (Mo. 1956); *State ex rel. George v. Verkamp*, 365 S.W.3d 598 (Mo. banc. 2012); *Laclede County v. Douglass*, 43 S.W.3d 826 (Mo. 2001).

The County Commission's response states that the finding does not indicate the county failed to follow the plain text of the law. The finding does indicate such, in that the finding states Article VII, Section 13, of the Missouri Constitution prohibits an increase in compensation for state, county, and municipal officers during the term of office, and that the County Commission provided the raise in excess of \$10,000 at one time rather than over 5 years as required. The County Commission does not address this noncompliance in its response. The response further states the State Auditor's Office has not presented its authority to determine a statute is unconstitutional. The finding does not question the constitutionality of the statute; but rather the unconstitutional application of the statute by providing raises midterm. Finally, the County Commission's response states the State Auditor's Office did not make specific findings that the County Sheriff did not assume additional duties. However, the finding specifically states that there are no new or additional duties extrinsic or not germane to the office. The duties described in the response are germane and are not extrinsic to the operations of the Sheriff's office.

## 6. County Clerk's Controls and Procedures

Controls and procedures in the County Clerk's office need improvement. The office processed liquor license fees, notary fees, and other miscellaneous receipts totaling approximately \$20,400 during the year ended December 31, 2022.

The County Clerk does not reconcile receipt records to transmittal records. We reviewed receipt and transmittal records for June 2022, totaling \$8,454,

Pemiscot County  
Management Advisory Report - State Auditor's Findings

and records related to 4 of 11 liquor license fees collected during July and August 2022. A \$303 check associated with receipt number 788919 issued August 11, 2022, was not transmitted to the County Treasurer and was missing. The County Clerk indicated she accidentally returned the check to the business owner with the liquor license. The County Clerk was unaware this check was not transmitted until our inquiry. The County Clerk contacted the individual, received a replacement check on May 3, 2023, and transmitted it to the County Treasurer upon receipt.

Failure to implement adequate transmittal procedures, including reconciling receipts to transmittal records, increases the risk that loss, theft, or misuse of receipts will occur and go undetected. Section 50.370, RSMo, requires all county officials who receive fees or any other remuneration for official services to pay such money monthly to the County Treasurer.

## Recommendation

The County Clerk reconcile receipts to transmittals to ensure all receipts are transmitted to the County Treasurer.

## Auditee's Response

*The County Clerk is checking her receipt book monthly to match the income entered in QuickBooks (electronic accounting software).*

## 7. County Treasurer's Controls and Procedures

Controls and procedures in the County Treasurer's office need improvement. According to a disbursement report, the county disbursed approximately \$24 million during the year ended December 31, 2022.

The County Treasurer has not established procedures to routinely follow up on outstanding checks in the County Treasurer's general bank account. As of April 30, 2023, 28 checks totaling \$22,862 had been outstanding for over a year, with the oldest check dating back to 2020. The County Treasurer indicated she was not informed of the need to follow up on outstanding checks when she took office in January 2023.

Procedures to routinely follow up on outstanding checks are necessary to prevent the accumulation of funds in the account and ensure funds are appropriately disbursed to the payee or as otherwise provided by state law. Section 447.532, RSMo, provides that any funds held by a political subdivision that remain unclaimed for more than 3 years should be turned over to the Missouri State Treasurer's Unclaimed Property Division.

## Recommendation

The County Treasurer establish procedures to routinely investigate outstanding checks. Old outstanding checks should be voided and reissued to payees that can be readily located. If payees cannot be located, the money should be disposed of in accordance with state law.

Pemiscot County  
Management Advisory Report - State Auditor's Findings

---

## Auditee's Response

*In regards to the outstanding checks from the Treasurer's office, we have been making calls since the auditors brought to my attention that we have several outstanding checks that need to be resolved.*

*If after calling and sending written notices concerning these checks we receive no response, we will send the related funds for all checks that have been outstanding for 3 years or longer to the Missouri State Treasurer's Unclaimed Property Division.*

*This will be a formal policy that I will monitor monthly.*

---

## 8. County Budgets

The County Clerk did not timely submit a certified copy of the 2022 and 2021 county budgets to the State Auditor's Office (SAO) in accordance with state law. The County Clerk indicated she attempted to submit them timely to the SAO, but her emails did not go through. However, the SAO sent reminder notices that the budgets had not been filed.

Section 50.740.2, RSMo, requires the county clerk to file a certified copy of the budget with the State Auditor within 5 days of approval.

## Recommendation

The County Clerk submit a certified copy of the county budget to the State Auditor's Office within 5 days of approval as required by state law.

## Auditee's Response

*The County Clerk did e-mail a certified copy of the 2022 and 2021 county budgets to the State Auditor's Office by the required deadline of January 31 but did not receive a confirmation from the State Auditor's Office showing that they received it. She will be sure a response is received when future budgets are sent. If not received, she will contact the State Auditor's Office immediately.*

## Auditor's Comment

As the noted in the finding, while the County Clerk may have attempted to email the county budgets, the emails were unsuccessful and the SAO did not receive the budgets. As a result, the SAO did not send a confirmation of receipt. However, the SAO did send reminder notices to the County Clerk about the unsubmitted budgets, and the County Clerk did not follow up with the SAO in response to these reminders.

---

## 9. Electronic Data Security

Controls over county computers are not sufficient. As a result, county records are not adequately protected and are susceptible to unauthorized access or loss of data.

Employees in the office of the County Clerk, Prosecuting Attorney, and Recorder are not required to change passwords periodically. Additionally, user identifications and passwords for computers in the offices of the County Clerk and Recorder are shared between employees, and Prosecuting

---

Pemiscot County  
Management Advisory Report - State Auditor's Findings

---

Attorney's office employee passwords are not required to have a minimum number of characters.

The County Clerk indicated computer passwords may be shared when someone needs to use another computer to access certain software programs, such as QuickBooks, but passwords to access these programs are not shared. The Recorder did not know that passwords should not be shared. The Prosecuting Attorney stated he did not know all passwords should contain a minimum number of characters. The County Commission implemented an electronic data security policy requiring password controls in December 2022, but officials indicated they were not aware of this policy during our inquiries in April 2023.

The county's electronic data security policy requires confidential passwords be established and changed quarterly, and unique user accounts for each employee be established, to prevent unauthorized access to the county's computers and data. Unique user identifications and passwords are necessary to authenticate access to computers and identify activity performed by each individual. The security of computer passwords is dependent upon keeping them confidential. However, since passwords are not periodically changed or contain a minimum number of characters in certain offices, there is less assurance they are effectively limiting access to computers and data files to only those individuals who need access to perform their job responsibilities. Also, allowing users to share accounts and passwords reduces individual accountability for system activity and unauthorized system access could occur. Passwords that contain a minimum number of characters, are changed periodically, and are not shared, reduce the risk of a compromised password and unauthorized access to and use of computers and data.

## Recommendation

The County Commission work with other county officials to require each employee to use a unique user identification and password with a minimum number of characters that is periodically changed.

## Auditee's Response

*The County Commission provided the following response:*

*The County Commission created an additional Password Protection Policy that was signed by each office on May 24, 2023. There was also a section added to the Internal Control Policy on electronic data security to address the recommendation. This was approved in the Commission meeting on December 29, 2023.*

*The Prosecuting Attorney provided the following response:*

*As of December 11, 2023, all employees of the Prosecuting Attorney's Office are required to change their computer passwords every 90 days. Passwords*

Pemiscot County  
Management Advisory Report - State Auditor's Findings

*must be at least 8 characters and must consist of upper and lower case letters, at least one numeral, and at least one special character.*

*The Recorder provided the following response:*

*Upon reading the draft for the State Auditor's findings for Pemiscot County, I wanted to clarify how I initially answered the questions regarding sharing passwords. Previously, my predecessor and her deputy shared all passwords to each other's computers and any program logins. When I took office January 1st, 2023, I did change passwords; however, I only shared the ones that were necessary for my deputy (who previously worked with my predecessor) to have, in case I was out of the office. During the audit, I addressed that the passwords were only shared between myself and my deputy, and was not aware not to do so.*

*Moving forward, we made very necessary changes in my office. A "Password Protection Policy" from the County was addressed and signed by myself on May 24, 2023. All passwords have been changed to strong, secure passwords and are no longer shared between my deputy and myself. We change passwords every 90-120 days, We have a shared file in place on our computers, should we need any file/document to be visible to both of us.*

## 10. Electronic Communication Policy

The county has not developed a records management and retention policy that includes electronic communication in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.<sup>1</sup>

Development of a written policy to address the use of electronic communications is necessary to ensure all documentation of official business of the county is retained as required by state law. The Commission indicated it was unaware of the record retention requirements and the electronic communications guidelines.

<sup>1</sup> Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <<https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>>, accessed November 20, 2023.

Pemiscot County  
Management Advisory Report - State Auditor's Findings

---

## Recommendation

The County Commission work with other county officials to develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

## Auditee's Response

*The County Commission added a section in the Internal Control Policy that addresses records management and retention that includes electronic communication per the Missouri Secretary of State Records Service Division guidelines. This was approved in the Commission meeting on December 29, 2023.*

---

## 11. Subsequent Event

In August 2023, subsequent to our fieldwork, county personnel detected fraudulent activity committed by a third party in the county's primary bank account. County personnel took immediate action to investigate the issue. They contacted the Sheriff's office and bank officials, and are working with federal authorities as the investigation continues.

The County Treasurer continues to actively monitor bank activity on a daily basis. In November 2023, the county implemented a positive pay system with the bank to help detect any fraudulent transactions and prevent them from processing. The bank has reimbursed the county for all fraudulent transactions identified as of December 31, 2023.

# Pemiscot County

## Organization and Statistical Information

Pemiscot County is a county-organized, third-class county. The county seat is Caruthersville. The county's population was 15,661 in 2020, according to the U.S. Census Bureau.

Pemiscot County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens.

### Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2023	2022
Mark Cartee, Presiding Commissioner	\$	29,390
Baugh Merideth, Associate Commissioner		28,759
Noble Nelson, Associate Commissioner		28,759
Peggy V. Darnell, Recorder of Deeds		41,500
Pamela M. Treece, County Clerk		41,500
Thomas D. Greenwell, Sheriff		74,214
Frankie R. Stewart, County Treasurer		41,500
James Brimhall, County Coroner (1)		14,088
Brian Irions, County Coroner (1)		613
Trina Hollomon, Public Administrator		43,575
Steven Horton, Prosecuting Attorney (2)		78,025
Joshua L. Tomlin, Prosecuting Attorney (2)		73,406
Rhonda Parkinson Price, County Collector (3), year ended February 28,	50,345	
Donna Brimhall, County Assessor (4), year ended August 31,		21,788
Lisa Sheckell, County Assessor (4), year ended August 31,		21,787

- (1) James Brimhall served as County Coroner until he passed away on December 15, 2022. Brian Irions was appointed and took office December 16, 2022.
- (2) Joshua L. Tomlin resigned effective June 30, 2022. Steve Horton was appointed as interim Prosecuting Attorney and took office on July 1, 2022, to fill out the term.
- (3) Includes \$8,499 of commissions earned for collecting drainage district property taxes.
- (4) Lisa Sheckell passed away on February 20, 2022. Donna Brimhall served as interim County Assessor until she was appointed and took office on February 23, 2022, to fill out the term.

Pemiscot County  
Organization and Statistical Information

---

In addition to elected officials, the county employed 79 full-time employees and 5 part-time employees on December 31, 2022.

County operations also include the Senate Bill 40 Board and Law Enforcement Restitution Fund Board.

Pemiscot County  
County Commission Response to Audit Recommendation for Management  
Advisory Report Finding Number 5

## SHERIFF

We disagree with the State Auditor's preliminary findings in Section 2 of its report. Three principal reasons support the payment of additional compensation to the Sheriff. First, it is consistent with the plain text of Section 57.317, which was amended by the General Assembly in 2021 by Senate Bill 53. The statute sets a formula tying county sheriffs' salaries to a portion of the compensation of an associate circuit judge of the county. First and second class county sheriffs receive, by law, 80% of the compensation of an associate circuit judge. § 57.317.1(1). In third and fourth class counties, a sheriff's salary is also tied to a percentage of an associate circuit court judge's salary, with the specific percentage variable based on the assessed valuation of land in the county. § 57.317.1(2).

That same statute also set a graduated scale for when any additional compensation would be paid to the county sheriff. By law, if the increase in the sheriff's compensation as a result of Senate Bill 53 was less than \$10,000, the increase "shall take effect on January 1, 2022." *Id.* If the increase was \$10,000 or more, "the increase shall be paid over a period of five years in twenty percent increments per year." The Auditor's preliminary findings acknowledge the plain text of the law, and the findings do not state that the Sheriff was not following the plain text of the law. We believe that the assessed land valuation and timing of payment of any additional compensation follows what the law directs us to do.

Second, while Senate Bill 53 was passed over two years ago, there has been no substantive challenge to the law being unconstitutional. The only legal challenge was filed shortly after the law was filed, and it alleged that the law was unconstitutional on procedural grounds. The State's Attorney General's Office successfully defended the legislation. See *County Commissioners Association v. State of Missouri*, Case No. 21AC-CC00442.

No individual or entity has claimed that Senate Bill 53 violates Article VII, Section 13. The Auditor's Office has not provided us with authority that it can conclude that a statute is unconstitutional. All statutes "presumed to be constitutional and will not be held unconstitutional unless [they] clearly and undoubtedly contravene[] the constitution." *United C.O.D. v. State*, 150 S.W.3d 311, 313 (Mo. banc 2004). Nor has the Auditor's Office presented us with authority that it can issue negative findings against a local entity when the entity has complied with the plain text of governing law. We note that the Auditor's Office has not found that the County or the Sheriff has failed to abide by the plain text of Section 57.317. The significant length of time since the bill has been passed further underscores the general rule that all statutes are presumed constitutional.

Finally, the Auditor's Office notes that "Court cases have concluded that to receive additional compensation during a term of office there must be new or additional duties[.]"<sup>1</sup> The Auditor's Office did not make any specific findings that the County Sheriff has not assumed additional responsibilities. In fact, Senate Bill 53 modifies the provisions governing the service of summons, writ, and other court orders, which directly affects county sheriffs. § 57.280.5. In addition, Senate Bill 53 enacted a new statute-Section 221.065-imposes additional duties on county sheriffs with respect to providing certain personal materials to detainees in custody. Finally, Senate Bill 53 modified Section 455.040.3 to require county sheriffs to perform additional duties when entering information into the Missouri Uniform Law Enforcement System (MULES) and the National Crime Information Center (NCIC).

Thus, we respectfully disagree with the State Auditor's preliminary findings. At all times, the Sheriff followed the law as enacted by the General Assembly. The Auditor's Office must presume the law is constitutional. A court has already upheld the constitutionality of the law on several grounds, and there has been no challenge to the law on other grounds. And the plain text of Senate Bill 53 imposes

additional duties on the Sheriff's Office, which must alleviate any concerns raised by the Auditor's Office in its interpretation of Article VII, Section 13. We demand that the State Auditor rescind its findings or provide a clear factual basis for any conclusion that the Sheriff or the County have not complied with the plain text of Senate Bill 53.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions, other than cities, towns, and villages, required to file a financial report under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office shall notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Due to different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 411 political subdivisions required to file a financial report by December 31, 2023, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in December 2023, after their filing deadline. The filing status for these 16 entities is presented in summary on page 3 and by individual entity in Appendixes B to E.

This report was originally issued in February 2024. Subsequent to its release, staff identified several inaccuracies. This report was revised and reissued in April 2024.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive, flowing style.

Scott Fitzpatrick  
State Auditor

## December 2023

### Executive Summary

---

#### **Executive Summary**

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except that any political subdivision with gross revenues less than \$5,000 or that has not levied or collected taxes in the fiscal year of the annual financial report is not subject to the fine.

This report includes the filing status for the 411 political subdivisions, other than cities, towns, and villages, with a fiscal year end of June 30, 2023. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 411 political subdivisions, 320 filed an annual financial report timely.

This report also includes the filing status for 16 political subdivisions, other than cities, towns, and villages, that filed their financial report in December 2023, after their filing deadline.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

Honorable Michael L. Parson, Governor  
and  
Members of the General Assembly  
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by December 31, 2023, under Section 105.145, RSMo, and 15 CSR 40-3.030 and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) shall notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO shall notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Due to different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 260 cities, 5 towns, and 63 villages is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in December 2023, after their filing deadline. The filing status for these 7 cities and 2 villages is presented in summary on page 4 and by individual entity in Appendixes B to E.

This report was originally issued in February 2024. Subsequent to its release, staff identified several inaccuracies. This report was revised and reissued in April 2024.

A handwritten signature in black ink that reads "Scott Fitzpatrick". The signature is written in a cursive, flowing style.

Scott Fitzpatrick  
State Auditor

## December 2023

### Executive Summary

---

#### **Executive Summary**

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. Rule 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except any political subdivision with gross revenues less than \$5,000 or that has not levied or collected taxes in the fiscal year of the annual financial report is not subject to the fine.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedure to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. Rule 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires the SAO to notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359, RSMo, and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and a mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 260 cities, 5 towns, and 63 villages with a fiscal year end of June 30, 2023, whose financial report was due by December 31, 2023. Of the 328 municipalities, 217 filed the financial report timely. Of the 231 municipalities required to file an addendum, 121 filed timely. Of the 100 municipalities required to file a certification, 59 filed timely.

Monthly Report on Municipal Court and Revenue Filings  
December 2023  
Executive Summary

---

This report includes the filing status for 7 cities and 2 villages that filed at least one of the items (financial report, addendum, or certification) in December 2023, after their filing deadline. Of these municipalities, 5 filed an annual financial report, 2 filed an addendum, and 2 filed a certification.

**SCOTT FITZPATRICK**  
MISSOURI STATE AUDITOR

To the County Commission  
and  
Officeholders of Madison County, Missouri

The Office of the State Auditor contracted for an audit of Madison County's financial statements for the 2 years ended December 31, 2022, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

A handwritten signature in black ink that reads "S. Fitzpatrick". The signature is stylized with a large, flowing "S" and a clear, legible "Fitzpatrick".

Scott Fitzpatrick  
State Auditor

February 2024  
Report No. 2024-014

### Recommendations in the contracted audit of Madison County

2022-001	The county develop the required internal control documentation. In addition, we recommend studying the COSO (Committee of Sponsoring Organizations) internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.
2022-002	The county address various risks in the environment, including the risk of fraud occurring by performing assessments to identify, analyze and manage these risks.
2022-003	The Treasurer and County Clerk improve the segregation of duties and internal controls with the disbursement process, thereby reducing the chance errors or fraud will go undetected.
2022-004	The county improve the documentation of employee pay rates and ensure that pay rate changes for employees are approved and documented. Additionally, we recommend the county ensure all timesheets are reviewed prior to payroll distribution.
2022-005	The Collector ensure all required forms, such as Form 205, Collector's Annual Settlement, are filed with the Missouri Department of Revenue as prescribed by state statute.
2022-006	The county ensure compliance with state statutes by adopting a budget for each county fund and by refraining from approving expenditures in excess of budgeted amounts. In the event that the originally adopted budget is inadequate to finance the current-year unforeseen expenditures, budgetary amendments should be discussed in a public meeting and formally adopted by the County Commission.
2022-007	The county implement internal controls to ensure that the schedule of expenditures of federal awards (SEFA) completely and accurately states the expenditures of federal awards of the county each year.

### **INDEPENDENT AUDITOR'S REPORT**

To the County Commission and  
Officeholders of Madison County, Missouri

#### **Opinion**

We have audited the accompanying financial statements of Madison County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2021 and 2022, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements.

#### **Unmodified Opinion on Regulatory Basis of Accounting**

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Madison County, Missouri, as of December 31, 2021 and 2022, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

#### **Adverse Opinion on U.S. Generally Accepted Accounting Principles**

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Madison County, Missouri, as of December 31, 2021 and 2022, or the changes in financial position thereof for the years then ended.

#### **Basis for Opinion**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Madison County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## **Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles**

As described in Note 1, the financial statements are prepared by Madison County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri Law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

## **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law, as described in Note 1. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

## **Auditor's Responsibility for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Madison County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## **Other Matters**

### *Supplementary Information*

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Madison County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we also have issued our report dated September 27, 2023, on our consideration of Madison County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Madison County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.
